

Report to the Future Melbourne Committee

Agenda item 6.1

Finalisation of the Heritage Places Inventory – Melbourne Planning Scheme Amendment C396

1 March 2022

Presenter: Sophie Handley, Director City Strategy**Purpose and background**

1. The purpose of this report is to present the Finalisation of the Heritage Places Inventory Amendment C396 Planning Panel report (Attachment 2) for consideration, set out management's response to the Panel's recommendations (Attachment 3) and to propose that the Future Melbourne Committee (FMC) recommends that Council adopt the Amendment with changes (Attachment 4). This is the final step by Council in the amendment process, prior to consideration for approval by the Minister for Planning.
2. The Amendment applies to 369 properties and three public assets in Carlton, Carlton North, East Melbourne, Kensington, Melbourne, North Melbourne, Parkville, South Yarra, and West Melbourne. It proposes to:
 - 2.1. Convert the gradings of 346 properties from the previous system where buildings were graded using an alphabetic grading system (A-D), to the contemporary system which uses the categories Significant and Contributory.
 - 2.2. Make corrections to Heritage Overlays and associated mapping.
 - 2.3. Determine the new heritage categories for 39 previously D-graded buildings in individual Heritage Overlays following a full heritage review of these buildings.
3. On 7 September 2021, FMC resolved to refer submissions to a Planning Panel (Panel). The Panel convened a four day hearing between 15 and 22 November 2021 and issued its report, which was made public on 7 January 2022.
4. In an entirely separate but relevant process, FMC endorsed the proposed Melbourne Planning Scheme Planning Policy Framework (PPF) translation on 30 November 2021. The PPF translation restructures local planning policy to integrate and align it with State and regional policy.

Key issues

5. The Panel noted that the Amendment has been a significant undertaking which is well founded and strategically justified.
6. The Panel recommended adoption of the Amendment as exhibited subject to two changes that had been previously supported and recommended by Council. These changes were endorsed by FMC on 7 September 2021, following public exhibition, and are:
 - 6.1. The addition of a comparative analysis of D-grade properties assessed as Significant conducted by Lovell Chen and Anita Brady Heritage to the background document; *Amendment C396 Heritage Category Conversion Review, March 2021*.
 - 6.2. The removal of 52-54 Clowes Street and 313-315 Walsh Street, South Yarra from the mapping of HO6 South Yarra Precinct to correct a drafting error.
7. The Panel supported the City of Melbourne's position that only the above changes be made to the Amendment. The Panel noted that some issues raised in submissions would be more appropriately considered and resolved through heritage reviews that are underway for North Melbourne, South Yarra and Parkville and planned for East Melbourne.
8. If the PPF Translation is gazetted before this Amendment is lodged with DELWP, this Amendment should be updated to reflect the changes introduced through the PPF Translation. Refer to Attachment 5 for more information.

Recommendation from management

9. That the Future Melbourne Committee recommends Council:
 - 9.1. Considers the Finalisation of the Heritage Places Inventory Amendment C396 Planning Panel report and accepts all recommendations (refer Attachment 3 of the report from management).
 - 9.2. Adopts the Amendment C396 without further changes, as shown in Attachment 4 of the report from management.
 - 9.3. Directs management to submit the adopted Amendment to the Minister for Planning for approval.
 - 9.4. Authorises the General Manager Strategy, Planning and Climate Change to make any required policy neutral changes to the Amendment C396 documentation prior to lodging with the Minister for Planning for approval, should the Melbourne Planning Scheme Planning Policy Framework (PPF) translation be gazetted prior to Amendment C396 being lodged with DELWP.
 - 9.5. Authorises the General Manager Strategy, Planning and Climate Change to make any necessary editorial and referencing changes to the Amendment C396 documentation prior to lodging with the Minister for Planning for approval.

Supporting Attachment

Legal

1. Section 29(1) of the *Planning and Environment Act 1987* (the Act) provides that after complying with Divisions 1 and 2 of the Act in respect of a planning scheme amendment, the planning authority may adopt the amendment with or without changes.
2. The decision to adopt an amendment cannot be made under delegation.

Finance

3. Under section 6 of the *Planning and Environment (Fees) Regulations 2016*, a fee is payable when requesting the Minister approve an amendment, and give notice in the Government Gazette of approval of an amendment. Once the amendment is approved, a notice will also be required to be placed in a newspaper circulating in the local area. The costs for processing the Amendment are provided in the 2021-22 budget.

Conflict of interest

4. No member of Council staff, or other person engaged under a contract, involved in advising on or preparing this report has declared a material or general conflict of interest in relation to the matter of the report.

Health and Safety

5. In developing this proposal, no Occupational Health and Safety issues or opportunities have been identified.

Stakeholder consultation

6. The Amendment was exhibited in accordance with the Act in the following manner:
 - 6.1. Public notices were placed in The Age and the Government Gazette on 20 May 2021.
 - 6.2. The Amendment and supporting information was available at the City of Melbourne customer service counter in the Melbourne Town Hall, on the City of Melbourne's Participate Melbourne website and the Department of Environment, Land, Water and Planning's website.
 - 6.3. A copy of the statutory notice, as well as a covering letter was sent to all affected land owners and occupiers on 17 May 2021. The information was also sent to stakeholders and prescribed Ministers.
 - 6.4. Public information sessions were held virtually on 27 May and 1 June 2021.
 - 6.5. All submissions received in response to the exhibition of the Amendment were referred to the Panel. Submitters also had the opportunity to address the Panel.
7. Outside of the statutory process, stakeholders were also consulted in the following ways:
 - 7.1. On 2 March 2021, management wrote to Traditional Custodian groups the Wurundjeri Woi Wurrung Cultural Heritage Aboriginal Corporation, the Bunurong Land Council Aboriginal Corporation and the Boon Wurrung Foundation to advise them that Amendment C396 would be presented to the Future Melbourne Committee on 16 March 2021 and to invite them to be briefed on the Amendment. On 19 May 2021, management met with the Wurundjeri Woi Wurrung Cultural Heritage Aboriginal Corporation. On 20 May 2021, management wrote to the Wurundjeri Woi Wurrung Cultural Heritage Aboriginal Corporation, the Bunurong Land Council Aboriginal Corporation and the Boon Wurrung Foundation to advise them that Amendment C396 would be placed on exhibition from 20 May to 25 June 2021.

- 7.2. Between 2 and 9 March 2021, management wrote to residents' groups, local history groups, the National Trust of Australia (Victoria) and Melbourne Heritage Action to advise them that Amendment C396 would be presented to Future Melbourne Committee on 16 March 2021. On 11 March 2021, management held an information session on Amendment C396 for these groups. On 20 May 2021, management wrote to these groups to advise them that Amendment C396 would be placed on exhibition from 20 May to 25 June 2021.

Relation to Council policy

8. Council Plan 2021-25
 - 8.1. Strategic Objective: Melbourne's Unique Identity and Place - Over the next four years we will celebrate and protect the places, people and cultures that make Melbourne a unique, vibrant and creative city with world-leading liveability.
 - 8.2. Priority: Our built, natural and cultural heritage is protected.
 - 8.3. Major Initiative 21: Complete heritage reviews and implement associated planning scheme amendments to protect and celebrate heritage in our municipality.
9. Heritage Strategy 2013.

Environmental sustainability

10. There are no environmental impacts likely to arise from the Amendment.

Planning Panels Victoria

Melbourne Planning Scheme Amendment C396melb Heritage Grading Conversion Project – Stage 2

Panel Report

Planning and Environment Act 1987

21 December 2021

How will this report be used?

This is a brief description of how this report will be used for the benefit of people unfamiliar with the planning system. If you have concerns about a specific issue you should seek independent advice.

The planning authority must consider this report before deciding whether or not to adopt the Amendment.
[section 27(1) of the *Planning and Environment Act 1987* (the PE Act)]

For the Amendment to proceed, it must be adopted by the planning authority and then sent to the Minister for Planning for approval.

The planning authority is not obliged to follow the recommendations of the Panel, but it must give its reasons if it does not follow the recommendations. [section 31 (1) of the PE Act, and section 9 of the *Planning and Environment Regulations 2015*]

If approved by the Minister for Planning a formal change will be made to the planning scheme. Notice of approval of the Amendment will be published in the Government Gazette. [section 37 of the PE Act]

Planning and Environment Act 1987

Executive summary

Melbourne Planning Scheme Amendment C396melb (the Amendment) seeks to complete the heritage grading conversion process started by Amendment C258.

The letter-based heritage grading system Council has used for many years will be replaced by the heritage categories of Significant, Contributory or Non-Contributory. It applies to 346 properties and three infrastructure assets across the municipality. An additional 23 properties are part of the Amendment which have errors that need to be corrected. These properties are contained in Part B of the Heritage Places Inventory March 2021 Incorporated Document.

The Part B components of Council's heritage policies for buildings in and outside of the Capital City Zone (Clauses 22.04 and 22.05 respectively) that refer to policy pre-Amendment C258 will be deleted.

Key issues raised in submissions include:

- the need to ensure consistency with the heritage conversion methodology so that consistency is achieved across the nearly 7,000 buildings in the Heritage Places Inventory March 2021 Incorporated Document
- concern over heritage categorisation for specific properties
- impacts of proposed controls on 'live' planning permits and future development potential
- perceived or actual errors in the Heritage Places Inventory March 2021 Incorporated Document, the Heritage Overlay Schedule and mapping.

The Panel acknowledges this has been a significant undertaking by Council which finalises its heritage grading conversion process. For those properties where there may be unresolved issues or the need for further heritage review this should not occur through this confined-in-scope Amendment and the Panel supports the referral of some submissions to either specific heritage reviews or its Heritage Data Project that will resolve any outstanding addressing issues.

Recommendations

Based on the reasons set out in this Report, the Panel recommends that Melbourne Planning Scheme Amendment C396melb be adopted as exhibited subject to the following:

- 1. Update the *Amendment C396 Heritage Category Conversion Review, Lovell Chen and Anita Brady Heritage, March 2021 Background Document* to a July 2021 version that incorporates a comparative analysis of D-grade properties that were assessed as Significant.**
- 2. Amend Planning Scheme Map 012 to exclude application of the Heritage Overlay HO006 from 52-54 Clowes Street and 313-315 Walsh Street, South Yarra.**

1 Introduction

1.1 The Amendment

The Amendment applies to 369 properties¹ and three infrastructure assets². It adopts the conversion methodology used in the Amendment C258 with minor changes and addresses the following three types of properties:

- C-graded buildings in Heritage Overlay precincts in City North (approximately 125 buildings)
- individually listed D-graded buildings in the Heritage Overlay (approximately 38 buildings)
- buildings (and three infrastructure assets) which were inadvertently omitted or where there was an error in the listing in the Amendment C258 Heritage Places Inventory (approximately 241 buildings).

The purpose of the Amendment is to complete the heritage grading conversion process started by Amendment C258. Table 1 of the explanatory report identifies all the land affected by the Amendment. This is contained in Appendix B of this report. Figure 1 contains a map with properties affected by the Amendment marked in yellow.

In addition to the grading conversions, the Amendment:

- corrects Planning Scheme maps and the Schedule to Clause 43.01 to remove demolished buildings
- makes changes to the heritage categories for three properties in West Melbourne (53 Hawke Street, 55 Hawke Street and 65-67 Peel Street) and introduces a Statement of Significance for 65-67 Peel Street, to correct errors identified in the Amendment C258 Panel hearing by the heritage expert who authored the West Melbourne Heritage Review, 2016.

The Amendment refers to several incorporated documents and one background document and makes the following changes outlined in Table 1.

Table 1 Incorporated and Background Documents

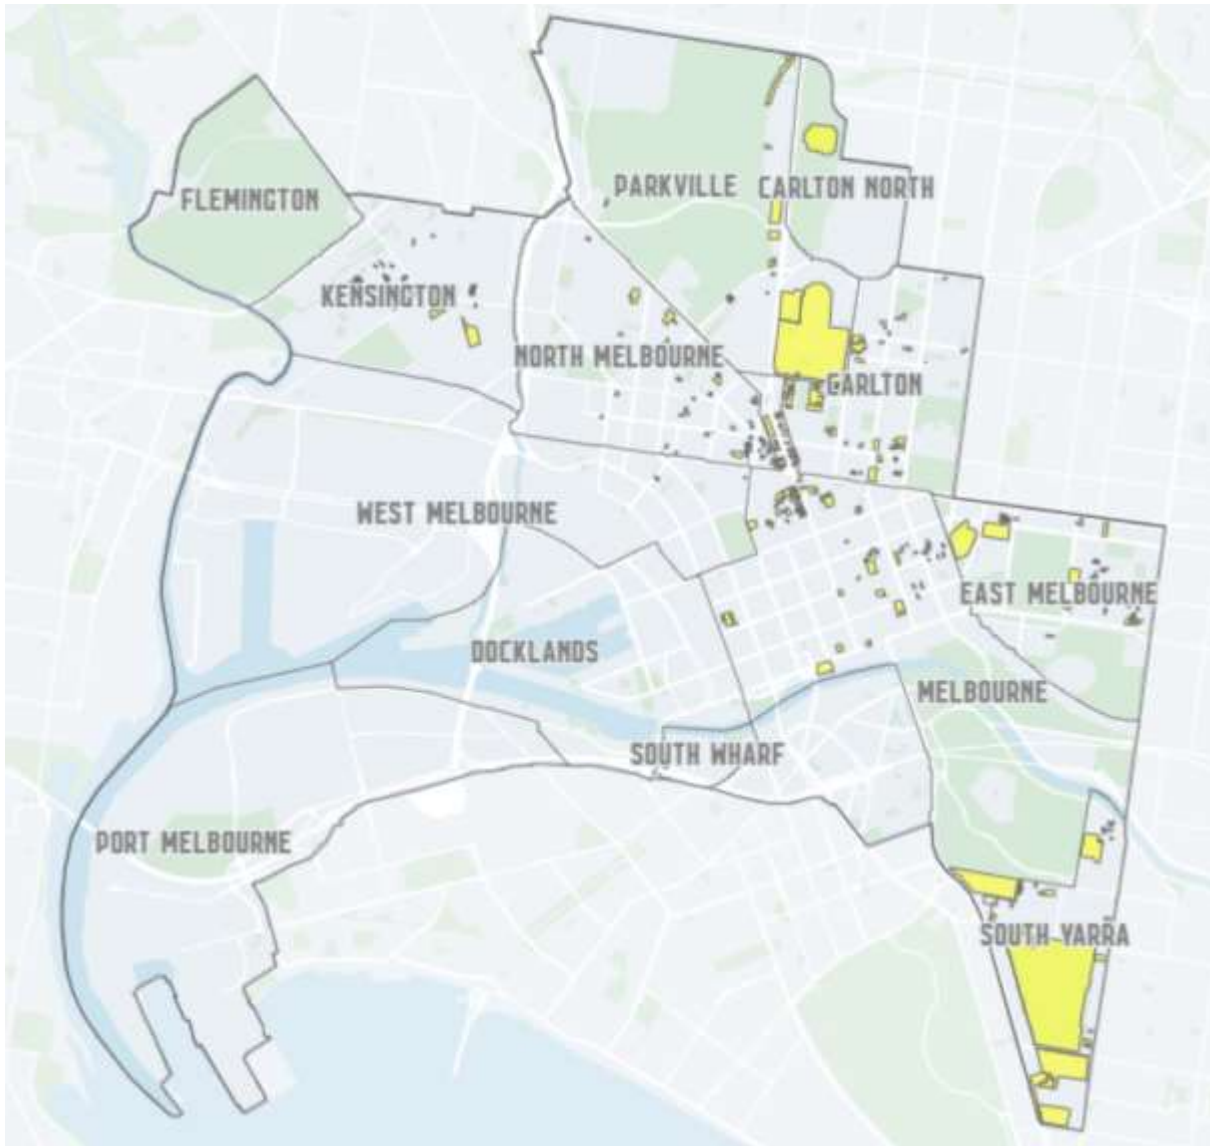

Document	Proposed change
Heritage Category Conversion Statement of Significance March 2021 Incorporated Document	This is a new incorporated document
Heritage Places Inventory February 2020 Part A (Amended July 2020) Incorporated Document	This document is to be amended to a March 2021 version
Heritage Places Inventory February 2020 Part B	The Amendment deletes this document
West Melbourne Heritage Review 2016 Statement of Significance February 2020 Incorporated Document	This document is to be amended to a March 2021 version
Amendment C396 Heritage Category Conversion Review, Lovell Chen and Anita Brady Heritage, March 2021 Background Document	This is a new background document but will be updated to reflect the Council resolution of 15 September 2021 and dated accordingly

¹ Some properties contain multiple heritage buildings

² A brick substation in the median strip on Powlett Street, East Melbourne; a tram shelter on St Kilda Road, Melbourne that is listed on the Victorian Heritage Register; and a railway bridge on The Avenue, Parkville

Figure 1 Amendment land marked in yellow

Source: Council Part A submission

Specifically, the Amendment proposes to:

- In the Schedule to Clause 72.04 (Documents Incorporated in this Planning Scheme):
 - rename the existing incorporated document titled *Heritage Places Inventory February 2020 Part A (Amended July 2020)* to the *Heritage Places Inventory March 2021* (the Inventory). Amends this incorporated document by adding heritage categories for 346 properties and three infrastructure assets within streets as relevant and making changes to the heritage categories for three properties reviewed in the *West Melbourne Heritage Review 2016*.
 - delete the existing incorporated document titled *Heritage Places Inventory February 2020 Part B* from the Melbourne Planning Scheme.
 - introduce a new incorporated document, titled *Heritage Category Conversion Statements of Significance March 2021*, for fifteen previously D-graded buildings in individual Heritage Overlays and one existing HO868. HO868 has been expanded to include two additional properties which were previously individual D-graded buildings in the Heritage Overlay.

- HO868 has been renamed “*HO868 47-55, 59 & 69 Westbourne Road Precinct, Kensington*”.
- amend the existing incorporated document titled *West Melbourne Heritage Review 2016: Statement of Significance February 2020* by adding a Statement of Significance for Dean’s house 65-67 Peel Street, West Melbourne.
- Amend the local heritage policies, Clause 22.04 (Heritage Places in the Capital City Zone) and Clause 22.05 (Heritage Places outside the Capital City Zone), to delete the Part B sections, to remove references to the Part A sections and to add the following reference document Amendment C396 Heritage Category Conversion Review by Lovell Chen and Anita Brady Heritage, March 2021. The Part B sections previously applied to properties which had retained an A to D letter grading following Amendment C258.
- Amend the Schedule to Clause 72.08 (Background Documents) to introduce the new background document Amendment C396 Heritage Category Conversion Review by Lovell Chen and Anita Brady Heritage, March 2021.
- Amend planning scheme maps 4HO, 5HO, 8HO, 8HO2 and 11HO to:
 - revise the boundaries of existing Heritage Overlay for places affected by the heritage gradings conversion to correct pre-existing mapping errors including where the mapped extents do not include all the properties identified in the heritage place description in Clause 43.01.
 - revise the boundaries of existing HO6 South Yarra Precinct, HO9 Kensington Precinct and HO868 to include previously D-graded buildings which were in the Heritage Overlay, and which have now been assessed to be Contributory to or Significant within the relevant precinct and delete the relevant individual Heritage Overlays.
 - delete the Heritage Overlay for individual places which have been demolished, to correct mapping errors or for previously D-graded buildings which have been assessed as below the threshold for local heritage significance, and in some cases add the affected properties to existing precinct Heritage Overlays as non-contributory buildings.
- Amend the Heritage Overlay Schedule to:
 - amend addresses in the heritage place description for places affected by the heritage gradings conversion to make them consistent with the City of Melbourne property database.
 - add reference to the Heritage Category Conversion Statements of Significance March 2021 for previously D-graded buildings in individual Heritage Overlays which have been assessed as Significant and for HO868.
 - delete the listings for:
 - previously individually listed D-grade buildings in the Heritage Overlay which have now been assessed to be Contributory to or Significant within the relevant precinct
 - places which have been demolished or for previously D-graded buildings which have been assessed as below the threshold for local significance.

1.2 The Amendment C258 methodology

Council commenced the heritage grading conversion process with Amendment C258. The methodology used in Amendment C258 was updated in this Amendment as shown in Table 2. The Amendment C396melb-specific changes are tracked.

Council advised “with over 7,000 heritage buildings within the municipality, a conventional heritage review of every single building for the purposes of one amendment would have been of a time and financial scale that was prohibitive.” Lovell Chen was engaged to develop the grading conversion methodology. The methodology was informed by background research, desktop analysis, filed and sampling work to ascertain the most robust method by which to undertake the conversion exercise.

Properties that had already been converted to the contemporary grading system in conventional heritage reviews were excluded from Amendment C258 and this Amendment.

Streetscapes that were previously graded as Level 1, Level 2 or Level 3 were reassessed. A Level 1 streetscape was graded as significant, and Level 2 and Level 3 were not given a streetscape grading. Council advised “Lovell Chen did not undertake either a conventional heritage review or desktop analysis for properties with an individual Heritage Overlay number on the basis that these properties had already been assessed as individually significant and a conversion to significant on that basis was warranted.”

Table 2 Amendment C396melb heritage conversion methodology

Heritage Overlay	A grade	B grade	C grade	D grade
Individual HO	Significant	Significant	Significant	Significant Review – full review
Precinct HO in Carlton	Significant	Significant	Review – desk top analysis	Review – desk top analysis
Precinct HO in City North	Not included	Not included	Significant Review – desk top analysis	Not included
Precinct HO in East Melbourne	Significant	Significant	Review – desk top analysis	Contributory
Precinct HO in Kensington	Not applicable ³	Significant	Review – desk top analysis	Review – desk top analysis
Precinct HO in Melbourne	Significant	Significant	Review – desk top analysis	Review – desk top analysis
Precinct HO in North and West Melbourne	Significant	Significant	Review – desk top analysis	Review – desk top analysis
Precinct HO in Parkville	Significant	Significant	Contributory	Contributory
Precinct HO in South Yarra	Significant	Significant	Review – desk top analysis	Contributory

Source: Document 16

Council submitted⁴:

Council and Heritage consultants Lovell Chen and Anita Brady Heritage undertook the heritage category conversion using the same methodology which was developed and utilised for Amendment C258 (the C258 methodology). The C258 methodology is discussed further below. Following Amendment C258, Council identified all errors and omissions within the Inventory that were appropriately addressed via the Amendment. Council then prepared an excel spreadsheet of buildings that were to be the subject of further assessment by Lovell Chen and Anita Brady Heritage by highlighting those buildings

³ There are no A graded properties in Kensington

⁴ Council Part A submission, page 5-6, paragraphs 10-11

in orange within that spreadsheet. For buildings that were to be the subject of direct conversion via the C258 methodology, these conversions were applied by Council.

The work undertaken by Lovell Chen and Anita Brady Heritage comprised three distinct forms of assessment:

- a) desktop analysis for errors or omissions in the Inventory (which have been identified by the City of Melbourne) which required Lovell Chen and Anita Brady Heritage input
- b) a desktop analysis of buildings previously graded C in City North
- c) a conventional heritage review of buildings previously graded D in individual heritage overlays.

The Amendment implements the direct conversion of buildings undertaken by Council and the recommendations of the Report. To give effect to the heritage category conversion, the Amendment amends the Heritage Places Inventory and makes associated changes to planning scheme maps, the Schedule to Clause 43.01 (the Heritage Overlay), Clauses 22.04 and 22.05 and incorporated documents as described below.

Council acknowledged there may be further errors in the Inventory carried over from Amendment C258 that have not been dealt with through this Amendment. Council submitted *“any remaining errors and omissions in relation to the Heritage Overlay mapping, the Heritage Overlay schedule or the Statements of Significance will be dealt with within conventional heritage reviews.”* Some future reviews relevant to this Amendment are those for South Yarra, Parkville, North Melbourne and East Melbourne.

Council noted it *“now has a high level of confidence in the accuracy of the totality of the Inventory that will be incorporated into the Scheme following this Amendment. However, to the extent that there remain historic errors or omissions within the Inventory, the Schedule or the maps it is not within the scope of this Amendment to undertake a correction of those errors or omissions.”*

Council considered the number of errors (241) relatively small given there are approximately 7,000 properties that required conversion. In its closing submission Council accepted that the grading conversion outcome *“may not make sense in every example”* but these should be the subject of further review on a precinct or suburb basis.

1.3 Heritage Data Project

Additional work being progressed by Council is the Heritage Data Project. Council has referred to this in the consideration of submissions (mainly for addressing anomalies) and its brief is outlined below⁵:

Council is undertaking a Heritage Data Project to enhance the way heritage data is managed and to ensure it can be effectively maintained as sites are subdivided and consolidated and updated as conventional heritage reviews are undertaken. This is a comprehensive project which includes spatialising the Inventory to allow it to be mapped and to allow it to be cross-referenced to the Heritage Overlay and the Victorian Heritage Register. Council will consider the appropriateness of adding street addresses and second addresses for corner properties as ‘also known as’ addresses as part of the Heritage Data Project.

1.4 The Heritage categories

Clauses 22.04 and 22.05 provide definitions for Significant and Contributory heritage places and Non-Contributory buildings. These are important in understanding the conversion methodology and are provided below.

⁵ Council Part A submission, page 29, paragraph 86

Significant heritage place

A Significant heritage place is individually important at state or local level, and a heritage place in its own right. It is of historic, aesthetic, scientific, social or spiritual significance to the municipality. A significant heritage place may be highly valued by the community; is typically externally intact; and/or has notable features associated with the place type, use, period, method of construction, siting or setting. When located in a heritage precinct a significant heritage place can make an important contribution to the precinct.

Contributory heritage place

A Contributory heritage place is important for its contribution to a heritage precinct. It is of historic, aesthetic, scientific, social or spiritual significance to the heritage precinct. A contributory heritage place may be valued by the community; a representative example of a place type, period or style; and/or combines with other visually or stylistically related places to demonstrate the historic development of a heritage precinct. Contributory places are typically externally intact but may have visible changes which do not detract from the contribution to the heritage precinct.

Non-Contributory

A Non-Contributory place does not make a contribution to the cultural significance or historic character of the heritage precinct.

1.5 Background

The City of Melbourne Heritage Strategy 2013 forms the basis of the conversion Amendments. Action 2.10 states:

Undertake a review of the City of Melbourne's heritage places grading system and update in accordance with the Department of Planning and Community Development's "Applying the Heritage Overlay, September 2012" practice note.

Amendment C258 was approved on 10 July 2020 and comprised:

- conversion of Council's letter grading system to a new category system of Significant, Contributory and Non-Contributory
- review and replacement of Council's local heritage policies (Clauses 22.04 *Heritage places in the Capital City Zone* and 22.05 *Heritage Places outside the Capital City Zone*), including definitions of Significant, Contributory and Non-Contributory places
- preparation and incorporation of statements of significance for Melbourne's six largest precincts (Carlton, East Melbourne and Jolimont, Kensington, North and West Melbourne, Parkville and South Yarra)
- implementation of the West Melbourne Heritage Review 2016.

It converted over 6,500 properties on the Inventory to the new categorisation system.

1.6 Proposed changes to the Amendment

Council considered submissions to the Amendment on 7 September 2021 and supported the following changes⁶:

Update the Amendment C396 Heritage Category Conversion Review, March 2021 background document to include the comparative analysis undertaken by Lovell Chen and

⁶ Council Part A submission, pages 40-41, paragraph 132

Anita Brady Heritage. Part of their assessment included a conventional heritage review of previously D graded buildings which were in individual Heritage Overlays. Between May and July 2021, they documented a comparative analysis of the buildings which they had assessed as Significant to further substantiate their significance. The background document should now be updated to include this information.

Update Planning Scheme Amendment Map 012 to exclude application of HO6 South Yarra Precinct from 52-54 Clowes Street and 313-315 Walsh Street, South Yarra, to correct a drafting error.

As the Panel is considering the exhibited Amendment, it is required to address these proposed changes. There were no submissions expressing concern with these changes so the Panel accepts the changes are appropriate and recommend the Amendment be changed to incorporate these.

Recommendations

1. **Update the *Amendment C396 Heritage Category Conversion Review, Lovell Chen and Anita Brady Heritage, March 2021 Background Document* to a July 2021 version that incorporates a comparative analysis of D-grade properties that were assessed as Significant.**
2. **Amend Planning Scheme Map 012 to exclude application of the Heritage Overlay HO006 from 52-54 Clowes Street and 313-315 Walsh Street, South Yarra.**

1.7 Summary of issues raised in submissions

The University of Melbourne withdrew its submissions (12 and 18) from the Amendment. Document 2 formally confirms this withdrawal.

(i) Planning Authority

The key issues for Council were:

- to ensure the conversion methodology is applied consistently with that established by Amendment C258 and not divert from it
- to refer errors or omissions to future heritage reviews or the Heritage Data Project.

(ii) Individual submitters or groups of submitters

The key issues by submitters were:

- general support for the Amendment
- concern over heritage categorisation for specific properties
- impacts of proposed controls on 'live' planning permits and future development potential
- perceived or actual errors in the Inventory, the Heritage Overlay schedule and mapping
- matters outside the scope of the Amendment.

15 of the 18 submissions are unresolved.

1.8 The Panel's approach

A key issue for the Panel was to maintain a consistent approach with the heritage grading conversion methodology that was established under Amendment C258 and modified slightly for this Amendment. Where there is some ambiguity, the Panel has identified how the issue should be considered in the future.

The Panel has not considered several submissions as they relate in full or in part to land that is not part of the Amendment. This includes:

- Submission 2 (337-347 Elizabeth Street, Melbourne)
- Submission 7 in part (404 and 408 Albert Street, East Melbourne)
- Submission 8 in part (17-21 Argyle Place South, 81-87 Barry Street and 145-147 Bouverie Street, 71 and 251-257 Cardigan Street, 16-20 and 142-150 Drummond, 119-125 Leicester Street, 96-106 Pelham Street, 148-150 Queensberry Street, 125-139 and 169-199 Rathdowne Street, 625-629 and 604-640 Swanston Street, Carlton)
- Submission 14 in part (9-11 Epsom Road, Kensington)
- Submission 16 (515-523 Spencer Street, West Melbourne)
- Submission 17 (142-150 Drummond Street, 15-31 Pelham Street and 125-129 Rathdowne Street, Carlton).

The Panel has assessed the Amendment against the principles of net community benefit and sustainable development, as set out in Clause 71.02-3 (Integrated decision making) of the Planning Scheme.

The Panel considered all written submissions made in response to the exhibition of the Amendment, observations from site visits, and submissions, evidence and other material presented to it during the Hearing. It has reviewed a large volume of material and has had to be selective in referring to the more relevant or determinative material in the Report. All submissions and materials have been considered by the Panel in reaching its conclusions, regardless of whether they are specifically mentioned in the Report.

This Report deals with the issues under the following headings:

- Planning context
- Individual submissions
 - Submission 2 - East Melbourne Historical Society
 - Submission 4 - Melbourne South Yarra Residents Group
 - Submission 5 - 99 Buncle Street, North Melbourne
 - Submission 6 - Hotham History Project
 - Submission 7 - Roman Catholic Trusts Corporation for the Diocese of Melbourne
 - Submission 9 - Lort Smith Animal Hospital
 - Submission 10 - 431-439 Punt Road, South Yarra
 - Submission 11 - 243 Peel Street, North Melbourne
 - Submission 13 - 12 Lansdowne Street, East Melbourne
 - Submission 14 - Epsom Road, Kensington
 - Submission 15 - 1 Bendigo Street, North Melbourne.

2 Planning context

2.1 Planning policy framework

Council submitted that the Amendment is supported by various clauses in the Planning Policy Framework, which the Panel has summarised below.

Victorian planning objectives

The Amendment will assist in implementing State policy objectives set out in section 4 of the *Planning and Environment Act 1987* by conserving and enhancing those buildings, areas or other places which are of scientific, aesthetic, architectural or historical interest, or otherwise of special cultural value (Objective 1d).

Clause 11 (Settlement)

The Amendment supports Clause 11 by ensuring the conservation of places of heritage significance (Clause 15.03-1S Heritage conservation).

Clause 21 (the Municipal Strategic Statement)

The Amendment supports the Municipal Strategic Statement by:

- protecting existing built form character and heritage, in addition to providing an attractive and liveable built environment in parts of the City, where development will intensify is essential (21.03 Built Environment and Heritage)
- protecting Melbourne's distinctive physical character and maintain the importance of identified places and precincts of heritage significance (Clause 21.06-1 Built Form and Heritage)
- conserving and enhancing places and precincts of identified cultural heritage significance and conserve, protect and enhance the fabric of identified heritage places and precincts (Clause 21.06-2 objective and strategies).

Clause 22 (local planning policies)

The Amendment supports local planning policies:

- *“to conserve and enhance Melbourne's heritage places”* and *“to retain fabric, which contributes to the significance, character or appearance of heritage places and precincts”* (22.04 Heritage Places in the Capital City Zone and 22.05 Heritage Places outside of the Capital City Zone).

These policies are to be amended by the Amendment. Part B of both policies relate to land affected by this Amendment (that is, pre-Amendment C258) and correlate with land in Part B of the Inventory. These properties currently retain the letter-based heritage grading.

Council submitted⁷:

By accurately identifying places within the Inventory, the Amendment will ensure that the significance of these heritage places is protected, conserved and enhanced.

By providing a categorisation of Significant or Contributory for each heritage place, the Amendment will ensure a clear management framework is in place for each place under Clause 22.04 and 22.05.

⁷ Council Part A submission, page 39, paragraphs 123 and 124

2.2 Other relevant planning strategies and policies

(i) Plan Melbourne

Plan Melbourne 2017-2050 sets out strategic directions to guide Melbourne's development to 2050, to ensure it becomes more sustainable, productive and liveable as its population approaches 8 million. It is accompanied by a separate implementation plan that is regularly updated and refreshed every five years.

Plan Melbourne is structured around seven Outcomes, which set out the aims of the plan. The Outcomes are supported by Directions and Policies, which outline how the Outcomes will be achieved. Outcomes that are particularly relevant to the Amendment are set out in Table 3
Relevant parts of Plan Melbourne

Table 3 Relevant parts of Plan Melbourne

Outcome	Directions	Policies
4 Melbourne is a distinctive and liveable city with quality design and amenity	Respect Melbourne's heritage as we build for the future	Recognise the value of heritage when managing growth and change Stimulate economic growth through heritage conservation Protect Melbourne's heritage through telling its stories

2.3 Planning scheme provisions

A common zone and overlay purpose is to implement the Municipal Planning Strategy and the Planning Policy Framework.

(i) Overlays

The Amendment does not introduce the Heritage Overlay to any new land. It implements the heritage grading conversion methodology and does not introduce any new heritage studies.

2.4 Ministerial Directions and Practice Notes

Ministerial Directions

The Explanatory Report discusses how the Amendment meets the relevant requirements of Ministerial Direction 11 (Strategic Assessment of Amendments) and *Planning Practice Note 46: Strategic Assessment Guidelines*, August 2018. That discussion is not repeated here.

Planning Practice Notes

Planning Practice Note 01 *Applying the Heritage Overlay* (PPN01) was introduced in 2012 and is relevant to the Amendment. While the Amendment does not introduce any new Heritage Overlays, it confirms the more contemporary approach to heritage categorisations. On page 2 it states:

The thresholds to be applied in the assessment of significance shall be 'State Significance' and 'Local Significance'. 'Local Significance' includes those places that are important to a

particular community or locality. Letter gradings (for example, “A”, “B”, “C”) should not be used.

2.5 Discussion and conclusion

The Panel is conscious the Amendment does not introduce new heritage controls or new heritage studies and completes the heritage grading conversion process commenced by Amendment C258. This is consistent with the direction provided by PPN01. In its consideration of submissions, the Panel will ensure the outcome is consistent with adopted conversion methodology.

For the reasons set out in the following chapters, the Panel concludes that the Amendment is supported by, and implements, the relevant sections of the Planning Policy Framework, and is consistent with the relevant Ministerial Directions and Practice Note. The Amendment is well founded and strategically justified, and the Amendment should proceed subject to addressing the more specific issues raised in submissions as discussed in the following chapters.

3 Individual submissions

3.1 Submission 2 – East Melbourne Historical Society

(i) The issues

The East Melbourne Historical Society has participated in previous heritage studies for East Melbourne. It lodged two submissions for the Panel to consider. The first is the submission to the exhibited Amendment, which raises general issues but does not raise any property-specific issues. The second is a further written submission to the Panel that does highlight concerns for two specific properties.

The East Melbourne Historical Society did not request to be heard by the Panel.

The issues are:

- the Inventory is out of date and full of inconsistencies
- 8-10 Vale Street should be re-instated in the Inventory
- 86-88 Jolimont Street should be graded as contributory as a reflection of its C-grading.

(ii) Submissions

The original submission considered an entirely new Inventory was required to accurately reflect the significance of buildings in East Melbourne. The second submission referred specifically to two properties (8-10 Vale Street and 86-88 Jolimont Street), cited others (25 examples) that the Society considered should be included in the Inventory and some modern buildings that have been inadvertently included within the street address on the Inventory.

Council advised the buildings at 8-10 Vale Street had never had the Heritage Overlay applied and *“therefore it is correct that they should not be listed in the Heritage Places Inventory.”* Regarding 86-88 Jolimont Street Council submitted it *“was the subject of desktop analysis by Lovell Chen as part of Amendment C258. They assessed the building as Non-contributory, noting that it is very altered. Therefore, it is correct that it is not listed in the Heritage Places Inventory.”*

On other issues, Council submitted⁸:

- a) Identifying additional heritage buildings is beyond the scope of the Amendment. A heritage review would need to be undertaken to provide the required strategic justification for additional entries in the Heritage Places Inventory.
- b) In relation to modern buildings being included in the street address used in the Heritage Places Inventory Part A:
 - i. Council does not agree that this weakens the value of the Significant or Contributory categories. Planning permit applications for these sites would require historical information to be reviewed and it would be easily identified that the heritage categories do not relate to the modern buildings.
 - ii. Two of the three examples provided use the same street address as the pre-C258 Inventory and it is noted that this type of anomaly pre-existed the conversion that occurred through Amendment C258.
 - iii. Amendment C258 undertook a heritage grading conversion exercise in East Melbourne and was not a review of the heritage controls that apply in East Melbourne.

⁸ Council Part B submission, page 16, paragraphs 45-46

Council considers all errors or omissions in East Melbourne related to the re-exhibited C258 Inventory have been appropriately addressed by the Amendment. Council notes a future East Melbourne Heritage Review is planned, subject to budget.

Council did not support any change to the Amendment arising from this submission.

(iii) Discussion

The Panel agrees with Council the Amendment does not implement a heritage review and focusses on the heritage grading conversion process. The Panel therefore cannot consider the addition of new buildings to the Inventory because it is outside the scope of the Amendment. It notes that a heritage review is proposed for East Melbourne.

(iv) Conclusion

The Panel concludes:

- The addition of new buildings to the Inventory can be considered further in the proposed heritage review of East Melbourne.
- Council's assessment of the submission is consistent with the heritage grading conversion methodology.

3.2 Submission 4 – Melbourne South Yarra Residents Group

(i) The issue

This submission focusses on 112-118 Millswyn Street, South Yarra. The Amendment proposes to convert the heritage gradings for four buildings at the rear of the land in HO6 South Yarra Precinct. These buildings are currently listed in the Heritage Places Inventory Part B as D graded buildings with no streetscape grading applied. They are proposed to be listed in the post-C396melb Inventory as Contributory and with no streetscape category applied.

The submitter did not request to be heard by the Panel.

The issue is whether the Inventory should be updated to individually identify buildings/items within 112-118 Millswyn Street, South Yarra.

(ii) Submission

Council submitted that the submission is beyond the scope of the Amendment, and it has been referred to the South Yarra Heritage Review, which is currently underway. Council did not support any change to the Amendment arising from this submission.

(iii) Discussion

The Panel agrees with Council that this matter should be considered further in the South Yarra Heritage Review.

(iv) Conclusion

The Panel concludes:

- Whether the Inventory should be updated to individually identify buildings/items within 112-118 Millswyn Street, South Yarra, can be considered in the proposed South Yarra Heritage Review.

- Council's assessment of this submission is consistent with the heritage grading conversion methodology.

3.3 Submission 5 - 99 Buncle Street, North Melbourne

(i) The issues

The submission refers to the dwelling at 99 Buncle Street. The Amendment proposes to convert the heritage grading for the land in HO953 (Racecourse Road/Alfred Street, North Melbourne). This building is currently listed in the Heritage Places Inventory Part B under the incorrect address of 103 Buncle Street as an E-graded building in a Level 3 streetscape. It is proposed to be listed in the Heritage Places Inventory through the Amendment as Contributory with no streetscape category applied.

The issues are whether:

- 99 Buncle Street is intended to be listed in the Inventory or whether it is an addressing error
- in the alternative its consideration is beyond the scope of the Amendment as it contains an E-grade building.

