

SKIP PLACEMENT CHECKLIST

Complete this checklist each time you deliver a skip, bin or container.

Assess the location

Ensure the skip is placed in accordance with parking signs and doesn't create a hazard for road users.

Assess the location according to the following restrictions, making sure none will apply during the time the skip will be placed on the road.

Make sure the skip is NOT:

- in a Clearway
- in a No Stopping area
- in a Bus, Taxi or Permit Zone
- in a parking space reserved for people with disabilities
- in a bike lane
- on a footpath, nature strip, median strip or dividing strip
- within 20 metres of an intersection with traffic lights, or 10 metres of an intersection without traffic lights
- within 20 metres before and 10 metres after a school crossing, pedestrian crossing or bus stop
- within 10 metres of a tram safety zone or tram stop
- within 20 metres of a railway crossing
- in Bourke St Mall or Swanston St (between Flinders / La Trobe)
- in Lacey Pl, Bullens Ln, Calendonian Ln, Kirks Ln, Balcombe Pl, Albion Al or Carson Pl
- blocking a storm water channel
- impeding pedestrian access to a building
- impeding visibility for vehicles using a driveway or crossing
- exceeding the dimensions of a parking bay, or encroaching on the road or a bike lane
- in a laneway with less than 3 metres clearance for traffic after it has been placed.
