5. DESCRIPTION OF PROPOSED PRECAUTIONS OVER THE STREET ALIGNMENT

Stage of building work	Description of Precautions	Duration of Public Precaution Occupation over Street Alignment (Days)
------------------------	----------------------------	---

6. APPLICATION CHECKLIST

(The following documents/information must be submitted as part of the report and consent application)

1. Completed and signed application form.
2. Provide a written statement from the Relevant Building Surveyor for the project approving the proposed protection of the public and the proposed precautions that are to be erected over the street alignment. This must be accompanied with endorsed plans that details the proposed precautions.
3. Provide **fully dimensioned plans** showing the following:
 - a. A site plan showing the subject allotment and the relationship between the footpath and the street, showing the location of adjoining properties, footpaths, roads, street signs, street trees and street furniture.
 - b. A plan showing the length, width and area (including splays and overruns) of the footpath/road that is to be occupied by the precautions and/or temporary protective structures.
 - c. A plan showing elevations and cross sections of any temporary protective structures that are to be provided, including the minimum unobstructed height and width for pedestrian and vehicle access.
 - d. **Note:** For staged building work and public precautions, the plans required above (item 3 a, b, & c) need to be provided separately for each stage.
4. Provide a methodology for demolition, construction and alterations, explaining the proposed project and the proposed corresponding public precautions to protect the public while demolition and building works are being carried out
5. Applications may be referred to Transport Engineering, City Infrastructure for review before a decision can be made on the traffic management requirements. You may be required to provide a TMP before referral. Following a preliminary assessment, you will be advised of this requirement.

Where an application is referred to Transport Engineering, please allow an additional 10 business days from the referral date for further information to be provided by CoM.

For Office Use Only

CONSTRUCTION TRAFFIC IMPACT ASSESSMENT (CTIA)/CONSTRUCTION MANAGEMENT PLAN (CMP) CHECKLIST (Use this checklist to determine if a CTIA or a CMP is required)

1. Is a CMP a condition of the project's planning permit?	Yes	No
2. Do the proposed works include bulk or basement excavations where the level of land will be altered to be lower than the surface level of the roadway or footpath (i.e. basement car parking or swimming pools)?	Yes	No
3. Do the proposed works include demolition activities that will require any use of public space or impact upon public safety?	Yes	No
4. Will the proposed works span for 4 weeks or more and required the occupation of public space?	Yes	No
5. Will the proposed works require an exclusion zone in a public space to undertake emergency works as directed by the Municipal Building Surveyor?	Yes	No
6. Any other triggers for a requirements to obtain a CMP or CTIA?	Yes	No