(ii) Evidence and submissions

The submitter, Mr Koulouris, bought the property in 2014 and submitted it *"did not appear on any Heritage Search at the time it was purchased."* He was concerned that it has taken over 35 years for the addressing error to be brought to the attention of the landowner. He submitted that the dwelling shown in Figure 3 (as taken by the Panel) *"has features that do not appear in the photographs taken as part of the Graeme Butler namely the fence is not the same, the walls are of a different colour, the roof has a skylight in it, and it has different vegetation..."*

Regarding the conservation status of the dwelling, Ms Brady's evidence was that⁹:

It is a nineteenth century double-fronted house of modest form and scale, simply detailed and with a transverse gable roof, and located in one of the secondary or 'little' streets which are found throughout North Melbourne. The house is also evident in the late nineteenth century MMBW plan. While some change has occurred, including the overpainting of the external brickwork, this does not diminish the contributory value of the property.

As per the heritage policy definition for a 'contributory' heritage place, these buildings 'may have visible changes which do not detract from the contribution to the heritage precinct'.

Council submitted that the land *"was identified as a heritage building in the North and West Melbourne Conservation Study, 1985 though it was inadvertently mislabelled as 103 Buncle Street in the study."* Council referred to the Building Identification Form (Figure 2) that was associated with the 1985 heritage study that it considered confirmed the addressing error.

Council submitted¹⁰:

The Amendment corrects this historic addressing anomaly and converts 99 Buncle Street to the contemporary heritage category system. Accordingly, the Amendment does not seek to introduce new heritage protection but rather correct an addressing error, which is within the scope of the Amendment.

Regarding the heritage categorisation issue Council submitted:

⁹ Brady evidence statement, page 16, paragraphs 80-81

¹⁰ Council Part B submission, page 20, paragraph 56

While it is correct that the heritage conversion exercise typically refers to the reclassification of heritage buildings previously graded A-D, as detailed above, a small number of E and F graded buildings remained within the pre C258 Inventory and these properties have been converted to the new category system. It was never the intention of Council that buildings previously graded E and F would simply lose heritage protection as a consequence of Amendment C258, and this is not what has occurred.

OTHER COMMENTS _____

Source: Council Part B submission, Appendix E

Council did not support any change to the Amendment arising from this submission.

(iii) Discussion

The Panel inspected the property at 99 (Figures 3 and 5) and 103 Buncle Street (Figure 4). It is clear to the Panel that the property at 103 Buncle Street is not the property shown in the Building Identification Form. The Panel has confidence that this issue is clearly an error in addressing. While the 1985 photo of the land does not have some features of the current-day photos, there are obvious similarities that cannot be ignored. The differences highlighted by the submitter are likely to be additions and modifications made between 1985 and 2021.

Figure 3 Dwelling at 99 Buncle Street, North Melbourne

Source: Panel photo

Figure 4 Building at 103 Buncle Street, North Melbourne

Source: Panel photo

Figure 5 Western wall of dwelling at 99 Buncle Street, North Melbourne

Source: Panel photo

(iv) Conclusions

The Panel concludes:

- The reference in the Inventory to 103 Buncle Street is an error and should be corrected to 99 Buncle Street.
- The current-day photos of 99 Buncle Street are consistent with the photo in the 1985 Building Identification Form.
- Council's assessment of this submission is consistent with the heritage grading conversion methodology.

3.4 Submission 6 – Hotham History Project**(i) The issue**

The Amendment proposes to convert the heritage grading for:

- 15 Bendigo Street, part of 110-114 Errol Street, North Melbourne in HO3 North and West Melbourne Precinct. This building is currently listed in the Heritage Places Inventory Part B as a B graded building in a Level 3 streetscape. It is proposed to be listed in the proposed post-C396melb Inventory as Significant with no streetscape category applied.
- 56 Chapman Street, part of 163-177 Flemington Road, North Melbourne in HO3 North and West Melbourne Precinct. This building is currently listed in the Heritage Places Inventory Part B as a B graded building in a Level 3 streetscape. It is proposed to be listed in the proposed post-C396melb Inventory as Significant with no streetscape category applied.
- 502-506 Victoria Street, North Melbourne, also known as 2-6 Errol Street, North Melbourne in HO3 North and West Melbourne Precinct. This building is currently listed in the Heritage Places Inventory Part B as 502-506 Victoria Street as a D graded building in a Level 3 streetscape and under an alternate address 2-4 Errol Street as a C graded building in Level 1 streetscape. It is proposed to be listed in the post-C396melb Inventory as Significant with a Significant streetscape category applied.

The issue is whether alternate addresses should be listed in the Inventory. The submitter did not request to be heard by the Panel.

(ii) Submissions

The Hotham History Project has been an active participant in heritage reviews for West and North Melbourne. It has requested that where land is known by an alternate address that this be added to the Inventory to ensure a higher level of accuracy. For example, the Royal Park Towers at 163-177 Flemington Road but *“the actual heritage building is in Chapman Street and was listed in some earlier inventories at that address.”*

Council submitted¹¹:

This submission is beyond the scope of this Amendment. The Inventory within the Scheme utilises the official address of each property as contained within Council's GIS database. This may or may not accord with the address a property is commonly known as. Council agrees that it may be beneficial to update the Inventory to add additional address entries for buildings which front different or additional streets to the property address under which they are currently listed. However, Council aims to undertake this task in a considered and

¹¹ Council Part B submission, page 22, paragraph 64

systematic way. As discussed within this Part B submission and Council's Part A submission, Council is undertaking a Heritage Data Project, which includes transitioning the Inventory to a map-based system. This project will review and consider how addresses are listed in the Inventory holistically as part of this process.

Council did not support any change to the Amendment arising from this submission.

(iii) Discussion

The Panel supports any initiatives to improve the accuracy of the Inventory. Although the Panel considers it would be within the scope of the Amendment, it agrees with Council that addressing this issue through the Heritage Data Project would be more appropriate.

(iv) Conclusion

The Panel concludes:

- If a property is known by an alternate address it would be appropriate for this to be noted on the Inventory.
- These addressing issues should be considered by the Heritage Data Project.
- Council's assessment of this submission is appropriate.

3.5 Submission 7 – Roman Catholic Trusts Corporation for the Diocese of Melbourne

(i) The issue

The Amendment proposes to:

- convert the heritage gradings for 384-388, 394, 396, 398, and 400 Albert Street, East Melbourne in HO154 Burlington Terrace, 15-27 Lansdowne Street and 384-400 Albert Street, East Melbourne. Burlington Terrace is on the Victoria Heritage Register, reference HO797. The buildings at 384-400 Albert Street are currently listed in the Heritage Places Inventory Part B as A graded buildings in a Level 1 streetscape. They are proposed to be listed in the proposed post-C396melb Inventory as Significant, within a Significant streetscape
- convert the heritage grading for 402 Albert Street, East Melbourne in HO120 402-406 Albert Street, East Melbourne. This building is currently listed in the Heritage Places Inventory Part B as an A graded building in a Level 1 streetscape. It is proposed to be listed in the proposed post-C396melb Inventory as Significant, within a Significant streetscape
- to correct a mapping error in relation to 406 Albert Street, East Melbourne.

The Amendment does not affect 404 and 408 Albert Street, East Melbourne.

The submitter did not request to be heard by the Panel.

The issue is whether a heritage assessment should be required to justify the inclusion of 406 Albert Street, East Melbourne in the Heritage Overlay.

(ii) Submissions

The submitter considered the exclusion of 406 Albert Street from the Heritage Overlay mapping was deliberate and its inclusion should be supported by a heritage assessment.

Council did not support any change to the Amendment arising from this submission.

Council submitted¹²:

The Amendment seeks to correct an historical mapping error associated with individual HO120 that did not include all addresses referenced in the Schedule to Clause 43.01. The building at 406 Albert Street is not currently within the mapped extent of the Heritage Overlay. Accordingly, the Amendment is seeking to ensure the Schedule and mapping are consistent in relation to an entry in the Inventory which is the subject of conversion through this Amendment. The Amendment is a heritage grading conversion exercise and is a not heritage review and the Amendment C258 conversion methodology has been correctly applied.

(iii) Discussion

The Panel accepts that 406 Albert Street East Melbourne should have the Heritage Overlay applied on Map 8HO. It has a clear association with adjoining buildings as shown in Figure 6. This is a mapping error, and the correction of the error does not require a heritage assessment. The Heritage Overlay schedule confirms the Heritage Overlay is applied to the land. Figure 7 confirms this.

Figure 6 402-408 Albert Street, East Melbourne

Source: Council Part B submission

Figure 7 HO120 from the Heritage Overlay schedule

HO120	402-406 Albert St, East Melbourne	Yes	No	No	No	No	No	No
-------	-----------------------------------	-----	----	----	----	----	----	----

Source: Heritage Overlay schedule, Melbourne Planning Scheme

(iv) Conclusion

The Panel concludes Map 8HO should be amended to include 406 Albert Street, East Melbourne as it is a mapping error and is currently included in the Heritage Overlay schedule.

¹² Council Part B submission, page 26, paragraph 73

3.6 Submission 9 – Lort Smith Animal Hospital

(i) The issues

The Amendment proposes to convert the heritage grading for:

- 24-28 Villiers Street, North Melbourne in City North Precinct HO1123 Villiers Street Precinct. This building is currently listed in the Inventory as a C graded building in a Level 2 streetscape. It is proposed to be listed in the proposed post-C396melb Inventory as Significant with no streetscape category applied.
- 34-38 Villiers Street, North Melbourne in City North Precinct HO1123 Villiers Street Precinct. This building is currently listed in the Inventory as a C graded building in a Level 2 streetscape. It is proposed to be listed in the post-C396melb Inventory as Contributory with no streetscape category applied.

The issues are whether the:

- categorisation as Significant is appropriate for 24-28 Villiers Street, North Melbourne
- categorisation will inhibit the ability the future development potential of the land beyond the existing approved permit (TP-2019-354).

(ii) Evidence and submissions

The submitter, Lort Smith Animal Hospital, is a long standing not-for profit animal care organisation and the landowner of 24-28 Villiers Street, North Melbourne which accommodates the original hospital building. The animal adoption centre operates from a former factory 34-38 Villiers Street, North Melbourne.

The submitter supports the categorisation of the building at 34-38 Villiers Street *“however, it is submitted that the proposed categorisation of the building at 24 – 28 Villiers Street as significant is not supported by a rigorous assessment of the heritage value of that building.”* The submitter was concerned the re-categorisation of the building was based upon a desktop assessment with no site inspection.

The Lovell Chen desktop assessment concluded¹³:

The significant grading applies to the 1930s building on the Villiers Street frontage of the property. The Lort Smith Animal Hospital was established on this site in the 1930s, and includes the original interwar building, located close to the Villiers Street frontage, which is significant. It is a rectilinear two-storey rendered building with a single hipped and tiled roof. It is identified in the City North Heritage Review as being built in 1935, and as a distinctive building with Moderne style detailing, port-hole windows, horizontal glazing bars and concrete hood. It was designed by architect Leighton Irwin, who was a hospital design specialist. City North Heritage Review describes the 1930s building in greater detail, and other later changes and developments to the site, including in the 1950s, 1970s and 1980s. Lort Smith Animal Hospital is one of the largest such institutions in the world, and is historically significant.

Council submitted that the *“re-categorisation will not affect the existing permit on the site”* and that, *“future development outcomes on this site is not relevant to establishing whether the building has been appropriately categorised”*.

Ms Brady’s evidence was that¹⁴:

¹³ Lovell Chen excel spreadsheet assessment

¹⁴ Ms Brady’s evidence statement, page 16, paragraph 88

This assessment is maintained. The building at 24-34 Villiers Street is significant, as per the explanation/rationale. The City North Heritage Review, in the citation for the Villiers Street Precinct, also describes this building as 'the most distinctive building' in a group of largely intact interwar non-residential buildings in the HO1123 precinct. The citation additionally notes, with reference to the history of the building, that the architect Leighton Irwin also designed Prince Henry's Hospital in St Kilda Road (1939, now demolished) and the Heidelberg Repatriation Hospital (1943). The architect's involvement in the design of a purpose-built animal hospital is noteworthy. The fact that the Animal Hospital is still operating on this site today is another attribute of its significance.

Council submitted that the reference to the Amendment C258 categorisation of the building as contributory reflected a Panel recommendation which was not adopted by Council or approved by the Minister for Planning and was not consistent with the C258 methodology.

Council did not support any change to the Amendment arising from this submission.

(iii) Discussion

Figure 8 contains a photo of the building. The Panel inspected the site and observed that the building is predominantly intact and that more recent development has occurred deeper into the site where the Heritage Overlay does not apply.

Figure 8 24-28 Villiers Street, North Melbourne

Source: Panel photo

The submitter's approved permit to further develop the rear portion of the site to accommodate the facility's needs for the next 15-20 years is not impacted by the re-categorisation.

The Panel agrees with Council that the land's development potential is not a matter that should inform its heritage significance. How the land may be developed will be considered through the statutory permit process and heritage is one of the many issues that will be considered.

Lovell Chen conducted a desktop review which is consistent with the conversion methodology for this Amendment. This review found that the building was Significant which was confirmed by Ms Brady.

The Panel supports the re-categorisation of the building to Significant.

(iv) Conclusion

The Panel concludes the categorisation of 24-34 Villiers Street, North Melbourne as Significant is consistent with the heritage grading conversion methodology.

3.7 Submission 10 – 431-439 Punt Road, South Yarra**(i) The issue**

The Amendment proposes to convert the heritage grading for 431-439 Punt Road, South Yarra in HO6 South Yarra Precinct. This building is currently listed in the Inventory Part B under what Council considers as the incorrect address of 451 Punt Road as an A graded building in a Level 2 streetscape. It is proposed to be listed in the proposed post-C396melb Inventory as Significant, with no streetscape category applied.

The issue is whether the conversion of the A-graded building to Significant is appropriate.

(ii) Evidence and submissions

The submitter, Mr Beaconsfield on behalf of the Owners Corporation of 435 Punt Road, South Yarra, provided a heritage assessment of the building from Green Heritage. The author (unnamed) did not provide evidence at the Hearing and Mr Beaconsfield referred to parts of it as part of his submission.

Green Heritage considered the building was C-graded in the current Inventory but was previously A-graded in a Level 2 streetscape before its conversion to apartments in 1995. It observed the upgrading of the conservation status to Significant is “*not clear*”. It considered the property should be addressed as 435 Punt Road.

Mr Beaconsfield submitted Council’s reliance on the Building Information Forms to justify the Significant categorisation is misguided as they¹⁵:

- Are decades old
- Lack timely information
- Do not reflect the changes made to the site in the intervening period including repurposing to residential with significant modifications and extensions
- Do not reflect the current size, shape or spatial-context of the site (due to subdivisions, new and modified buildings)
- No longer reflect the aesthetic value of the site. The spatial context has changed. The building is no longer sited on the corner of Punt and Malvern Roads, is enclosed by newer nearby buildings built in the interim period and has significantly reduced sightlines from the public realm.

He submitted that if the existing grading of the building is incorrect this should be corrected through a heritage assessment. He submitted there was sufficient material provided by Green Heritage to justify a Contributory categorisation. He considered the ICOMOS Practice Note places a reduced significance to buildings that have been re-purposed, in this case from a church to apartments. The lack of a Statement of Significance for the building was also considered as a reason to dismiss its re-categorisation. He agreed that there may be an addressing error, but this should be resolved through a full heritage review or the Heritage Data Project.

¹⁵ Mr Beaconsfield submission, pages 1-2, paragraph 5

Ms Brady's evidence was that:

As per the heritage policy definition for a significant heritage place, these can be of historic and aesthetic significance, are typically externally intact and/or have notable features associated with 'the place type, use, period, method of construction, siting or setting'. It is my opinion that this 1860s building retains 'notable features' associated with its 'place type' and 'use' (i.e. a church).

It is also within a precinct where the ecclesiastical and institutional history is recognised, as per the statement of significance for the South Yarra Precinct which refers to:

- Significant public and institutional development is located within or abutting the precinct, and includes schools, churches and public welfare institutions.

Council submitted that 431-439 Punt Road, South Yarra *"was identified as A graded in the South Yarra Conservation Study, 1985 and contrary to Submission 10 was not subsequently re-graded C."*

Figure 9 contains the Building Identification Form from the South Yarra Conservation Study of 1985. Council submitted:

Pursuant to the Amendment C258 methodology, the A grading should have been directly converted to Significant. However, Lovell Chen was engaged to analyse this property in this Amendment due to the confusion related to the property address. In undertaking this analysis, Lovell Chen assessed the former church as Significant. The excel spreadsheet records;

- *The church building at the front or east side of this property as present to Punt Road is significant. It was constructed in 1864 of bluestone, with cement dressing, to a design by noted architects Crouch and Wilson. The facade includes twin turrets, where the spires are no longer in evidence, with a central four-light window and open-work gabled parapet. It historically housed a George Fincham organ, which has been removed. The church has been adapted to residential apartments, but still presents with its largely original character and detailing to Punt Road. The weatherboard residence to the rear has been demolished, hence its non-contributory grading.*

Council confirmed it would refer the addressing issue to the Heritage Data Project and that *"it would be inconsistent with the totality of the Inventory to change the entry for 431-439 Punt Road from a street number range to a single street number address."* However, regarding the purported C-grading of the church building, Council provided the Building Identification Form from the 1985 heritage study that confirms a dwelling, since demolished to the rear of the church, was addressed as 437 Punt Road with a C-grading (refer to Figure 10). Council submitted it was the grading of the dwelling that Green Heritage has attributed to the former church building.

Appendix F of Council's Part B submission contains several historic aerial photos that it contends confirms the presence of the dwelling to the rear of the church.

Council did not support any change to the Amendment arising from this submission.

(iii) Discussion

The Panel inspected the site and took the photos contained in Figures 11 and 12. The Panel considers the building presents externally as an intact form and while the windows may have been replaced, they remain in their historic form. The Panel agrees with Mr Beaconsfield that its setting has changed considerably however this is one of many issues considered to define its heritage value.

The lack of a Statement of Significance is not surprising. It is only since the Amendment VC148 required new additions to the Heritage Overlay schedule to have a Statement of Significance. The listing of this building dates to 1985. The Panel supports the need to have this issue and the

buildings' categorisation resolved through the South Yarra Heritage Review which is currently underway.

The Panel does not agree with the submitter that this building could remain in Part B of the Inventory as this would be the one remaining building and be inconsistent with the purpose of the Amendment to transition Part B buildings to the contemporary categorisation system.

Source: Panel photo

(iv) Conclusions

The Panel concludes:

- The former church building has always been graded A.
- The former dwelling to the rear was graded C.
- The categorisation of the former church as Significant is consistent with the heritage grading conversion methodology.
- It is not appropriate to retain this building as the sole building in Part B of the Inventory as the Amendment deletes Part B and transitions all buildings to the contemporary categorisation system.
- The South Yarra Heritage Review should confirm the buildings conservation status.
- The Heritage Data Project should resolve the addressing issue.

3.8 Submission 11 – 243 Peel Street, North Melbourne

(i) The issues

The Amendment proposes to convert the heritage grading for 243 Peel Street, North Melbourne in HO3 North and West Melbourne Precinct, a City North precinct. This building is currently listed in the Heritage Places Inventory Part B under the address 241-243 Peel Street as a C graded building in a Level 3 streetscape. It is proposed to be listed in the proposed post-C396melb Inventory as Significant, with no streetscape category applied.

The submitter did not request to be heard by the Panel.

The issues are whether:

- the categorisation of the building as Significant is appropriate
- the re-categorisation will impede the development potential of the land.

(ii) Evidence and submissions

The submitter considered the conversion of a C-graded building to Significant is not justified and would impede the development potential of the land.

Council submitted¹⁶:

The impact on future development outcomes and the amenity impacts from adjoining buildings are not relevant to the task of establishing whether the building has been correctly categorised as Significant pursuant to the Amendment C258 conversion methodology and the further work undertaken for this Amendment.

The Lovell Chen desktop assessment concluded¹⁷:

Nos 241 and 243 Peel Street are the one building, with two dwellings. The building has an unusual, cranked corner form, with entries under a shared recessed double-height arched verandah. According to City North Heritage Review the construction date is c.1900. The windowsills are in the Queen Anne style. There is overpainted brickwork and a modern balustrade at first floor level, but the building demonstrates an unusual use of a corner site, especially for a residential building. Details of note include the terracotta cresting to the roof, and the prominent heavily corniced chimneys. The overpainting reduces an understanding of the original palette of materials, and should it be removed, it may enliven the appearance of the building.

Ms Brady's evidence was that¹⁸:

The building has a distinctive corner form, which in turn reflects the angled alignment of streets and roads in this northern area of the HO3 precinct. The middle and southern areas of the precinct, by comparison, have a more regular grid. The road layout and subdivision pattern of HO3 are significant attributes of the precinct, as identified and explained in the statement of significance.

Council did not support any change to the Amendment arising from this submission.

(iii) Discussion

Figure 13 contains a photo of the building. The Panel agrees with Council that the land's development potential is not a matter that should inform its heritage significance. How the land

¹⁶ Council Part B submission, page 36, paragraph 99

¹⁷ Lovell Chen Excel spreadsheet assessment

¹⁸ Ms Brady evidence statement, page 20, paragraph 105

may be developed will be considered through the statutory permit process and heritage will be one of many issues considered.

Lovell Chen conducted a desktop review which is consistent with the conversion methodology for this Amendment. This review found that the building was Significant. The submitter did not present any material that would indicate the building should be categorised as Contributory.

Figure 13 243 Peel Street, North Melbourne

Source: Google streetview

(iv) Conclusions

The Panel concludes:

- Development potential is not a matter that can be considered in determining the heritage significance of a building.
- In City North the conversion methodology required a desktop assessment for C-grade buildings. This review concluded the building was Significant.

3.9 Submission 13 – 12 Lansdowne Street, East Melbourne

(i) The issues

The building is currently listed in the Heritage Places Inventory Part B under the incorrect address 16 Lansdowne Street as a D graded building in a Level 3 streetscape. It is proposed to be listed in the proposed post-C396melb Inventory as Contributory, with no streetscape category applied.

The issues are whether:

- there is an addressing error
- the building is Contributory or Non-contributory.

(ii) Evidence and submissions

The submitter requested the Panel to support, in the order provided¹⁹:

- a) A recommendation from the Panel that the Amendment be amended so that the Land continues to be identified as 'Non-Contributory' post-Amendment
- b) Failing that, an express finding from the Panel that the change from 'Non-Contributory' under current policy to 'Contributory' under new policy is a function of the conversion methodology adopted by the Council and is not based on any new evidence or assessment regarding the significance of the Land
- c) In any event, a recommendation that the use of Lansdowne Street between Victoria Parade and Albert Street as the outer boundary of Heritage Overlay 2 should be reviewed in light of the significant changes to that streetscape that have occurred in recent years.

The submitter accepted that Council has converted the building correctly under the methodology, but the conversion process has elevated the heritage significance of the building and, in policy terms, would be the subject of more stringent controls. Examples given were for demolition and concealment of additions.

Council asked the Panel to be careful of unintended consequences. Regarding demolition in Clause 22.05, Part B states that demolition of the front part of D-graded buildings would normally not be supported. In Part A, demolition of a Non-contributory building would generally be permitted (as sought by the submitter).

Mr Raworth's evidence was that the building has undergone "*various external alterations*" and its context was in the process of significant change with multi-storey buildings either approved or under construction. In comparison Mr Raworth noted the west side of Lansdowne Street "*remains highly intact with building stock entirely comprised of double-storey Victorian terrace houses, with the exception being the modest red-brick church on the corner of Victoria Parade (dating from 1902).*" His evidence was that 12 and 14 Lansdowne Street "*do not read as part of a broader East Melbourne and Jolimont Precinct.*" Mr Raworth considered the building should be listed as non-contributory.

Mr Raworth agreed the addressing issue was an error that needed to be corrected.

Ms Brady's evidence was that²⁰:

The building is described in Melbourne's i-heritage database as a 'simple single storey terraced dwelling with cast iron verandah' which while altered at the front has a sidewall which 'reveals a bluestone base... indicating an early date of construction'. The database entry also identifies the building as an early dwelling, dating from the period before 1875.

Ms Brady supported the Contributory categorisation.

Council referred to the role of this Amendment in implementing the conversion methodology and the further consideration of this buildings, its neighbour and its context will be considered as part of the East Melbourne Heritage Review. As Council put it "*this is an exercise for another day.*" Council submitted if this building was deemed non-contributory this would be "*out of step with all other D-graded buildings in South Yarra, Parkville and East Melbourne.*"

Council did not support any change to the Amendment arising from this submission.

¹⁹ Mr Petrero submission, page 1, paragraph 4

²⁰ Ms Brady's evidence statement, page 20, paragraph 111

(iii) Discussion

There seemed to be general agreement that there is an addressing error that should be corrected. The Panel inspected the site, and it is clear the building shown in Figure 14 is located at 12 Lansdowne Street, not 16.

Figure 14 12 Lansdowne Street, East Melbourne

Source: Panel photo

Other issues that were highlighted by the Panel's inspection, submissions and evidence was that the context of this building and its neighbour has and is in the process of changing significantly. The Panel agrees that the building is located in a block that has undergone considerable change. Whether this diminishes heritage values should be considered through the East Melbourne Heritage Review. It would seem likely that the east side of Lansdowne Street has lost considerable heritage value over the years, while the west side has retained much of it. The Panel agrees with Council that one issue that should be considered in the review is the boundary of HO2 and whether it is appropriate for the block on the east side of Lansdowne Street (between Victoria Parade and Albert Street) to be retained in HO2. This is a larger strategic exercise that should not be usurped by individually considering buildings heritage significance. The conversion to Contributory is consistent with the adopted methodology. The Panel supports this. The Panel agrees with the submitter that this conclusion is reached based upon the conversion methodology solely and not a heritage review.

(iv) Conclusions

The Panel concludes:

- The conversion of the building from its D-grading to Contributory is appropriate and consistent with the conversion methodology.
- The setting and context of the building has changed considerably with multi-storey development nearby and this should be a consideration in the review of this block as part of the East Melbourne Heritage Review.

3.10 Submission 14 – Epsom Road, Kensington

(i) The issues

The Amendment proposes to convert the heritage gradings for 5 and 7 Epsom Road, both within 1-7 Epsom Road, Kensington. There is a pre-existing mapping error associated with these buildings. HO223 1-7 Epsom Road, Kensington includes 5 and 7 Epsom Road in the description in the Heritage Overlay schedule but 5 and 7 Epsom Road are not within or completely within the current mapped extent (part of 5 Epsom Road is within the mapped extent).

5 Epsom Road is currently listed in the Heritage Places Inventory Part B as a D-graded building in a Level 3 streetscape. It is not proposed to be listed in the proposed post-C396melb Inventory as it is proposed to be converted to Non-contributory.

7 Epsom Road is currently listed in the Heritage Places Inventory Part B as a D-graded building in a Level 3 streetscape. It is proposed to be listed in the proposed post-C396melb Inventory as Contributory and with no streetscape category applied.

The Amendment proposes to remove the existing HO223 1-7 Epsom Road, Kensington and to apply HO9 Kensington Precinct to the whole property 1-7 Epsom Road.

The issue is whether the conversion of the buildings to Contributory impacts an existing planning permit for the re-development of the land.

The submitter did not request to be heard by the Panel.

(ii) Evidence and submissions

Council submitted:

The buildings at 5 and 7 Epsom Road were reviewed and assessed by Lovell Chen as part of the Amendment as they are graded D within an individual Heritage Overlay. Lovell Chen assessed 5 Epsom Road as Non-contributory and 7 Epsom Road as Contributory. Further, Lovell Chen recommended individual HO223 be deleted and the existing HO9 Kensington Precinct be extended to include all of 1-7 Epsom Road.

Council confirmed the Amendment will not affect the existing permit on the site. Ms Brady reiterated the Council position.

(iii) Discussion

The Panel agrees with Council that the existing planning permit to redevelop the site is not impacted by the changes introduced by the Amendment. If the permit expires, any re-application will need to address the Planning Scheme controls of the day.

There were no submissions that objected to the correction of the mapping anomaly.

(iv) Conclusions and recommendations

The Panel concludes:

- The mapping issue is an error and should be corrected.
- The Amendment will not impact the existing permit for the re-development of the site.

3.11 Submission 15 – 1 Bendigo Street, North Melbourne

(i) The issue

The Amendment proposes to convert the heritage grading for 1 Bendigo Street, North Melbourne in HO3 North and West Melbourne Precinct. This building is currently listed in the Heritage Places Inventory Part B as a D-graded building in a Level 3 streetscape. It is proposed to be listed in the proposed post-C396melb Inventory as Contributory, with no streetscape category applied.

The issue is whether the D-graded building should be converted to Contributory.

(ii) Evidence and submissions

Council submitted as a D-graded property in North Melbourne it was the subject of a desktop assessment by Lovell Chen, which converted the building to Contributory.

Ms Brady's evidence was that²¹:

The building is a two-storey, gabled-ended brick former workshop/industrial building, of utilitarian design and simple detailing, which is shown on the late nineteenth century MMBW plan. It is in one of North Melbourne's secondary or 'little' streets, including one which historically included other brick industrial or warehouse buildings. The HO3 precinct is known for its diverse historical commercial, manufacturing and small- and large-scale industrial operations; its numerous examples of adaptation of former manufacturing and industrial buildings to residential and other uses; and its network of smaller streets which accommodate historic warehouses and workshops. The subject building is one such building, and contributory to the precinct.

The submitter objected to the conversion to Contributory but did not elaborate further and did not request to be heard by the Panel.

Council did not support any change to the Amendment arising from this submission.

(iii) Discussion

The Panel agrees with Council the conversion of the building to Contributory is consistent with the conversion methodology. Lovell Chen completed a desktop assessment and was satisfied the building met the definition of a Contributory building.

Figure 15 contains a photo of the building.

²¹ Ms Brady's evidence statement, page 21, paragraph 123

Figure 15 1 Bendigo Street, North Melbourne

Source: Council Part B submission

(iv) Conclusions

The Panel concludes the conversion of this building to Contributory is consistent with the heritage grading conversion methodology.

Appendix B Land affected by the Amendment

Attachment 1: Lists of Properties Affected by Amendment C396**Affected Properties in Carlton and Carlton North**

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay.

Property ID	Property Address as listed in the City of Melbourne's property database	Existing Heritage Overlay/s (as currently mapped as applying to property)	Address to be listed in Inventory (in some cases this is a sub-address listed under a property address)	Change to Inventory	Change to Heritage Overlay Mapping	Change to Schedule to 43.01 Heritage Overlay	New Statement of Significance

Affected Properties in East Melbourne

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay.

Affected Properties in Kensington

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay.

Affected Properties in Melbourne

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay.

Affected Properties in North Melbourne and West Melbourne

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay), a correction to a mapping error for the relevant Heritage Overlay or a change to the heritage categories for 53 Hawke Street, 55 Hawke Street and 65-67 Peel Street, West Melbourne to correct errors identified in the Amendment C258melb Panel hearing by the heritage expert who authored the *West Melbourne Heritage Review, 2016*.

Affected Properties in Parkville

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay.

Management Response to Panel Recommendations

This document is an aide to decision making by the Future Melbourne Committee and Melbourne City Council only and is to be read in conjunction with the amendment documentation. To the extent of any inconsistency, the amendment documentation prevails.

The Amendment C396 Panel issued its report on 21 December 2021. The Panel recommended adoption of the Amendment as exhibited subject to the two recommended changes listed in the table below. These changes were [endorsed](#) by FMC when it considered the Amendment following exhibition on 7 September 2021 and were proposed by the City of Melbourne in its submissions to the Panel. The Panel accepted these changes as appropriate and recommended that the Amendment be updated to incorporate them.

Panel recommendation	Management response
<p>1. Update the <i>Amendment C396 Heritage Category Conversion Review, Lovell Chen and Anita Brady Heritage</i>, March 2021 Background Document to a July 2021 version that incorporates a comparative analysis of D-grade properties that were assessed as Significant.</p>	<p>Amendment C396 was exhibited from 20 May to 25 June 2021.</p> <p>The Background Document <i>Amendment C396 Heritage Category Conversion Review, March 2021</i> (the review) by Lovell Chen and Anita Brady Heritage was exhibited with Amendment C396. Planning and Environment Act 1987

MELBOURNE PLANNING SCHEME

AMENDMENT C396MELB

EXPLANATORY REPORT

Who is the planning authority?

This amendment has been prepared by the Melbourne City Council which is the planning authority for this amendment.

Land affected by the amendment

The amendment applies to 369 properties and three infrastructure assets within streets in the suburbs of Carlton, Carlton North, East Melbourne, Kensington, Melbourne, North Melbourne, Parkville, South Yarra, and West Melbourne as listed in Attachment 1 to this Explanatory Report.

What the amendment does

Amendment C258melb Heritage Policies Review and West Melbourne Heritage was gazetted on 10 July 2020. Amongst other things, the Amendment converted the heritage gradings for buildings within the municipality from the previous A to D grading system to the Significant, Contributory, Non-contributory category system. In adopting the Amendment, the Melbourne City Council removed some properties, which it said would be addressed in a further piece of work and a new amendment.

Amendment C396melb converts the heritage gradings for 346 properties and three infrastructure assets within streets that were removed from Amendment C258melb. There are three types of buildings affected:

- C graded buildings in Heritage Overlay precincts in City North.
- D graded buildings in individual Heritage Overlays.
- Buildings which were inadvertently omitted or where there was an error in the listing in the Amendment C258melb Heritage Places Inventory.

Heritage consultants Lovell Chen and Anita Brady Heritage were engaged to undertake the heritage category conversion using the same methodology as they used for Amendment C258melb. For D graded buildings in individual Heritage Overlays which were assessed as Significant, a full heritage review was undertaken. Amendment C396melb implements the recommendations of the *Amendment C396 Heritage Category Conversion Review* by Lovell Chen and Anita Brady Heritage, ~~March~~ July 2021. It makes associated changes to planning scheme maps, the Schedule to Clause 43.01 (Heritage Overlay) and incorporated documents as described below.

Amendment C396melb also makes corrections to planning scheme maps and the Schedule to Clause 43.01 (Heritage Overlay) to remove demolished buildings.

Amendment C396melb also makes changes to the heritage categories for three properties in West Melbourne (53 Hawke Street, 55 Hawke Street and 65-67 Peel Street) and introduces a Statement of Significance for 65-67 Peel Street, to correct errors identified in the Amendment C258melb Panel hearing by the heritage expert who authored the *West Melbourne Heritage Review, 2016*.

See Attachment 1 which identifies the changes for each property.

In detail, Amendment C396melb makes the following changes to the Melbourne Planning Scheme:

- In the Schedule to Clause 72.04 (Documents Incorporated in this Planning Scheme):
 - Renames the existing incorporated document titled *Heritage Places Inventory February 2020 Part A (Amended July 2020 May 2021)* to the *Heritage Places Inventory March ~~2021~~ 2022*. Amends this incorporated document by adding heritage categories for 346 properties and three infrastructure assets within streets as relevant and making changes to the heritage categories for three properties reviewed in the *West Melbourne Heritage Review, 2016*.

- Deletes the existing incorporated document titled *Heritage Places Inventory February 2020 (Amended September 2021) Part B* from the Melbourne Planning Scheme.
- Introduces a new incorporated document, titled *Heritage Category Conversion Statements of Significance March ~~2021~~2022*, for fifteen previously D-graded buildings in individual Heritage Overlays and one existing Heritage Overlay HO868. HO868 has been expanded to include two additional properties which were previously D-graded buildings in individual Heritage Overlays. HO868 has been renamed “HO868 47-55, 59 & 69 Westbourne Road Precinct, Kensington”.
- ~~Renames~~ **Amends** the existing incorporated document titled *West Melbourne Heritage Review 2016: Statements of Significance February 2020 to the West Melbourne Heritage Review 2016: Statements of Significance February 2020 (Amended March 2022)*. **Amends this incorporated document** by adding a Statement of Significance for Dean’s house 65-67 Peel Street, West Melbourne.
- Amends the local heritage policies, Clause 22.04 (Heritage Places in the Capital City Zone) and Clause 22.05 (Heritage Places outside the Capital City Zone), to delete the Part B sections, to remove references to the Part A sections and to add the following reference document *Amendment C396 Heritage Category Conversion Review* by Lovell Chen and Anita Brady Heritage, ~~March~~ July 2021. The Part B sections previously applied to properties which had retained an A to D letter grading following Amendment C258melb.
- Amends the Schedule to Clause 72.08 (Background Documents) to introduce the new background document *Amendment C396 Heritage Category Conversion Review* by Lovell Chen and Anita Brady Heritage, ~~March~~ July 2021.
- Amends planning scheme maps 4HO, 5HO, 8HO, 8HO2 and 11HO to:
 - Revise the boundaries of existing Heritage Overlays for places affected by the heritage gradings conversion to correct pre-existing mapping errors including where the mapped extents do not include all the properties identified in the heritage place description in Clause 43.01.
 - Revise the boundaries of existing Heritage Overlays HO6 South Yarra Precinct, HO9 Kensington Precinct and HO868 to include previously D-graded buildings which were in individual Heritage Overlays and which have now been assessed to be Contributory to or Significant within the relevant precinct and delete the relevant individual Heritage Overlays.
 - Delete individual Heritage Overlays for places which have been demolished, to correct mapping errors or for previously D-graded buildings which have been assessed as below the threshold for local heritage significance, and in some cases add the affected properties to existing precinct Heritage Overlays as non-contributory buildings.
- Amends the Schedule to Clause 43.01 (Heritage Overlay) to:
 - Amend addresses in the heritage place description for places affected by the heritage gradings conversion to make them consistent with the City of Melbourne property database.
 - Add reference to the *Heritage Category Conversion Statements of Significance March ~~2021~~ 2022* for previously D-graded buildings in individual Heritage Overlays which have been assessed as Significant and for Heritage Overlay HO868.
 - Delete the listings for:
 - Previously D-graded buildings which were in individual Heritage Overlays and which have now been assessed to be Contributory to or Significant within the relevant precinct.
 - Places which have been demolished or for previously D-graded buildings which have been assessed as below the threshold for local significance.

Strategic assessment of the amendment.

Why is the amendment required?

The amendment is required to complete the heritage gradings conversion so that the City of Melbourne can fully transition from the A to D grading system to the contemporary Significant, Contributory, Non-contributory heritage category system and the Part B sections of the local heritage policies can be removed.

The phasing out of the A to D heritage grading system is needed to comply with the Planning Practice Note No.1 *Applying the Heritage Overlay, August 2018* and the recommendations of recent Planning Panels. It will also result in all buildings being assessed under the updated heritage local policies introduced through Amendment C258melb.

How does the amendment implement the objectives of planning in Victoria?

The amendment implements a number of objectives of planning in Victoria pursuant to Section 4 of the Planning and Environment Act 1987, in particular:

- 4(1)(a) To provide for the fair, orderly, economic and sustainable use and development of land
- 4(1)(d) To conserve and enhance those buildings, areas or other places which are of scientific, aesthetic, architectural or historical interest, or otherwise of special cultural value
- 4(1)(g) To balance the present and future interests of all Victorians

How does the amendment address any environmental, social and economic effects?

It is expected that the amendment will have positive environmental, social and economic outcomes for Melbourne. Heritage places enhance the City of Melbourne's appeal as a place in which to live, work, invest and visit.

Environmental Effects

The amendment will encourage reuse, restoration and adaptation of existing heritage places. Retention of existing places will minimise building waste associated with demolition and the construction of new buildings.

Social Effects

The amendment aims to protect the City of Melbourne's heritage, which is an integral part of its social fabric. It supports the community expectation that heritage assets will be protected.

Economic Effects

Improving protection for the City of Melbourne's heritage places is expected to have positive economic effects by reinforcing the City of Melbourne's identity and its role as a destination for tourists. It is also expected to have further positive economic effects by facilitating decision making and minimising time delays.

Does the amendment address relevant bushfire risk?

There is no increased risk of bushfires resulting from this amendment.

Does the amendment comply with the requirements of any Minister's Direction applicable to the amendment?

The amendment is consistent with the Ministerial Direction on the Form and Content of Planning Schemes under section 7(5) of the Act.

The amendment is consistent with Minister's Direction No. 9 – Metropolitan Strategy that requires planning authorities to have regard to the Metropolitan Planning Strategy, Plan Melbourne in preparing an amendment. Specifically, the amendment is supported by Plan Melbourne Policy Direction No. 4.4 - *Respect Melbourne's heritage as we build for the future*. The amendment will encourage new development to be designed and sited to respect the identified significance of heritage places

The amendment is consistent with Minister's Direction No. 11 – Strategic Assessment of Amendments and Minister's Direction No. 15 – The Planning Scheme Amendment Process.

How does the amendment support or implement the Planning Policy Framework and any adopted State policy?

The amendment supports the following objectives of the Planning Policy Framework:

Clause 15 (Built Environment and Heritage)

- 15.01-1R (Urban design) – To create a distinctive and liveable city with quality design and amenity
- 15.03-1S (Heritage conservation) – To ensure the conservation of places of heritage significance

Clause 17 (Economic Development)

- 17.04-1S (Facilitating tourism) - To encourage tourism development to maximise the economic, social and cultural benefits of developing the state as a competitive domestic and international tourist destination
- 17.04-1R (Tourism in Metropolitan Melbourne) - To maintain and develop Metropolitan Melbourne as a desirable tourist destination

How does the amendment support or implement the Local Planning Policy Framework, and specifically the Municipal Strategic Statement?

