

# NOTIFICATION OF WORKS

## Protected Bike Lane Works along Grattan Street, Carlton

Citywide, on behalf of City of Melbourne, are about to commence construction to deliver new, kerbside bike lanes.

### Where: Grattan Street both sides, between Bouverie and Rathdowne Streets

**When:** 26 February until 31 May 2024 (Monday to Friday) **7am to 4pm**, weather permitting, including weekend if required.

**Why:** City of Melbourne is delivering a safer, better connected cycling network in the heart of Carlton - constructing new bike lanes along Grattan Street between Bouverie and Rathdowne Streets. These will connect to the bike lanes being delivered between Bouverie Street and Royal Parade as part of the Metro Tunnel Project.

### What we are doing:

- Installing protected bike lanes next to the footpath
- Constructing a new bus stop between Bouverie and Swanston Streets
- Road resurfacing and linemarking works
- Kerb and channel resetting works

### How could this impact you?

While every effort will be made to minimise disruption, the following can be expected;

- Works will be staged to minimise impacts to traffic, parking and nearby residents. There will be construction noise and some dust from machinery and construction vehicles for periods of time.
- Most works will be undertaken between 7am to 4pm, Monday to Friday. Occasional night works will occur between 8pm to 5am with minimal noise.
- Road resurfacing works will be conducted between Cardigan and Rathdowne streets.

This work will occur on some weekends to minimise disruption as crews occupy sections of the road. Traffic management will be in place to help keep people moving.

- When works occur in each section, the existing parking bays will be occupied by our crews.
- Access to properties, businesses and emergency services will be maintained but may be impacted for brief periods. Traffic management will be in place to ensure access around work sites.
- Parking signs will be changed within 24 hours prior to construction works starting in each section to ensure the area is clear for the works. Parking will be maintained in all other areas.
- The temporary parking signs will state 'authorised council contractors excepted' and the signs will look like this:

- **Please note that standard resident or other parking permits cannot be used in areas where this sign is installed.** Infringement notices may be issued after these signs are installed if a vehicle does not have a special reserved parking permit.
- Works are dependent on weather and ground conditions and subject to change. We appreciate your patience while these works are completed.

**Site Map:** A site map can be found at the back of this letter.
