The Cattle Rail bollard is used within the Central City & Docklands.

The Cattle Rail bollard is used to provide additional protection for tree guards within the small streets and laneways of the CBD & Docklands.

The bollard is fabricated from a Mild steel Cattle Rail section powder coated Dulux 'Silver Glow Pearl' 84623.

For fabrication & installation drawings, refer to City of Melbourne, City Design drawings; Project No: 902304 Cattle Rail bollard-01, or for slab fixing, 902359 F01-F03 Cattle Rail Bollard with spigot.