The amendment is consistent with the objectives and strategies outlined in the Local Planning Policy Framework of the Melbourne Planning Scheme.

The importance of the cultural and natural heritage of Melbourne is a consistent theme throughout the Municipal Strategic Statement (MSS). The amendment supports the objectives and strategies of the following relevant clauses of the MSS by conserving places of identified cultural heritage significance and protecting the underlying sense of place and identity in different areas of Melbourne:

- Clause 21.06-1 (Urban design)
- Clause 21.06-2 (Heritage)

How does the amendment support or implement the Municipal Planning Strategy?

This strategic consideration does not apply as the Melbourne Planning Scheme does not include a Municipal Planning Strategy at Clause 2.

Does the amendment make proper use of the Victoria Planning Provisions?

The amendment makes proper use of the Victoria Planning Provisions.

The amendment makes proper use of incorporated documents to:

- Outline the heritage significance in new Statements of Significance for sixteen places by introducing the incorporated document titled *Heritage Category Conversion Statements of Significance March 2021* ~~2022~~.
- Add 346 properties and three infrastructure assets to the *Heritage Places Inventory February 2020 Part A (Amended July 2020)* ~~May 2021~~ and renaming it the *Heritage Places Inventory March 2021* ~~2022~~.

The amendment makes proper use of the Heritage Overlay and Schedule, which is the appropriate planning tool for protecting identified heritage places.

The amendment makes proper use of the local heritage policies which are the appropriate tool to provide guidance on the assessment of places affected by a Heritage Overlay.

The amendment addresses the requirements of Planning Practice Note No.1 *Applying the Heritage Overlay, August 2018*. The amendment is consistent with the guidance in the practice note that states that letter gradings (e.g. A to D) should not be used to identify levels of heritage significance. The amendment also addresses the requirements for statements of significance by using the 'What is significant?'; 'How is it significant?' and 'Why is it significant?' format, clearly identifying the importance of the place and addressing the heritage criteria.

The amendment makes proper use of the schedule to Clause 72.04 which is the proper provision to use for incorporating documents into the planning scheme.

How does the amendment address the views of any relevant agency?

The replacement of the current A to D gradings system with the new Significant, Contributory, Non-contributory category system is in line with the Victorian Government's Planning Practice Note No.1 *Applying the Heritage Overlay, August 2018* and recommendations contained in recent Planning Panels Victoria reports.

All relevant agencies will be notified as part of the planning scheme amendment formal exhibition process. This included First Nations Legal and Research Services, Heritage Victoria, and the Department of Transport. These organisations did not make submissions.

Earlier feedback from Heritage Victoria on changes to the addresses used in the Schedule to Clause 43.01 (Heritage Overlay) for Victorian Heritage Register places was reflected in the exhibited Amendment.

Does the amendment address relevant requirements of the Transport Integration Act 2010?

The amendment is not likely to have an impact on the requirements of the Transport Integration Act.

Resource and administrative costs

The amendment will introduce greater clarity and certainty in the assessment of applications under the provisions of the Heritage Overlay, which is expected to reduce the workload of Council staff and facilitate decision-making.

Where you may inspect this amendment

The amendment can be inspected free of charge at the City of Melbourne website at participate.melbourne.vic.gov.au/amendment-C396.

The amendment is available for public inspection, free of charge, during office hours at the following place:

City of Melbourne
Customer Service Counter
Ground Floor
Melbourne Town Hall Administration Building
120 Swanston Street
MELBOURNE VIC 3000

The amendment can also be inspected free of charge at the Department of Environment, Land, Water and Planning website at www.planning.vic.gov.au/public-inspection.

Submissions

~~Any person who may be affected by the amendment may make a submission to the planning authority. Submissions about the amendment must be received by 5pm Friday 25 June 2021.~~

~~A submission must be written and either lodged via:~~

- ~~• An online form available at: participate.melbourne.vic.gov.au/amendment-C396~~
- ~~• Emailed to: planningpolicy@melbourne.vic.gov.au~~
- ~~• Or posted to:
Team leader – Planning Policy
City of Melbourne
GPO Box 1603
MELBOURNE VIC 3001~~

Panel hearing dates

~~In accordance with clause 4(2) of Ministerial Direction No.15 the following panel hearing dates have been set for this amendment:~~

- ~~• Directions hearing: to commence in the week of Monday, 11 October 2021~~
- ~~• Panel hearing: to commence in the week of Monday, 15 November 2021~~

Attachment 1: Lists of Properties Affected by Amendment C396

Affected Properties in Carlton and Carlton North

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay.

Property ID	Property Address as listed in the City of Melbourne's property database	Existing Heritage Overlay/s (as currently mapped as applying to property)	Address to be listed in Inventory (in some cases this is a sub-address listed under a property address)	Change to Inventory	Change to Heritage Overlay Mapping	Change to Schedule to 43.01 Heritage Overlay	New Statement of Significance

⁷ Heritage grading is not being converted through C396. Is part of C396 to remove Heritage Overlay (demolished building).

Affected Properties in East Melbourne

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay.

Affected Properties in Kensington

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay.

Affected Properties in Melbourne

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay.

Affected Properties in North Melbourne and West Melbourne

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay), a correction to a mapping error for the relevant Heritage Overlay or a change to the heritage categories for 53 Hawke Street, 55 Hawke Street and 65-67 Peel Street, West Melbourne to correct errors identified in the Amendment C258melb Panel hearing by the heritage expert who authored the *West Melbourne Heritage Review, 2016*.

Affected Properties in Parkville

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay.

Affected Properties in South Yarra

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay.

Planning and Environment Act 1987

MELBOURNE PLANNING SCHEME

AMENDMENT C396MELB

INSTRUCTION SHEET

The planning authority for this amendment is the Melbourne City Council.

The Melbourne Planning Scheme is amended as follows:

Planning Scheme Maps

The Planning Scheme Maps are amended by a total of 11 attached map sheets.

Overlay Maps

1. Amend Planning Scheme Map Nos 4HO, 5HO, 8HO, 8HO2 and 11HO in the manner shown on the 11 attached maps marked "Melbourne Planning Scheme, Amendment C396melb".

Planning Scheme Ordinance

The Planning Scheme Ordinance is amended as follows:

2. In **Local Planning Policy Framework** – replace Clause 22.04 with a new Clause 22.04 in the form of the attached document.
3. In **Local Planning Policy Framework** – replace Clause 22.05 with a new Clause 22.05 in the form of the attached document.
4. In **Overlays** – Clause 43.01, replace the Schedule with a new Schedule in the form of the attached document.
5. In **Operational Provisions** – Clause 72.04, replace the Schedule with a new Schedule in the form of the attached document.
6. In **Operational Provisions** – Clause 72.08, replace the Schedule with a new Schedule in the form of the attached document.

End of document

22.04

HERITAGE PLACES IN THE CAPITAL CITY ZONE

23/04/2024 - / - / - -
G305melb Proposed C396melb

This policy applies to all places within the Heritage Overlay within the Capital City Zone (CCZ).

PART A

~~This Part of the policy applies to properties categorised significant, contributory or non-contributory in an incorporated document to this scheme.~~

Policy Basis

Melbourne’s Municipal Strategic Statement identifies heritage as a defining characteristic of the municipality.

Heritage places encompass individual heritage places and heritage precincts.

Within the CCZ heritage places contribute to the significance of Melbourne as the cultural, administrative, educational and economic centre of the State and its importance both nationally and internationally. These places are fundamental to understanding the depth of its historic character as it developed on and extended from the Hoddle Grid. Their conservation enhances the appeal of the CCZ as a place to live, work, invest and visit.

The management of heritage places in the CCZ faces the challenge of the greater intensity of development in the CCZ relative to other parts of the city and the different built form outcomes which result from this.

This policy provides guidance on conserving and enhancing heritage places and is informed by the conservation principles, processes and practices of the *Australia ICOMOS Burra Charter*. The *Burra Charter* encourages the conservation, preservation and restoration of heritage places, and facilitates development which enhances the heritage place and is compatible and in keeping with its cultural heritage values.

This policy should be applied in conjunction with Statements of Significance as incorporated into this scheme.

Definitions

Definition	
Alteration	An alteration is to modify the fabric of a heritage place, without undertaking building works such as an addition.
Assessed significance	The assessed significance of an individual heritage place or heritage precinct is identified in the relevant Statement of Significance, as contained in the place citation. This normally identifies what is significant, how it is significant, and why it is significant.
Concealed/partly concealed	Concealed means cannot be seen from a street (other than a lane, unless the land has heritage value) or public park. Partly concealed means that some of the addition or higher rear part may be visible provided it does not visually dominate or reduce the prominence of the existing building’s façade(s) in the street.
Conservation	Conservation means all the processes of looking after a place to retain its heritage significance. It may include one or more of maintenance, preservation, restoration, reconstruction, adaption and interpretation.
Context	The context of a heritage place can include; its setting (as defined under 'setting'), the immediate landholding, adjoining significant or contributory places, and the surrounding area.

Definition	
Contextual design	A contextual design for new buildings and additions to existing buildings is one which adopts a design approach, derived through analysis of the subject property and its heritage context. Such an approach requires new development to comfortably and harmoniously integrate with the site and the street character.
Contributory heritage place	A contributory heritage place is important for its contribution to a heritage precinct. It is of historic, aesthetic, scientific, social or spiritual significance to the heritage precinct. A contributory heritage place may be valued by the community; a representative example of a place type, period or style; and/or combines with other visually or stylistically related places to demonstrate the historic development of a heritage precinct. Contributory places are typically externally intact, but may have visible changes which do not detract from the contribution to the heritage precinct.
Cultural significance	Cultural significance means aesthetic, historic, scientific, social or spiritual value for past, present or future generations.
Enhance	Enhance means to improve the presentation and appearance of a heritage place through restoration, reconstruction or removal of unsympathetic or intrusive elements; and through appropriate development.
Fabric	Fabric means all the physical material of the heritage place.
Facadism	The retention of the exterior face/faces of a building without the three-dimensional built form providing for its/their structural support and understanding of its function.
Front or principal part of a building	<p>The front or principal part of a building is generally considered to be the front two rooms in depth, complete with the structure and cladding to the roof; or that part of the building associated with the primary roof form, whichever is the greater. For residential buildings this is generally 8-10 metres in depth.</p> <p>For most non-residential buildings, the front or principal part is generally considered to be one full structural bay in depth complete with the structure and cladding to the roof or generally 8-10 metres in depth.</p> <p>For corner sites, the front or principal part of a building includes the side street elevation.</p> <p>For sites with more than one street frontage, the front or principal part of a building may relate to each street frontage.</p>
Heritage place	A heritage place has been assessed to have natural or cultural heritage value and can include a site, area or space, building or other works, structure, group of buildings, precinct, archaeological site, landscape, garden or tree.
Heritage precinct	A heritage precinct is an area which has been identified as having heritage value. It is identified as such in the Schedule to the Heritage Overlay, and mapped in the Planning Scheme Heritage Overlay Maps.
Individual heritage place	An individual heritage place is equivalent to a significant heritage place. It may be categorised significant within a heritage precinct. It may also have an individual Heritage Overlay control, and be located within or outside a heritage precinct.
Key attributes	The key attributes or important characteristics of a heritage precinct as identified in the precinct Statement of Significance, include building height, massing and form, style and architectural expression, detailing, materials, front and side setbacks and orientation.
Lane	A lane is a narrow road or right of way (ROW) generally abutting the rear or side boundary of a property. It may be paved or unpaved and in public or private ownership and will typically provide vehicle access to adjoining properties.

Definition	
Maintenance	Maintenance means the continuous protective care of a place, and its setting, and is distinguished from repair which involves restoration or reconstruction.
Massing	Massing means the arrangement of a building's bulk and its articulation into parts.
Non-contributory	A non-contributory place does not make a contribution to the cultural significance or historic character of the heritage precinct.
Preservation	Preservation is maintaining the fabric of a place in its existing state and retarding deterioration.
Reconstruction	Reconstruction means returning a place to a known earlier state, and is distinguished from restoration by the introduction of new material.
Respectful and interpretive	Respectful means a modern design approach to new buildings, additions and alterations to buildings, in which historic building size and form are adopted, and proportions and details are referenced but not directly copied, and sympathetic colours and materials are used. Interpretive means a looser and simplified modern interpretation of historic building form, details and materials.
Restoration	Restoration means returning a place to a known earlier state by removing accretions or later additions, or by reassembling existing elements. It is distinguished from reconstruction through not introducing new material.
Services and ancillary fixtures	Services and ancillary fixtures include, but are not limited to, satellite dishes, shade canopies and sails, solar panels, water storage tanks, disabled access ramps and handrails, air conditioners, cooling or heating systems and hot water services.
Setting	Setting means the immediate and extended environment of a heritage place that is part of or contributes to its significance.
Streetscape	A streetscape is a collection of buildings along a street frontage. When referred to in relation to a precinct, a streetscape typically contains a majority of buildings which are categorised significant or contributory.
Significant streetscape (as referred to in this policy)	Significant streetscapes are collections of buildings outstanding either because they are a particularly well preserved group from a similar period or style, or because they are a collection of buildings significant in their own right.
Significant heritage place	A significant heritage place is individually important at state or local level, and a heritage place in its own right. It is of historic, aesthetic, scientific, social or spiritual significance to the municipality. A significant heritage place may be highly valued by the community; is typically externally intact; and/or has notable features associated with the place type, use, period, method of construction, siting or setting. When located in a heritage precinct a significant heritage place can make an important contribution to the precinct.
Use	Use means the functions of a place, including the activities and traditional and customary practices which may occur at the place or are dependent on the place.
Visible	Visible means anything that can be seen from a street (other than a lane, unless the lane is identified as having heritage value) or public park.

Category of heritage places

The category (significant, contributory or non-contributory) of properties is identified in the incorporated document *Heritage Places Inventory February 2020 Part A March 2022* or another incorporated document to this Scheme - Significant streetscapes are also identified in these incorporated documents.

Policy Objectives

- To conserve and enhance Melbourne's heritage places.
- To retain fabric, which contributes to the significance, character or appearance of heritage places and precincts.
- To recognise and conserve the assessed significance of heritage places and streetscapes, as referenced in this policy or incorporated into this planning scheme as the basis for consideration of development and works. Further information may be considered, including in relation to streetscapes, where there is limited information in the existing citation or council documentation.
- To ensure new development is respectful of the assessed significance of heritage places.
- To ensure new development is respectful of the character and appearance of heritage places.
- To encourage high quality contextual design for new development, which avoids replication of historic forms and details.
- To encourage retention of the three dimensional fabric and form of a building.
- To discourage facadism.
- To encourage the adaptive reuse of heritage places.
- To ensure new development is consistent with the conservation principles, processes and practices of the *Australia ICOMOS Burra Charter*.
- To enhance the presentation and appearance of heritage places through restoration and, where evidence exists, reconstruction of original or contributory fabric.
- To protect significant views and vistas to heritage places.
- To promote the protection of Aboriginal cultural heritage.

Permit Application Requirements

The following, where relevant, may be required to be lodged with a permit application:

- Where major development is proposed to significant heritage places, the preparation of a Conservation Management Plan (CMP), which is in accordance with the Heritage Council of Victoria's *Conservation Management Plans: Managing Heritage Places A Guide 2010*.
- The preparation of a Heritage Impact Statement (HIS) which is in accordance with Heritage Victoria's *Guidelines for preparing Heritage Impact Statements*. In a heritage precinct, the HIS should address impacts on adjoining significant or contributory buildings and the immediate heritage context, in addition to impacts on the subject place.
- Further information where there is limited information in an existing citation or council documentation.
- An arboricultural report where works will or may affect significant vegetation (as listed in the Schedule to the Heritage Overlay or vegetation of assessed significance). The report should, where relevant, address landscape significance, arboricultural condition, impacts on the vegetation and impacts on the assessed significance of the heritage precinct.
- For development in heritage precincts, sight lines, and heights of existing and adjoining buildings, streetscape elevations, photos and 3D model, as necessary to determine the impact of the proposed development.

- A comprehensive explanation as to how the proposed development achieves the policy objectives.

Assessment of Planning Applications

Planning applications are to be assessed against the policy objectives and the policies set out below.

Demolition

It is policy that:

- The demolition of a non-contributory place will generally be permitted.
- Full demolition of significant or contributory buildings will not generally be permitted.
- Partial demolition in the case of significant buildings, and of significant elements or the front or principal part of contributory buildings will not generally be permitted.
- Retention of the three dimensional form is encouraged; facadism is discouraged.
- The adaptive reuse of a heritage place is encouraged as an alternative to demolition.
- The poor structural or aesthetic condition of a significant or contributory building will not be considered justification for permitting demolition.
- A demolition permit not be granted until the proposed replacement building or works have been approved.
- Fences and outbuildings which contribute to the cultural significance of the heritage place are not demolished.

Before deciding on an application for full or partial demolition, the responsible authority will consider, as appropriate:

- The assessed significance of the heritage place or building.
- The character and appearance of the proposed building or works and their effect on the historic, social and architectural values of the heritage place, and the street.
- The significance of the fabric or part of the building, and the degree to which it contributes to its three-dimensional form, regardless of whether it is visible.
- Whether the demolition or removal of any part of the building contributes to the long-term conservation of the significant fabric of the building.
- Whether the demolition will adversely affect the conservation of the heritage place.
- Whether there are any exceptional circumstances.

Where approval is granted for full demolition of a significant building, a recording program including, but not limited to, archival photographic recording and/or measured drawings maybe required prior to demolition, to the satisfaction of the responsible authority.

Alterations

It is policy that:

- External fabric which contributes to the cultural significance of the heritage place, on any part of a significant building, and on any visible part of a contributory building, should be preserved.
- Alterations to non-contributory buildings and fabric are respectful of, and do not detract from the assessed significance of the heritage precinct.
- Sandblasting of render, masonry or timber surfaces and painting of previously unpainted surfaces will not generally be permitted.

- Removal of paint from original unpainted masonry or other surfaces be encouraged provided it can be undertaken without damage to the heritage place.
- Reconstruction of an original awning or verandah is based on evidence of the original form, detailing and materials.
- Any new awning or verandah is an appropriate contextual design response compatible with the location on the heritage place and one that can be removed without loss of fabric that contributes to the cultural value of the heritage place.

Before deciding on an application to alter the fabric of a significant or contributory building, the responsible authority will consider, as appropriate:

- The assessed cultural significance of the building and heritage place.
- The degree to which the alterations would detract from the significance, character and appearance of the building and heritage place.
- Its structural condition.
- The character and appearance of the proposed replacement materials.
- Whether the alterations can be reversed without loss of fabric which contributes to the significance of the heritage place.

Additions

It is policy that:

Additions to buildings in a heritage precinct are respectful of and in keeping with:

- 'Key attributes' of the heritage precinct, as identified in the precinct Statement of Significance.
- Precinct characteristics including building height, massing and form; style and architectural expression; details; materials; front and side setbacks; and orientation.
- Character and appearance of nearby significant and contributory buildings.
- Where abutting a lane, the scale and form of heritage fabric as it presents to the lane.

It is policy that:

Additions to significant or contributory buildings:

- Are respectful of the building's character and appearance, scale, materials, style and architectural expression.
- Do not visually dominate or visually disrupt the appreciation of the building as it presents to the street.
- Maintain the prominence of the building by setting back the addition behind the front or principal part of the building, and from other visible parts and moderating height.
- Do not build over or extend into the air space directly above the front or principal part of the significant or contributory building.
- Retain significant roof form within the setback from the building façade together with roof elements of original fabric.
- Do not obscure views of façades or elevations associated with the front or principal part of the building.
- Are distinguishable from the original fabric of the building.

The design of additions is to:

- Adopt high quality and respectful contextual design.
- Avoid direct reproduction of the form of historic fabric.

- Adopt an interpretive design approach to other details such as verandahs, fences, and shopfronts.

New Buildings

It is policy that:

New buildings are in keeping with ‘key attributes’ of the heritage precinct as identified in the precinct Statement of Significance and:

- Key attributes of the heritage precinct such as:
 - Building height, massing and form; style and architectural expression; details; materials; front and side setbacks; and orientation and fencing.
 - Prevailing streetscape height and scale.
- Do not obscure views from the street(s) and public parks of the front or principal part of adjoining significant or contributory places or buildings.
- Do not visually dominate or visually disrupt the appreciation of the heritage place.
- Maintain a façade height which is consistent with that of adjoining significant or contributory buildings, whichever is the lesser.
- Set back higher building components so as not to dominate or reduce the prominence of an adjoining significant or contributory place or building.
- Do not adopt a façade height which is significantly lower than prevailing heights in the street.
- Are neither positioned forward of the façade of adjoining significant or contributory heritage places or buildings, or set back significantly behind the prevailing building line in the street. New buildings should be positioned in line with the prevailing building line in the street.
- Do not build over or extend into the air space directly above the front or principal part of an adjoining significant or contributory building or heritage place.
- Where abutting a lane, are respectful of the scale and form of historic fabric of heritage places abutting the lane.
- Do not impact adversely on Aboriginal cultural heritage values.

The design of new buildings is to:

- Adopt high quality and respectful contextual design.
- Adopt an interpretive design approach to other details such as verandahs, fences and shopfronts.

Restoration and Reconstruction

It is policy to encourage the restoration and/or reconstruction of a heritage place.

Any reconstructive or restoration buildings and/or works to any part of a significant building, or any visible part of a contributory building should form part of an authentic restoration or reconstruction process, or should not preclude such a process at a future date.

Restoration or reconstruction of a building is to be based on evidence of what a building originally looked like. It may be assisted by reference to elements of nearby identical buildings, other parts of the building or early photographs and plans.

Subdivision

It is policy that:

Subdivision of a heritage place:

- Reflect the pattern of development in the street or precinct, whichever is most relevant to the place.

- Maintain appropriate settings and contexts for significant and contributory heritage buildings and places including the retention of any original garden areas, large trees and other features which contribute to the significance of the heritage place.
- Not provide for future development which will visually disrupt the setting and impact on the presentation of the significant or contributory building.
- Provide for three dimensional building envelopes for future built form to each lot proposed.

Subdivision of airspace above heritage buildings, to provide for future development, is discouraged.

Relocation

It is policy that:

- A building be retained in-situ unless it can be shown that the place has a history of relocation and/or is designed for relocation.
- An application to relocate a building should include recording its location on the site prior to relocation and supervision of its relocation by an appropriately qualified person.

Vehicle Accommodation and Access

It is policy that:

The introduction of on-site car parking, garages and carports, and vehicle crossovers is discouraged and should only be permitted where the following performance standards can be met:

- Car parking is located to the rear of the property, where this is an established characteristic.
- Any new garage or carport is placed behind the principal or front part of the building (excluding verandahs, porches, bay windows or similar projecting features), and:
 - it will be visually recessive;
 - it will not conceal an original contributory element of the building (other than a plain side wall); and
 - the form, details and materials will be respectful of, but not replicate details of the building.
- Ramps to basement or sub-basement car parking are located to the rear of the property, or to a side street or side lane boundary, where they would not visually disrupt the setting of the significant or contributory building, or impact on the streetscape character.

Fences and Gates

It is policy that:

- where fences or gates to the front or principal part of a heritage place reconstruct an original fence or gate, this is based on evidence of the original form, detailing and materials; or
- the new fence or gate is an appropriate contextual design response, and the style, details and materials are interpretive and consistent with the architectural period of the heritage place and established street characteristics and:
 - it does not conceal views of the building or heritage place; and
 - is a maximum height of 1.5 metres; and
 - is more than 50% transparent.

Trees

It is policy that:

Trees with assessed cultural significance (as noted in the Schedule to the Heritage Overlay) be retained wherever possible.

Buildings and works respect trees with assessed cultural significance (noted in the Schedule to the Heritage Overlay) by siting proposed new development at a distance that ensures the ongoing health of the tree.

New buildings and works comply with the Australian Standard AS 4970-2009 Protection of Trees on Development Sites for vegetation of assessed significance.

Services and Ancillary Fixtures

It is policy that:

- The installation of services and ancillary fixtures, in particular those that will reduce greenhouse gas emissions or water consumption such as solar panels, solar hot water services or water storage tanks, may be permitted on any visible part of significant or contributory buildings where it can be demonstrated there is no feasible alternative and the services and ancillary fixtures will not detract from the character and appearance of the building or heritage place.
- Items affixed to roofs, such as solar panels, align with the profile of the roof.
- Services and ancillary fixtures are installed in a manner whereby they can be removed without damaging significant fabric.
- For new buildings, services and ancillary fixtures are concealed, integrated or incorporated into the design of the building.

Street Fabric and Infrastructure

It is policy that:

Street furniture, including shelters, seats, rubbish bins, bicycle racks, drinking fountains and the like, is designed and sited to avoid:

- impacts on views to significant or contributory places and contributory elements; and
- physical impacts on bluestone kerbs, channels and gutters, other historic street infrastructure, lanes and street tree plantings.

For existing historic street/lane fabric and infrastructure, restoration, reconstruction and maintenance be carried out in a way that retains the original fabric, form and appearance.

Signage

It is policy that:

Existing signage that is deemed to have heritage value be retained, and not altered or obscured, including historic painted signage.

New signage associated with heritage places:

- Minimise visual clutter
- Not conceal architectural features or details which contribute to the significance of the heritage place.
- Not damage the fabric of the heritage place.
- Be in keeping with historical signage in terms of size and proportion in relation to the heritage place.
- Be placed in locations where they were traditionally placed.
- Be readily removable.
- Address all relevant performance standards of Clause 22.07 – Advertising Signage.

PART B

~~This Part of the policy applies to properties graded A to D within the *Heritage Places Inventory February 2020 Part B*, and those properties within the suburb of Melbourne that are referred to in the *Central City Heritage Study Review, 1993* and not categorised significant or contributory by an incorporated document to this Scheme.~~

Policy Basis

~~The heritage of the Capital City Zone area, comprising individual buildings, precincts, significant trees, and Aboriginal archaeological sites, is a significant part of Melbourne's attraction as a place in which to live, visit, do business and invest. It is also important for cultural and sociological reasons, providing a distinctive historical character and a sense of continuity. Much of Melbourne's charm is provided by its older buildings, which, while not always of high individual significance, together provide cultural significance or interest, and should be retained in their three dimensional form, not as two dimensional façades as has sometimes occurred.~~

~~The identification, assessment, and citation of heritage places have been undertaken over decades, as part of an ongoing heritage conservation process and their recognition and protection have been a crucial component of planning in Melbourne since 1982.~~

Objectives

- ~~■ To conserve and enhance all heritage places, and ensure that any alterations or extensions to them are undertaken in accordance with accepted conservation standards.~~
- ~~■ To consider the impact of development on buildings listed in the Central Activities District Conservation Study and the South Melbourne Conservation Study.~~
- ~~■ To promote the identification, protection and management of Aboriginal cultural heritage values.~~
- ~~■ To conserve and enhance the character and appearance of precincts identified as heritage places by ensuring that any new development complements their character, scale, form and appearance.~~

Policy

~~The following matters shall be taken into account when considering applications for buildings, works or demolition to heritage places as identified in the Heritage Overlay:~~

- ~~■ Proposals for alterations, works or demolition of an individual heritage building or works involving or affecting heritage trees should be accompanied by a conservation analysis and management plan in accordance with the principles of the Australian ICOMOS Charter for the Conservation of Places of Cultural Significance 1992 (The Burra Charter).~~

- ~~The demolition or alteration of any part of a heritage place should not be supported unless it can be demonstrated that that action will contribute to the long-term conservation of the significant fabric of the heritage place.~~
- ~~The impact of proposed developments on aboriginal cultural heritage values, as indicated in an archaeologist's report, for any site known to contain aboriginal archaeological relics.~~
- ~~The recommendations for individual buildings, sites and areas contained in the Central City Heritage Study Review 1993 except for the buildings detailed in incorporated documents titled Central City (Hoddle Grid) Heritage Review: Statements of Significance June 2013, the Guildford and Hardware Laneways Heritage Study 2017: Statements of Significance, November 2018 (Amended July 2020), or Statements of Significance in the Schedule to Clause 72.04, in which case the Central City (Hoddle Grid) Heritage Review: Statements of Significance June 2013 or the Guildford and Hardware Laneways Heritage Study 2017: Statements of Significance, November 2018 (Amended July 2020) or Statements of Significance in the Schedule to Clause 72.04 will apply.~~
- ~~All development affecting a heritage precinct should enhance the character of the precinct as described by the following statements of significance:~~
- ~~Regard shall be given to buildings listed A, B, C and D or significant and/or contributory in the individual conservation studies, and their significance as described by their individual Building Identification Sheet.~~

HERITAGE PLACES OUTSIDE THE CAPITAL CITY ZONE

23/04/2024 - / - / -
G305melb Proposed C396melb

This policy applies to all places within the Heritage Overlay outside the Capital City Zone (CCZ) and the Docklands Zone.

PART A

~~This Part of the policy applies to properties categorised significant, contributory or non-contributory in an incorporated document to this scheme.~~

Policy Basis

Melbourne’s Municipal Strategic Statement identifies heritage as a defining characteristic of the municipality.

Heritage places across the municipality, encompass individual heritage places and heritage precincts. These places are variously of heritage value for their historic, aesthetic, social, spiritual and scientific significance. They include residential and non-residential places, public parks and gardens, trees and infrastructure.

This policy provides guidance on conserving and enhancing heritage places and is informed by the conservation principles, processes and practices of the *Australia ICOMOS Burra Charter*. The *Burra Charter* encourages the conservation, preservation and restoration of heritage places, and facilitates development which enhances the heritage place and is compatible and in keeping with its cultural heritage values.

This policy should be applied in conjunction with Statements of Significance as incorporated into this scheme.

Definitions

Term	Definition
Alteration	An alteration is to modify the fabric of a heritage place, without undertaking building works such as an addition.
Assessed significance	The assessed significance of an individual heritage place or heritage precinct is identified in the relevant Statement of Significance, as contained in the place citation. This normally identifies what is significant, how it is significant, and why it is significant.
Concealed/partly concealed	Concealed means cannot be seen from a street (other than a lane, unless the lane has heritage value) or public park. Partly concealed means that some of the addition or higher rear part may be visible provided it does not visually dominate or reduce the prominence of the existing building’s façade(s) in the street.
Conservation	Conservation means all the processes of looking after a place to retain its heritage significance. It may include one or more of maintenance, preservation, restoration, reconstruction, adaptation and interpretation.
Context	The context of a heritage place can include; its setting (as defined under ‘setting’), the immediate landholding, adjoining significant or contributory places, and the surrounding area.
Contextual design	A contextual design for new buildings and additions to existing buildings is one which adopts a design approach, derived through analysis of the subject property and its heritage context. Such an approach requires new development to comfortably and harmoniously integrate with the site and the street character.
Contributory Heritage Place	A contributory heritage place is important for its contribution to a heritage precinct. It is of historic, aesthetic, scientific, social or spiritual significance to the heritage precinct. A contributory heritage place may be valued by the community; a representative example of a place type, period or style; and/or combines with other visually or stylistically related places to

Term	Definition
	demonstrate the historic development of a heritage precinct. Contributory places are typically externally intact, but may have visible changes which do not detract from the contribution to the heritage precinct.
Cultural significance	Cultural significance means aesthetic, historic, scientific, social or spiritual value for past, present or future generations.
Enhance	Enhance means to improve the presentation and appearance of a heritage place through restoration, reconstruction or removal of unsympathetic or intrusive elements; and through appropriate development.
Fabric	Fabric means all the physical material of the heritage place.
Facadism	The retention of the exterior face/faces of a building without the three-dimensional built form providing for its/their structural support and understanding of its function.
Front or principal part of a building	<p>The front or principal part of a building is generally considered to be the front two rooms in depth, complete with the structure and cladding to the roof; or that part of the building associated with the primary roof form, whichever is the greater. For residential buildings this is generally 8-10 metres in depth.</p> <p>For most non-residential buildings, the front or principal part is generally considered to be one full structural bay in depth complete with the structure and cladding to the roof or generally 8-10 metres in depth.</p> <p>For corner sites, the front or principal part of a building includes the side street elevation.</p> <p>For sites with more than one street frontage, the front or principal part of a building may relate to each street frontage.</p>
Heritage place	A heritage place has been assessed to have natural or cultural heritage value and can include a site, area or space, building or other works, structure, group of buildings, precinct, archaeological site, landscape, garden or tree.
Heritage precinct	A heritage precinct is an area which has been identified as having heritage value. It is identified as such in the Schedule to the Heritage Overlay and mapped in the Planning Scheme Heritage Overlay Maps.
Individual heritage place	An individual heritage place is equivalent to a significant heritage place. It may be categorised significant within a heritage precinct. It may also have an individual Heritage Overlay control, and be located within or outside a heritage precinct.
Key attributes	The key attributes or important characteristics of a heritage precinct as identified in the precinct Statement of Significance, may include building height, massing and form, style and architectural expression, detailing, materials, front and side setbacks and orientation.
Lane	A lane is a narrow road or right of way (ROW) generally abutting the rear or side boundary of a property. It may be paved or unpaved and in public or private ownership and will typically provide vehicle access to adjoining properties.
Maintenance	Maintenance means the continuous protective care of a place, and its setting, and is distinguished from repair which involves restoration or reconstruction.
Massing	Massing means the arrangement of a building's bulk and its articulation into parts.
Non-contributory place	A non-contributory place does not make a contribution to the cultural significance or historic character of the heritage precinct.
Preservation	Preservation is maintaining the fabric of a place in its existing state and retarding deterioration.

Term	Definition
Reconstruction	Reconstruction means returning a place to a known earlier state, and is distinguished from restoration by the introduction of new material.
Respectful and interpretive	Respectful means a modern design approach to new buildings, additions and alterations to buildings, in which historic building size and form are adopted, and proportions and details are referenced but not directly copied, and sympathetic colours and materials are used. Interpretive means a looser and simplified modern interpretation of historic building form, details and materials.
Restoration	Restoration means returning a place to a known earlier state by removing accretions or later additions, or by reassembling existing elements. It is distinguished from reconstruction through not introducing new material.
Services and ancillary fixtures	Services and ancillary fixtures include, but are not limited to, satellite dishes, shade canopies and sails, solar panels, water storage tanks, disabled access ramps and handrails, air conditioners, cooling or heating systems and hot water services.
Setting	Setting means the immediate and extended environment of a heritage place that is part of or contributes to its significance.
Streetscape	A streetscape is a collection of buildings along a street frontage. When referred to in relation to a precinct, a streetscape typically contains a majority of buildings which are categorised significant or contributory.
Significant streetscape (as referred to in this policy)	Significant streetscapes are collections of buildings outstanding either because they are a particularly well preserved group from a similar period or style, or because they are a collection of buildings significant in their own right.
Significant heritage place	A significant heritage place is individually important at state or local level, and a heritage place in its own right. It is of historic, aesthetic, scientific, social or spiritual significance to the municipality. A significant heritage place may be highly valued by the community; is typically externally intact; and/or has notable features associated with the place type, use, period, method of construction, siting or setting. When located in a heritage precinct a significant heritage place can make an important contribution to the precinct.
Use	Use means the functions of a place, including the activities and traditional and customary practices which may occur at the place or are dependent on the place.
Visible	Visible means anything that can be seen from a street (other than a lane, unless the lane is identified as having heritage value) or public park.

Category of heritage places

The category (significant, contributory or non-contributory) of properties is identified in the incorporated document *Heritage Places Inventory February 20 March 2022 20-Part A* or another incorporated document to this Scheme - Significant streetscapes are also identified in these incorporated documents.

Policy Objectives

- To conserve and enhance Melbourne’s heritage places.
- To retain fabric, which contributes to the significance, character or appearance of heritage places and precincts.
- To recognise and conserve the assessed significance of heritage places and streetscapes, as referenced in this policy or incorporated into this planning scheme as the basis for consideration of development and works. Further information may be considered, including in relation to streetscapes, where there is limited information in the existing citation or council documentation.
- To ensure new development is respectful of the assessed significance of heritage places.

- To ensure new development is respectful of the character and appearance of heritage places.
- To encourage high quality contextual design for new development, which avoids replication of historic forms and details.
- To encourage retention of the three dimensional fabric and form of a building.
- To discourage facadism.
- To encourage the adaptive reuse of heritage places.
- To ensure new development is consistent with the conservation principles, processes and practices of the *Australia ICOMOS Burra Charter*.
- To enhance the presentation and appearance of heritage places through restoration and, where evidence exists, reconstruction of original or contributory fabric.
- To protect significant views and vistas to heritage places.
- To promote the protection of Aboriginal cultural heritage.

Permit Application Requirements

The following, where relevant, may be required to be lodged with a permit application.

- Where major development is proposed to significant heritage places, the preparation of a Conservation Management Plan (CMP), which is accordance with the Heritage Council of Victoria's *Conservation Management Plans: Managing Heritage Places A Guide* 2010.
- The preparation of a Heritage Impact Statement (HIS) which is in accordance with Heritage Victoria's *Guidelines for preparing Heritage Impact Statements*. In a heritage precinct, the HIS should address impacts on adjoining significant or contributory buildings and the immediate heritage context, in addition to impacts on the subject place.
- Further information where there is limited information in an existing citation or council documentation.
- An arboricultural report where works will or may affect significant vegetation (as listed in the Schedule to the Heritage Overlay or vegetation of assessed significance). The report should, where relevant, address landscape significance, arboricultural condition, impacts on the vegetation and impacts on the assessed significance of the heritage precinct.
- For development in heritage precincts, sight lines, and heights of existing and adjoining buildings, streetscape elevations, photos and 3D model, as necessary to determine the impact of the proposed development.
- A comprehensive explanation as to how the proposed development achieves the policy objectives.

Assessment of Planning Applications

Planning applications are to be assessed against the policy objectives and the policies set out below.

Demolition

It is policy that:

- The demolition of a non-contributory place will generally be permitted.
- Full demolition of significant or contributory buildings will not generally be permitted.
- Partial demolition in the case of significant buildings, and of significant elements or the front or principal part of contributory buildings will not generally be permitted.
- Retention of the three dimensional form is encouraged; facadism is discouraged.
- The adaptive reuse of a heritage place is encouraged as an alternative to demolition.

- The poor structural or aesthetic condition of a significant or contributory building will not be considered justification for permitting demolition.
- A demolition permit not be granted until the proposed replacement building or works have been approved.
- Fences and outbuildings which contribute to the cultural significance of the heritage place are not demolished.

Before deciding on an application for full or partial demolition, the responsible authority will consider, as appropriate:

- The assessed significance of the heritage place or building.
- The character and appearance of the proposed building or works and their effect on the historic, social and architectural values of the heritage place, and the street.
- The significance of the fabric or part of the building, and the degree to which it contributes to its three-dimensional form, regardless of whether it is visible.
- Whether the demolition or removal of any part of the building contributes to the long-term conservation of the significant fabric of the building.
- Whether the demolition will adversely affect the conservation of the heritage place.
- Whether there are any exceptional circumstances.

Where approval is granted for full demolition of a significant building, a recording program including, but not limited to, archival photographic recording and/or measured drawings may be required prior to demolition, to the satisfaction of the responsible authority.

Alterations

It is policy that:

- External fabric which contributes to the cultural significance of the heritage place, on any part of a significant building, and on any visible part of a contributory building, should be preserved.
- Alterations to non-contributory buildings and fabric are respectful of, and do not detract from the assessed significance of the heritage precinct.
- Sandblasting of render, masonry or timber surfaces and painting of previously unpainted surfaces will not generally be permitted.
- Removal of paint from original unpainted masonry or other surfaces be encouraged provided it can be undertaken without damage to the heritage place.
- Reconstruction of an original awning or verandah is based on evidence of the original form, detailing and materials.
- Any new awning or verandah is an appropriate contextual design response compatible with the location on the heritage place and one that can be removed without loss of fabric that contributes to the cultural value of the heritage place.

Before deciding on an application to alter the fabric of a significant or contributory building, the responsible authority will consider, as appropriate:

- The assessed cultural significance of the building and heritage place.
- The degree to which the alterations would detract from the significance, character and appearance of the building and heritage place.
- Its structural condition.
- The character and appearance of the proposed replacement materials.
- Whether the alterations can be reversed without loss of fabric which contributes to the significance of the heritage place.

Additions

It is policy that:

Additions to buildings in a heritage precinct are respectful of and in keeping with:

- ‘Key attributes’ of the heritage precinct, as identified in the precinct Statement of Significance.
- Precinct characteristics including building height, massing and form; style and architectural expression; details; materials; front and side setbacks; and orientation.
- Character and appearance of nearby significant and contributory buildings.
- Where abutting a lane, the scale and form of heritage fabric as it presents to the lane.

It is policy that:

Additions to significant or contributory buildings:

- Are respectful of the building’s character and appearance, scale, materials, style and architectural expression.
- Do not visually dominate or visually disrupt the appreciation of the building as it presents to the street.
- Maintain the prominence of the building by setting back the addition behind the front or principal part of the building, and from other visible parts and moderating height.
- Do not build over or extend into the air space directly above the front or principal part of the significant or contributory building.
- Retain significant roof form within the setback from the building façade together with roof elements of original fabric.
- Do not obscure views of façades or elevations associated with the front or principal part of the building.
- Are distinguishable from the original fabric of the building.

The design of additions is to:

- Adopt high quality and respectful contextual design.
- Avoid direct reproduction of the form of historic fabric.
- Adopt an interpretive design approach to other details such as verandahs, fences, and shopfronts.

Concealment of additions

It is policy that:

Additions to a significant or contributory building are concealed in significant streetscapes. In other streetscapes, additions to significant buildings are concealed. For a second-storey addition to a single storey building, concealment is often achieved by setting back the addition at least 8 metres behind the front facade.

In streetscapes that are not significant, additions to contributory buildings should be partly concealed. Some of the addition or higher rear part(s) may be visible, provided it does not dominate or reduce the prominence of the building's façade(s) and the streetscape.

All ground level additions to the side of a building should be set back behind the front or principal part of the building.

All additions to corner properties may be visible, but should be respectful of the significant or contributory building in terms of scale and placement, and not dominate or diminish the prominence of the building or adjoining contributory or significant building.

New Buildings

It is policy that:

New buildings are in keeping with ‘key attributes’ of the heritage precinct as identified in the precinct Statement of Significance and:

- Key attributes of the heritage precinct such as:
 - Building height, massing and form; style and architectural expression; details; materials; front and side setbacks; and orientation and fencing.
 - Prevailing streetscape height and scale.
- Do not obscure views from the street(s) and public parks of the front or principal part of adjoining significant or contributory places or buildings.
- Do not visually dominate or visually disrupt the appreciation of the heritage place.
- Maintain a façade height which is consistent with that of adjoining significant or contributory buildings, whichever is the lesser.
- Set back higher building components so as not to dominate or reduce the prominence of an adjoining significant or contributory place or building.
- Do not adopt a façade height which is significantly lower than prevailing heights in the street.
- Are neither positioned forward of the façade of adjoining significant or contributory heritage places or buildings, or set back significantly behind the prevailing building line in the street.
- Do not build over or extend into the air space directly above the front or principal part of an adjoining significant or contributory building or heritage place.
- Where abutting a lane, are respectful of the scale and form of historic fabric of heritage places abutting the lane.
- Do not impact adversely on Aboriginal cultural heritage values.

The design of new buildings are to:

- Adopt high quality and respectful contextual design.
- Adopt an interpretive design approach to other details such as verandahs, fences and shopfronts.

Concealment of higher rear parts of a new building:

In significant streetscapes, higher rear parts of a new building should be concealed.

In other streetscapes, higher rear parts of a new building should be partly concealed. Some of the higher rear part may be visible, provided it does not dominate or reduce the prominence of the building's façade(s) and the streetscape.

Restoration and Reconstruction

It is policy to encourage the restoration and/or reconstruction of a heritage place.

Any reconstructive or restoration buildings and/or works to any part of a significant building, or any visible part of a contributory building should form part of an authentic restoration or reconstruction process, or should not preclude such a process at a future date.

Restoration or reconstruction of a building is to be based on evidence of what a building originally looked like. It may be assisted by reference to elements of nearby identical buildings, other parts of the building or early photographs and plans.

Subdivision

It is policy that:

Subdivision of a heritage place:

- Reflect the pattern of development in the street or precinct, whichever is most relevant to the place.

- Maintain appropriate settings and contexts for significant and contributory heritage buildings and places including the retention of any original garden areas, large trees and other features which contribute to the significance of the heritage place.
- Not provide for future development which will visually disrupt the setting and impact on the presentation of the significant or contributory building.
- Provide for three dimensional building envelopes for future built form to each new lot proposed. Subdivision of airspace above heritage buildings, to provide for future development, is discouraged.

Relocation

It is policy that:

- A building be retained in-situ unless it can be shown that the place has a history of relocation and/or is designed for relocation.
- An application to relocate a building should include recording its location on the site prior to relocation and supervision of its relocation by an appropriately qualified person.

Vehicle Accommodation and Access

It is policy that:

The introduction of on-site car parking, garages and carports, and vehicle crossovers is discouraged and should only be permitted where the following performance standards can be met:

- Car parking is located to the rear of the property, where this is an established characteristic.
- Any new garage or carport is placed behind the principal or front part of the building (excluding verandahs, porches, bay windows or similar projecting features), and:
 - it will be visually recessive;
 - it will not conceal an original contributory element of the building (other than a plain side wall); and
 - the form, details and materials will be respectful of the building, but not replicate details of the building.
- Ramps to basement or sub-basement car parking are located to the rear of the property, or to a side street or side lane boundary, where they would not visually disrupt the setting of the significant or contributory building, or impact on the streetscape character.

Fences and Gates

It is policy that:

- where fences or gates to the front or principal part of a heritage place reconstruct an original fence or gate, this is based on evidence of the original form, detailing and materials; or
- the new fence or gate is an appropriate contextual design response, and the style, details and materials are interpretive and consistent with the architectural period of the heritage place and established street characteristics and:
 - it does not conceal views of the building or heritage place; and
 - is a maximum height of 1.5 metres; and
 - is more than 50% transparent.

Trees

It is policy that:

Trees with assessed cultural significance (as noted in the schedule to the Heritage Overlay) be retained wherever possible.

Buildings and works respect trees with assessed cultural significance (as noted in the schedule to the Heritage Overlay) by siting proposed new development at a distance that ensures the ongoing health of the tree.

New buildings and works comply with the *Australian Standard AS 4970-2009 Protection of Trees on Development Sites* for vegetation of assessed significance.

Services and Ancillary fixtures

It is policy that:

- The installation of services and ancillary fixtures, in particular those that will reduce greenhouse gas emissions or water consumption such as solar panels, solar hot water services or water storage tanks, may be permitted on any visible part of significant or contributory buildings where it can be demonstrated there is no feasible alternative and the services and ancillary fixtures will not detract from the character and appearance of the building or heritage place.
- Items affixed to roofs, such as solar panels, align with the profile of the roof.
- Services and ancillary fixtures are installed in a manner whereby they can be removed without damaging significant fabric.
- For new buildings, services and ancillary fixtures are concealed, integrated or incorporated into the design of the building.

Street Fabric and Infrastructure

It is policy that:

Street furniture, including shelters, seats, rubbish bins, bicycle racks, drinking fountains and the like, is designed and sited to avoid:

- impacts on views to significant or contributory places and contributory elements; and
- physical impacts on bluestone kerbs, channels and gutters, other historic street infrastructure, lanes and street tree plantings.

For existing historic street/lane fabric and infrastructure, restoration, reconstruction and maintenance be carried out in a way that retains the original fabric, form and appearance.

Signage

It is policy that:

Existing signage that is deemed to have heritage value be retained, and not altered or obscured, including historic painted signage.

New signage associated with heritage places:

- Minimise visual clutter.
- Not conceal architectural features or details which contribute to the significance of the heritage place.
- Not damage the fabric of the heritage place.
- Be in keeping with historical signage in terms of size and proportion in relation to the heritage place.
- Be placed in locations where they were traditionally placed.
- Be readily removable.
- Address all relevant performance standards of Clause 22.07 – Advertising Signage.

PART B

~~This Part of the policy applies to properties graded A to D within the *Heritage Places Inventory February 2020 Part B*, and those properties within the suburb of Melbourne that are referred to in the *Central City Heritage Study Review, 1993* and not categorised significant or contributory by an incorporated document to this Scheme.~~

Amendment C396 Heritage Category Conversion Review, Lovell Chen and Anita Brady Heritage, July 2021

Policy Basis

~~The Municipal Strategic Statement identifies that Melbourne has a high-quality, rich and diverse urban environment. Heritage is an extremely significant component of Melbourne's attractiveness, its character and its distinction, and therefore its appeal as a place to live, work and visit. This policy is the mechanism to conserve and enhance places and areas of architectural, social or historic significance and aboriginal archaeological sites and to encourage development which is in harmony with the existing character and appearance of designated heritage places and areas. This policy is consistent with policy document *Urban Conservation in the City of Melbourne*, which has been in operation since 1985 and has contributed to the conservation of the character of places of heritage significance.~~

Objectives

- ~~■ To conserve all parts of buildings of historic, social or architectural interest which contribute to the significance, character and appearance of the building, streetscape or area.~~
- ~~■ To ensure that new development, and the construction or external alteration of buildings, make a positive contribution to the built form and amenity of the area and are respectful to the architectural, social or historic character and appearance of the streetscape and the area.~~
- ~~■ To promote the identification, protection and management of aboriginal cultural heritage values.~~

Policy

~~The following matters will be taken into account when considering planning applications for Heritage Places within the Heritage Overlay.~~

Performance Standards for Assessing Planning Applications

The performance standards outline the criteria by which the heritage aspects of planning applications will be assessed. Definitions of words used in these performance standards and an explanation of building and streetscape grading's are included at the end of this policy.

In considering applications under the Heritage Overlay, regard should be given to the heritage places listed in the individual conservation studies and their significance as described by their individual Building Identification Sheets and the individual Statements of Significance which are incorporated documents in this scheme. The Building Identification Sheets and Statements of Significance include information on the age, style, notable features, integrity and condition of the heritage place.

Demolition

Demolishing or removing original parts of buildings, as well as complete buildings, will not normally be permitted in the case of 'A' and 'B', the front part of 'C' and many 'D' graded buildings. The front part of a building is generally considered to be the front two rooms in depth.

Before deciding on an application for demolition of a graded building the responsible authority will consider as appropriate:

- The degree of its significance.
- The character and appearance of the building or works and its contribution to the architectural, social or historic character and appearance of the streetscape and the area.
- Whether the demolition or removal of any part of the building contributes to the long-term conservation of the significant fabric of that building.
- Whether the demolition or removal is justified for the development of land or the alteration of, or addition to, a building.

A demolition permit should not be granted until the proposed replacement building or works have been approved.

Renovating Graded Buildings

Intact significant external fabric on any part of an outstanding building, and on any visible part of a contributory building, should be preserved. Guidelines on what should be preserved are included in *Urban Conservation in the City of Melbourne*.

In considering a planning application to remove or alter any fabric, consideration will be given to:

- The degree of its significance.
- Its contribution to the significance, character and appearance of a building or a streetscape.
- Its structural condition.
- The character and appearance of proposed replacement materials.
- The contribution of the features of the building to its historic or social significance.

Where there is evidence of what a building originally looked like, renovation of any part of an outstanding building, or any visible part of a contributory building, should form part of an authentic restoration or reconstruction process, or should not preclude it at a future date. Evidence of what a building used to look like might include other parts of the building or early photographs and plans.

Where there is no evidence of what a building originally looked like, renovations should preferably be respectful of an interpretive modern design, rather than "guesswork" reconstruction or any other form of reproduction design.

Sandblasting and Painting of Previously Unpainted Surfaces

Sandblasting of render, masonry or timber surfaces and painting of previously unpainted surfaces will not normally be permitted.

Designing New Buildings and Works or Additions to Existing Buildings

Form

The external shape of a new building, and of an addition to an existing building, should be respectful in a Level 1 or 2 streetscape, or interpretive in a Level 3 streetscape.

Facade Pattern and Colours

The facade pattern and colours of a new building, and of an addition or alteration to an existing building, should be respectful where visible in a Level 1 streetscape, and interpretive elsewhere.

Materials

The surface materials of a new building, and of an addition or alteration to an existing building, should always be respectful.

Details

The details (including verandahs, ornaments, windows and doors, fences, shopfronts and advertisements) of a new building, and of an addition or alteration to an existing building, should preferably be interpretive, that is, a simplified modern interpretation of the historic form rather than a direct reproduction.

Concealment Of Higher Rear Parts (Including Additions)

Higher rear parts of a new building, and of an addition to an existing graded building, should be concealed in a Level 1 streetscape, and partly concealed in a Level 2 and 3 streetscape. Also, additions to outstanding buildings ('A' and 'B' graded buildings anywhere in the municipality) should always be concealed. In most instances, setting back a second-storey addition to a single-storey building, at least 8 metres behind the front facade will achieve concealment.

These provisions do not apply to land within schedule 5 to the Capital City Zone (City North).

Facade Height and Setback (New Buildings)

The facade height and position should not dominate an adjoining outstanding building in any streetscape, or an adjoining contributory building in a Level 1 or 2 streetscape. Generally, this means that the building should neither exceed in height, nor be positioned forward of, the specified adjoining building. Conversely, the height of the facade should not be significantly lower than typical heights in the streetscape. The facade should also not be set back significantly behind typical building lines in the streetscape.

These provisions do not apply to land within schedule 5 to the Capital City Zone (City North).

Building Height

The height of a building should respect the character and scale of adjoining buildings and the streetscape. New buildings or additions within residential areas consisting of predominantly single and two-storey terrace houses should be respectful and interpretive.

Archaeological Sites

Proposed development must not impact adversely on the aboriginal cultural heritage values, as indicated in an archaeologist's report, for any site known to contain aboriginal archaeological relics.

Sites of Historic or Social Significance

An assessment of a planning application should take into account all aspects of the significance of the place. Consideration should be given to the degree to which the existing fabric demonstrates the historic and social significance of the place, and how the proposal will affect this significance. Particular care should be taken in the assessment of cases where the diminished architectural condition of the place is outweighed by its historic or social value.

Definitions of Words Used in the Performance Standards

Concealed means not visible from any part of the street serving the front of the building, as defined under ‘visible’. ‘Partly concealed’ means that a limited amount of the addition or higher rear part may be visible, provided it does not dominate the appearance of the building’s facade and the streetscape.

Conservation means looking after a place to retain its heritage significance. It may include maintenance, preservation, restoration, reconstruction and adaptation to accommodate new uses.

Context means:

- The surrounding area as a whole
- Adjoining or nearby significant buildings or works
- In the case of additions or alterations, significant parts of the subject building.

Contributory building means a ‘C’ grade building anywhere in the municipality, or a ‘D’ grade building in a Level 1 or Level 2 streetscape.

Cultural significance means aesthetic, historic, scientific or social value for past, present and future generations.

Enhancement means:

- Encouraging removal of buildings or objects that detract from an area’s character and appearance.
- Allowing replacement of buildings or objects that do not contribute to an area’s character and significance by a building of a sympathetic new design.
- Allowing new works specifically designed to enhance an area’s character and appearance.

Fabric means all the physical material of the place.

Outstanding building means a grade A or B building anywhere in the municipality.

Preservation means maintaining the fabric of a place in its existing state and retarding deterioration.

Reconstruction means returning a place as nearly as possible to a known earlier state and is distinguished by the introduction of materials (new or old) into the fabric. This is not to be confused with either ‘recreation’ or ‘conjectural reconstruction’.

Respectful and interpretive refer to design that honestly admits its modernity while relating to the historic or architecturally significant character of its context. ‘Respectful’ means a design approach in which historic building size, form, proportions, colours and materials are adopted, but modern interpretations are used instead of copies of historic detailing and decorative work. ‘Interpretive’ means a looser reference to historic size, form, proportions, colours, detailing and decoration, but still requires use of historic or closely equivalent materials.

Restoration means returning the existing fabric of a place to a known earlier state by removing accretions or later additions or by reassembling existing components without the introduction of new material.

Significant means of historic, architectural or social value for past, present or future generations. All graded buildings are significant. ‘Significant parts’ of a graded building means parts which contribute to the historic, architectural or social value of the building. The Building Identification Forms within *City of Melbourne Conservation Schedule* highlight many of the significant parts of each building.

Visible means anything that can be seen from any part of the street serving the front of the building including:

- Side elevations that are readily visible from the front street.
- Anything that can be seen from a side or rear laneway, if the laneway itself is classified as a Level 1 or 2 streetscape.

Grading of Buildings and Streetscape Levels

Every building of cultural significance has been assessed and graded according to its importance. Streetscapes, that is complete collections of buildings along a street frontage, have also been graded for planning control purposes. The individual buildings are grade A to D, the streetscapes from Level 1 to 3, both in descending order of significance. The grade of every building and streetscape is identified in the incorporated document *Heritage Places Inventory February 2020 Part B*.

‘A’ Buildings

‘A’ buildings are of national or state importance, and are irreplaceable parts of Australia’s built form heritage. Many will be either already included on, or recommended for inclusion on the Victorian Heritage Register or the Register of the National Estate.

‘B’ Buildings

‘B’ buildings are of regional or metropolitan significance, and stand as important milestones in the architectural development of the metropolis. Many will be either already included on, or recommended for inclusion on the Register of the National Estate.

‘C’ Buildings

‘C’ buildings demonstrate the historical or social development of the local area and /or make an important aesthetic or scientific contribution. These buildings comprise a variety of styles and building types. Architecturally they are substantially intact, but where altered, it is reversible. In some instances, buildings of high individual historic, scientific or social significance may have a greater degree of alteration.

‘D’ buildings

‘D’ buildings are representative of the historical, scientific, architectural or social development of the local area. They are often reasonably intact representatives of particular periods, styles or building types. In many instances alterations will be reversible. They may also be altered examples which stand within a group of similar period, style or type or a street which retains much of its original character. Where they stand in a row or street, the collective group will provide a setting which reinforces the value of the individual buildings.

Level 1 Streetscapes

Level 1 streetscapes are collections of buildings outstanding either because they are a particularly well preserved group from a similar period or style, or because they are highly significant buildings in their own right.

Level 2 Streetscapes

Level 2 streetscapes are of significance either because they still retain the predominant character and scale of a similar period or style, or because they contain individually significant buildings.

Level 3 Streetscapes

Level 3 streetscapes may contain significant buildings, but they will be from diverse periods or styles, and of low individual significance or integrity.

INTRODUCTION

Buildings contained in the Heritage Overlay of the Melbourne Planning Scheme which are categorised as 'significant' or 'contributory' are listed in this document. This document also indicates whether they are located in a significant streetscape.

Buildings contained in the Heritage Overlay of the Melbourne Planning Scheme are 'non-contributory' if they are not:

- Categorised as 'significant' or 'contributory' in this document or another incorporated heritage document to the Melbourne Planning Scheme, or
- Graded in ~~the *Heritage Places Inventory 2020 Part B* or another~~ incorporated heritage document to the Melbourne Planning Scheme, or
- Contained in the *Central City Heritage Study Review 1993*.

The property listings are divided into the following geographical areas:

- Carlton ~~and Carlton North~~;
- East Melbourne and Jolimont;
- Flemington and Kensington;
- Melbourne;
- North and West Melbourne;
- Parkville;
- Southbank, South Wharf ~~and~~, Docklands ~~and~~ Port Melbourne; and
- South Yarra.

Within each area individual properties are listed alphabetically by street name and numerically.

In addition to this document, further information regarding ~~each of these~~ heritage buildings ~~can be found in is recorded on~~ the relevant ~~heritage study, statement of significance and/or~~ "Building Identification Form". ~~These Building Identification Forms are available for inspection at Council's Development Planning Department.~~

The policies ~~in the Melbourne Planning Scheme~~ applied by ~~the Responsible Authority Council~~ when considering relevant ~~planning~~ permit applications are dependent on the particular building category and whether it is in a significant streetscape. ~~These policies are the "Heritage Places In the Capital City Zone" local policy at Clause 22.04 and the "Heritage Places Outside The Capital City Zone" local policy at Clause 22.05 of the Melbourne Planning Scheme.~~

The building category and significant streetscape definitions are ~~provided on the following page in the~~ Melbourne Planning Scheme.

DEFINITIONS

The definitions used for each of the heritage place categories are as follows:

'Significant' heritage place:

A 'significant' heritage place is individually important at state or local level, and a heritage place in its own right. It is of historic, aesthetic, scientific, social or spiritual significance to the municipality. A 'significant' heritage place may be highly valued by the community; is typically externally intact; and/or has notable features associated with the place type, use, period, method of construction, siting or setting. When located in a heritage precinct a 'significant' heritage place can make an important contribution to the precinct.

'Contributory' heritage place:

A 'contributory' heritage place is important for its contribution to a heritage precinct. It is of historic, aesthetic, scientific, social or spiritual significance to the heritage precinct. A 'contributory' heritage place may be valued by the community; a representative example of a place type, period or style; and/or combines with other visually or stylistically related places to demonstrate the historic development of a heritage precinct.

'Contributory' places are typically externally intact, but may have visible changes which do not detract from the contribution to the heritage precinct.

'Non-contributory' (-) place:

A 'non-contributory' place does not make a contribution to the cultural significance or historic character of the heritage precinct.

The definition used for a 'significant streetscape' is as follows:

'Significant streetscapes' are collections of buildings outstanding either because they are a particularly well preserved group from a similar period or style, or because they are a collection of buildings significant in their own right.

29-31 Rathdowne Street, Carlton Statement of Significance

HERITAGE PLACE	29-31 Rathdowne Street	PS REF NO	HO809
STREET ADDRESS	29-31 Rathdowne Street		

What is significant?

The former manufacturing building at 29-31 Rathdowne Street, Carlton, constructed in 1919 for George Khyat's Continental Suspender Manufacturing Company, is significant.

How it is significant?

The former manufacturing building at 29-31 Rathdowne Street, Carlton, is of historical and aesthetic significance.

Why it is significant?

The former manufacturing building at 29-31 Rathdowne Street, Carlton, is of historical significance (Criterion A). It was constructed in 1919 for George Khyat's Continental Suspender Manufacturing Company. The Khyat family, originally from Lebanon and Syria, were prominent in textile and clothing related businesses in Melbourne at this time, with family members variously running businesses in the city, in leather and fancy goods, and embroidery operations. The Khyat family remained at the Rathdowne Street premises until 1951, with the building continuing to be used for manufacturing related purposes until, unusually for Carlton, 1988. Since that time the property has been used as offices. The building is also significant for demonstrating the local pattern of small scale manufacturing and light industry, as established in Carlton in the early twentieth century and interwar period. It reflected the trend of comparatively small scale buildings of this type being constructed on generally limited footprints. The subject building also shares the history of many of Carlton's former manufacturing or light industrial buildings in that it has been adapted to a later use.

The building at 29-31 Rathdowne Street, Carlton, is also of aesthetic significance (Criterion E). Distinguishing characteristics include the tall two-storey form, red brick and render materiality, and the articulated bays of the façade, with the red brick pilasters extending up and through the prominent panelled and rendered parapet. The lack of setback additionally distinguishes the property in the Rathdowne Street context, drawing attention to what is an atypical factory building in an otherwise mainly residential street, noted for some grand residential development of the 1880s and later.

Carlton Heritage Review, March 2021

2 Bayswater Road, Kensington Statement of Significance

HERITAGE PLACE	2 Bayswater Road, Kensington	PS REF NO	HO205
STREET ADDRESS	2 Bayswater Road, Kensington		

What is significant?

The dwelling at 2 Bayswater Road, Kensington, which was constructed in c. 1911-12, and is a single-storey weatherboard Federation-era villa.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the asymmetrical form and massing, hipped and gabled roof form, projecting gable-ended bay and adjoining verandah.
- Original Federation-era materials and details including weatherboard cladding, roughcast render and timber strapping.
- Leadlight window.

Later elements including the timber picket fence are not significant.

How it is significant?

The dwelling at 2 Bayswater Road, Kensington, is of local representative significance to the City of Melbourne.

Why it is significant?

The c. 1911-12 dwelling at 2 Bayswater Road, Kensington is a representative example of a Federation-era villa, as was erected in the suburb in this period, and is largely externally intact. It has an asymmetrical form and massing, given emphasis by a gable-ended bay which projects to the street. The gable is finished in typical materials such as roughcast render and diagonal timber strapping, with a later but finely detailed tripartite leadlight window in the projecting bay. The verandah, again typically located under the main roof, is distinguished by its turned timber posts and timber fretwork frieze.

90-92 Bayswater Road, Kensington Statement of Significance

HERITAGE PLACE	90-92 Bayswater Road, Kensington	PS REF NO	HO1384
STREET ADDRESS	90-92 Bayswater Road, Kensington		

What is significant?

The dwelling at 90-92 Bayswater Road, Kensington, which was constructed in c. 1908-9, and is a single-storey weatherboard Federation-era villa.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the asymmetrical form and massing, projecting gable-ended bay and adjoining verandah.
- Original Federation-era materials and details including the horizontal weatherboards to the gable, block-fronted weatherboards to the remainder of the façade, and verandah details including the turned timber posts and timber fretwork frieze.

Later elements including the steel and wire front fence are not significant.

How it is significant?

The dwelling at 90-92 Bayswater Road, Kensington, is of representative significance to the City of Melbourne.

Why it is significant?

The c. 1908-9 dwelling at 90-92 Bayswater Road, Kensington is a representative example of a Federation-era villa, as was erected in the suburb in this period, and is largely externally intact. It has an asymmetrical form and massing, given emphasis by a gable-ended bay which projects to the street. The latter has horizontal weatherboards to the gable with a scalloped edge detailing, in contrast to the rest of the gable wall and overall façade which is finished in block-fronted weatherboards. Other details of note, which assist in distinguishing this dwelling, include the timber-framed verandah with a convex roof profile, turned timber posts and timber fretwork frieze; and carved timber architraves and undersills to windows.

17-19 Bayswater Road, Kensington Statement of Significance

HERITAGE PLACE	17-19 Bayswater Road, Kensington	PS REF NO	HO198
STREET ADDRESS	17-19 Bayswater Road, Kensington		

What is significant?

The c. 1924-5 single-storey brick bungalow at 17-19 Bayswater Road, Kensington.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the single-storey bungalow form, hipped roof with broad gable end, and elevated and gabled central portico.
- Original materials and details including red brick, Marseilles-pattern terracotta tiles and terracotta finials, roughcast render, timber strapping and turned timber posts.

How it is significant?

The dwelling at 17-19 Bayswater Road, Kensington, is of local representative significance to the City of Melbourne.

Why it is significant?

The dwelling at 17-19 Bayswater Road, Kensington, is a representative example of an early 1920s bungalow, albeit one which displays some late Federation elements in its design and form. These include the red brick expression, hipped roof clad in unglazed Marseilles-pattern terracotta tiles with roof ridges embellished with terracotta finials, and roughcast rendered gables with timber strapping. The house is also distinguished by its high level of external intactness and its elevated presentation, with steps rising to a centrally located brick portico. The latter reiterates motifs present on the broader building, including the terracotta-clad roof with roughcast timber-strapped gable. Turned timber posts which rise from a red brick balustrade, and the flanking canted bay windows with broad overhanging awnings, give further emphasis to the prominent portico.

Primary source

Amendment C396 Heritage Category Conversion Review, Lovell Chen, 2020.

59 Bayswater Road, Kensington Statement of Significance

HERITAGE PLACE	59 Bayswater Road, Kensington	PS REF NO	HO201
STREET ADDRESS	59 Bayswater Road, Kensington		

What is significant?

The single-storey brick dwelling of c. 1906-07, at 59 Bayswater Road, Kensington.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the hipped roof, bullnose-profile verandah, with simple cast iron lacework, extending between brick wingwalls, and rendered chimneys.
- Original materials and details including the brickwork (preferably with paint removed), bracketed eaves and timber-framed double-hung sash windows.

Later elements including the metal picket fence are not significant.

How it is significant?

The dwelling at 59 Bayswater Road, Kensington, is of representative significance to the City of Melbourne.

Why it is significant?

The dwelling at 59 Bayswater Road, Kensington, was constructed in c. 1906-07 and is a representative example of a modestly scaled brick dwelling of the early twentieth century. It was also likely constructed by its owner, John Charles Pain, who had several properties in Bayswater Road in this period. While the dwelling presents as an understated Italianate villa, more typical of the late nineteenth century, its 1906-7 date places it at a time when red brick English styles had caught the popular imagination in Melbourne and were being constructed in large numbers in the middle ring of suburbs. This distinguishes the dwelling as a transitional building with its brick exterior, albeit overpainted, embellished by some classical details. The latter include the hipped roof with bracketed eaves; bullnose-profile verandah with simple cast iron lacework extending between brick wingwalls; timber-framed double-hung sash windows to the facade; and rendered chimneys with molded cornices. The dwelling is also uncommon in Kensington for its brick materiality, where timber was the predominant construction material for most houses of this size.

Amendment C396 Heritage Category Conversion Review, Lovell Chen, 2020.

83 Bayswater Road, Kensington Statement of Significance

HERITAGE PLACE	83 Bayswater Road, Kensington	PS REF NO	HO204
STREET ADDRESS	83 Bayswater Road, Kensington		

What is significant?

The dwelling at 83 Bayswater Road, Kensington, which was constructed in c.1921-22, and is a single-storey brick bungalow.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the bungalow form and massing, with a transverse roof, projecting gabled bay and adjoining wide verandah.
- Original interwar-era materials and details including the face brickwork, roughcast render, verandah balustrade, and timber-framed multi-paned windows.

Later elements including the low stone fence/border to the front of the property and weatherboard addition to the west side are not significant.

How it is significant?

The dwelling at 83 Bayswater Road, Kensington, is of representative significance to the City of Melbourne.

Why it is significant?

The dwelling at 83 Bayswater Road, Kensington, as constructed in c.1921-22, is a representative example of a local interwar brick bungalow which is largely externally intact. The dwelling has a typical bungalow form and plan, including a projecting gabled bay and adjoining wide verandah to the front, set beneath a transverse roof form with gables to the east and west ends. While typical, the dwelling is also distinguished by its simple detailing and handsome presentation to the street. Elements of note include the roughcast render as expressed to the gable in the projecting bay and replicated/complemented in the verandah balustrade, with its elegant bowed capping and paired timber columns to the piers at each end. The tripartite timber-framed window of the projecting gable is set beneath a bracketed awning, with the window detail and treatment also carried through to the verandah. The visible addition on the west side impacts on the original bungalow form and presentation but is ultimately a removable/reversible later element.

Amendment C396 Heritage Category Conversion Review, Lovell Chen, 2020.

19 Gower Street, Kensington Statement of Significance

HERITAGE PLACE	19 Gower Street, Kensington	PS REF NO	HO233
STREET ADDRESS	19 Gower Street, Kensington		

What is significant?

The c.1882 bichromatic brick Victorian villa, at 19 Gower Street, Kensington.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the asymmetrical form and massing, hipped roof and prominent chimneys, projecting canted bay and adjoining verandah.
- Original Victorian-era materials and details including bichrome brickwork with tuckpointing, slate roof cladding and bracketed eaves.

Reinstated elements, such as the verandah frieze, are sympathetic.

Later elements including the timber picket fence are not significant.

How it is significant?

The Victorian villa at 19 Gower Street, Kensington is of historical and representative significance to the City of Melbourne.

Why it is significant?

The Victorian villa at 19 Gower Street, Kensington, is of historical significance. It was constructed in c. 1882, during the Boom period in Melbourne, as one of three adjoining complementary villas (nos 15, 17 and 19 Gower Street) to a design by architect Thomas Watts. This represents an unusually substantial development and investment in Kensington for this period, with the subject dwelling clearly continuing to read as a substantial Victorian house. This aspect of significance is enhanced by the survival of 15 Gower Street (HO232).

The dwelling is also of representative heritage value, as an example of a large and highly externally intact single-storey Victorian villa of the early 1880s. It is distinguished by its asymmetrical form and massing, including the projecting canted bay and adjoining verandah, and well-executed Victorian features and details. The latter include the bichrome brickwork with tuckpointing to the façade, slate-clad hipped roof with bracketed eaves and the prominent bichrome brick chimneys.

Amendment C396 Heritage Category Conversion Review, Lovell Chen, 2020.

17 Westbourne Road, Kensington Statement of Significance

HERITAGE PLACE	17 Westbourne Road, Kensington	PS REF NO	HO266
STREET ADDRESS	17 Westbourne Road, Kensington		

What is significant?

The Victorian dwelling at 17 Westbourne Road, Kensington, which was constructed in the pre-1882 period, and is a single-storey weatherboard house.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the simple symmetrical form and massing; limited detailing; and transverse gabled-ended roof to the front part of the dwelling.
- Surviving original Victorian-era fabric.

Later elements including the verandah posts and frieze, and timber picket front fence, are not significant.

How it is significant?

The Victorian dwelling at 17 Westbourne Road, Kensington is of local historical and representative significance to the City of Melbourne.

Why it is significant?

The dwelling at 17 Westbourne Road, Kensington, is of historical significance. While the exact construction date is not known, the documentary evidence (such as municipal rate books) refers to the dwelling in 1882-3, when T L Robb was the owner. This places the house as a comparatively early dwelling in Kensington, and in this area of Westbourne Road where allotments were sold from the 1870s. The modest Victorian form and simple detailing of the dwelling reinforces the early date. Moreover, Robb was an owner of several other properties in this part of Kensington, including the historic corner shop at 43 Epsom Road which is also timber and of modest form and detailing. The significance of the subject dwelling is enhanced by its connection with other early and related buildings in this area of Kensington, which together help demonstrate aspects of local nineteenth century development.

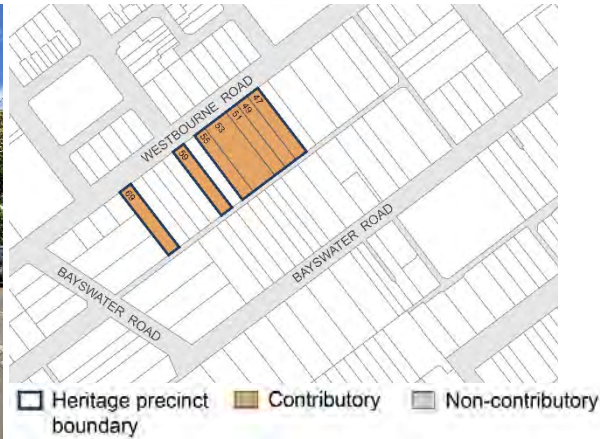

The dwelling at 17 Westbourne Road, Kensington, is also of representative heritage value, as a modest Victorian house which demonstrates its relatively early date through its simple symmetrical form and massing; limited detailing; and transverse gabled-ended roof to the front part of the dwelling. While the verandah is later, the overall Victorian character is largely retained. The elevated entrance also enhances the presentation of the dwelling to the street.

Amendment C396 Heritage Category Conversion Review, Lovell Chen, 2020.

47-55, 59 & 69 Westbourne Road Precinct, Kensington Statement of Significance

HERITAGE PLACE	47-55, 59, 69 Westbourne Road Precinct, Kensington	PS REF NO	HO868
STREET ADDRESS	47-55, 59, 69 Westbourne Road, Kensington		

What is significant?

The residential precinct in Westbourne Road, Kensington, comprising the properties at 47, 49, 51, 53, 55, 59 and 69 Westbourne Road, which are of Edwardian design and were constructed between c. 1906 and c. 1915. The properties include freestanding weatherboard dwellings which are modestly sized and mostly single-fronted, save for 53 Westbourne Road. Elements that contribute to the significance of the precinct include (but are not limited to):

- Simply-detailed timber posted verandahs to the fronts of dwellings with skillion or bullnosed roof forms; and timber balustrades, floors and steps up to the verandahs. The original verandah friezes have mostly been removed, and in some cases there are sympathetic replacements.
- Hipped, with some gabled, roof forms, with corrugated steel cladding to roofs; bracketed eaves; and brick chimneys. The gable ends are half-timbered, with roughcast render.
- Elevated entrances with front doors accessed via the verandahs; some doors have fanlights and sidelights; some doors are recessed in short verandah returns.
- Original window forms including timber-framed double-hung single sash windows; windows with sidelights; and tripartite window forms.
- Weatherboard cladding which is block-fronted and/or horizontally laid timbers.
- Non-original but generally sympathetic medium height fences including timber picket fences and 'hairpin' wire fences.
- No visible off-street parking, save for the double-fronted dwelling at 53 Westbourne Road which has a side driveway.

How it is significant?

The residential precinct in Westbourne Road, Kensington, comprising the properties at 47, 49, 51, 53, 55, 59 and 69 Westbourne Road, is of local historical and representative significance to the City of Melbourne.

Why it is significant?

The residential precinct in Westbourne Road, Kensington, is of historical significance. The dwellings in the precinct date from c. 1906 to c. 1915, which is a relatively concentrated period and is consistent with other contemporaneous development in the suburb. This development of the early 1900s is also associated with the second major historical phase of development in Kensington, following the initial period of growth of the 1880s through to the late nineteenth century.

The residential precinct in Westbourne Road, Kensington, is also of representative heritage value. The dwellings of the precinct are generally typical of many similar houses in Kensington, which were designed and built in the Edwardian period. Shared development and building characteristics include weatherboard construction, modest size and scale, elevated verandahs and entries, and an often sparing use of Edwardian details. The streetscapes containing these dwellings, as per the subject area of Westbourne Road, are also often consistent in their presentation and appearance. This includes the single-storey scale to the street, highly visible hipped and gabled roofs with chimneys, small front gardens, and a lack of visible off-street vehicle accommodation. Medium height fences, while not often original, also allow for views of the property frontages. These typical, but distinguishing and valued characteristics, are all in evidence in the subject precinct.

Amendment C396 Heritage Category Conversion Review, Lovell Chen, 2020.

72-74 Bourke Street, Melbourne Statement of Significance

HERITAGE PLACE	72-74 Bourke Street, Melbourne	PS REF NO	HO535
STREET ADDRESS	72-74 Bourke Street, Melbourne		

What is significant?

The pair of shops/commercial buildings at 72-74 Bourke Street, Melbourne, as constructed in c.1860.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the building as it presents to the street, including the upper-level façade and the separation/articulation of the ground floor shopfronts which helps demonstrate the early date.
- External materials and details including the wingwalls to the ground floor façades expressed as pilasters; string courses and other façade details; and ornamental treatments to the upper-level windows.

Later elements including the fabric and form of the ground floor shopfronts, as set between the wingwalls, are not significant.

How it is significant?

The pair of shops/commercial buildings at 72-74 Bourke Street, Melbourne, is of local historical and representative significance to the City of Melbourne.

Why it is significant?

The pair of shops/commercial buildings at 72-74 Bourke Street, Melbourne, is of historical significance. The pair is part of a row of five which was constructed in c. 1860, placing the building as an early and relatively substantial commercial development for this period in this area of Bourke Hill. Nineteenth century tenants of the subject building also demonstrate a typically wide range of historic retail and related uses, including a tobacconist, bootmakers, grocer, clothiers, sewing machine agents, a wine hall, printers and writers, and a watchmaker. Noted and long-standing restaurant, Café Florentino, occupies nos 78-80 to the west, which was part of the original row of five premises.

The subject pair of rendered masonry shops/commercial buildings is also a representative example of early shops in this eastern area of Melbourne's CBD, and part of the significant historic commercial character of Bourke Hill. While the original 1860s expression has been somewhat modified through the application of later c.1880s Italianate detailing, the pair still demonstrably read as modest early shops, with narrow frontages. The Renaissance Revival demeanor of the 1880s work also distinguishes the pair, including the wingwalls to the ground floor façades expressed as pilasters; the string courses and other façade details; and the ornamental treatments to the upper-level windows. While the shopfronts are much altered/replaced, this is not unusual for historic retail buildings, where the façades above tend to be more intact.

Amendment C396 Heritage Category Conversion Review, Lovell Chen, 2020.

86 Bourke Street, Melbourne Statement of Significance

HERITAGE PLACE	Hill of Content bookstore	PS REF NO	HO538
STREET ADDRESS	86 Bourke Street, Melbourne		

What is significant?

The 1928 three-storey retail building, known as the Hill of Content bookstore at 86 Bourke Street, Melbourne.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the building as it presents to the street, including the narrow and elegantly proportioned form of the building, the intact upper levels façade, and the understated Classical expression.
- Original materials and details including the flanking pilasters with abstract capitals, stepped parapet with dentillated detailing and horizontal banding, remnant pressed metal in the verandah soffit, windows with fine mullions and fluted sills, and other ornamentation to architraves and window heads.

The name of the original owner, 'A.H. SPENCER', and the original bookstore name, 'HILL OF CONTENT', to the façade are sympathetic elements.

Altered elements including the shopfront and verandah while not specifically significant, are also generally sympathetic.

How it is significant?

The Hill of Content bookstore, at 86 Bourke Street, Melbourne, is of local historical and aesthetic significance to the City of Melbourne.

Why it is significant?

The Hill of Content bookstore at 86 Bourke Street, Melbourne, is of historical significance. The commercial building is a purpose-built bookshop which has operated from this site since 1928, when it was originally established by Albert Henry (A H) Spencer. The choice of noted architects Peck and Kempter to design the building, emphasizes the owner's ambitions for the business, and desire at the time for a 'modern book store'. Its prominent location in the Bourke Hill area of Melbourne's CBD, where it has been continuously operating for nearly 100 years and is a well-known and even iconic retail bookstore in Melbourne, enhances its historical significance.

The Hill of Content bookstore is also of aesthetic significance, as a handsome and largely externally intact retail building of the late 1920s. It is a narrow, elegantly proportioned building, which exhibits an abstract or understated interwar Classical expression, enhanced by finely executed details. While the shopfront and verandah have been altered, this is not unusual for an historic retail building, where the façade to the upper levels remains largely intact. This is distinguished by flanking bold pilasters which stand proud of the façade's wall and rise to an abstract capital under the parapet; the stepped parapet with its trabeated arrangement, simple dentillated detailing and horizontal banding; windows with fine mullions and fluted sills, which are set back with the spandrel panels to give prominence to the temple-front form; and other ornamentation such as the fascias to architraves and window heads. The name of the original owner, 'A.H. SPENCER', and the original bookstore name, 'HILL OF CONTENT', are on the façade.

Amendment C396 Heritage Category Conversion Review, Lovell Chen, 2020.

73-77 Bourke Street, Melbourne Statement of Significance

HERITAGE PLACE	73-77 Bourke Street, Melbourne	PS REF NO	HO536
STREET ADDRESS	73-77 Bourke Street, Melbourne		

What is significant?

The building at 73-77 Bourke Street, Melbourne, comprising three-storey retail premises constructed in 1906.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the building as it presents to the street, including the upper-level façade.
- Original materials and façade details including the pilasters, windows to the upper levels with segmental arched arrangements, ornate sills, curved hood moldings and fielded undersills; and the cast iron railings at first floor level.

Later elements including the fabric and form of the ground floor shopfronts, are not significant.

How it is significant?

The building at 73-77 Bourke Street, Melbourne, comprising three-storey retail premises, is of local historical and representative significance to the City of Melbourne.

Why it is significant?

The building at 73-77 Bourke Street, Melbourne, as constructed in 1906 as a row of three, three-storey commercial/retail premises, is of historical significance. While not necessarily an early development in this area of Bourke Hill, the building through its size and prominence, and its original architectural expression, represents a reasonably substantial and prestigious development of the early twentieth century, which reinforced the commercial status of this eastern area of Melbourne's CBD.

The subject building is also a representative example of a substantial early twentieth century commercial development on Bourke Hill, which continues to be a significant building component of the east end of Bourke Street. Although overpainted, the historic expression and details of the building remain evident, through its handsome if understated Renaissance Revival façade. Distinguishing details include the pilasters which rise to fluted capitals beneath a string course at first floor level, and at the end of the façade, continue to a more elaborate, bracketed cornice at second floor level before rising to a third string course below the parapet; windows to the upper levels with segmental arched arrangements and ornate sills, curved hood moldings and fielded undersills; and original fine cast iron railings at first floor level.

Amendment C396 Heritage Category Conversion Review, Lovell Chen, 2020.

Peter Hall Building (formerly known as the Richard Berry Building), The University of Melbourne, Parkville Statement of Significance

HERITAGE PLACE	Peter Hall Building (formerly known as the Richard Berry Building)	PS REF NO	HO820
STREET ADDRESS	Part of University of Melbourne, part 156-290 Grattan Street, Parkville		

What is significant?

The Peter Hall Building (part of University of Melbourne, part 156-290 Grattan Street, Parkville), constructed in 1919-23, which originally housed the School of Anatomy and which is sited on Monash Road, within the University of Melbourne campus.

Elements which contribute to the significance of the place include (but are not limited to):

- The prominence of the building to Monash Road, near one of the eastern entries to the University, where it has been a large and recognizably dominant campus building for many decades.
- The overall fabric and form of the building, to the extent that it helps demonstrate the subject building as one of the University's Gothic Revival academic buildings.

How it is significant?

The Peter Hall Building (part of University of Melbourne, part 156-290 Grattan Street, Parkville), of 1919-23, which originally housed the School of Anatomy at the University of Melbourne, is of local historical and associative significance to the City of Melbourne.

Why it is significant?

The Peter Hall Building (part of University of Melbourne, part 156-290 Grattan Street, Parkville) is of historical significance. The building was constructed in 1919-23 to house the School of Anatomy, under the auspices of the first Professor of Anatomy, Richard Berry, and was for a long time known as the Richard Berry Building. It is significant as the focus of anatomy teaching at the University for many decades. The design of the building was undertaken by the Victorian Public Works Department (PWD), with Samuel C Brittingham being the Chief Architect at the time, although Alfred R La Gerche (also of the PWD) is attributed with the design, with one of the earliest drawings of the building, from 1919, having his initials. Richard Berry, who helped plan the building, had arrived in Melbourne in 1905 and proved to be a divisive figure due to his views on anatomy and race. His contentious views, and reputation, eventually led to a name change for the building. Peter Hall was a renowned mathematician and statistician, and in the period after anatomy left the building, he undertook much internationally recognised work there. The building is also significant for this work and for the teaching of mathematics and statistics.

The Peter Hall Building is also significant for its association with the highly controversial and contentious figure of Richard Berry. While he came to be reviled, Berry was in his time a prominent academic and an influential figure in the now discredited eugenics movement, including the Eugenics Society of Victoria. Berry also, unusually, had a significant hand in the planning of the Anatomy Building, which in turn was known as 'Berry's Folly'.

Veterinary and Agricultural Sciences Building, The University of Melbourne, Parkville Statement of Significance

HERITAGE PLACE	Veterinary and Agricultural Sciences Building	PS REF NO	HO872
STREET ADDRESS	Part of University of Melbourne, part 156-290 Grattan Street, Parkville		

Aerial image of the subject building; the red arrow indicates the original 1920s building; the section below was added in the 1950s (blue arrow), while below this again the building was extended in the 1960s (green arrow).

Source (Nearmap, November 2020)

What is significant?

The Veterinary and Agricultural Sciences Building (part of University of Melbourne, part 156-290 Grattan Street, Parkville), which is located on the east side of Royal Parade, south of Tin Alley, and was constructed in 1920-3 with later additions.

Elements which contribute to the significance of the place include (but are not limited to):

- The external fabric and form of the original 1920s component of the building.

The later additions of the 1950s and 1960s are of interest, as they represent both expansion and diversification in the Faculty of Agriculture, and its associated courses. However, as additions, they impacted on the original symmetry and form of the building, and as such are not valued for their design or architecture.

How it is significant?

The Veterinary and Agricultural Sciences Building (part of University of Melbourne, part 156-290 Grattan Street, Parkville) is of local historical significance to the City of Melbourne.

Why it is significant?

The Veterinary and Agricultural Sciences Building (part of University of Melbourne, part 156-290 Grattan Street, Parkville) is of historical significance, as the first purpose-built academic teaching facility for the study of agriculture at the University of Melbourne. The building was constructed in 1920-3, some years after agriculture was first taught at the University, albeit the course was initially underfunded and poorly supported. The revival of the course, near the end of World War I, followed the appointment of Dr A E V Richardson to the University in 1917, at that time the Superintendent of Agriculture in the Victorian Department of Agriculture; and the introduction of the *Agricultural Education Act* of 1919. Some £7,000 was provided by Government to construct the subject building, under the auspices of the Victorian Public Works Department (PWD) architects. Samuel C Brittingham was Chief Architect of the PWD at the time, although Alfred R La Gerche is regarded as responsible for the design of the building, in its original restrained neo-Georgian red brick style.

The Royal Parade location of the subject building is also part of its significance, due to the historical association with the System Garden, in what was then regarded as a 'biological precinct' in the campus. When constructed in the early 1920s, the Agriculture Building was the first academic building to be associated with the Garden, and was located on part of, and effectively intruded into, the western part of the Garden. The School of Botany was also co-located with the Agriculture Building, on the eastern side of the Garden.

285 Walsh Street, South Yarra Statement of Significance

SITE NAME	285 Walsh Street, South Yarra	PS REF NO	HO6
STREET ADDRESS	Part of 62-108 Anderson Street, South Yarra		

What is significant?

The residence at 285 Walsh Street, South Yarra, was constructed c.1935-6.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the building as it presents to the street, including the austere Modernist expression, as evidenced in the simple but well-executed cubic form, asymmetric presentation and elevated siting and entry.
- Original materials and details including the rendered expression, stepped face brick staircase and entrance landing with cantilevered canopy and rendered grille, sliding sash windows and integrated garage

How it is significant?

The residence at 285 Walsh Street, South Yarra, as constructed c.1935-6, is of local aesthetic significance to the City of Melbourne. It is a significant heritage place which also makes a contribution to the South Yarra Precinct (HO6).

Why it is significant?

The two/three-storey residence at 285 Walsh Street, South Yarra, was constructed c.1935-6 and is of aesthetic significance to the South Yarra Precinct. The dwelling was designed by noted interwar architect Marcus Martin, for L K S Mackinnon, newspaper proprietor and manager. Martin was prolific in the South Yarra area. The aesthetic significance derives from the austere Modernist expression, as evidenced in the simple but well-executed cubic form and asymmetric presentation. The elevated siting is given emphasis by the stepped brick staircase and entrance landing with cantilevered canopy and rendered grille. The sliding sash windows with understated rendered sills, including the particularly broad sliding sashes to the front façade, are of note; while the integrated garage reflects the increasing desire to provide for motor vehicle accommodation in residential design. The dwelling also reflects Martin's skill in achieving more Modernist outcomes for his clients, while designing houses which could be substantial but still sat comfortably within (what was often the case in this period) more traditional settings. His reconciliation of Modernist principles and practicality is sensitively achieved in the subject building.

310-316 Walsh Street, South Yarra Statement of Significance

HERITAGE PLACE	Clovelly Flats	PS REF NO	HO454
STREET ADDRESS	310-316 Walsh Street, South Yarra		

What is significant?

Clovelly Flats, at 310-316 Walsh Street, South Yarra, constructed in c.1939.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the building as it presents to the street, including the asymmetrical form and massing, as seen in the projecting bay on the south side with its shallow bow windows at ground and first floor levels with balconette above, and the verandah bay on the north side with its cantilevered balconies with curving brick balustrades and wrought iron inserts.
- Original materials and details including the salmon brickwork, fine detailed wrought iron, timber-framed multi-paned windows, and the original fence to the Walsh Street boundary.

How it is significant?

Clovelly Flats, at 310-316 Walsh Street, South Yarra, is of local aesthetic significance to the City of Melbourne.

Why it is significant?

Clovelly Flats, at 310-316 Walsh Street, South Yarra, is of aesthetic significance. The block of flats, which dates from the end of the interwar period when many flat blocks were constructed in South Yarra, was designed by noted architect Arthur Plaisted for builders and developers John Richards and Arthur Hawkins. The design of the building is eclectic, incorporating elements derived from Georgian Revival, Moderne and Art Nouveau sources, and skilfully combined for polite effect. The building presents to Walsh Street as a handsome if somewhat traditional design for the period, enhanced by face salmon brickwork and select use of fine detailed wrought iron. The original front fence, also in salmon brick and with wrought iron inserts, carries the building aesthetic to the street boundary. Elements of note include the asymmetrical form and massing, as reinforced in the projecting bay on the south side and verandah bay on the north side; brick chimneys expressed to the north elevations of both bays; timber-framed, multi-paned windows throughout; shallow bow windows at ground and first floor levels with balconette above on the south bay; and deep cantilevered balconies with curving brick balustrades and wrought iron inserts in the north bay.

Melbourne Planning Scheme

Incorporated Document

West Melbourne Heritage Review 2016

**Statements of Significance February 2020, updated
(Amended March ~~2021~~2022)**

HERITAGE REVIEW AREA

J. Gadsden Pty. Ltd. factory

17-37 Abbotsford Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1926
View of place:	2015

Statement of Significance

What is significant?

First stage of a factory complex commissioned by canvas manufacturer J.G. Gadsden Pty. Ltd. In 1926 to the design of architect, Frank Stapley. In 1944 a single-storey addition was made at the Ireland Street end of the complex to what was by then a food can making factory.

Contributory elements include:

- one and two storey brick main factory wing;
- pitched main roof on trusses clad with corrugated iron, Dutch-hipped over main corner bay;
- stepped parapet and trabeated form;
- brick pilasters rising to dog-toothed cornices with corbelled string moulds either side of main façade elements;
- steel-framed windows, with multi-pane glazing;
- concrete lintels over openings;
- two-storey main corner wing at Abbotsford and Ireland Streets, with raised entablature over three and two bayed main façade elements;
- entry to offices in Abbotsford Street, designed as an arched entry, now with cantilever hood; and
- firm name J. Gadsden Pty. Ltd. in cemented bas-relief on the entablature panel.

Some reduction in integrity from changes to openings and bricks being painted over; the 1944 addition is not significant.

How is it significant?

J. Gadsden Pty. Ltd. factory is significant historically and aesthetically to West Melbourne.

Why is it significant?

J. Gadsden Pty. Ltd. factory is significant.

- Aesthetically, as a well-preserved and large architect designed factory in a modern classical style (Criterion E); and
- Historically, one of the oldest custom designed factories for the Gadsden company, a nationally prominent manufacturing firm, in West Melbourne, and one of the key wartime industries of the Western suburbs, also expressive of the special role West Melbourne played in accommodating heavy transport-reliant industry because of proximity to Victoria's railway goods centre (Criterion A).

Corris or Jones house

136 Adderley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1887
View of place:	2015

Statement of Significance

What is significant?

Row house built in 1887 by prolific West Melbourne builder, John Jones, for members of the Jones family.

Contributory elements include:

- two storey parapeted stuccoed row house;
- cemented cornice moulds, masks and brackets with a raised arched entablature bearing the name 'Corris A.D. 1887' (meaning bright or clear);
- face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with frieze and integral brackets;
- double-hung sash windows, with three lights at ground floor;
- four-panel entry door and toplight; and
- cast-iron palisade front fence on dressed stone footings.

Balustrade panels incomplete or revised.

How is it significant?

Corris or Jones house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Corris or Jones house is significant.

- Historically, a well-preserved late Victorian-era row house created by prolific West Melbourne developers, the Jones family, for their own residence; representative of a major growth period in West Melbourne (Criterion A); and
- Aesthetically, a well-preserved row house, survivor of a former six house row and indicative of the past streetscape (Criterion E).

Michael Moran's row houses

162-164 Adderley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1875-
View of place:	2015

Statement of Significance

What is significant?

Row houses, built by Michael Moran in 1875.

Contributory elements include:

- two-storey paired row house form;
- stucco wall finish;
- two level cast-iron verandahs;
- iron picket palisade fencing set between modified stuccoed fence piers;
- slated roofs that are hipped and exposed above bracketed eaves;
- segment-arched openings with drip-moulds that provide a Tudor flavour to an otherwise Italianate form panelled cast-iron friezes and brackets and fringing; and
- six panel doors that lend distinction to the detailing and suggest the early Victorian-era.

Notable features include fence, verandah decoration, verandah roof and structure, and corner siting to pitched stone lane.

How is it significant?

Michael Moran's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Michael Moran's row houses are significant.

- Aesthetically, the hip roof two-storey Victorian-era row house form is an unusual combination both in West Melbourne and the City. This is a relatively early and original pair of this type, sparsely but distinctively decorated as befits its early date within the Victorian-era (Criterion E); and
- Historically, expressive of an owner-builder-developer combination, the Michael Moran family, who were typical of West Melbourne in the Victorian-era and responsible for some eight building projects in the West Melbourne area (Criterion A).

Hampson's row houses, part 169-177 Adderley Street

169-171 Adderley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1865
View of place:	2015

Statement of Significance

What is significant?

Three row houses built in 1865 for engineer and Crown Grantee, Robert Hampson.

Contributory elements include:

- a transverse-gable roofed early Victorian-era single-fronted row house form;
- single storey scale;
- concave form verandahs with shaped end walls;
- stucco wall finish, with originally moulded architraves to windows; and
- both houses formerly with distinctive, Gothic flavoured timber verandah detailing in the form of tracery-like brackets (See 173-5).

The houses at 177 and 169-171 Adderley Street have been altered, possessing their early form and basic finish: only 173-5 possesses its original Gothic detailing (possibly refurbished) with an added masonry wall base. The windows of 169-171 have been replaced with aluminium-framed windows with horizontal emphasis (see 173-5), faux tile profile cladding put on the roof and the verandah rebuilt; 177 is generally original but the tracery is missing. What were presumably timber picket fences have been replaced with iron and timber pickets.

How is it significant?

Hampson's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Hampson's row houses are significant.

- Aesthetically, the Gothic tracery details are rare in small, privately owned domestic buildings in Greater Melbourne and particularly in West Melbourne (Criterion E); and
- Historically, the house row and its owner are representative of the first 1864-5 land sales in this part of Adderley Street, the Crown Grantee Robert Hampson having constructed this house row immediately after acquisition from the Crown (Criterion A).

Hampson's row houses, part 169-177 Adderley Street 173-175 Adderley Street, WEST MELBOURNE

Clarke's grocer shop and residence

179-183 Adderley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1889
View of place:	2015

Statement of Significance

What is significant?

This corner shop and residence was designed by architect W. H. Webb and built by local contractors Fallick and Rawson for John Clarke in 1889.

Contributory elements include:

- one-level stuccoed brick, parapeted shop and residence form;
- valuable and rare timber mullioned shop fronts to Adderley and Rodin Streets
- part of the original concave roof street verandah supported on iron posts and of the Melbourne Corporation design.
- simple stucco classical detailing being a cornice and entablature to the parapet.
- original entry doors.
- typical corner shop siting; and
- termination of the contemporary streetscape of row houses to the south, being built at a lesser front setback on the frontage.

Part of the street verandah has been removed; basalt footings painted over; sign and an evaporative cooler placed in the entry highlight along with an air conditioning unit on the roof.

How is it significant?

Clarke's grocer's shop and residence is significant historically and aesthetically to West Melbourne.

Why is it significant?

Clarke's grocer's shop and residence is significant.

- Aesthetically, as a custom-designed but traditional Victorian-era corner-shop-form which is typical of row housesuburbs and underscored, in this example, by retention of the rare timber shopfront and the iron framed Melbourne Corporation street verandah. The shop and residence lends variety to the Victorian-era streetscape and is representative of the many modest commissions undertaken by W.H. Webb in the West Melbourne area (Criterion E); and
- Historically, as a corner shop over a long period, the building has played a valuable role in the history of the locality as a place frequently visited by West Melbourne residents (Criterion A).

Ellan Vanan (or Ellan Vannin), Martha Goldsmith's row house
191 Adderley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1883-4
View of place:	2015

Statement of Significance

What is significant?

This seven room brick row house was erected for a widow, Mrs Martha Goldsmith, in 1883-4, apparently as a major addition to a two room brick house.

Contributory elements include:

- two storey parapeted stuccoed row house;
- cemented and bracketed cornice moulds, vermiculated blocks and brackets with a distinctive raised pedimented entablature and balustrading;
- face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with Corinthian derived column order, cast-iron frieze and integral brackets;
- double-hung sash windows;
- four-panel entry door and toplight; and
- cast-iron double palisade front fence on stone footings.

How is it significant?

Martha Goldsmith's row house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Martha Goldsmith's row house is significant.

- Historically, as well-preserved and thus representative of a major growth period in West Melbourne (Criterion A); and
- Aesthetically, for the high integrity of the house and its distinctive cemented detailing (Criterion E).

Lochaber or Cameron house

195 Adderley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1896-7
View of place:	2015

Statement of Significance

What is significant?

Lochaber house was built in 1896-7 by Field and French of 103 Haines Street, North Melbourne for the engine driver, Donald Cameron, to the design of prolific local architect, Frederick J. Brearley, also the home of Lieut. D. R. Cameron who was awarded a Military Cross for conspicuous bravery in the field.

Contributory elements include:

- two storey brick and cemented, parapeted row house;
- two colour face brick (cream, brown);
- stylistically derivation from the Italian Renaissance Revival;
- cemented cornice moulds, statuettes, swags, rosettes, foliated blocks and brackets;
- face brick side and rear walls;
- slate clad pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with panelled cast-iron frieze and brackets, and a raised ornamented gablet above the verandah roof;
- double-hung sash windows, with a three light bay at ground floor;
- four-panel entry door and toplight with Edwardian character lead-lighting;
- cast-iron double palisade front fence on dressed stone footings; and
- contribution to a valuable Victorian-era streetscape.

The upper level verandah valence appears incomplete.

How is it significant?

Lochaber is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Lochaber is significant.

- Historically, as the home of one of the West Melbourne elite professions, that of an engine driver, and a local war hero, Lieut. D. R. Cameron, also representative of a major growth period in West Melbourne (Criterion A), and
- Aesthetically, a well-preserved custom-designed and highly ornamented row house within the City and the work of local architect, F. J. Brearley whose practice specialised in inner Melbourne housing (Criterion E).

Tyns House, part Clark's row houses, 218-220 Adderley Street 218 Adderley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1882-3
View of place:	2015

Statement of Significance

What is significant?

This row house pair and workshop (218A) were built by prolific West Melbourne contractor John Jones, of Hawke Street for William Clark, of West Melbourne in 1882-3.

Contributory elements include:

- two storey parapeted stuccoed row house pair;
- cemented cornice moulds, orbs, scrolls and brackets with a raised gabled entablature;
- face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with Corinthian derived column order, cast-iron frieze and integral brackets;
- double-hung sash windows, with three lights at ground floor at 218 and two windows for 220, differentiating Clark's residence;
- quarry tiled verandah;
- four-panel entry door and toplight;
- cast-iron palisade front fence on dressed stone footings; and
- contribution to valuable Victorian-era streetscape.

How is it significant?

William Clark's row houses (and workshop) are significant historically and aesthetically to West Melbourne.

Why is it significant?

Clark's row houses are significant.

- Historically, as well-preserved examples representative of a major growth period in West Melbourne, also linked with local builder John Jones, and a long association with local manufacturer, Joshua Proud, of Proud Brothers (Criterion A); and
- Aesthetically, well-preserved row house pair expressive of West Melbourne Victorian-era residential development as well as contributory to a locally significant streetscape (Criterion E).

John Jones' workshop

218A Adderley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Workshop
Date(s):	1882-3, 2003-4
View of place:	2015

Statement of Significance

What is significant?

This workshop was built by prolific West Melbourne contractor John Jones at the rear of a row house pair at 218-220 he had erected in 1882-3 for William Clark of West Melbourne.

Contributory elements include:

- rear two storey face brick workshop with double-hung sash windows; and
- contribution to valuable Victorian-era lane and street scape.

The workshop has been changed in the conversion for residential use in 2003-4 with altered openings, new joinery in openings, a new mansard roof and added upper level, reducing its integrity.

How is it significant?

John Jones' workshop is significant historically and aesthetically to West Melbourne.

Why is it significant?

John Jones' workshop is significant.

- Historically, as a relatively well-preserved builder's workshop that is representative of a major growth period in West Melbourne (Victorian-era), also linked with prolific local builder, John Jones, as his workshop (Criterion A); and
- Aesthetically, contributory to a locally significant streetscape and lane (Criterion E).

Clark's row house, part 218-220 Adderley Street

220 Adderley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1882-3
View of place:	2015

Statement of Significance

What is significant?

This row house pair and workshop were built in 1882-3 by prolific West Melbourne contractor John Jones, of Hawke Street for William Clark of West Melbourne.

Contributory elements include:

- two storey parapeted stuccoed row house pair;
- cemented cornice moulds, orbs, scrolls and brackets with a raised gabled entablature;
- face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with Corinthian derived column order, cast-iron frieze and integral brackets;
- double-hung sash windows, with three lights at ground floor at 218 and two windows for 220, differentiating Clark's residence;
- quarry tiled verandah;
- four-panel entry door and toplight;
- cast-iron palisade front fence on dressed stone footings; and
- contribution to valuable Victorian-era streetscape.

How is it significant?

William Clark's row houses and workshop are significant historically and aesthetically to West Melbourne.

Why is it significant?

Clark's row houses are significant.

- Historically, as well-preserved examples representative of a major growth period in West Melbourne, also linked with local builder John Jones, and a long association with local manufacturer, Joshua Proud, of Proud Brothers (Criterion A); and
- Aesthetically, well-preserved row house pair expressive of West Melbourne Victorian-era residential development as well as contributory to a locally significant streetscape (Criterion E).

William French house

263 Adderley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1875
View of place:	2015

Statement of Significance

What is significant?

The was one of two houses William French built there in 1875 as an investment on his original crown allotment of 1865. The mural on the side wall highlights the public debate in Australia over nuclear power.

Contributory elements include:

- Two-storey, stuccoed brick house, with a parapeted classical façade as a key corner element in the streetscape;
- stuccoed and ruled side elevation with 'radioactive' anti-nuclear mural (painted by owner c.1975-6);
- distinctive arcaded ground-level verandah following the Italian Renaissance Revival style;
- cast-iron columns, set on cement trapezoidal bases, supporting the three loggia arches, with their drip-moulds terminating on bosses;
- tiled verandah floor;
- elegant cemented detailing including moulded upper level window architraves with pediments and bracketed sills, a fluted string-frieze marking the storey-line;
- double-hung sash timber windows;
- early enamel street sign on side wall; and
- an iron picket fence at the frontage.

One chimney cornice has been removed and although the added mural is not contemporary with the residence, it has its own value as an early street-art political statement on nuclear energy. A basket ball hoop and backing board have been added to this elevation.

How is it significant?

The William French house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

The William French house is significant.

- Aesthetically, the house marks the early period of Italian Renaissance Revival stylistic influence on Melbourne architecture, with the relatively uncommon arcaded form and refined detailing, and it is externally near original (Criterion E); and
- Historically, the house is the best of a number of buildings by French at this corner, thus typifying the predominance of builder-owners in West Melbourne who developed their Crown Grants and amassed considerable wealth. The mural has historical interest as an early public art political statement, in this case on nuclear power that was very topical at the time (Criterion A).

Heaton House or John Greenwood's house

279 Adderley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	House
Date(s):	1888
View of place:	2015

Statement of Significance

What is significant?

Heaton House was built by John Greenwood a successful West Melbourne contractor.

Contributory elements include:

- a two-storey, parapeted and stuccoed double-fronted Victorian-era brick house;
- a two-level cast-iron verandah, with a bullnose profile roof and ornate cast iron detailing;
- siting on an unusual triangular block, facing the bay, offering counterpoint to the streetscape and prominent corner siting;
- corniced and parapeted classically detailed form which is typical of earlier buildings in the austerity of its ornament;
- rectangular raised parapet entablature, which bears the house name,
- central acroterion with scrolls;
- openings with cemented architraves; and
- French doors central to the upper level.

The fence has been replaced (possibly timber picket adjoining a capped corrugated iron fence). Part of the side-wall face brick is painted. A recent and major unrelated development abuts at the rear and dominates the side elevation of the house. An unrelated upper level rear addition is publicly visible from Railway Place.

How is it significant?

The John Greenwood house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

The John Greenwood house is significant.

- Aesthetically, the house's austere ornament and scale achieves importance from its unusual siting, original detail and prominent position (Criterion E); and
- Historically, another of the owner-builder developers of Adderley Street (Refer William French and Henry Cropley) and the area generally: in this case, resulting in a large house as a mark of success. Greenwood was one of West Melbourne's wealthiest residents and achieved some notoriety from a nationally publicised court case (Criterion A).

Interwar industrial precinct, 33-43, 45-47, 55-67 Batman Street; 15-21 Boughton Place; and 34-36, 38 Jeffcott Street.

Varies Batman and Jeffcott Streets, Boughton Place, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory group
Date(s):	1920-1940
View of place:	2015

Statement of Significance

What is significant?

This Inter-war industrial precinct includes well-preserved Interwar industrial sites.

Contributory sites include:

- W. K. Burnside Pty. Ltd. group, 34-36, 38 Jeffcott Street 1920s-1930s;
- Excelsior Manufacturing Works, 45-47 Batman Street;
- Keep Brothers and Wood bulk store, 55-67 Batman Street, 1924; and
- Boughton Place Melbourne Electricity Supply sub-station.

Contributory elements in the precinct include:

- parapeted face brick and stucco one and two storey factory streetscapes;
- zero front and side setbacks;
- use of red and manganese body brickwork, cemented and heeler brick detailing;
- originally steel-framed windows, with multi-pane glazing;
- some glass brick window groups; and
- use of terracotta tiles to the O'Donnell building façade as backing to Gill Sans style metal lettering 'W. O'Donnell Engineer'.

Many contributory elements have been redeveloped but are still legible.

How is it significant?

This Inter-war Batman and Jeffcott Streets industrial precinct is significant historically and aesthetically to West Melbourne.

Why is it significant?

This Inter-war Batman and Jeffcott Streets industrial precinct is significant.

- Historically, as representative of the Interwar growth in industrial and engineering uses in West Melbourne, near the railway, as the City grew and transport nodes developed at North Melbourne; also for the contribution of some of the factories to the Second War effort, one in engineering and the other as a canning factory (Criterion A); and
- Aesthetically, as a well-preserved examples of Interwar industrial design over the two decades of the period highlighted by the O'Donnell building's significant Moderne design by the style's renowned practitioners, Marsh and Michaelson and the landmark Keep Brothers and Wood bulk store, designed by Arthur and Hugh Peck Architects (Criterion E).

St James Anglican Old Cathedral

2-24 Batman Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Church
Date(s):	1837-, 1914
View of place:	2015

Statement of Significance

Victorian Heritage Register Statement of Significance
Heritage Victoria Register number: H11

What is significant?

St James Old Cathedral was constructed on a Crown grant site of five acres of land bounded by Collins, William and Bourke Streets with the foundation stone being laid on 9 November 1839 by Charles Joseph La Trobe, Superintendent of the District of Port Phillip. A simple timber pioneer church which preceded it was built with funds largely subscribed by Presbyterians and other denominations who made up the small community. Opened on 11 February 1837, St James was designed by Robert Russell, a London architect and surveyor who had arrived in Melbourne from Sydney on 5 October 1836. The Colonial Georgian building was constructed on bluestone footings of locally quarried sandstone. The unfinished building was opened for worship on 2 October 1842, and it was completed in 1847. The Anglican Diocese of Melbourne was founded in 1847, and on 29 June 1847 Charles Perry was consecrated in Westminster Abbey as Melbourne's first Bishop. He was enthroned in St James on 28 January 1848, and St James became the first Cathedral church of the new diocese, although it was not consecrated until 1853. When St Paul's Cathedral opened for worship on 22 January 1891 St James reverted to the status of a parish church. The diminished congregation, pressure of occupying valuable city land, and maintenance problems resulted in the church narrowly escaping demolition. It was relocated stone by numbered stone to its present site under the direction of Messrs Thomas Watts and Son, architects, re-consecrated by Archbishop Lowther Clark, and re-opened for worship on 19 April 1914. Changes made to the original design at the time of relocation include reorientation from east west to north south, the tower shortened by one stage, the main ceiling lowered a little, the sanctuary shortened by a few inches, the space between the main gallery remodelled to form a lobby and two vestries with passage and gallery stairs behind them. Two side entrances were constructed to serve the new passage.

How is it significant?

St James Old Cathedral is of historical and architectural significance to the State of Victoria.

Why is it significant?

St James Anglican Old Cathedral is significant.

- It is of historical importance as the first Cathedral in Melbourne, the earliest surviving church in Victoria, and one of Melbourne's earliest surviving buildings.
- It is of architectural importance as a rare example in Melbourne of a Colonial Georgian style building of simple design and pleasing proportions with Greek detailing at the doorways, and the only known surviving work of architect Robert Russell. Although he worked in London with eminent English architect John Nash, the style reflects his experiences in Sydney, especially the work of his contemporary Francis Clarke as well as of Francis Greenway. The interior is

important for rare and unusual features for Victoria, such as the traditional box pews of cedar, side galleries or Vice- Regal boxes originally for the use of Governor La Trobe and the Chief Justice, Baptismal font with the white marble bowl probably dating from the 17th century and coming from St Katherine's Abbey on the banks of the Thames, two mahogany pulpits presented by the ladies of the congregation in 1847. The World War 1 honour board carved by well known master wood carver Robert Prenzel and the World War 2 honour board which was copied from the earlier honour board. The stained glass windows are also of note with the 'east window' being possibly by the Melbourne firm of Ferguson and Urie, and the five windows by Christian Waller, wife of artist Napier Waller.

**W. O'Donnell Engineer works, part 33-47 Batman Street
33-43 Batman Street, WEST MELBOURNE**

New grading system:	Significant
Place type:	Factory
Date(s):	1940-1
View of place:	2015

Statement of Significance

What is significant?

Brick factory erected in 1940 for W O'Donnell engineer as designed by well known architects, Marsh and Michaelson Architect and Engineer.

Contributory elements at 33-43 Batman Street include:

- parapeted face brick single storey Modernist style factory;
- manganese and body brickwork, with heeler bricks to wall piers;
- steel framed windows, with multi-pane glazing and hopper sashes set between piers;
- glass brick window groups;
- 6"x6" terracotta tiles to façade (painted over) as backing to Gill Sans style metal lettering 'W. O'Donnell Engineer' and applied to piers at entry;
- roller shutter entry to factory floor with stone kerbed crossing;
- gabled front roof bay, and formerly steel sawtooth trusses with matching parapets, now modified but seen in profile in part on east face; and
- contribution to an Interwar industrial streetscape and precinct with factories adjoining on the west and south.

A major multi-storey development, set behind the first roof bay, has been added since 1985, reducing the integrity of the place and focussing on the façade and side-wall sawtooth profile.

How is it significant?

The W. O'Donnell Engineer factory is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

The W. O'Donnell Engineer factory is significant.

- Historically, as representative of the growth in industrial and engineering uses in West Melbourne as the central business district grew, located near the railway and additional transport nodes developed at North Melbourne (Criterion A); and
- Aesthetically, as a superb and well-preserved example of Moderne design by the style's renowned practitioners, Marsh and Michaelson (Criterion E).

Gollin and Co. Pty. Ltd. bulk store remnant
40 Batman Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Store
Date(s):	1915
View of place:	2015

Statement of Significance

What is significant?

Façade of a two-storey brick store built by Clement Langford, for successful general merchant and import firm, Gollin and Co of Melbourne, to the design of the noted architect Charles D'Ebro, in 1915. The building was reduced to a façade and side walls for a seven unit apartment block in 1999.

Contributory elements include:

- red brick two level parapeted façade and side walls with raised parapet arch; and
- punched fenestration, siting on the street.
- Bricks rendered and painted over, openings altered, windows and doors gone; roof gone.

How is it significant?

Gollin and Co Pty. Ltd. Bulk store remnant is significant historically to West Melbourne.

Why is it significant?

Gollin and Co Pty. Ltd. Bulk store remnant is significant.

- Historically, as symbolic of a successful Australian importing firm, Gollin and Company (CriterionA).

Keep Brothers and Wood bulk store, later Batman Hill Apartments

55-67 Batman Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Warehouse
Date(s):	1923-4
View of place:	2015

Statement of Significance

What is significant?

Warehouse constructed in 1923-4 for coachbuilders, ironmongers and importers, Keep Bros and Wood's to the design of well known architects, Arthur and Hugh Peck.

Contributory elements include:

- four-storey Edwardian warehouse built to the property line, providing massive scale to the street and relating well to nearby similarly monumental red brick buildings such as the Sands and McDougall complex and Goetz and Sons Pty. Ltd.;
- façade divided into 7 bays by giant order red brick piers;
- face red brick walls with terra-cotta wall vents, rendered spandrel panels and lintols;
- bullnose brick sills;
- multi-pane glazing to window pairs or groups (timber-like metal framing changed from original steel frames), set within vertical strips surmounted by an arched window within each end bay;
- transverse gabled corrugated galvanised steel roof concealed behind a rendered parapet;
- stepped raised parapet entablatures for each major bay, the central one bearing the words KEEP BROS AND WOOD PTY LTD in raised cemented lettering; and
- contribution to an Interwar industrial streetscape and precinct with factories adjoining on the east and south.

As part of the building's conversion to residential use, steel-framed balconies have been added to the facade, along with a small canopy at the entrance. Aluminium framed windows (to match a timber framed type) have replaced the original metal framed windows, with some reduction in the place integrity.

How is it significant?

The Keep Brothers and Wood warehouse is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Keep Brothers and Wood warehouse is significant.

- Historically, this well-preserved building is highly representative of the substantial warehousing and industrial buildings which were constructed in West Melbourne in the early twentieth century, and is closely linked with the major coachbuilders, ironmongers and importers, Keep Bros and Wood (Criterion A); and
- Aesthetically, the building is a substantially intact example of an Interwar warehouse on an impressive scale, and which is a dominant element in the streetscape and the work of important architects, Arthur and Hugh Peck Architects. It relates well to other red brick warehouses and factories in the locality (Criterion E).

Sands and McDougall Pty Ltd box factory, part proposed Sands & McDougall precinct

83-113 Batman Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1927-8, 1937-1940
View of place:	2015

Statement of Significance

What is significant?

Box factory built for stationery manufacturing firm, Sands and McDougall Pty. Ltd., in two stages, 1927-8 and 1937, to the design of Industry specialist, the architects, Arthur and Hugh Peck.

Contributory elements include:

- four and five-level face red brick factory building in a bold and austere proto-Modern style;
- eight bays of brick piers dividing the street elevation, with brick spandrels separating windows;
- visual reinforcement of each end with lesser pier spacing;
- multi-gabled side elevations to lanes;
- pitched roofs behind parapets;
- some remaining steel framed multi-pane glazing to end bays;
- concrete lintels expressed across openings;
- some vertical boarded external doors; and
- strong visual and historical link to the adjoining Sands and McDougall complex and the former Goetz building on the west (redeveloped).

Most windows have been replaced in a related manner.

How is it significant?

The Sands and McDougall Pty. Ltd. box factory is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

The Sands and McDougall Pty. Ltd. box factory is significant.

- Historically, as a well-preserved major industrial element in a nationally known complex; symbolic of the influence of railway expansion in the area and the benefits of location in West Melbourne; closely linked with the Sands and McDougall firm and described at its initiation as the largest factory yet built in Melbourne (Criterion A); and
- Aesthetically, a bold Modernistic design in red brick as a 1920s precursor to modern commercial building in the Melbourne Central Business District and a major streetscape element in a significant group of red brick industrial structures (Criterion E).

Autocar Industries Proprietary Limited Assembling and Motor Body Works

100-154 Batman Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1925-
View of place:	2015

Statement of Significance

What is significant?

Assembling and Motor Body Works for Autocar Industries Proprietary Limited built up from 1925 to the design of architects Browning, Bladen and Dare, as a major step in industrialisation after World War One and a direct reflection of the massive increase in motor car sales in Victoria as well as the protective measures of government tariffs.

Contributory elements include:

- two, three and four level red brick parapeted factory;
- simple cemented covered cornice with moulded insignia on Batman Street elevation;
- regularly spaced structural frame as expressed by the fenestration;
- regularly arranged rectilinear window openings;
- continuous reinforced concrete lintols;
- multiple gabled roof bays behind the parapet; and
- brick tower on Batman Street elevation assumed to contain a water tank.

Superficial external renovation with empathetic changes to window joinery, addition of glazed foyers.

How is it significant?

The Autocar Industries Proprietary Limited motor body works is significant historically to West Melbourne and the City of Melbourne.

Why is it significant?

The Autocar Industries Proprietary Limited motor body works is significant.

- Historically, as a large and well-preserved expression of the massive increase in motor vehicle ownership in Victoria, the supportive role of government that used tariffs to promote local industries, and the embodiment of new assembly line motor vehicle production technique that was noted for use of the sloping site in its ramped floor construction (Criterion A).

Alexander Cooper's house

16 Capel Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1866-
View of place:	2015

Statement of Significance

What is significant?

Row house built by successful contractor, Alexander Cooper in 1866.

Contributory elements include:

- two-storey, unpainted stuccoed stone house;
- stucco detailing consists of a simple cornice, plain ogee curved verandah end-walls and pedestals for urns (urns now gone);
- a two-level verandah of timber supported on unusual and slender circular section iron columns with subtly expressed capitals;
- keyhole pattern fretted verandah valences, in the Gothic manner;
- early trim colour scheme of cream and maroone;
- related but not original timber balustrade slatting turned at a diagonal to the railing (similar to early fence designs);
- French door central to upper level; and
- a stone-piered, iron picket front fence.
- Bellied cast-iron balustrading on both levels has been replaced.

How is it significant?

Alex Cooper's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Alex Cooper's house is significant.

- Aesthetically, this house is strongly evocative of its early Victorian-era construction, given the unpainted stucco and old trim colours, also the visible stone work is an uncommon material and the house contributes to a streetscape (Criterion E); and
- Historically, the house was built by the original grantee and an owner-builder typical of the many in the West Melbourne area and particularly in this street. Alexander Cooper died a very wealthy man and was linked to a number of major contracts, including the Williamstown graving dock pier (Criterion A).

Alexander Cooper's row houses, part 18-26 Capel Street

18 Capel Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1890-1
View of place:	2015

Statement of Significance

What is significant?

Row houses built by successful West Melbourne contractor, Alexander Cooper, in 1890-91.

Contributory elements include:

- a two-level, unpainted and ruled stucco brick row of five houses
- two-storey ornate cast-iron verandahs, panelled friezes and attached finished brackets and iron posts;
- tiled verandah floor;
- corniced and parapeted roof lines, ornamented with panelled verandah wall faces, with urns and orbs;
- timber double-hung sash windows;
- four panel entry door with toplight;
- iron picket front fences; and
- early trim colour scheme of cream and maroone.

An unusual aspect to the row is the room bay brought forward to the building line at the north end (26), thus unifying the row with the earlier 32-4 Capel Street. The row is a key part of the part of the significant Capel Street residential streetscape. Parapet orbs are missing from 26, 22 and 18.

How is it significant?

Alexander Cooper's row houses are significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Alexander Cooper's row houses are significant.

- Aesthetically, a very well-preserved example of a common row house type, as exhibited by the unpainted stucco and the early trim colours. The row is a key part of the Capel Street streetscape in form, detail and siting as well as being the nearest to original condition for a West Melbourne Victorian-era row house (Criterion E); and
- Historically, built by a Capel Street Crown Grantee of 1859 and a long-time resident of the area, Alex Cooper, a successful and wealthy contractor and owner-builder like Touzel, Dean and Noble, all active in the same street and era and typical of the Victorian-era West Melbourne entrepreneurs (Criterion A).

Rob Roy Hotel

32-34 Capel Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Hotel
Date(s):	1871
View of place:	2015

Statement of Significance

What is significant?

The former Rob Roy Hotel was constructed and owned by prolific West Melbourne builder, Michael Moran, in 1871. From c1875 it is described as a brick shop.

Contributory elements include:

- a two-storey, stuccoed brick building with a corniced and parapeted roof line;
- gabled side parapet and exposed face brick north side wall;
- Italian Renaissance Revival style cement detailing of flat window pediments and architraves also moulded and cemented chimneys;
- a moulded storey string mould and unusual, plainly-expressed, scalloped acroteria at the parapet; and
- coupled upper windows provide the central emphasis to parallel the wide, bracketed and pedimented entrance below (now altered).

To the north is a single-level residence which shares simplified moulding lines with its neighbour as well as quoins.

The entrance had been altered but has been revised to the presumed early bipartite form like the upper windows.

Another key part of significant Capel Street residential streetscape, the hotel relates well to 26 of 18-26 Capel Street and is similar in scale to 62-4 and 80-6 Capel Street, with shared form, detail and site disposition with 38, 44-2, 66-78 Capel Street.

How is it significant?

The former Rob Roy Hotel is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

The former Rob Roy Hotel is significant.

- Aesthetically, as a near original example of a typical early Victorian-era hotel or commercial form with added unusual detail and fenestration and as an important and early part of the significant Capel Street residential streetscape (Criterion E); and
- Historically and socially, representative of a public accommodation use, as an hotel or boarding house, within this formerly residential street and thus as a focus of social activity (Criterion A).

Florence, or Hawkins house

36 Capel Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1865
View of place:	2015

Statement of Significance

What is significant?

Cottage built for William Hawkins in 1865.

Contributory elements include:

- single storey cemented single-fronted cottage;
- small scale;
- parapeted form with moulded cornice;
- moulded architraves to openings with quoining;
- gabled roof clad with slate behind parapet;
- cemented chimney with panelled shaft and cornice, plus terra-cotta pot;
- double-hung sash window;
- four-panel entry door and toplight;
- stone plinth; and
- contribution to significant Victorian-era streetscape.

Side parapet wall may have been rebuilt and the chimney extended.

How is it significant?

Florence or Hawkins house is significant historically to West Melbourne.

Why is it significant?

Florence or Hawkins house is significant.

- Historically, as representative of the early stage of the major post Gold Rush population growth at West Melbourne in the Victorian-era period and the minute size of some of the houses built at that time to serve the rising demand (Criterion A).

Infill housing

40-60 Capel Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Apartments
Date(s):	1988-1990
View of place:	2015

Statement of Significance

What is significant?

Infill government public housing built 1988-1990 to the design of emerging Melbourne architect, Peter Elliott, in a Post-Modern style.

Contributory elements include:

- mainly two level row house design, similar in scale to nearby Victorian-era row houses;
- vertical divisions at similar intervals to those in nearby Victorian-era row houses;
- stuccoed fenestration walls that emulated Victorian-era verandahs imposed over cream brick wall finishes, with some corrugated iron wall cladding;
- punched window openings, with timber framing;
- metal framed front fences;
- pitched, mainly gabled roof forms, clad with corrugated iron or similar;
- through-way to Peel Street utilising a stone pitched lane; and
- integration into the Victorian-era streetscape.

How is it significant?

Infill housing at 40-60 Capel Street is significant historically and aesthetically to West Melbourne.

Why is it significant?

Infill housing at 40-60 Capel Street is significant.

- Historically, as a well-preserved example of a change in government policy for inner Melbourne public housing (Criterion A); and
- Aesthetically, a good example of Post-Modern design that also served visual integration of large new housing developments in inner urban areas (Criterion E).

Noble's house

62 Capel Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1864-1868
View of place:	2015

Statement of Significance

Victorian Heritage Register Statement of Significance
Heritage Victoria Register number: H0630

What is significant?

The Residence at 62 Capel Street, West Melbourne, was built and occupied by Thomas Noble, a carpenter, in 1864. The house was probably built in two stages, the bluestone ground floor of three rooms first, with the second storey, in stuccoed brick, added in the late 1860s to give a total of six rooms. It features a corniced parapet and quoins to lower openings and corners.

How is it significant?

The Residence at 62 Capel Street, West Melbourne, is of historical and architectural significance to the State of Victoria (and West Melbourne).

Why is it significant?

The Residence at 62 Capel Street, West Melbourne, is of:

- Historical significance as evidence of the early form of residential development in inner Melbourne. The house is built right up to the property line, which was not uncommon during the early period of the city's development when planning regulation was of a rudimentary nature. Nevertheless, the Melbourne Building Act applied to this part of North Melbourne when No. 62 was built, explaining why it was built in stone at a time when many other structures in the area outside the provisions of the Act were being constructed of timber. As a result, No. 62 has survived as an important component of the 19th century streetscape that is still evident in Capel Street. The absence of ornament, especially in the lower storey, and the staged building process reflect the small scale and humble means of the owner-builders that were common in this part of Melbourne in the 1850s and 1860s. Noble, the builder and occupier of this house, built several others in the area.
- Architectural significance as an early residence employing a juxtaposition of stone and stucco work. It also retains early accessories such as the shutters and precise details.

Dean's house

64 Capel Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1866
View of place:	2015

Statement of Significance

Victorian Heritage Register Statement of Significance
Victorian Heritage Register number: H631

What is significant?

The Residence at 64 Capel Street, West Melbourne, was built by Joseph Dean probably between 1859 and 1866, possibly in two stages, the second storey being added some time after the first. Dean was a stonemason and lived in the house himself for short periods but generally leased it until selling in 1897. The house is a two-storey parapeted and part-stuccoed building of basalt coursed rubble with sandstone quoins to openings as seen on the north face. The two-level timber verandah has cast-iron frieze panels, bellied iron balustrade panels and a modified square head picket fence. The architraved upper level window has the distinctively early detail of half side-lights, with adjoining hung sashes over a lower panel. Decorative stucco elements include parapet scrolls, a cornice and unusual stylised brackets and rolled mouldings to the side wall faces, set against the stone work.

How is it significant?

The Residence at 64 Capel Street, West Melbourne, is of historical and architectural significance to the State of Victoria (and West Melbourne).

Why is it significant?

The Residence at 64 Capel Street, West Melbourne is of:

- Historical significance as evidence of the early form of residential development in inner Melbourne. The house is one of the earliest in the area, the land here having been sold in the late 1850s. It provides an excellent example of the kind of buildings erected by the small-scale owner-builders that were common in this part of Melbourne in the 1850s and 1860s. Dean, the builder and occupier of this house, built several others in the area.
- Architectural significance as an example of domestic architecture displaying uncommon early details and cast iron pattern and as an unusual example of combined stone (basalt and freestone) and stucco work.

Elm ('Ulmus' sp.) street trees x2

80, 86 near Capel Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Tree
Date(s):	1900-1918
View of place:	2015

Statement of Significance

What is significant?

Mature elms ('Ulmus sp.') as an indication of planting styles of the Victorian and Edwardian-eras before a more varied palette of tree selection was pursued post World War One.

Contributory elements include:

- mature Wych elm ('*Ulmus glabra*') West of 187 Victoria Street (-37.806022, 144.955225)
- mature elm '*Ulmus sp.*' near 80-86 Capel Street (-37.806290, 144.955173); and
- land within five metres of the root ball.

How is it significant?

The elms are significant historically and for their rarity in West Melbourne.

Why is it significant?

The elms are significant.

- Historically, as an indication of tree planting and selection in the Victorian and Edwardian-eras with the goal of beautification and creation of shade (Criterion A); and
- Rarity, as some of the few remaining examples from a large number of street trees existing at West Melbourne in the 1890s (Criterion B).

Touzel's row houses

80-86 Capel Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1867-8
View of place:	2015

Statement of Significance

What is significant?

Row houses built by Phillip Touzel in 1867-8.

Contributory elements include:

- a two-storey, once face brick row of four row houses;
- two level timber verandahs with panelled cast-iron friezes and brackets in an early pattern;
- simply corniced cement façade parapets and chimney shafts, with shallow mouldings,
- transverse gabled main roof line, expressive of the row's early construction;
- cemented party wall detail with panelled and bracketed shapes combined with precise shell and diamond motifs set within and without panels on some houses;
- double-hung sash windows and 4 panel doors with top lights; and
- uncommon Chinese-like timber balustrading which contains a saltire-cross with panelled borders and similar patterned timber front fence panels (recreation based on remaining panels on two houses), evocative of saltire cross balustrading in colonial buildings such as the Regency styled Victoria Barracks NSW 1841-6.

The row, as a whole has been altered in detail but sympathetic recreation of the balustrading and the panelled timber fences has partly remedied this; 84-6 has been stuccoed. This row is a contributing part of the significant Capel Street residential streetscape adjoining its termination (88 Capel and 189 Victoria Street) and sharing its scale, finish and ornament.

How is it significant?

Touzel's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Touzel's row houses are significant.

- Aesthetically, an early house row utilising timber balustrading and fencing as one of the decorative options of the pre-local cast-iron manufacturing period which began in the 1870s and the panel pattern used is rare. Other distinctive attributes of early row house design include the use of plain face brick, panelled serpentine pattern cast-iron friezes, the transverse gabled roof line and slim cement mouldings (Criterion E); and
- Historically, built by Touzel, another of the many owner-builders from the West Melbourne area and particularly this street (Criterion A).

Cleary's houses, part 81-83 Capel Street

81 Capel Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1871
View of place:	2015

Statement of Significance

What is significant?

Row houses built by Adams and Hardy in 1871 for West Melbourne bootmaker, Patrick Cleary.

Contributory elements include:

- face brick single storey parapeted house pair;
- coloured brickwork, with brown body and cream detailing;
- cream brick quoining;
- distinctive scalloped brick parapet profile, with a finer scallop under the cornice;
- cemented detail as string mould;
- pitched roof behind the parapet with face brick chimney, with corbelled top;
- timber-framed verandahs with stop-chamfered and corniced timber posts, panelled cast-iron frieze and brackets;
- uncommon cast-iron balustrade as front fence;
- double-hung sash windows;
- four-panel entry doors and toplight;
- later, but uncommon, metal pipe-framed gate; and
- contribution to valuable 19th century streetscape extending into Victoria Street and backs onto the former Fibrini Milling Company mill, also linked with Cleary.

83 Capel Street has been superficially altered, with bricks painted over, chimney gone but 81 provides evidence for restoration.

How is it significant?

Cleary's houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Cleary's houses are significant.

- Historically, as representative of the first stage representative of a major growth period in West Melbourne, also linked with local North and West Melbourne identity, Pat Cleary (Criterion A); and
- Aesthetically, a distinctive pair of row houses, with uncommon brick and iron detailing and contributory to a valuable residential and commercial Victorian-era streetscape (Criterion E).

Cleary's houses, part 81-83 Capel Street

83 Capel Street, WEST MELBOURNE

New grading system:	Significant

- cemented detail as string mould;
- pitched roof behind the parapet with face brick chimney, with corbelled top;
- timber-framed verandahs with stop-chamfered and corniced timber posts, panelled cast-iron frieze and brackets;
- uncommon cast-iron balustrade as front fence;
- double-hung sash windows;
- four-panel entry doors and toplight;
- later, but uncommon, metal pipe framed gate; and
- contribution to valuable 19th century streetscape extending into Victoria Street and backs onto the former Fibrini Milling Company mill, also linked with Cleary.

83 Capel Street has been superficially altered, with bricks painted over, chimney gone but 81 provides evidence for restoration.

How is it significant?

Cleary's houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Cleary's houses are significant.

- Historically, as representative of the first stage representative of a major growth period in West Melbourne, also linked with local North and West Melbourne identity, Pat Cleary (Criterion A); and
- Aesthetically, a distinctive pair of row houses, with uncommon brick and iron detailing and contributory to a valuable residential and commercial Victorian-era streetscape (Criterion E).

Dominick Cleary's workshop, later Fibrini (or Fibrin) Milling Company 83A Capel Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Workshop
Date(s):	1897
View of place:	2015

Statement of Significance

What is significant?

Workshop built for bootmaker, Dominick Cleary, son of West Melbourne bootmaker Patrick Cleary in 1897.

Contributory elements include:

- three level face brick workshop set on a stone pitched lane, with no setbacks;
- punched, regularly spaced fenestration in the manner of Victorian-era industrial buildings; and
- contribution to a small Victorian-era precinct linked with the Cleary family.

The workshop has been converted to a residence with resulting changes to the roof form and new visually related openings; new window joinery resembles the original double-hung sash windows.

How is it significant?

Dominick Cleary's workshop is significant historically to West Melbourne.

Why is it significant?

Dominick Cleary's workshop is significant.

- Historically, for its link with the locally prominent Cleary family of West Melbourne bootmakers and as a rare back-lane workshop, a once more common building type that served the Victoria Street shops, also as a development that marked the end of a major growth period in West Melbourne (Criterion A).

Charles Barber's shop and two residences

1-3 Chetwynd Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1867
View of place:	2015

Statement of Significance

What is significant?

Shop and two residences (2 Stanley Street or 1-3 Chetwynd Street) built by Holmes and Co. for a cooper, Charles Barber in 1867.

Contributory elements include:

- parapeted, two-storey corner early Victorian-era house and shop and residence in a colonial Georgian style;
- walls of coursed random rubble basalt masonry (part tuck-pointed), with quarry faced quoins at the corners and openings, a gabled parapet to the north end with engaged chimney and parapet string mould;
- corrugated iron clad hipped and gabled roof;
- multi-paned double-hung sash windows;
- steel lugs on corner splay upper level one supporting a business sign for the shop;
- one six-pane early shop display or show window and one four-pane window located either side of the corner shop entry door facing Stanley and Chetwynd Street;
- four-panelled door pair with toplight for the corner shop entry, differing from the four-panel doors to the residential entries adjoining;
- siting on the street alignment; and
- early enamelled blue and white street name plate, fixed to the wall in the traditional way.

This is a major corner building at the brow of the Chetwynd Street hill, linked with the later 9 Chetwynd Street, and 5, 7 and 8 Stanley Street by period detail and parapeted form: a key part of this significant streetscape. Some elements have been renewed.

How is it significant?

Charles Barber's shop and residence row is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Charles Barber's shop and residence row is significant.

- Aesthetically, the building has a high integrity to its construction date, with an uncommon and well-laid wall material (basalt) that is closely identified with stone quarries in western Melbourne, also an unusual combination of uses for the area, a visibly early construction date by the use of face stonework and occupying a prominent corner site in a significant streetscape (Criterion E); and
- Historically, owned and occupied by Barber over a long period, as a successful West Melbourne cooper, an essential trade for the nearby manufacturing works (Criterion A).

Shoreham, or Duke's house and stable

9 Chetwynd Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1898
View of place:	2015

Statement of Significance

What is significant?

House built for carriage builder Walter Duke by McConnell and McIntosh, in 1898 to the design of locally prominent North Melbourne architect, William H Webb.

Contributory elements include:

- an ornately decorated, two-storey face-brick and stucco house;
- brown and red bricks to the facade, side and rear elevation, white bricks as part architraves and quoining;
- a two-level ornate cast-iron verandah with iron posts and brackets and masonry side walls with archways set with coloured glazing at the ends;
- double-hung arched sash windows, with intricately ornamented cemented architraves;
- iron picket fence on a dressed stone plinth;
- two-level brick Victorian-era stable on rear boundary;
- rare ornamental brick side fence connected to the stable (stable and fence bricks painted over);
- a parged and balustraded parapet, with a central raised segment-arched entablature bearing the name Shoreham and the date 1898 set in cemented Arts and Crafts leaf patterns, a dentilated cornice with a foliated frieze to the secondary entablature and tympanum;
- candle-snuffer pinnacles to the verandah walls supported by deep brackets which are repeated at the storey line, as are the pinnacles on the fence piers;
- balloon arches in the iron friezes, reflect the full arched openings, which are picked out with white brick and flanked by colonettes; and
- a richly detailed fanlight to the doorway with its richly panelled side-lights.

The northern fence post is missing a pinnacle and parapet urns are missing. Bricks painted over on stable and garden wall.

The house is a significant and contributing part of a group of 19th century houses pivoting around 1-3 Chetwynd Street and including 8, 2 Stanley Street, 5-7 Chetwynd Street and the distant but similar 21-25 Chetwynd Street; its flanks a stone pitched laneway that leads past the rear stable.

How is it significant?

Shoreham is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Shoreham is significant.

- Aesthetically, as a richly and skilfully decorated, near original house that has been described as one of the best of its type in Melbourne and part of a significant and related streetscape. Also one of the best works of the local architect William H Webb who was a prolific house designer and prominent in local community groups and movements (Criterion E); and
- Historically, owned by a man of the horse-trade allied industry of carriage building and later with the railways department, two occupations that are particularly pertinent to West and North Melbourne with their proximity to the horse markets and the large railway complex nearby (Criterion A).

Dr Moore's row houses and shop, 12-20 Chetwynd Street, 62-74 Rosslyn Street, part

12 Chetwynd Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1868
View of place:	2015

Statement of Significance

What is significant?

Row houses and corner shop built in 1868 by West Melbourne contractor Thomas Noble, for Dr. George Moore, a Queensberry Street surgeon and district public vaccinator, including houses at 12-20 Chetwynd Street and 62-68 Rosslyn Street; and the former Sowter's shop and residence at the corner (70-74 Rosslyn Street).

Contributory elements include:

- a single-storey, brick row of five cottages in Chetwynd Street and four in Rosslyn Street, all finished in ruled stucco and set on bluestone footings (typically painted over) with end and rear walls face-brick (see 68 Rosslyn Street rendered over in Chetwynd Street);
- corner former shop, set on a semi-hexagonal in plan at the corner of Chetwynd Street and Rosslyn Street;
- transverse gabled, typically corrugated iron clad, roofs (new tiles on 70-4 Rosslyn);
- cemented chimneys (some cornice details missing) engaged alternately in expressed party walls that are corbelled back to the wall line on the street facade;
- doors typically four panel with two-light toplights and placed in pairs, except for 12 Chetwynd Street where the door is central and 70-74 Rosslyn Street where it is set in the splayed corner;
- single double-hung sash windows to houses, except for 12 Chetwynd Street which has two;
- three long narrow windows to the former shop at 70-74 Rosslyn Street which may be added; and
- all built on the street alignment with stone paved lane access to the rear, the small scale and siting being indicative of the age.

The door at 16 Chetwynd Street is of Edwardian-era character and doors at 70-74 Rosslyn Street have also been changed.

The rows form strong streetscape elements, being set hard on the street on both sides of a distinctive triangular site. Trees in Eades Place and Chetwynd Street assist the small and intimate scale of these houses by confinement of the field of vision to them, whilst the former shop obtains maximum prominence.

How is it significant?

Dr. Moore's row houses and shop are significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Dr. Moore's row houses and shop are significant.

- Aesthetically, the rows are of a simple early form with little architectural embellishment individually, but as continuous rows of stepped cottages they form strong streetscape elements, each closely matched to the streets irregular junction angle and the small confined village scale evokes the early Victorian-era well (Criterion E); and
- Historically, an extensive development by a local active medical practitioner and successful investor, Dr. George Moore, who was cited in a number of well publicised medical events in the Victorian-era as well as providing expert evidence to the Royal Commission into the coal industry 1891 (Criterion A).

Dr Moore's row houses and shop, 12-20 Chetwynd Street, 62-74 Rosslyn Street, part

Gardini Motor Company garage

15-19 Chetwynd Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Workshop
Date(s):	1923-4
View of place:	2015

Statement of Significance

What is significant?

Motor garage designed by architect B. Dunstan Reynolds in 1923 for Bruto Gardini of the Gardini Motor Company and built by Joseph Seccull mid 1924.

Contributory elements include:

- single level brick and cement parapeted façade;
- facade set out in three bays with dividing pilasters and a raised central gabled entablature;
- cement capping and string mould;
- name panel on the centre parapet bay 'Gardini Motor Co.'; and
- pitched roof behind, clad with corrugated iron or similar (modified).

Major internal changes for new use, visually related doors and multi-pane glazing added into existing openings (originally steel framed windows). Added upper level, part render removed.

How is it significant?

Gardini Motor Company garage is significant historically and aesthetically to West Melbourne.

Why is it significant?

Gardini Motor Company garage is significant.

- Historically, as a representative of emerging commercial and industrial uses in the Interwar period in West Melbourne linked with greater transport opportunities also a reflection of the rising motor trade in the area at a time when car ownership was increasing rapidly and an example of a West Melbourne Italian immigrant enterprise (Criterion A); and
- Aesthetically, a custom design for a motor garage at the threshold of this emerging industry, using classical motifs for a new building type (Criterion E).

Symington, R.H. and W.H. and Company (Aust) Pty. Ltd., Liberty Corsets factory, now part Norwellan House

44 Chetwynd Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1930-2, 2003
View of place:	2015

Statement of Significance

What is significant?

Greek Revival factory extension for corset manufacturer Symington, R.H. and W.H. and Company (Aust) Pty. Ltd. designed by architects in conjunction, A. A. Fritsch Jnr. and M. C. Clayton.

Contributory elements include:

- cemented Greek Revival façade on five levels including an attic storey above the main cornice;
- giant order pilasters under the main cornice marking three bays in the façade;
- paired pilasters above the main cornice;
- face brick side wall with over painted early business sign citing 'corsetry and beachwear';
- flat main roof with raised pedimented and cemented penthouse on north side;
- gabled pediment to attic storey with company logo;
- bracketed cement hood over main entry; and
- contribution to significant Symington industrial complex with a range of architectural styles.

Recently this building was converted to residential use but the street façade remains relatively well-preserved: window joinery has been replaced. Unrelated addition to penthouse on north face above parapet.

How is it significant?

Symington, R.H. and W.H. and Company (Aust) Pty. Ltd. corset factory is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Symington, R.H. and W.H. and Company (Aust) Pty. Ltd. corset factory is significant.

- Historically, for the close links with the major undergarment maker as well as achieving national publicity as a model work place, also symbolic of the new industrial techniques employed during the Interwar period in Victoria, with greater awareness of staff facilities (Criterion A); and
- Aesthetically, a custom designed and large factory that departs from the more austere industrial buildings nearby in North and West Melbourne with contemporary Greek Revival styling (Criterion E).

Spence's row houses, part 62-66 Chetwynd Street

62 Chetwynd Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1885
View of place:	2015

Statement of Significance

What is significant?

Row houses built for successful West Melbourne confectionery businessman, James Brown Spence, by local contractor, James Amess in 1884-5 to a design by the renowned William Pitt.

Contributory elements include:

- a brick row house pair of one storey;
- unusual siting and elevated form;
- parapeted and stuccoed, with a pedimented raised entablature central to the pair with an acroterion at the apex, scrolls, swags and balustrading on either side;
- iron verandah brackets, friezes and balustrade using the Angus McLean's pattern of 1877;
- three light double-hung sash windows;
- entry with side and top lights; and
- iron palisade front fences set on dressed stone plinths with cemented and capped masonry piers, high retaining walls to the verandahs and a long, distinctive scalloped garden dividing-wall between.

There is a small unrelated shed added to the front yard of one of the houses.

The three houses (62-66 Chetwynd Street) are sited high on an embankment and well back from the street but are a relatively isolated trio from the mainstream Victorian and Edwardian-era streetscape.

How is it significant?

Spence's row houses are significant historically (62-66) to West Melbourne and aesthetically (62-64) to West Melbourne and the City of Melbourne.

Why is it significant?

Spence's row houses are significant.

- Aesthetically, the pair (62-64) was designed by the distinguished architect, William Pitt (of the Rialto and Olderfleet, Collins Street fame). The pair represents an original example of the low number of small residential commissions known from Pitt's hand and reflects his skill in the use of the elevated site and the dividing garden wall to direct attention to the central parapet pediment. It is an unusually sited row house pair (above and distant from the street) with uncommon original elements such as the balustrade (Criterion E); and
- Historically, (62-66), for the association with Spence who ran a successful local business and was prominent in West Melbourne and Hotham civic affairs and as another example of small developments by local residents, alongside their homes (Criterion A).

The pair represents an original example of the low number of small residential commissions known from Pitt's hand and reflects his skill in the use of the elevated site and the dividing garden wall to direct attention to the central parapet pediment. It is an unusually sited row house pair (above and distant from the street) with uncommon original elements such as the balustrade (Criterion E); and
- Historically, (62-66), for the association with Spence who ran a successful local business and was prominent in West Melbourne and Hotham civic affairs and as another example of small developments by local residents, alongside their homes (Criterion A).

Monaltrie House or George Small's house

1 Curzon Street, WEST MELBOURNE

New grading system:	Significant
Place type:	House
Date(s):	1888
View of place:	2015

Statement of Significance

What is significant?

House built for engineer, George Small in 1888, designed by prolific local architect, A.E. Duguid and erected by builder, James Bailey.

Contributory elements include:

- a free-standing two-storey stuccoed double-fronted brick house, with parapeted roofline, and hipped corrugated iron clad roof behind;
- red brick to side and rear walls;
- simple Italian Renaissance Revival styling;
- siting at an unusual obtuse angle following that of Hawke and Curzon Street, as a corner site terminating single storey rows of earlier but similar Victorian-era cottages in both streets;
- one bay built at the street alignment, whilst the other is set back to accommodate the verandah;
- two-level iron cast-iron verandah with frieze, integral fan brackets, posts and a convex verandah roof;
- encaustic tiled verandah floor with a stone threshold;
- iron double palisade picket fence;
- three light double-hung sash windows, two windows on forward bay with shaped cemented architrave;
- Edwardian-era five panel half glazed door with Edwardian-era pattern leadlight top light, assumed installed after sale of the house in the early 1900s;
- cemented rosettes and brackets set under the eaves within the cornice entablature;
- vermiculated blocks and brackets to verandah end walls and cornice termination; and
- contribution to Victorian-era residential streetscape in Hawke Street, extending into Miller and Spencer Streets.

The enamelled street name sign described in North and West Melbourne Conservation Study 1983 is not on the building. Other changes include the upper level verandah door, and removal of both chimney cornices.

How is it significant?

Monaltrie House or George Small's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Monaltrie House or George Small's house is significant.

- Aesthetically, a relatively unusual villa form for an inner suburban row house area such as West Melbourne, being more common in middle suburban detached villa areas, and a large house for the era and area; adherence to the street frontages adds to the visual distinction of the house and it is a key element in a significant Victorian-era residential streetscape. The house was custom designed by A.E. Duguid who was responsible for some significant works in West Melbourne and surrounding districts, and near original and prominently sited (Criterion E); and
- Historically, the house represents a major growth era in West Melbourne building, being the Victorian-era (Criterion A).

El-Rae or Geuer's house

38 Dryburgh Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1909-10
View of place:	2015

Statement of Significance

What is significant?

House built by Kensington builder, Thomas E. Radcliffe for railways engine-driver Charles John Geuer of West Melbourne in 1909-10.

Contributory elements include:

- double-fronted tuck-pointed red brick detached villa;
- M-hip profile main roof with gablet set into front hip;
- Federation Bungalow styling;
- slate cladding to main roof, with terra-cotta cappings and face brick chimneys with cemented cornices;
- parapeted side walls, with foliated cemented brackets;
- timber framed bullnose profile verandah clad with corrugated iron and detailed with timber fretted brackets, set on turned posts;
- boxed window bays to facade, with top and bottom casement sashes;
- rare pipe-framed front fence set on cement plinth and gate with scrolled metal strapping;
- panelled entry door with top and side lights; and
- contribution to a Victorian-era and Edwardian-era streetscape.

How is it significant?

El-Rae or Geuer's house is significant historically and aesthetically to West Melbourne.

Why is it significant?

El-Rae or Geuer's house is significant.

- Historically, as well-preserved and thus representing well the second major development phase of West Melbourne in the Edwardian-era also an investment house for one of the key occupations among West Melbourne workers, that of an engine-driver (Criterion A); and
- Aesthetically, a well-preserved example of a Federation Bungalow style house, with a rare front fence (Criterion E).

Alexander Cooper's house

2 Dudley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1868
View of place:	2015

Statement of Significance

What is significant?

House built by West Melbourne, builder and stonemason, Alexander Cooper in 1868.

Contributory elements include:

- slated hip-roof attached house with stuccoed walls set on a quarry-face basalt footing;
- cemented and corniced chimney shaft with terra-cotta pots;
- face brick side and rear walls;
- siting on a splayed, corner street-alignment creating an uncommon angled and picturesque form;
- simply moulded string mould, eaves cornice, architraves and early wooden shutters to openings are all evocative of the houses' early construction date;
- double-hung sash window to Peel Street, formerly two to Dudley Street (now single pane) also double-hung sash windows multi-pane glazing to rear service wing;
- small rear yard, bounded by a basalt wall, opening onto Peel Street;
- early enamelled street sign on wall; and
- performing an important corner role on a site that is adjacent to significant residential streetscapes (see 16-26 Capel Street), major parts of which were also built by Cooper.

The three-panel entry door is an Edwardian-era addition but contributory; added timber skillion on rear face; double-hung sash windows have been replaced with single pane; and added roller shutter to stone yard wall.

How is it significant?

Alexander Cooper's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Alexander Cooper's house is significant.

- Aesthetically, as an early and near original example of a relatively uncommon row house form which occupies a key corner site near a related Victorian-era residential streetscapes also built and designed by Cooper (16-26 Capel Street) (Criterion E); and
- Historically, developed by an early land holder and important developer in the West Melbourne area-Cooper was the original Crown Grantee and one of the more successful owner-builders typical of the West Melbourne area, particularly in nearby Capel Street. Alexander Cooper died a wealthy man and was linked to a number of major contracts, including the Williamstown graving dock pier and as such was one of West Melbourne's successful businessmen (Criterion A).

Moreland Smelting Works factory

27-31 Dudley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1900
View of place:	2015

Statement of Significance

What is significant?

The Moreland Smelting Works warehouse was erected in 1900 for engineer, J. A. Sinanian who was also its designer.

Contributory elements include:

- Edwardian Baroque styled red brick and cemented one-level façade to Dudley Street;
- face brick side and rear walls;
- pitched main roof behind the façade;
- zero setbacks;
- segment arched raised broken pediment, with cemented foliation in the tympanum;
- parapet panels bearing the words 'metal Merchant' and 'Est. 1888';
- main cornice, panelled entablature with detailing;
- cement parapet urns;
- pronounced secondary cornice with dentilation resting on Ionic Order pilasters, separating dentilated segmentally arched openings, each with multi-pane glazing; and
- moulded architraves and brackets to openings.

Originally heavy timber doors enclosed both end openings, with multi-pane glazing in the windows between. These have been replaced.

How is it significant?

Moreland Smelting Works factory is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Moreland Smelting Works factory is significant.

- Historically, as one of the long-term industries in West Melbourne and the focus of extensive national publicity that promoted the firm and the building (Criterion A); and
- Aesthetically, an early and well-preserved Edwardian Baroque styled design in Victoria, particularly as it was applied to an industrial site (Criterion E).

Alfred house or Agnew's house, later Bedeque-house or Thompson's house

40 Dudley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1865
View of place:	2015

Statement of Significance

What is significant?

House built for Andrew Agnew by Joseph Broadbent in late 1865.

Contributory elements include:

- a double-storey row house, constructed in bluestone with a cemented façade;
- hipped and slated roof set behind a parapet with two cemented and corniced chimneys;
- coursed random rubble basalt to side and rear walls;
- a small scale, potentially former free-standing and early hipped roof brick service wing (added cement dado, bricks painted over and openings changed) attached at the rear;
- cemented façade with dentilated cornice that scrolls back to the rear eaves line on the side elevation, rosettes to the entablature;
- three timber-framed double-hung sash windows to the upper level facade, and two to the lower level, each with moulded cement architraves;
- entry door with cemented architrave, toplight;
- cast iron double palisade fence set on dressed basalt plinth; and
- contribution to the adjacent Dudley Street early Victorian-era streetscape.

The front double-storey verandah was added c1991 as a recreation, with a concave profile roof, panelled frieze and brackets, and balustrading to the upper level; also plain verandah side walls. The side yard fence has been removed for parking and part of the iron fence modified; bluestone has been painted in part; the brick service wing has added cement

dado, bricks painted over and openings changed; and air units added to the side door.

A large adjoining development dominates the building.

How is it significant?

Agnew's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Agnew's house is significant.

- Historically, erected in the mid-1860s, the house demonstrates an early and important phase of residential settlement in the area. It is one of few remaining more substantial houses which were erected in this part of Dudley Street directly opposite the Flagstaff Gardens, then a highly favoured location. The brief association with Dr. William Maloney M.L.A. and journalist Eveline Gough adds historical value to the place, Maloney being one of West Melbourne's major figures, also Mrs Gough was also linked with progressive politics. The link with the nationally prominent Gordon Thompson is a stronger one and adds greatly to the historic associations of this house (Criterion A); and
- Aesthetically, as prominently sited on a corner, with its distinctive bluestone side wall to Milton Street, the house makes a significant contribution to the adjacent Dudley Street early Victorian-era streetscape (Criterion E).

Richhill Terrace, part 58-64 Dudley Street

58 Dudley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1862
View of place:	2015

Statement of Significance

What is significant?

Row houses built in 1862 for locally prominent councillor and parliamentarian, John Harbison.

Contributory elements include:

- row of double-storey Victorian terrace houses;
- walls of stuccoed masonry with deeply coursed smooth rustication at the ground floor level;
- fine Regency style cement detailing on the parapet;
- hipped corrugated galvanised metal roofs concealed behind a parapet;
- pair of French windows to the upper level;
- six-panelled timber entry doors with fanlight;
- timber-framed double-hung sash windows at ground floor level;
- concave roofed verandahs with cast iron balustrades and friezes;
- cast-iron palisade front fences; and
- contribution to early Victorian-era streetscape.

Alterations include:

- the removal of the verandah roof to and the installation of two canvas awnings over the windows of 60.
- rebuilding of verandah and modification of fence of 58; and
- urns missing from some verandah walls.

The other houses in the row provide evidence for restoration.

How is it significant?

Rich Hill Terrace, at 58-64 Dudley Street is significant historically to the City of Melbourne and West Melbourne and aesthetically to West Melbourne.

Why is it significant?

Rich Hill Terrace, at 58-64 Dudley Street is significant.

- Historically, representative of the more substantial speculative housing which was erected in the West Melbourne area in the early Victorian period. Overall, the terrace is substantially intact and makes a contribution to an early Victorian-era streetscape facing the significant Flagstaff Gardens. For the strong association of the terrace with locally prominent figure, John Harbison, and the nationally important, Sir John Monash (1865-1931) soldier, engineer, administrator and civil servant (Criterion A); and
- Aesthetically, for the fine Regency style cement detailing and contribution to an early Victorian-era streetscape and, with the Flagstaff Gardens, to an historic precinct (Criterion E).

Stirling House or Thomas Stevenson's row house, part 70-72 Dudley St 70 Dudley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1869
View of place:	2015

Statement of Significance

What is significant?

Row houses built for locally prominent heraldic painter, Thomas Stevenson in 1869.

Contributory elements include:

- two storey parapeted stuccoed row house pair;
- simple cemented cornice moulds, masks and brackets;
- face brick rear walls;
- pitched hipped roofs behind the parapet;
- two storey cast-iron verandah with Corinthian derived column order, cast-iron frieze and integral brackets (70 renewed);
- double-hung sash windows, cemented architraves (extended to French doors on 72);
- four-panel entry doors and toplights;
- cast-iron palisade front fence on dressed stone footings (70 renewed); and
- contribution to valuable Victorian-era streetscape.

Roofs tiled. Recent reinstatement of related cast iron detail at 70, enhancing the place. Upper level windows have been extended to French doors on 72, reducing integrity.

How is it significant?

Stirling House or Thomas Stevenson's row house is significant historically and aesthetically to West Melbourne and historically to the City of Melbourne.

Why is it significant?

Stirling House or Thomas Stevenson's row house is significant.

- Historically, within the City as the long-term home of a renowned heraldic artist Thomas Stevenson and his family, representative of the beginning of a major growth period in West Melbourne and indicative of the prestigious status once held by this part of Dudley Street (Criterion A); and
- Aesthetically, representative of a simple early row house type and contributory to a valuable Victorian-era residential streetscape (Criterion E).

West Melbourne Stadium, later Festival Hall

300 Dudley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Hall
Date(s):	1955-6
View of place:	2015

Victorian Heritage Register Statement of Significance for Festival Hall, 272-306 Dudley Street, West Melbourne
Heritage Victoria Register number: H2386

Statement of Significance

What is significant?

The cultural heritage significance of Festival Hall at 202-306 Dudley Street, West Melbourne, lies in its historical and social significance as Victoria's principal boxing, wrestling and live music venue in the second half of the twentieth century. The significance of the place is embodied in the external and internal form and fabric of the place. Festival Hall is notably and historically a highly flexible space, allowing it to service a number of dynamic communities and usages.

How is it significant?

Festival Hall is of historical and social significance to the State of Victoria. It satisfies the following criteria for inclusion in the Victorian Heritage Register:

Criterion A

Importance to the course, or pattern, of Victoria's cultural history.

Criterion G

Strong or special association with a particular community or cultural group for social, cultural or spiritual reasons.

Why is it significant?

Festival Hall is significant at the State level for the following reasons:

- Festival Hall is historically significant as Victoria's principal purpose-built boxing and wrestling venue. Since the late nineteenth century, boxing has been a highly popular spectator sport in Australia attracting crowds in the thousands with many more watching televised matches since the 1960s. Festival Hall - and the 1913 West Melbourne Stadium that it replaced - was the home of Victorian boxing throughout much of the twentieth century, earning it the name "The House of Stoush". Festival Hall hosted the boxing and gymnastics for the 1956 Olympic Games and was the venue for bouts of key national and international athletes including Lionel Rose, Johnny Famechon, Anthony Mundine, Lester Ellis and Barry Michaels. Festival Hall was the venue for the televised 'TV Ringside' (1966-75) and 'World Championship Wrestling' (1964-78) and hosted Lionel Rose's State Funeral in 2011. Festival Hall remains as the only purpose-built boxing and wrestling venue in Victoria. [Criterion A]
- Festival Hall is historically significant as one of Victoria's primary live music venues since its opening in 1955 and as the principal venue in Victoria for large-scale live music performances from the late 1950s until the 1980s. Festival Hall played a key role in the social evolution of Victorian society in the post-war period by exposing thousands of patrons to the "new wave" of big production live music. Festival Hall hosted some of the biggest national and international acts of the day including the Beatles, Buddy Holly, Neil Young, The Kinks and Frank Sinatra. [Criterion A]
- Festival Hall is socially significant for its association with the live music industry in Victoria. The association between Festival Hall and the Victorian live music community is particularly strong due to the length of the association and the close relationship between the place, the live music community and the establishment and growth of the live music industry in the State. [Criterion G]
- Festival Hall is socially significant for its association with the boxing and wrestling community in Victoria. As the site of Victoria's principal boxing and wrestling venue since 1913, the association between Festival Hall and the boxing and wrestling communities in Victoria is particularly strong. While the use of the place for boxing and wrestling has declined since the late 1970s, it remains affectionately known as "The House of Stoush" and continues to be used by the wrestling community for events. The association between the place and the boxing community has more recently been celebrated with Festival Hall being the venue for champion boxer Lionel Rose's State Funeral (in 2011). [Criterion G]

Sam Cullen's house

8-10 Eades Place, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1884
View of place:	2015

Statement of Significance

What is significant?

House rebuilt by Crown Grantee, Sam Cullen, a successful West Melbourne builder-owner in c1884.

Contributory elements include:

- a two-storey parapeted and stuccoed brick house;
- simple detail includes architraves to openings, sill brackets and a cornice with terminating vermiculated blocks;
- one-level cast-iron verandah, with concave corrugated iron roof;
- double-hung sash windows, three lights on the ground level;
- four panel door entry with top and side lights;
- iron picket fence on stone plinth; and
- contribution to a significant highly cohesive and early residential streetscape, largely associated with the Cullens.

The design is much in the style of the other Cullen two storey buildings in Eades Place.

How is it significant?

Sam Cullen's house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Sam Cullen's house is significant

- Aesthetically, as a simple evocation of the Victorian-era architecture of West Melbourne and an important contributory element in a significant Victorian-era residential streetscape (Criterion E); and
- Historically, closely associated with Sam Cullen and his family, one of the brothers who virtually built the entire Eades Place streetscape and a successful owner-builder who lived much of his life in the area, typical of West Melbourne as seen within the City of Melbourne; as representative of a major growth period (Victorian-era) in West Melbourne 's development (Criterion A).

Edward Williams house

22 Eades Place, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1883
View of place:	2015

Statement of Significance

What is significant?

House built by Edward Williams in 1883.

Contributory elements include:

- dichrome brick and stuccoed, two-storey row house;
- austere segment-arched cemented entablature, at the parapet;
- flanking cement scrolls comprise, with the vermiculated side walls, the only stucco decoration;
- double-hung sash windows;
- four panel entry door with toplight;
- quoining achieved in contrasting brick colours (cream, brown);
- single level cast-iron verandah with frieze and brackets;
- double palisade front fence and gate on dressed stone plinth; and
- contributory role in a significant Victorian-era residential streetscape as contrasting in use of materials but matching the other houses in form, siting and detail.

The house is currently secured with sheet metal to lower windows. Parapet urns are missing and part of the brickwork is painted over.

How is it significant?

Edward Williams house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Edward Williams house is significant.

- Aesthetically, a near original example of a common Victorian-era row house form, distinguished here by the use of coloured brickwork, also contributory to a significant residential Victorian-era streetscape (Criterion E); and
- Historically, the house represents a major growth period (Victorian-era) in West Melbourne's development (Criterion A).

Cullen's row houses, part 28-32 Eades Place

28 Eades Place, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1862-3, 1872
View of place:	2015

Statement of Significance

What is significant?

House built by Crown Grantees, brothers Henry and Samuel Cullen, commencing building in 1862-3, as part of the house row 28-32 Eades Place, and enlarged by the addition of a storey to this and the adjoining houses in 1872.

Contributory elements include:

- a two-storey, stuccoed and parapeted brick row of three houses;
- gabled roofs clad with corrugated iron behind the parapets, with party walls expressed;
- clear indication of the two stages of development by the upper fenestration;
- simple cemented cornice and string mould;
- cemented architraves and bracketed sills to upper level windows (see also 12-18 Eades Place);
- double-hung sash windows;
- Edwardian-era bullnose verandah form only (bullnose verandah replaced the previous presumably, concave roof verandahs replaced again since 1991 on 28 and 30 Eades Place);
- Edwardian-era bullnose verandah and slatted frieze on 32 Eades Place;
- brick corbelled chimneys; and
- contribution to a highly cohesive Victorian-era streetscape.

The bullnose verandah form had been added in the Edwardian-era but has since been replaced with a mixture of Edwardian-era and Victorian-era character recreated verandah elements; the presumed timber picket front and dividing fences have been replaced with iron reproduction palisade fences on 28, 30 Eades Place; new render to part of 28 Eades Place; new verandah tiling to 28 Eades Place.

How is it significant?

Cullen's row houses, 28-32 Eades Place are significant historically and aesthetically to West Melbourne.

Why is it significant?

Cullen's row houses, 28-32 Eades Place.

- Aesthetically, synonymous with much of the adjoining streetscape as a Cullen Brothers' creation (Criterion E); and
- Historically, contains the first three houses constructed by the Cullens in the street, although these have been added to since, and is sited on the Cullen's Crown Grant and are a valuable indication of the breadth of the Cullen's work, activity that eventually made both brothers wealthy (Criterion A).

William Chambers' row house, part 34-40 Eades Place

34 Eades Place, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1879
View of place:	2015

Statement of Significance

What is significant?

Row house built in 1879 for William Chambers.

Contributory elements include:

- a two-storeyed stuccoed and brick parapeted row house;
- simple parapet cornice;
- parapet entablatures, gabled and arched with scrolls and date;
- built to the street alignment, with consequent shuttering of the ground level window;
- symmetrical fenestration and string-mould;
- double-hung sash windows;
- shutters and doorway with toplight; and
- contribution to a highly cohesive Victorian-era residential streetscape of simply elevated buildings.

House being renovated at time of survey.

How is it significant?

William Chambers' row house is significant historically and aesthetically to West Melbourne.

Why is it significant?

William Chambers' row house is significant.

- Aesthetically, the house is near original, simply ornamented and fenestrated which is typical of the early construction date of this house but not the later two of the row (36 and 40), indicating the desire for visual cohesion in the group's development (Criterion E); and
- Historically, evocative of a major growth period in West Melbourne (Criterion A).

Henry Munn's row house, part 34-40 Eades Place

36 Eades Place, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1884
View of place:	2015

Statement of Significance

What is significant?

Row house built in 1884 for boot and shoemaker, Henry Munn.

Contributory elements include:

- a two-storeyed stuccoed and brick parapeted row house
- simple parapet cornice,
- segmentally arched parapet entablatures, with scrolls and date;
- built to the street alignment, with consequent shuttering of the ground level window;
- symmetrical fenestration and string-mould;
- double-hung sash windows;
- shutters and doorway with toplight; and
- contribution to a highly cohesive Victorian-era residential streetscape of simply elevated buildings.

House being renovated at time of survey.

How is it significant?

Henry Munn's row house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Henry Munn's row house is significant.

- Aesthetically, the house is near original, simply ornamented and fenestrated which is atypical of the construction date of this house, indicating the owner's desire for visual cohesion in the group's development (Criterion E); and
- Historically, evocative of a major growth period in West Melbourne (Criterion A).

Henry Munn's row houses, part 34-40 Eades Place

38-40 Eades Place, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1884, 1893-4
View of place:	2015

Statement of Significance

What is significant?

House at 38 Eades Place initially built for boot and shoemaker, Henry Munn, as a brick shop of four rooms in 1884, next to Munn's residence at 36. In 1893-4 Munn added the four room brick house at 40 Eades Place also converting 38 to a matching house.

Contributory elements include:

- a two-storeyed stuccoed and brick parapeted row houses;
- simple parapet cornice;
- built to the street alignment, with consequent shuttering of the ground level windows;
- symmetrical fenestration and string-mould;
- double-hung sash windows;
- shutters and doorways with toplights; and
- contribution to a highly cohesive Victorian-era residential streetscape of similarly simply elevated buildings.

How is it significant?

Henry Munn's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Henry Munn's row house is significant.

- Aesthetically, the houses are near original, simply ornamented and fenestrated which is atypical of their construction date, indicating the desire of their owner, Munn, for visual cohesion in the group's development (Criterion E); and
- Historically, evocative of a major growth period in West Melbourne (Criterion A).

West Melbourne Baptist Church manse

2 Hawke Street, WEST MELBOURNE

Demolished

Elm ('Ulmus' sp.), Hawke and Curzon Street Reserve

2A Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Tree
Date(s):	1900-1918
View of place:	2015

Statement of Significance

What is significant?

Mature elms ('Ulmus sp.') planted in West Melbourne streets and reserves, are an indication of planting styles of the Victorian and Edwardian-eras before a more varied palette of tree selection was pursued post World War One.

Contributory elements include:

- large elm ('Ulmus' sp.) -37.806104, 144.947706 on the Hawke and Curzon Street Reserve; and
- land within nominally 5m of the root ball.

How is it significant?

This mature elm ('Ulmus sp.') is significant historically and aesthetically and for its rarity in West Melbourne.

Why is it significant?

This mature elm ('Ulmus sp.') is significant.

- Historically, as an indication of tree planting and selection in the Victorian and Edwardian-eras with the goal of beautification and creation of shade (Criterion A);
- Aesthetically, for the form and maturity as planted in a reserve where its growth pattern has been relatively unhindered (Criterion E) ; and
- Rarity, as one of the few remaining examples from a large number of street trees existing in the 1890s (Criterion B).

Claremont Terrace, later Mary Terrace, part 4-12 Hawke Street (5 houses)

4 Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1868-1870
View of place:	2015

Statement of Significance

What is significant?

Five row houses built for Crown Grantee and successful King Street grocer, Alexander McIntosh in three stages extending from 1868 to 1870.

Contributory elements include:

- one storey parapeted stuccoed cottage row of five, distinguished by the sweep in the parapet line with change of level;
- simple cemented cornice moulds, brackets;
- face brick side and rear walls, gabled dividing walls expressed above the roof;
- pitched roof behind the parapet clad with corrugated iron, with cemented and corniced chimneys also early white terracotta pots;
- concave roof front verandah with panelled cast-iron serpentine frieze and brackets;
- double-hung sash windows;
- four-panel entry door and toplight; and
- contribution to valuable Victorian-era streetscape.

Publicly visible side wall rendered.

How is it significant?

Claremont Terrace is significant historically and aesthetically to West Melbourne.

Why is it significant?

Claremont Terrace is significant.

- Historically, as a well-preserved simple and early speculative house row typical of Victorian-era also representative of the start of a major growth period in West Melbourne, also linked with the Crown Grantee, entrepreneur and grocer, Alexander McIntosh, who also built the significant Annagh Terrace (Criterion A); and
- Aesthetically, as a well-preserved cottage row with early Victorian-era form and details and contributory to valuable Victorian-era streetscape (Criterion E).

John Marley's row houses, part 27-33 Hawke Street

27 Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1870-2
View of place:	2015

Statement of Significance

What is significant?

These row houses were built 1870-1872 for North Melbourne engineer and philanthropist, John Marley.

Contributory elements include:

- single fronted and transverse gabled roof row houses with slate roofs (new);
- siting at lane corner;
- expressed party walls in roofline;
- face brick walls (part bricks rendered, tuck-pointed since 1991);
- chimneys with cemented cornices;
- double-hung sash windows;
- entry doors with toplights;
- concave profile verandahs clad with corrugated iron and terminated by shaped masonry end walls with cement blocks and brackets;
- simple single-palisade iron picket fences and gates on stone plinths; and
- contribution to a cohesive Victorian-era residential streetscape.

The cast-iron (presumed) decoration has been removed, part of brickwork painted, and new non-matching roof slates added since 1991.

How is it significant?

John Marley's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

John Marley's row houses are significant.

- Aesthetically, for the row's early and austere face brick construction and small scale, as an evocation of the early construction date also for the contribution to a significant Victorian-era streetscape (Criterion E); and
- Historically, an early speculative row where, typically for West Melbourne, the developer resided in one of the houses also for the close link with the engineer John Marley who was closely associated with local Christian endeavours and left a generous scholarship to Trinity College (Criterion A).

William Barrow's house

37 Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1882-3
View of place:	2015

Statement of Significance

What is significant?

This five room brick house was built in 1882-3 for engineer, William Barrow.

Contributory elements include:

- a two-level, dichrome brick and stuccoed house, the terrace form being typical of West Melbourne in the 1880s;
- two level cast-iron verandah with frieze and integral brackets, unusual balustrade pattern, and concave profile corrugated iron clad roof;
- segment arched raised entablature at the parapet, with cornice and vermiculated blocks;
- double-hung sash windows; and
- contribution to a significant Victorian-era West Melbourne streetscapes.

How is it significant?

William Barrow's house is significant historically and aesthetically to West Melbourne.

Why is it significant?

William Barrow's house is significant.

- Aesthetically, a well-preserved example of the terrace house form and contributory to a significant Victorian-era Streetscape (Criterion E); and
- Historically, representative of a major growth period in West Melbourne (Criterion A).

Henry McKersie's row houses, part 39-41 Hawke Street

39 Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1883
View of place:	2015

Statement of Significance

What is significant?

Row house pair built for Henry McKersie in 1883, designed by renowned architect, J.A.B. Koch and erected by local builder, Charles Nott.

Contributory elements include:

- a two-storey stuccoed brick row house pair (41 now defaced);
- two-level ornate cast-iron verandah with friezes and integral brackets;
- transverse gabled roof line, with expressed party walls and cemented chimneys and terracotta pots;
- dentilated, bracketed and corniced parapets with the date 1883;
- pronounced brackets and transverse chimney shafts, combined with the parapet ornament, distinguish this design from others;
- double-hung sash windows with three lights at ground level, and entrances with toplights; and
- contribution to a significant West Melbourne Victorian-era streetscape.

41 Hawke Street has been altered with the verandah and fence replaced but 39 offers evidence for reinstatement; presumed timber picket fence replaced by a brick walls.

How is it significant?

Henry McKersie's row houses is significant historically and aesthetically to West Melbourne.

Why is it significant?

Henry McKersie's row houses are significant.

- Aesthetically, as a design which presented the skill and subtle variations on what is a common design theme in West Melbourne row house design, as limited by the low integrity of 41, also designed by the renowned J.A.B. Koch and contributory to a significant Victorian-era streetscape (Criterion E); and
- Historically, representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Statement of Significance

What is significant?

Row house pair built for Henry McKersie in 1883, designed by renowned architect, J.A.B. Koch and erected by local builder, Charles Nott.

Contributory elements include:

- a two-storey stuccoed brick row house pair (41 now defaced);
- two-level ornate cast-iron verandah with friezes and integral brackets;
- transverse gabled roof line, with expressed party walls and cemented chimneys and terracotta pots;
- dentilated, bracketed and corniced parapets with the date 1883;
- pronounced brackets and transverse chimney shafts, combined with the parapet ornament, distinguish this design from others;
- double-hung sash windows with three lights at ground level, and entrances with toplights; and
- contribution to a significant West Melbourne Victorian-era streetscape.

41 Hawke Street has been altered with the verandah and fence replaced but 39 offers evidence for reinstatement; presumed timber picket fence replaced by a brick walls.

How is it significant?

Henry McKersie's row houses is significant historically and aesthetically to West Melbourne.

Why is it significant?

Henry McKersie's row houses are significant.

- Aesthetically, as a design which presented the skill and subtle variations on what is a common design theme in West Melbourne row house design, as limited by the low integrity of 41, also designed by the renowned J.A.B. Koch and contributory to a significant Victorian-era streetscape (Criterion E); and
- Historically, representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Jones' row house, part 44-46 Hawke Street

44 Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1874
View of place:	2015

Statement of Significance

What is significant?

Row house pair built by builder-developer, John Jones in 1874.

Contributory elements include:

- two storey stuccoed row house with verandah setback;
- cemented masks, blocks and brackets;
- originally face brick side and rear walls;
- pitched gabled roof, with cemented and corniced shared chimney;
- two storey cast-iron verandah with Corinthian derived column order, guilloche pattern cast-iron frieze and integral brackets;
- double-hung sash windows, with three lights on upper level;
- four-panel entry door and toplight;
- cast-iron palisade front fence integral with verandah; and
- contribution to valuable Victorian-era streetscape.

Verandah details altered.

How is it significant?

Jones' row house, part 44-46 Hawke Street, is significant historically and aesthetically to West Melbourne.

Why is it significant?

Jones' row house, part 44-46 Hawke Street, is significant.

- Historically, representative of the early phase of a major growth period in West Melbourne and linked with the prolific West Melbourne developer, John Jones (Criterion A); and
- Aesthetically, a well-preserved example of the early row house form used in West Melbourne and contributory to a valuable Victorian-era streetscape (Criterion E).

Cockram and Comely's row houses, part 45-47 Hawke Street

45 Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1876
View of place:	2015

Statement of Significance

What is significant?

Row house pair built by Cockram and Comely of West Melbourne in 1876.

Contributory elements include:

- two storey parapeted stuccoed row house pair, with 47 defaced;
- cemented dentilated cornice moulds, rosettes and brackets with a raised arched entablature and guilloche pattern balustrading either side;
- originally face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with Corinthian derived column order, panelled cast-iron frieze and brackets;
- double-hung sash windows, with three lights at ground floor;
- four-panel entry door and toplight;
- cast-iron palisade front fence on dressed stone footings with cemented piers and scrolled garden wall; and
- contribution to valuable Victorian-era streetscape.

47 Hawke Street has been defaced but 45 provides good evidence to allow restoration.

How is it significant?

Cockram and Comely's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Cockram and Comely's row houses are significant.

Historically, for their link with the origins of the successful Cockram contracting firm, and representative of a major growth period in West Melbourne (Criterion A); and
Aesthetically, for distinctive and ornate detailing (45) and as contributory to a significant Victorian-era streetscape (Criterion E).

Sadler's row house

49 Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1872
View of place:	2015

Statement of Significance

What is significant?

House built by James Thurgood in 1872 for William Sadler.

Contributory elements include:

- two storey parapeted stuccoed row house;
- cemented cornice moulds, masks and brackets with a raised rectangular entablature, urns and orbs;
- originally face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimney;
- two storey cast-iron verandah with Corinthian Order derived columns, panelled serpentine cast-iron frieze and brackets;
- double-hung sash windows, with three lights at ground floor and cemented architraves;
- four-panel entry door and side and top lights;
- cast-iron palisade front fence on dressed stone footings and cemented capped piers;
- large two storey brick stable built on the rear lane; and
- contribution to valuable Victorian-era streetscape.

Side wall has been rendered, some cement detailing incomplete; stable bricks painted over and doors converted for a garage Interwar.

How is it significant?

Sadler's row house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Sadler's row house is significant.

- Historically, representative of a major growth period (Victorian-era) in West Melbourne; and
- Aesthetically, for distinctive and ornate façade detailing, the rarity of the rear stable, and as contributory to a significant Victorian-era streetscape.

Nyora, part Jones row houses 74-78 Hawke Street

74 Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1879-81
View of place:	2015

Statement of Significance

What is significant?

Row houses built by John Jones 1879-1881.

Contributory elements include:

- three stuccoed brick, two-storey row houses, each stepped back with the street angle, and down with its slope;
- two-level cast-iron verandahs, with a serpentine motif in the iron frieze work, with integral brackets, contrasting with the more formal guilloche in the balustrading;
- ogee profile corrugated iron clad verandah roofs;
- 74 Hawke Street has a scrolled and pedimented parapet entablature and date (1881) above its cornice (see also 80), contrasting with the plain parapets of 76-8, acting with 80 Hawke Street as bookends;
- cement lions heads and brackets to party wall faces;
- a cemented nail-head motif re-occurs through all facades;
- cemented chimneys;
- cast cement orbs were used at the parapet piers;
- double-hung sash windows, with three-lights at ground level;
- 74 has an iron picket fence;
- 76-78 had spade-head timber picket fences, one surviving on 76; and
- contribution to a significant residential streetscape - made picturesque by the stepped siting laterally and vertically and the common transverse gabled roof lines of each house 74-82 and the shared single-fronted, 19th century row house form of 68-82 Hawke Street.

The spade-head picket fence has been replaced with a recreated iron fence on 78 and the parapet orbs are missing from 74.

How is it significant?

Jones row houses, 74-78 Hawke Street, are significant historically and aesthetically to West Melbourne.

Why is it significant?

Jones row houses, 74-78 Hawke Street, are significant.

- Aesthetically, an early example of a common form of row house design which is near original and forms the major part of a picturesque streetscape (Criterion E); and
- Historically, a superior example of a resident builder-developer's work, where a clear differentiation of his residence from the leased properties is made, these houses are one group of several homes built by Jones in the area between 1867-85; also representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Easton's row house

80 Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1880-1
View of place:	2015

Statement of Significance

What is significant?

House built for Victoria Iron-rolling Mills partner and Old Colonist, Thomas Easton in 1880-1, presumably by West Melbourne builder John Jones.

Contributory elements include:

- a two-storey, stuccoed brick house;
- two-level cast-iron verandah, with a guilloche pattern used in the balustrade panels and serpentine motif in the friezes;
- nail-head ornament is at the parapet - like 74-78 Hawke Street, suggesting that John Jones constructed this house, selling to Easton;
- role, acting with 74 Hawke Street, as bookends to 76-78 Hawke Street;
- ogee profile corrugated iron clad verandah roofs;
- gabled parapet raised entablature with date 'A.D. 1880', piers and orbs, matching that of 74 Hawke St;
- cemented chimneys;
- cement lions heads and brackets to party wall faces;
- double-hung sash windows, with three-lights at ground level;
- iron double palisade picket fence on stone plinth; and
- contribution to a significant residential streetscape - made picturesque by the stepped siting laterally and vertically and the common transverse gabled roof lines of each house 74-82 and the shared single-fronted, 19th century row house form of 68-82 Hawke Street.

How is it significant?

Easton's row house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Easton's row house is significant.

- Aesthetically, as a well-preserved, early example of a common West Melbourne row house type and a key part of one of West Melbourne's significant Victorian-era streetscapes (Criterion E); and
- Historically, representative of a major growth period in West Melbourne and closely linked with Victoria Iron-rolling Mills partner, Thomas Easton, who died a wealthy man as measure of his success in the West Melbourne area (Criterion A).

Lever Brothers Pty. Ltd. factory
95-99 Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1942 approx.
View of place:	2015

Statement of Significance

What is significant?

Moderne style factory built c1942 as part of international soap and margarine production firm, Lever Brothers factory and showroom complex.

Contributory elements include:

- two-level red brick and stucco parapeted factory;
- well-preserved Moderne style elevations;
- strong horizontal elements as spandrels set against the vertical element of the stair;
- fluting along the parapet edge, cemented fins and ribbing in the stair parapet, with cantilevering hood over the entry;
- steel-framed multi-pane glazing in punched openings; and
- contribution of a small industrial complex that abuts in Spencer Street.

How is it significant?

The Lever Bros Pty. Ltd. factory is significant historically and aesthetically to West Melbourne.

Why is it significant?

The Lever Bros Pty. Ltd. factory is significant.

- Historically, as the Interwar expression of the growth of the chemical industry in West Melbourne also seen in buildings for Duerdins and others (Criterion A); and
- Aesthetically, an externally well-preserved Moderne style factory building that concurs with the Spencer Street head office of Lever Brothers in styling and scale (Criterion E).

Widdis Diamond Dry Cells Company Pty. Ltd., later Hygiene Baby Carriages Pty Ltd pram manufacturers

109-111 Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1926
View of place:	2015

Statement of Significance

What is significant?

Factory built in 1926 for the successful battery manufacturing firm, Widdis Diamond Dry Cells Company Pty. Ltd.: H Stanley Harris was the architect and consulting engineer.

Contributory elements include:

- three level red brick and cement clad parapeted factory in a simple Edwardian-Baroque revival style;
- central façade bay flanked by two on either side as defined by giant-order pilasters;
- bowed raised entablature to the central bay;
- red brick side and rear walls;
- Dutch hipped roof clad with corrugated iron or similar behind the parapet;
- multi-pane glazing to steel framed windows, with hopper sashes;
- boarded entry door with multi-pane glazing top light at north end; and
- contribution as part of a significant industrial streetscape, created by one firm (Widdis Diamond Dry Cells Company Pty. Ltd.)

Doors altered at ground level, rendering of brickwork on façade. The interior was not assessed.

How is it significant?

Widdis Diamond Dry Cells Co, Pty. Ltd. factory is significant historically and aesthetically to West Melbourne.

Why is it significant?

Widdis Diamond Dry Cells Co, Pty. Ltd. factory is significant.

- Historically, as a well-preserved and large example of a major manufacturing firm in the West Melbourne Interwar period (Widdis Diamond Dry Cells Company Pty. Ltd.) linked with the new technology production of radio and communications, and as an illustration of the development of cheap land available next to important transport opportunities (Criterion A); and
- Aesthetically, a well-preserved and unusual façade following from the Edwardian-Baroque revival that extended into the Interwar, also contributory to a small but distinctive industrial streetscape, adjoining the former row house building stock it replaced (Criterion E).

Widdis Diamond Dry Cells Company Pty. Ltd.

117-125 Hawke Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1922
View of place:	2015

Statement of Significance

- bowed raised entablature to the central bay with parapet piers;
- red brick side and rear walls;
- pitched roof clad with corrugated iron or similar behind the parapet;
- multi-pane glazing to steel framed windows, with hopper sashes;
- originally boarded entry doors with top lights at each end (doors possibly sheeted over); and
- contribution as part of a significant industrial streetscape, created by one firm (Widdis Diamond Dry Cells Company Pty. Ltd.), scaling down to the Victorian-era row houses adjoining.

Openings have been altered at ground level (new shutter, doors possibly sheeted over) but this has little impact on the overall integrity of the place.

How is it significant?

Widdis Diamond Dry Cells Co, Pty. Ltd. factory is significant historically and aesthetically to West Melbourne.

Why is it significant?

Widdis Diamond Dry Cells Co, Pty. Ltd. factory is significant.

- Historically, as a well-preserved and large example of a major manufacturing firm in the West Melbourne Interwar period (Widdis Diamond Dry Cells Company Pty. Ltd.) linked with the new technology production of radio and communications, and as an illustration of cheap land available next to important transport opportunities (Criterion A); and
- Aesthetically, a well-preserved and unusual façade following from the Edwardian-Baroque revival that extended into the Interwar, also contributory to a small but distinctive industrial streetscape, adjoining and relating to the former row house building stock it replaced (Criterion E).

Connibere, Grieve and Connibere hat factory and showroom

3-11 Howard Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1906
View of place:	2015

Statement of Significance

What is significant?

Hat factory and showroom designed by architects Ussher and Kemp for Connibere, Grieve and Connibere; the builder, Thomas Sanders applying to build it in 1906.

Contributory elements include:

- three level brick (assumed red bricks since painted over) and cemented factory and showroom in a modern Elizabethan revival style;
- three bay façade with central bay crowned by raised and scrolled entablature with orb or ball, cornice and string moulds;
- candle-snuffer tops to the hexagonal section, façade piers;
- symmetrically arranged openings (new joinery) with stop-chamfered reveals;
- face brick side and rear walls, with gabled side wall profile; and
- a major contributory element in an Interwar, Edwardian and Victorian-era streetscape.

Recent renovations have superficially reduced the building's architectural value: with bricks painted over in an unrelated colour scheme; new reflective one pane glazing to upper level windows and refitting of ground level openings. Orbs or balls removed from parapet piers.

How is it significant?

Connibere, Grieve and Connibere hat factory and showroom is significant historically and aesthetically to West Melbourne.

Why is it significant?

Connibere, Grieve and Connibere hat factory and showroom is significant.

- Historically, as a major industrial place in West Melbourne and the commencing point of a later significant complex for R and WH Symington and Co. Pty. Ltd. (Aust) (Criterion A); and
- Aesthetically, a commanding landmark Edwardian-era factory, designed by the important architects Ussher and Kemp, sited as was traditional with adjoining Victorian-era row houses to form a significant but diverse grouping from a major growth period in West Melbourne being the Edwardian-era (Criterion E).

John Stedeford's house

13 Howard Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1875
View of place:	2015

Statement of Significance

What is significant?

House built for property speculator John Stedeford in 1875.

Contributory elements include:

- a highly decorated, two storey stuccoed brick house, apparently architect designed;
- parapeted roof line with rich cemented detail of arched entablature and shell, guilloche pattern parapet balustrading and the pronounced orbs, set on the parapet piers, paired brackets supporting the deep cornice, assisted by dentil mouldings above a swagged entablature frieze;
- a two level cast iron verandah, with central column to the upper level which does not continue to the ground and panelled cast iron friezes with fringing and brackets;
- iron picket fence, with masonry piers;
- an arched entrance portal possessing a spoked fanlight;
- lower level window bay with its corner, Corinthian pilasters and panelled sub sill wall face that is uncommon;
- tiled verandah; and
- contribution to a superior group of houses, Nos. 13-19, which complement the significant St. Mary's church complex adjoining.

How is it significant?

John Stedeford's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

John Stedeford's house is significant.

- Aesthetically, of a common row house type but is near original, skilfully and richly decorated and contains unusual details, attributable to architect James Lee. The house is a major part of a significant late 19th and early 20th century civic and residential streetscape (Criterion E); and
- Historically, linked with John Stedeford who built the important streetscape in Queensberry Street, between Chetwynd and Leveson Streets, and completed many other projects in the inner metropolis as owner-builder or owner; also linked with architect James Lee who designed three significant houses in Howard Street (13, 15, 19) (Criterion A).

James Lee's house

15 Howard Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1875-6
View of place:	2015

Statement of Significance

What is significant?

House designed by North Melbourne architect James Lee as one of two built either side of the Victoria Place entry, being 15 and 19 Howard Street, in the 1875-6 and 1872-3 respectively.

Contributory elements include:

- two storey, coloured brick and stucco, parapeted row house;
- face brick side wall to lane leading to former factory;
- trim brickwork as quoins but also under the ground level window sill in a recessed panel;
- simple cemented ornament, with cornice, scrolled blocks and vermiculated panels with brackets;
- distinctive Gibbs surrounds, as vermiculated blocks on each verandah side-wall;
- double-hung sash windows, one upper level window taken to near floor level as a verandah entry;
- four panel entry door, with toplight;
- a two level cast iron verandah, with panelled iron friezes, brackets and balustrading, the latter of an unusual lyre-shape design;
- discontinuous upper verandah post (Refer to No 13 Howard Street);
- tiled verandah;
- sympathetic timber picket fence, albeit in only fair condition; and
- contribution to a valuable Victorian-era row house precinct, adjoining the significant St. Mary's complex.

Trimming bricks are painted over.

How is it significant?

James Lee's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

James Lee's house is significant.

- Aesthetically, a near original example of a common type, being distinguished by its iron and cemented detailing and contributing to a significant streetscape (Criterion E); and
- Historically, and socially, representative of a major growth period in West Melbourne and as an example of another speculative property, associated by ownership and design with a successful local architect James Lee; also, as a boarding house over a long period, the house has associations for many former West Melbourne residents (Criterion A).

James Lee's house

19 Howard Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1872-3
View of place:	2015

Statement of Significance

What is significant?

House designed by North Melbourne architect James Lee as one of two built either side of the Victoria Place entry, being 15 and 19 Howard Street, in the 1875-6 and 1872-3 respectively

Contributory elements include:

- a two storey, wide frontage coloured brick and stucco row house set on basalt footings;
- French doors on the upper level open onto the verandah, with flanking arched niches and a distinctive central arched niche;
- two level cast iron verandah where, like 13, 15 Howard Street, the upper post does not continue to the ground;
- verandah decoration including unusually fine panelled cast iron work with brackets which incorporates the lyre pattern (as does 15 Howard Street);
- simple cemented parapet, with a cornice and nail head motifs used on the verandah side walls;
- double-hung sash windows with bracketed sills and ornamented panels under, as with 15 Howard Street;
- sympathetic cut back timber picket front fence; and
- contribution to a valuable Victorian-era residential streetscape, adjoining the significant St. Mary's complex.

The side wall to the lane has been rendered over, probably replacing face brick.

How is it significant?

James Lee's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

James Lee's house is significant.

- Aesthetically, as a well-preserved and early example of a later common residential form, possessing unusual cast iron and brickwork details and a part of a significant streetscape (Criterion E); and
- Historically, a former residence of John Stedeford who built the important streetscape in Queensberry Street, between Chetwynd and Leveson Streets and completed many other projects in the inner metropolis as owner builder or owner (Criterion A).

Clayton-Joel and Company factory

17 Jeffcott Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1912, c1996
View of place:	2015

Statement of Significance

What is significant?

Remnant of factory erected for electrical engineer William Clayton-Joel in 1912.

Contributory elements include:

- two-storey red brick parapeted factory form, with two street elevations;
- corbelled brick cornice detailing;
- segmentally arched openings with lintels;
- bullnose brick reveals to openings;
- steel framed multi-pane glazing down lane façade, timber framed on main facade; and
- corner site.

This factory was redeveloped in 1996, removing much of the integrity to its history.

How is it significant?

The Clayton-Joel and Co factory is of historical significance to West Melbourne.

Why is it significant?

The Clayton-Joel and Co factory is significant.

- Historically, as an Edwardian-era remnant of industrial development at the edge of the City inspired by new prosperity after Federation and revised trading circumstances; also for the long association with Clayton, Joel and Co, electrical engineers who were active in promoting early use of electrically powered machinery and products in Victoria (Criterion A).

Elms (x6), street trees

81-141 near Jeffcott Street, West Melbourne

New grading system:	Significant
Place type:	Trees
Date(s):	1875-1900
View of place:	2015

Statement of Significance

What is significant?

Mature elms ('*Ulmus sp.*') are an indication of planting styles of the Victorian and Edwardian-eras before a more varied palette of tree selection was pursued post World War One.

Contributory elements include:

- six elms as part of an avenue (some in poor health) near 81-141 Jeffcott Street -37.812435, 144.949570 to -37.812240, 144.950687;

land within five metres of the root ball; and

- their contribution to the adjoining significant and contemporary Sands & McDougall complex.

How is it significant?

The elms are significant historically and for their rarity in West Melbourne.

Why is it significant?

The elms are significant.

- Historically, as an indication of tree planting and selection in the Victorian and Edwardian-eras with the goal of beautification and creation of shade (Criterion A) ; and
- Rarity, as some of the few remaining examples from a large number of street trees existing at West Melbourne in the 1890s (Criterion B).

North Melbourne War Memorial, King and Victoria Street Reserve (relocated)

At Hawke Street and King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Monument
Date(s):	1926
View of place:	2015

Statement of Significance

What is significant?

The North Melbourne War Memorial was erected by H. B. Corbin and Sons Pty. Ltd. for the North and West Melbourne Red Cross Society in 1926 at the corner of Errol and Victoria Streets, later relocated to this site.

Conflicts Commemorated:

- First World War 1914-18
- Second World War 1939-45
- Malayan Emergency 1948-60
- Vietnam War 1962-72

How is it significant?

North Melbourne War Memorial is significant historically, socially and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

North Melbourne War Memorial is significant.

- Historically, and socially, as the paramount symbol of the terrible losses of local lives during World War One in North and West Melbourne and a key war memorial in the City of Melbourne, also the focus of a major local gathering at the unveiling of the memorial as indicative of the deep community associations and their united cause in funding its erection (Criterion A, G) ; and
- Aesthetically, as a custom designed memorial successfully utilising past stone masonry and metal inlay skills (Criterion E).

Phoenix Clothing Company complex

347-349 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Warehouse
Date(s):	1854-1859
View of place:	2015

Statement of Significance

Victorian Heritage Register Statement of Significance
Victorian Heritage Register number: H0801

What is significant?

The Former Phoenix Clothing Company building is a three storey stone and brick shop, residence and store complex. It contains fabric from several different periods of building and alteration. The earliest section dates from the early gold rush era, while three storey additions were made in 1859 and the ground floor of the rear store/factory section probably dates from the 1860s. An 1869 photograph of the building showed a loggia, but this has been filled with windows.

How is it significant?

The Former Phoenix Clothing Company building is of historical and architectural significance to the State of Victoria.

Why is it significant?

The Former Phoenix Clothing Company building is of historical significance as one of the oldest examples of a commercial building and factory in the State. Its King Street facade contains rare gold rush-era elements, from a time when King Street was an unmade although busy road with bullock drays and other carriers' wagons, loaded with goods, continually passing on their way to Bendigo and the other diggings. The factory proper dates from the 1860s and provides important evidence of the character of early industrial organisation in Melbourne. The Phoenix Clothing Company was established in the wake of post gold rush metropolitan growth and benefited from the introduction of tariff legislation in the 1870s. The Phoenix factory was one of the few mechanised 19th century clothing manufacturers, and has been credited with introducing advanced overseas technology to Victoria. Although there have been many structural changes to the building over the years, the essential design and structure of the complex provide a substantially intact representation of contemporary factory design and working conditions, and of aspects of 19th century building technology.

The Former Phoenix Clothing Company building is of historical significance as evidence of the character of Melbourne's early development. The combination of residence, shop and factory is a reminder of a time when the city was much more compact, and residence and workplace were often located in the same building or very nearby. The building also demonstrates the long-term continuity of industrial usage in this part of Melbourne.

The Former Phoenix Clothing Company building is of historical significance for its associations with the notable Fenwick Brothers, and Albion T. Walkley. The Fenwick Brothers were London clothing manufacturers and importers, who owned the site from the 1850s and established the Phoenix Clothing Company there in the 1870s. Orlando Fenwick (1822-1897) who once lived on the premises, was a prominent Victorian clothing manufacturer and importer. He also took a leading role in Melbourne harbour development schemes and was a Melbourne City councillor over a long period and Mayor

of the city. Walkley, the factory manager from 1875 and owner of the manufacturing section of the business from 1878, was responsible for introducing into the Victorian clothing trade the innovative mechanical knife system of cutting which revolutionised the industry in the pre-WW1 period.

The Former Phoenix Clothing Company building is of architectural significance because of its first floor loggia, perhaps the earliest example in Melbourne (although it has subsequently been built in, it is restorable) and as part of a coherent mid-19th century commercial streetscape which gives some idea of the architectural character of this part of Melbourne in the post-gold rush period.

Kidd's row houses later Langdon Buildings

351-355 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1863-1869
View of place:	2015

Statement of Significance

Victorian Heritage Register Statement of Significance
Victorian Heritage Register number: HO527

What is significant?

The Langdon Building at 351-355 King Street was built as three terrace houses by the owner-builder Robert Kidd. He built them in stages as follows: No.351 in 1863, No.353 in 1865 and No.355 in 1869. Kidd lived at No.353. The middle house of the three was a shop from 1870 but has now had its shopfront removed. All three terrace houses are two storeys, constructed in brick with coursed bluestone facades. Access was directly off the street in the manner of English town houses. Each house has quoins, a motif which is repeated around the front door and windows. Whilst all three buildings are constructed on the street alignment the parapet and string course is not continuous, reflecting the differing stages of construction. The Langdon Building was used as an early clothing factory and was later combined with the adjoining the Fenwick Brothers Phoenix Clothing building. These early factories share a party wall and were once linked via twin archways.

How is it significant?

The Langdon Building is of architectural and historical significance to the State of Victoria.

Why is it significant?

The Langdon Building is architecturally significant as an excellent example of the use of Victoria's ubiquitous bluestone as a construction material. Spanning three periods of construction, the Langdon Building has a consistent use of facing bluestone. There is a contrast between the fine ashlar finishes of the architraves, quoins and string courses and the rougher finish of the wall areas.

The Langdon Building is historically significant as a rare complex of three residential buildings amalgamated for industrial use. It is a rare example of a surviving clothing factory in the central business district. From 1870 the Langdon Building was a clothing factory and had a close relationship to the notable Phoenix Clothing Factory buildings to the south. It demonstrates the adaptation and adjustment of owners to changing economic conditions in Melbourne.

Bay View Hotel

360 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Hotel
Date(s):	1864-5
View of place:	2015

Statement of Significance

What is significant?

Bay View Hotel built for local hotelier, Michael Moran by J. Holmes and later, James Healy, in 1864-5.

Contributory elements include:

- a stuccoed brick and stone, parapeted corner hotel of two- storeys;
- hipped corrugated iron clad roof set behind a parapet;
- simply moulded cornice, architraves and six-pane double-hung sashes denote the building's age;
- an ornamental metal lamp attached with scrolled brackets to the wall over the side entry is of unknown provenance but is related to the period and use; and
- contribution as a traditional if isolated corner element with some relationship to two two-storey row houses on the north and east sides in Walsh and King Street.

Some new unruled stucco to walls, replacement of a side doorway and door and assumed conversion of the former corner entry to a window. Major visually related additions have been made to both frontages. However the traditional hotel form, siting and fenestration is still evident.

How is it significant?

The Bay View Hotel is significant historically, socially and aesthetically to West Melbourne.

Why is it significant?

Bay View Hotel is significant.

- Aesthetically, a typical corner sited, simply designed hotel which exhibits a simple Italian Renaissance Revival form used from early in Melbourne's history into the 1880s (Criterion E); and
- Historically, and socially, as an hotel, the former social centre of the locality and associated with hotelier, Moran, who was also connected with the Rob Roy and Mansion House hotels in West Melbourne; representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Ralph A. Stuart and Co. wool brokers, later NCO House

363 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Offices, wool stores
Date(s):	1934
View of place:	2015

Statement of Significance

What is significant?

Moderne style wool stores and offices designed by Craig Reynolds and Garrett in 1934 for Ralph Stuart and Company King Street, Melbourne.

Contributory elements include:

- three level parapeted wool stores and offices in face brick designed in the Dudok Moderne style;
- cream upper level brickwork, red ground level;
- streamlined banding as horizontal recesses with windows set within;
- dominant vertical element over the entry provide for the typical interplay of massing associated with the style;
- significant brickwork detailing as ribs, jelly-mould forms, soldier course architraves;
- cast cement rams head logo over entry;
- streamlined horizontal window ledge, set on faceted window buttresses and sills beneath;
- loading bay and carriage way under south wing of building for wool traffic; and
- the visual relationship with earlier significant buildings adjoining, with similar punched fenestration and parapeted form, if not scale.

Steel framed multi-pane glazing replaced, but the overall integrity is high.

How is it significant?

Ralph A. Stuart and Co. Wool brokers wool stores, showrooms and offices are significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Ralph A. Stuart and Co. Wool brokers wool stores, showrooms and offices are significant.

- Historically, as a lingering presence of primary industry buildings on the fringe of the Melbourne business district, specifically located in West Melbourne where transport access and cheaper land aided in its location (Criterion A); and
 - Aesthetically, a well-preserved and significant Moderne style façade in the Dudok manner with skilful use of brickwork and massing (Criterion E).

Flagstaff House, Yuncken Freeman Architects Pty. Ltd. offices 407-415 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Offices
Date(s):	1968
View of place:	2015

Statement of Significance

What is significant?

International Modern style office building built 1968 for owners, occupiers and designers, Yuncken Freeman Architects Pty. Ltd..

Contributory elements include:

- basement and two upper levels of offices in a rectanguloid form;
- no expressed roof;
- the counter play of simple geometric rectanguloid forms, as horizontal elements set again a masonry vertical element, with an offset to allow expression of each;
- glass and steel modular façade with full-height tinted glazing (floor to ceiling);
- imposed 'structure' as steel universal-section mullions on steel plate fascias;
- originally an open office plan with modular partitioning (modified);
- natural grey podium base;
- original black external colour scheme;
- floating external open-riser stairs with simple steel bar balustrading as handrails and newelonly;
- flush plaster soffits with recessed downlights; and
- minimal landscaping, paved setting.

Sign panels have been added. External doors and furniture changed. Interior layout and furnishing changed (inspection from street only). Glass bricks added facing the rear car park.

How is it significant?

Flagstaff House, Yuncken Freeman Architects Pty. Ltd. offices is significant historically and aesthetically to West Melbourne, the City of Melbourne and Victoria.

Why is it significant?

Flagstaff House, Yuncken Freeman Architects Pty. Ltd. offices, is significant.

- Historically, for the close link with the important architectural firm of Yuncken Freeman Architects designed as their own offices, the firm being nationally prominent at that time (Criterion A); and
- Aesthetically, the most accomplished, early small-scale International Modern office designs in Victoria, serving as a prototype for the design and development of BHP house as well as an advertisement for the firm's design direction; perhaps one of the most faithful of the Mies van der Rohe inspired designs in Victoria, following an internationally applauded design theme (Criterion E).

George Donald's house (also James Bryce's wooden house at rear)
438 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	House
Date(s):	1873-4, 1863 rear
View of place:	2015

Statement of Significance

What is significant?

House built for George Donald, local inspector of weights and measures in 1873-4.

Contributory elements include:

- double-fronted two colour Italianate style brick villa with M-hipped main roof;
- patterned slate roof cladding, cemented chimneys with unusual arcaded shafts and cornices;
- face brick rear and side walls;
- bracketed eaves, vermiculated cemented panels, masks and brackets to side walls;
- front verandah with Corinthian derived column order, cast-iron frieze and integral brackets;
- double-hung sash windows, with moulded cement architraves and bracketed sills and panels under;
- four-panel entry door and side and top lights;
- encaustic mosaic tiles to verandah;
- remnants of an Interwar wire fence (part replaced); and
- the contribution to a valuable Victorian-era streetscape.

How is it significant?

George Donald's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

George Donald's house is significant.

- Historically, for the close link with the regionally prominent inspector of markets, George Donald, and representative of a major growth period (Victorian-era) in West Melbourne (Criterion A); and
- Aesthetically, a well-preserved and significant Italian villa design with uncommon detailing (Criterion E).

Mezrich-house, or Abraham Smith's house, later Don Henry Fulton's office

439 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1885
View of place:	2015

Statement of Significance

What is significant?

House first owned by Elizabeth Street pawn broker, Abraham Smith in 1885, and later the office of the prize winning architect, Don Hendry Fulton, from around the late 1950s-1960s.

Contributory elements include:

- two storey parapeted stuccoed elevated row house;
- cemented cornice moulds, foliated and faceted blocks and brackets with an entablature mould, panelled verandah side walls;
- face brick side and rear walls;
- pitched hipped roof behind the parapet, with cemented and corniced chimneys (part);
- rebuilt two storey cast-iron verandah with Corinthian derived column order, panelled cast-iron frieze and brackets also dentilated gutter mould;
- dressed and quarry face blue stone faced, raised verandah floor;
- double-hung sash windows, with cemented architraves and arched lights at ground floor;
- substantial four-panel entry door with side and top light including a spoked fanlight;
- cast-iron double palisade front fence on dressed and rubble blue stone footings with cemented and scrolled side yard walls and piers (caps reconstructed); and

- the contribution to small but valuable Edwardian and Victorian-era streetscape with the St James church complex adjoining, the arched fenestration matching that of the church.

How is it significant?

Mezrich-house, or Abraham Smith's house, later Don Henry Fulton's office is significant historically and aesthetically to West Melbourne.

Why is it significant?

Mezrich-house, or Abraham Smith's house, later Don Henry Fulton's office is significant.

- Historically, for the building's close link with the locally prominent Abraham Smith family and later as the long-term office of prize winning architect, D. H. Fulton (Criterion A); and
- Aesthetically (as reconstructed), a well-preserved and large row house design with distinctive detailing and form, indicating a custom design; also a contributory part of a small Edwardian and Victorian-era precinct (Criterion E).

Newstead or Ormiston house

444 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	House
Date(s):	1878, 1913
View of place:	2015

Statement of Significance

What is significant?

House first owned by engineer, William Ormiston, in 1878 and renovated by his son, James Ormiston c1913, with Edwardian-era detailing applied to the old double gabled 1870s cottage form.

Contributory elements include:

- one storey parapeted brick and stuccoed row house;
- slim cemented cornice moulds, multiple vermiculated panels on the entablature, scrolls and brackets and a raised arched entablature, with house name, cemented swag and anthemion on top;
- face brick side and rear walls;
- slate clad double-gabled roof behind the parapet, with terracotta Edwardian-era ridge cappings, and cemented and corniced chimneys with terracotta Edwardian-era pots;
- front bullnose profile verandah with corrugated iron cladding, turned timber posts, fan pattern cast-iron frieze and integral brackets, all of Edwardian character;
- double-hung sash windows;
- four-panel entry door and toplight;
- dressed stone flags to verandah floor;
- pitched laneway and crossing; and
- contribution to valuable Victorian-era streetscape.

Facade bricks painted over, Victorian-era reproduction iron fence added and an unrelated roller door added over the pitched lane entry but the house remains true to the last development in the Edwardian-era.

How is it significant?

Newstead or Ormiston house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Newstead or Ormiston house is significant.

- Historically, for the close link with the engineering Ormiston family, an occupation that relates well to West Melbourne's industrial history; representative of two major growth periods in West Melbourne, the Edwardian and Victorian-eras (Criterion A); and
- Aesthetically, an unusual combination of two eras, Edwardian and Victorian-era, with distinctive vermiculated panels (Criterion E).

Underground Public Toilets Hawke Street and King Street Reserve

446 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Public Toilet
Date(s):	1938
View of place:	2015

Statement of Significance

Victorian Heritage Register Statement of Significance

Victorian Heritage Register number: H2133

What is significant?

The underground men's public toilet in West Melbourne, built in 1938, is one of eleven built in Melbourne in the early twentieth century in response to public demand for public toilet facilities in Melbourne that were both sanitary and discreet. Street-level toilets were regarded as indecently open to public view. Underground toilets removed toilets from public view, and had already been built in Scotland, England and Sydney. The establishment in December 1890 of the Melbourne and Metropolitan Board of Works, responsible for building and maintaining an underground sewerage system, had provided the necessary infrastructure. The first underground public toilet in Melbourne, which included facilities for women as well as men, was opened in Russell Street in 1902. Several more were built before World War I: a men's in Queen Street in 1905; a men's and women's in Elizabeth Street opposite the Queen Victoria Market in 1907; a men's in Swanston Street in 1909 (now demolished); a women's in Elizabeth Street outside the GPO in 1910 (a men's was added in c1927); and a women's outside the Town Hall in Collins Street in 1914 (a men's was added c1960). A men's was built in Flinders Street in 1918. Four more were built in the Interwar period: this one in West Melbourne, one in Carlton, and two in East Melbourne (one of which has been demolished).

The underground public toilet is in a small park at the corner of King and Hawke Streets, West Melbourne, near the south end of the Errol Street shopping strip. Above ground elements are very similar to the earlier underground toilets built in Melbourne between 1902 and 1918, and consist of two stairway entrances enclosed by iron railings, iron gates and cast iron combined ventilation pipes and sign posts. An additional feature at ground level, found only on this toilet and the one in Carlton built in 1939, is the Moderne style polychrome brick ventilation shaft with decorative wrought iron panels. The toilet has now been decommissioned and the entrances are covered by concrete slabs. The condition of the interior is unknown.

Why is it significant?

The underground public toilet in West Melbourne is of historical and architectural significance to the state of Victoria.

How is it significant?

The underground public toilet in West Melbourne is of historical significance as one of the group of public toilets built in Melbourne in the early twentieth century which reflects an important era of sanitary, technological and social reform, as well as contemporary attitudes to public decency. It is a reflection of a major engineering achievement, the development of Melbourne's underground water, drainage and sewerage system, and the advances in sanitation and public health made possible, following the establishment of the Melbourne and Metropolitan Board of Works in 1890.

The underground public toilet in West Melbourne is of architectural significance as an example of an unusual building type, and of early twentieth century civic design. The iron railings, gates and columns and the brick ventilation shaft are of interest as examples of street furniture of the period.

Elm, Hawke Street and King Street Reserve 446 near King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Tree
Date(s):	1900-1918
View of place:	2015

Statement of Significance

What is significant?

Mature elms ('Ulmus sp.') are an indication of planting styles of the Victorian and Edwardian-eras before a more varied palette of tree selection was pursued post World War One.

Contributory elements include:

- mature elm ('Ulmus' sp.), Hawke Street and King Street Reserve, near 446 King Street -37.805317, 144.949171; and
- land within five metres of the root ball.

How is it significant?

This mature elm ('Ulmus sp.') is significant historically, aesthetically and for its rarity in West Melbourne.

Why is it significant?

This mature elm ('Ulmus sp.') is significant.

- Historically, as an indication of tree planting and selection in the Victorian and Edwardian- eras with the goal of beautification and creation of shade (Criterion A);
- Aesthetically, for its form and maturity as located in a reserve, where its growth pattern has been relatively unhindered (Criterion E); and
- Rarity, as one of the few remaining examples from a large number of street trees existing in the 1890s (Criterion B).

City of Melbourne Electric Supply Department pillar-box, Hawke Street and King Street Reserve

446 near King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Utility
Date(s):	1900s
View of place:	2015

Statement of Significance

What is significant?

City of Melbourne Electric Supply Department pillar-box located on the edge of the Hawke Street and King Street Reserve, is typical of pillar-boxes erected after 1900 when the Melbourne City Council Electric Supply Department commenced construction of a Direct Current electricity supply system for inner Melbourne.

Contributory elements include:

- rectangular cast-iron pillar-box
- pyramidal top;
- cast City emblems on side of pillar set in panels; and
- set on asphalt paved base.

How is it significant?

City of Melbourne Electric Supply Department pillar-box is located on the edge of the Hawke Street and King Street Reserve is significant historically and aesthetically to West Melbourne.

Why is it significant?

City of Melbourne Electric Supply Department pillar-box is located on the edge of the Hawke Street and King Street Reserve is significant.

- Historically, as symbolic in the advance of new City of Melbourne services in the West Melbourne area (Criterion A); and
- Aesthetically, for the ornamental castings that make up the box, that reflects the Victorian and Edwardian-era cast-iron decoration used on nearby houses and shops (Criterion E).

Gair Manufacturing Company Pty. Ltd. Bulk Store

461-467 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Warehouse
Date(s):	1935, 1998
View of place:	2015

Statement of Significance

What is significant?

Gair Manufacturing Company Pty. Ltd. bulk store designed by Norman Seabrook Architect, ARAIA in 1935, in Seabrook's trademark Dudok Modernist style.

Contributory elements include:

- two storey parapeted face brick warehouse;
- pitched roofs concealed behind the parapet;
- rectilinear, rounded-corner Modernistic form, facing Dudley and King Streets;
- coloured brickwork banding to accentuate horizontals;
- vertical massing elements as the entry bay;
- repeating window modules set in horizontal strips, with cemented streamline window hood; and
 - the contribution to a minor Modernist streetscape at this corner, with the similarly Modernistic 469-471 King Street adjoining.

Bricks painted over, ground level yellow brick rendered; new visually related windows at ground level set in deeper openings; new entry in a similar style to building.

How is it significant?

The Gair Manufacturing Company Pty. Ltd. Bulk Store is significant historically and aesthetically to West Melbourne.

Why is it significant?

The Gair Manufacturing Company Pty. Ltd. Bulk Store is significant.

- Historically, for the association with the Gair company and the firm's expansion that paralleled service during World War Two (Criterion A); and
- Aesthetically, as an altered but good example of European Modernism by Norman Seabrook, the designer claimed to be the instigator of this style in Victoria in 1934 (Criterion E).

West Melbourne Police Station, later Fibrous Plaster Manufacturers Association of Victoria offices

469-471 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house, offices
Date(s):	1884, 1952-3, 1993
View of place:	2015

Statement of Significance

What is significant?

Offices, police station, and dwelling designed 1952-3 for the Fibrous Plaster Manufacturers Association by Edgar H Alexander LRAIA that included a rebuild of two brick row houses built for a Mrs Ann Brown in 1884.

Contributory elements include:

- two-storey parapeted, brick and cement Modernist façade to King Street;
- red brick to south side wall;
- windows set in horizontal bands or streamlined strips;
- projecting cemented moulds delineating parapet and window strips;
- heeler brick infill between windows as part of the banding;
- tiles or tile like cementing as façade banding;
- rolled-edge cast cement reveals to the entry;
- Victoria coat of arms 'Quality and Integrity' as an indication of the police occupation;
- Victorian-era row house roof forms and walls behind; and
- contribution to a minor Modernist streetscape at this corner, with the Modernistic 461 King Street adjoining.

Façade steel-framed windows replaced; bricks and façade tiles painted over; Victoria coat of arms modified.

How is it significant?

West Melbourne Police Station, later Fibrous Plaster Manufacturers Association of Victoria offices, is significant historically, socially and aesthetically to West Melbourne.

Why is it significant?

West Melbourne Police Station, later Fibrous Plaster Manufacturers Association of Victoria offices, is significant.

- Historically, and socially, for the long-term occupation of both phases of the building's development by the Victoria Police, as a West Melbourne public building (see coat of arms); also expressive, by the extent of the 1952-3 works, of the era before post-war restrictions were lifted on non-residential building works and the competing need for a building related association to present a modern face to the world (Criterion A, G); and
- Aesthetically, as an altered but adept Modernist design, coupled with the adjoining building as examples of this stylistic theme (Criterion E).

Tame and Company factory
511 King Street, WEST MELBOURNE

Demolished

Mair's row houses, part 555-557 King Street

555 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1875
View of place:	2015

Statement of Significance

What is significant?

Row house pair erected by Stephen Mair in 1875.

Contributory elements include:

- two storey parapeted stuccoed row house pair;
- cemented dentilated cornice moulds, blocks and brackets;
- face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with Corinthian derived column order, panelled cast-iron frieze and brackets also the rare lyre pattern balustrade panel;
- double-hung sash windows, with 3 lights at ground floor;
- four-panel entry door and toplight; and
- cast-iron palisade front fences and gates on dressed stone footings.

How is it significant?

Mair's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Mair's row houses are significant.

- Historically, for the association with Stephen Mair before he joined the veritable Samuel Amess firm, one of the builder-developers typical of West Melbourne, and representative of a major growth period in West Melbourne (Criterion A); and
- Aesthetically, a well-preserved early row house design with a rare cast-iron detailing (Criterion E).

Mair's row house, part 555-557 King Street

557 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1875
View of place:	2015

Statement of Significance

What is significant?

Row house pair erected by Stephen Mair in 1875.

Contributory elements include:

- two storey parapeted stuccoed row house pair;
- cemented dentilated cornice moulds, blocks and brackets;
- face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with Corinthian derived column order, panelled cast-iron frieze and brackets also the rare lyre pattern balustrade panel;
- double-hung sash windows, with 3 lights at ground floor;
- four-panel entry door and toplight; and
- cast-iron palisade front fences and gates on dressed stone footings.

How is it significant?

Mair's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Mair's row houses are significant.

- Historically, for the association with Stephen Mair before he joined the veritable Samuel Amess firm, one of the builder-developers typical of West Melbourne, and representative of a major growth period in West Melbourne (Criterion A); and
- Aesthetically, a well-preserved early row house design with a rare cast-iron detailing (Criterion E).

Burnside House, part Houston's row houses 581-583 King Street 581 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1883
View of place:	2015

Statement of Significance

What is significant?

Row house pair built in 1883 for Hugh Houston, partner in a pioneering ship building company, to the design of prolific local architect, Henry Shalless.

Contributory elements include:

- two stuccoed brick, two storey row houses;
- parapets, with distinctive full arched raised entablatures, shells, and flanking piers and urns above the scrolled name panel;
- cemented chimneys and terracotta pots above the pitched main roofs;
- Two level cast iron verandahs with ornate friezes, brackets and balustrading, dentilated eaves and a concave corrugated iron clad roof;
- arched and architraved double-hung sash windows, with panelled sills and pilasters;
- an ornate entrance with a deeply panelled door, spoked fanlight connected to panelled side lights;
- tiled verandah;
- double palisade Iron picket fences set on dressed basalt at the frontage, with cemented piers and orbs, also scrolled yard dividing walls;
- large face brick service wings, with face brick to side of 581 (bricks painted over);
- corner siting for 581 King Street; and
- contribution as a valuable corner element in a richly decorated and significant Victorian-era residential streetscape from Roden to Hawke Streets.

Bricks painted over on the side wall of 581.

How is it significant?

Houston's row houses are significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Houston's row houses are significant.

- Aesthetically, as one of the relatively small number of architect designs within this common row house form in West Melbourne, the houses are well-preserved, richly ornamented in a competent manner, and are a valuable part of a significant Victorian-era streetscape (Criterion E); and
- Historically, two of a row of speculative houses, aimed at an aspiring market, and associated with an old West Melbourne resident, Houston, who developed a number of other properties in the area and helped form one of the Colony's first ship building works (Criterion A).

Bell's house, part row houses, 585-587 King Street

585 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1883
View of place:	2015

Statement of Significance

What is significant?

Two row houses built by John Bell in 1883.

Contributory elements include:

- two storey, parapeted dichrome brick row houses, 587 more ornate and with a wider frontage;
- detailing of segmentally arched cemented raised entablatures flanked by cast iron finials set on incised (585) piers;
- vermiculated blocks on 587;
- cast iron verandahs of two levels, with friezes, brackets and balustrade panels with balusters;
- ornamented brick verandah end walls, with 587 being thicker than 585;
- double-hung sash windows with segmental arches on 585;
- ornate arched entrance with panelled side lights and fanlight at 587 and a more austere flat-arched entrance, toplight only, at 585, as indicators of their relative status;
- tiled verandah floor;
- double palisade iron front fences on dressed stone plinths, with ornamented cement piers and scrolled dividing walls, plus orbs or finials; and
- contribution as part of a valuable Victorian-era residential streetscape.

Fence and parapet finials and urns are missing, as minor changes to the house exteriors.

How is it significant?

These row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

These row houses are significant.

- Aesthetically, as well-preserved and ornate examples of a common row house type in West Melbourne and contributory part of a significant Victorian-era streetscape (Criterion E); and
- Historically, as custom built row houses they contrast to the more typical speculative dwellings of West Melbourne; and are representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Frederick Stones' row houses, part 589-591 King Street

589 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1882
View of place:	2015

Statement of Significance

What is significant?

Row houses built by West Melbourne contractor, Frederick Stones in 1882.

Contributory elements include:

- two storey, stuccoed brick parapeted row house pair, set close to the street;
- rectangular cemented raised parapet entablature, flanked by orbs and urns at the piers and partywalls;
- very ornate two level cast iron verandahs, with panelled friezes, brackets, fluted posts, and dentilated eaves;
- cemented and corniced chimneys;
- cemented architraves to openings;
- double-hung sash windows with three lights at ground level;
- entrances with spoked fanlights;
- tiled verandah floor;
- double palisade iron fences; and
- contribution to a valuable Victorian-era residential streetscape.

How is it significant?

Frederick Stones' row houses, 589-591 King Street are significant historically and aesthetically to West Melbourne.

Why is it significant?

Frederick Stones' row houses, 589-591 King Street, are significant.

- Aesthetically, as a well-preserved example of a common row house type and part of a significant Victorian-era Streetscape (Criterion E); and
- Historically, a good example of the many Stones developments in the West Melbourne area and another example of speculative row house development; also representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

595 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1903
View of place:	2015

Statement of Significance

What is significant?

Row houses built by Frederick Stones junior between 1894 (597) and 1903 (595).

Contributory elements include:

- a two storey, parapeted row house pair derived from the Italian Renaissance Revival style;
- cemented rectangular raised entablatures, flanked by scrolls;
- bracketed corbel which terminates the verandah side wall
- ornate two level cast iron verandahs, with panelled friezes, brackets, fluted posts, and dentilated eaves;
- unusual stuccoed porch which links the verandah with the boundary;
- cemented and corniced chimneys;
- cemented architraves to openings;
- entrances with spoked fanlights;
- double-hung sash windows with three lights at ground level;
- tiled verandah;
- double palisade iron fences;
- outbuildings, brick walling at rear of 597; and
- contribution to a valuable Victorian-era residential streetscape.

Some parapet urns/orbs missing.

How is it significant?

Frederick Stones' row houses, 595-597 King Street, is significant historically and aesthetically to West Melbourne.

Why is it significant?

Frederick Stones' row houses, 595-597 King Street, are significant.

- Aesthetically, an unusual late and near original, 20th Century variation on a common row house type in West Melbourne, built with the 19th century Italian Renaissance vocabulary in a period when English Medieval revival stylism had been active for over a decade; also for the contribution to a significant Victorian-era streetscape which epitomises the period (Criterion E); and
- Historically, good examples of the later Stones family developments and one of many in that street and the area; representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

599 King Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1874-5
View of place:	2015

Statement of Significance

What is significant?

Row house pair built by James Oliver that included 599 King Street (built in 1874-75) and 601 King Street (built by 1879).

Contributory elements include:

- two storey, stuccoed brick and parapeted row house pair, each with a wide frontage;
- face brick side wall to lane for 601 with scalloped parapet profile;
- arched parapet entablatures with flanking scrolls and associated urns or orbs;
- two level cast iron verandahs, with panelled friezes, brackets, dentilated eaves, and balustrade panels of an unusual pattern (possibly imported);
- tiled pathways and verandahs;
- cemented and corniced chimneys;
- cemented architraves to openings;
- double palisade iron fences on dressed stone plinths, with cemented piers;
- large top and side lit entrance doorways that are unusual for the early construction date; and
- contribution part of a valuable residential streetscape.

How is it significant?

James Oliver's row houses, 599-601 King Street, are significant historically and aesthetically to West Melbourne.

Why is it significant?

James Oliver's row houses, 599-601 King Street, are significant.

- Aesthetically, as an early, generally original example of a common row house form with interesting iron details also a contributory part of a significant Victorian-era streetscape (Criterion E); and
- Historically, a well-preserved example of a builder-owner developer who chose to live in his product and thus built a relatively well-appointed pair of houses; also closely associated with James Oliver and his family who were well publicised nationally after his death; and representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Sturgess row houses, part 1-9 Miller Street

1 Miller Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1873-4
View of place:	2015

Statement of Significance

What is significant?

Row houses built by William Sturgess: the first stage in late 1873 of four one-storey houses (3-9 Miller Street) and one two-storey house (1 Miller Street), with the additional second levels to 3-9 Miller Street following soon after.

Contributory elements include:

- two storey parapeted stuccoed houserow;
- cemented cornice moulds, rosettes and brackets;
- fluted string mould on 1 Miller Street;
- originally face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced and barrel top chimneys;
- two storey cast-iron verandah, early bellied cast-iron balustrading (3-9 Miller Street), panelled frieze and brackets also quarry tiled floors;
- single level distinctive arcaded verandah in the Italian Renaissance Revival manner (1 Miller Street) set on cast-iron columns;
- double-hung sash windows on 1 Miller street, with cemented architraves and moulded hoods;
- double-hung sash windows, with a French door at each upper level (3-9);
- four-panel entry door and toplight;
- cast-iron palisade front fences, integral with the arcade at 1 Miller Street; and
- contribution to valuable Victorian-era streetscape.

Side elevation of 1 Miller Street has been altered, and a garage and high masonry wall added to the Curzon Street frontage; new concrete verandah floor and removal of lower level cast iron detailing at 3-9 Miller St; bricks painted over or rendered; minor changes to upper level frieze 3 Miller Street.

How is it significant?

The Sturgess row houses are significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

The Sturgess row houses are significant.

- Historically, as in part the long-term residence of William Sturgess one of West Melbourne most successful developers and representative of a major growth period (Victorian-era) in West Melbourne (Criterion A); and
- Aesthetically, for the distinctive arcaded end bay to the terrace, and uncommon cast-iron detailing also as contributory to a significant Victorian-era streetscape (Criterion E).

Relwof or Fowler house, and palm

26 Miller Street, WEST MELBOURNE

New grading system:	Significant
Place type:	House
Date(s):	1913
View of place:	2015

Statement of Significance

What is significant?

House built by Charles H. Little for Angelina and her husband, Henry Fowler, a fitter, in 1913, on the site of the Melbourne Benevolent Asylum of 1851.

Contributory elements include:

- single storey red brick Federation Bungalow style house;
- cream brick trimming at openings;
- asymmetrical floor plan;
- hipped main roof and gabled bay roof, with textured stucco and trussing in the gable end;
- gabled dormer window;
- unglazed terra-cotta Marseilles pattern roof tiles to main and window hood roofs, with terra-cotta finials and cappings;
- red brick chimneys with corbelled and cemented tops;
- timber framed bayed verandah with fretted and slatted friezes and balustrading;
- casement lead-light window groups, with top lights;
- door with top and side lights;
- mature palm in front garden; and
- contribution as a key element in an important, largely Edwardian-era streetscape that symbolises the former Benevolent Asylum site.

The front fence appears to from the Interwar period and is well-preserved.

How is it significant?

Relwof or Fowler house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Relwof or Fowler house is significant.

- Historically, as symbolic, with nearby houses also built at this time, of the historically significant former Melbourne Benevolent Asylum (Criterion A); and
- Aesthetically, as a well-preserved and highly articulated Federation Bungalow set on a confined but elevated site and as a key element in an important, largely Edwardian-era streetscape (Criterion E).

Allandale or Allen's houses, part 37-39 Miller Street

37 Miller Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1887
View of place:	2015

Statement of Significance

What is significant?

Row houses built for manager of the local auctioneering business of Messrs G. D. Langridge and Sons, James R. Allen, in 1887.

Contributory elements include:

- a two-storey stuccoed brick row house pair;
- scrolled, arched-shape parapet cemented entablatures with swags and the house names thereon;
- simple ornament for the late construction date;
- cast-iron verandahs of two levels, with concave corrugated iron clad roof, panelled friezes, and brackets;
- double-hung sash windows with 3 light windows at ground level;
- iron fences and gates on stone plinths, and scrolled profile garden walls with cemented capped piers; and
- contribution as a major part of a 19th century residential streetscape consisting of stuccoed row houses of a similar form, but varying in scale.

The parapet urns or orbs are gone, and the side wall bricks painted over as minor changes to these houses.

How is it significant?

Allen's houses, 37-39 Miller Street are significant historically and aesthetically to West Melbourne.

Why is it significant?

Allen's houses, 37-39 Miller Street are significant.

- Aesthetically, as a relatively late but near original example of a common type which contributes to a significant residential streetscape (Criterion E);
- Historically, representative of a major growth period (Victorian-era) in West Melbourne and for the link with J R Allen, a prominent local community member in the late Victorian-era (Criterion A).

Fortune or Allan's houses, part 37-39 Miller Street

39 Miller Street, WEST MELBOURNE

Valkyrie or Bjornsen's house

44 Miller Street, WEST MELBOURNE

New grading system:	Significant
Place type:	House
Date(s):	1914
View of place:	2015

Statement of Significance

What is significant?

House built by Robert Thackway for mariner Bjorn Robert Bjornsen in 1914 on the site of the Melbourne Benevolent Asylum.

Contributory elements include:

- single storey elevated red brick transitional Federation Bungalow style house;
- asymmetrical floor plan;
- slate clad, hipped main roof and gabled bay roof, with textured stucco and half-timbering in the gable end;
- red brick chimneys with corbelled cemented tops;
- timber framed front verandah with slatted friezes, brackets and balustrading;
- casement lead-light (part) window groups, with top lights;
- bowed window bay with pressed metal spandrel;
- door with top and panelled side lights;
- steps and cemented stair walls in front garden;
- rare brick and wire front fence with cushion caps to piers and fine scrolling on the wirework; and
- contribution as a key element in an important, largely Edwardian-era streetscape that symbolises the former Benevolent Asylum site.

Part of the brickwork is painted over.

How is it significant?

Valkyrie or Bjornsen's house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Valkyrie or Bjornsen's house is significant.

- Historically, as symbolic, with nearby houses also built at this time, of the historically significant former Melbourne Benevolent Asylum (Criterion A), and
- Aesthetically, a well-preserved and transitional Federation Bungalow with elements from the Victorian-era styles still visible, set on a confined but elevated site as a key element in an important, largely Edwardian-era streetscape (Criterion E).

Britannia Tie Company Pty. Ltd. factory

60-80 Miller Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1922
View of place:	2015

Statement of Significance

What is significant?

Former tie factory designed by well-regarded architects, Ballantyne and Hare (Architects and Engineers) of Melbourne and Sydney, acting for the Britannia Tie Company Pty. Ltd., and built on the site of the Melbourne Benevolent Asylum of 1851.

Contributory elements include:

- red brick parapeted Interwar Arts and Crafts style factory building on one level, with a concrete slab trafficable roof;
- corner siting on a hillside;
- five-bay main elevation to Miller Street focussed on a distinctive Romanesque-like central brick archway with lunette,
- stepped parapet and large keystone;
- similar seven bay side elevations, plain at rear;
- strongly expressed piers delineate each bay with terra-cotta cappings and soldier coursing atop each;
- terracotta string moulds and soldier coursing over openings, with wrought iron balustrading using a saltire cross motif for the roof;
- multi-pane glazing in steel frames to the main windows with an unusual roundel centred on each opening and bullnose sills;
- suspended flat roof canopy over the entry; and
- contribution as part of the Edwardian-era and Interwar redevelopment of the Melbourne Benevolent Asylum site.

In 1990-1992 redevelopment of the site as residences meant a new fence added in place of a timber framed wire fence and an added visually related Post-Modern style upper level in response to prevailing heritage issues while keeping the original building as relatively well-preserved.

How is it significant?

Britannia Tie Company Pty. Ltd. factory is significant historically and aesthetically to West Melbourne.

Why is it significant?

Britannia Tie Company Pty. Ltd. factory is significant.

- Historically, as symbolic, with nearby houses also built around this time, of the historically significant former Melbourne Benevolent Asylum site also part of the Interwar surge of industrial development that has left its mark in West Melbourne and, by the nature of the 1990s addition, an indication of heritage policies of the time (Criterion A); and
- Aesthetically, uncommon as an essentially well-preserved Arts and Crafts style factory with fine and distinctive detailing (Criterion E).

Stormont Terrace or Ramage's row houses, part 90-92 Miller Street

90 Miller Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1885
View of place:	2015

Statement of Significance

What is significant?

Row house pair built by Ascot Vale builder, James Thurgood for the messenger and investor, John Ramage, to the design of the noted architect, Evander McIver.

Contributory elements include:

- two storey parapeted stuccoed row house pair;
- cemented cornice moulds, parapet balustrading, and brackets with a raised shared arched entablature;
- face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandahs with Corinthian derived column order, cast-iron frieze and integral brackets also an uncommon balustrade pattern;
- double-hung sash windows, with French doors on upper level of 92;
- segmentally arched openings;
- four-panel entry doors, side and top lights; and
- cast-iron double palisade front fence and gates on high, dressed stone footings, with cemented piers and scrolled garden walls.

Integrity is good despite some cemented detailing missing, stone painted over.

How is it significant?

Stormont Terrace or Ramage's row house pair is significant historically and aesthetically to West Melbourne and aesthetically to the City of Melbourne.

Why is it significant?

Stormont Terrace or Ramage's row house pair is significant.

- Historically, as representative of a major growth period in West Melbourne and closely linked with the Ramage family who were active locally (Criterion A); and
- Aesthetically, a well-preserved custom house design by well known architect, Evander McIver, with distinctive detailing and finish (Criterion E).

How is it significant?

Stormont Terrace or Ramage's row house pair is significant historically and aesthetically to West Melbourne and aesthetically to the City of Melbourne.

Why is it significant?

Stormont Terrace or Ramage's row house pair is significant.

- Historically, as representative of a major growth period in West Melbourne and closely linked with the Ramage family who were locally prominent (Criterion A); and
- Aesthetically, a well-preserved custom house design by well known architect, Evander McIver, with distinctive detailing and finish (Criterion E).

Robert Finlay's house

106 Miller Street, WEST MELBOURNE

New grading system:	Significant
Place type:	House
Date(s):	1861
View of place:	2015

Statement of Significance

What is significant?

Stone house built for banker, Robert Finlay by William Little in 1861.

Contributory elements include:

- simply elevated, bluestone house in the Colonial Georgian style
- parapeted, symmetrical facade;
- faced with basalt masonry with dressed cornice, quoins plinth and sills.
- side-walls are coursed rubble;
- twin hipped main roof;
- red brick chimneys, with corbelled tops;
- double-hung sash windows; and
- contribution as a prominently sited house on an elevated corner, once overlooking the bay and railway yards, but in a mixed streetscape of industrial and residential uses.

Integrity is good despite the fence (presumed timber picket) and the door having been replaced; a rear brick addition (bricks painted over); part of the side wall painted over; new tiles added to sill; new concrete paving at front; and new fibre cement sheet roofing. Other sundry services and out buildings have also been added.

How is it significant?

Robert Finlay's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Robert Finlay's house is significant.

- Aesthetically, a simply detailed stone house which is both early for its locality and representative of a part of the locality's early history (stone quarrying along the Moonee Ponds Creek and Maribyrnong River); one of a small group of bluestone parapeted detached houses built during the post Gold era in Melbourne and Victoria, the parapeted form being more demanding to construct and more common in commercial stone buildings (Criterion E); and
- Historically, representative of the first major growth period (early Victorian-era) in West Melbourne and associated with the Finlay family who were linked with the early history of the Colonial Bank of Australasia in the Colony (Criterion A).

O'Brien's grocer's shop and residence

112 Miller Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1889
View of place:	2015

Statement of Significance

What is significant?

Shop and residence built by W. H. Bullows in 1889 for grocers, Patrick and Bridget O'Brien.

Contributory elements include:

- two storey Victorian-era stuccoed shop and residence in the Italian Renaissance Revival style;
- face brick to part side and rear walls, with string moulds;
- balustraded main parapet, with piers, rosettes and panels, scrolling down at Lothian Street elevation termination;
- main upper level fenestration in the serlian pattern, with moulded cement architraves, panelled and bracketed sills, and keystones also ornamental wall vents;
- Corinthian order pilasters with reeded shafts on the upper level, Doric on the lower;
- cemented cornice and string moulds, with dentilation;
- double-hung sash windows;
- part shopfront (form only) with relatively high first level; and
- corner sting typical of building use.

Integrity is good despite the shopfront joinery being new.

How is it significant?

O'Brien's grocer's shop and residence is significant historically and aesthetically to West Melbourne.

Why is it significant?

O'Brien's grocer's shop and residence is significant

- Historically, representative of a major growth period in West Melbourne, as a corner shop over a long period serving this part of West Melbourne where the O'Briens were well known (Criterion A); and
- Aesthetically, a well-preserved Italian Renaissance Revival shop and residence with uncommon detailing, suggesting an architect design (Criterion E).

Peacock's row houses, part 30-32 Milton Street

30 Milton Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1886
View of place:	2015

Statement of Significance

What is significant?

Row house pair built by John Peacock in 1886.

Contributory elements include:

- two storey parapeted stuccoed row house pair;
- plain cemented cornice moulds, blocks and brackets;
- originally face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- one storey timber framed verandah with a concave profile roof clad with corrugated iron;
- panelled cast-iron serpentine frieze;
- double-hung sash windows;
- four-panel entry door and toplight;
- cast-iron palisade front fence on dressed stone footings; and
- contribution to valuable Victorian-era streetscape.

How is it significant?

Peacock's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Peacock's row houses are significant.

- Historically, as representative of a major growth period (Victorian-era) in West Melbourne and, associated with local contractor, John Peacock, who is typical of Victorian-era West Melbourne developers as well as being active in the West Melbourne community (Criterion A); and
- Aesthetically, indicative of the conservative builder-owner design using an early row house form in the late Victorian-era and contributory to valuable Victorian-era streetscape (Criterion E).

Peacock's row house, part 30-32 Milton Street

32 Milton Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1886
View of place:	2015

- double-hung sash windows;
- four-panel entry door and toplight;
- cast-iron palisade front fence on dressed stone footings; and
- contribution to valuable Victorian-era streetscape.

How is it significant?

Peacock's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Peacock's row houses are significant

- Historically, as representative of a major growth period (Victorian-era) in West Melbourne and, associated with local contractor, John Peacock, who is typical of Victorian-era West Melbourne developers as well as being active in the West Melbourne community (Criterion A); and
- Aesthetically, indicative of the conservative builder-owner design using an early row house form in the late Victorian-era and contributory to valuable Victorian-era streetscape (Criterion E).

Sparey's row houses, part 36-38 Milton Street

36 Milton Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1869
View of place:	2015

Statement of Significance

What is significant?

Row houses built by William Martin for ironworker and Crown Grantee for the allotment, Mathew Sparey, in 1869.

Contributory elements include:

- two storey parapeted stuccoed row house pair;
- simple Italian Renaissance Revival styling;
- plain cemented cornice moulds, blocks and brackets;
- originally face brick side and rear walls;
- gabled roof behind the parapet, with gabled side parapets, and tall cemented and corniced chimneys;
- one storey timber framed verandah with a concave profile roof clad with corrugated iron;
- double-hung sash windows with cemented architraves and bracketed sills;
- four-panel entry door and toplights;
- cast-iron palisade front fence on dressed stone footings; and
- contribution to valuable Victorian-era streetscape.

Integrity is good despite the assumed removal of verandah detail.

How is it significant?

Sparey's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Sparey's row houses are significant.

- Historically, representative of the start of a major growth period in West Melbourne, also linked with the Crown Grantee, Matthew Sparey (Criterion A); and
- Aesthetically, well-preserved simple Italian Renaissance Revival that expresses its age with its gabled form and detailing also contributory to a valuable Victorian-era streetscape (Criterion E).

Pearson and Chadwick's row houses, part 57-59, 61-63 Peel Street, Peel Terrace

57-59 Peel Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1866-1871
View of place:	2015

Statement of Significance

What is significant?

Row houses (later shops and residences), 'Peel Terrace, A D 1868', were built by 1866 and further improved by 1871, probably by contractors Pearson and Chadwick.

Contributory elements include:

- a row of parapeted brick two-storey houses, formerly with gabled roof forms;
- 57-59 and 61-63 built as pairs, the latter named 'Peel Terrace, A.D. 1868' as set out on a cemented gabled parapet entablature, with flanking scrolls;
- 57-59 with a simple corniced parapets;
- simple cemented side-wall ornament;
- formerly two level cast-iron and timber verandahs which are now partly shop fronts;
- iron patterns that differ (guilloche pattern on 57-59, bellied panels on 61-63-) as do the verandah posts (round section foliated capitals on 57-9 with panelled friezes and brackets, and square section timber capitals and posts on 61-3);
- French doors on the upper level (renewed, possibly replaced); and
- contribution as part of a varied formerly residential Victorian-era streetscape now of low integrity, but relating to 65 Peel Street (built for John Brown in 1865) and by scale, form and siting, to 55.

A major development has been added to the rear of 57-61 with the ground level rebuilt in a related shopfront form to the Victorian-era. This development has reduced the overall integrity of the row, leaving 63 as the best-preserved façade. Rear wings, roof forms and chimneys have gone; cast-iron verandah panels are now also mixed on 61-3, friezes gone from 61-63 (likely the same as 57-59) the face-brick of 61-3 once painted is now cleaned; parapet orbs/balls are missing generally (63 had a cement ball in 1983).

How is it significant?

Pearson and Chadwick's row houses, part 57-59, 61-63 Peel Street, Peel Terrace, is significant historically and aesthetically to West Melbourne.

Why is it significant?

Pearson and Chadwick's row houses, part 57-59, 61-63 Peel Street, Peel Terrace, are significant.

- Aesthetically, early examples of a common West Melbourne row house type with some early details such as the French doors (changed) but much altered, being changed in use, and part of a varied formerly residential Victorian-era streetscape now of low integrity, but still relating to adjacent houses in scale, form and siting (Criterion E); and
- Historically, indicative of former generally residential nature of the street, representative of an early major growth period in West Melbourne, also an example of the owner-builder speculation typical of West Melbourne (Criterion A).

Pearson and Chadwick's row houses, part 57-59, 61-63 Peel Street, Peel Terrace

61-63 Peel Street, WEST MELBOURNE

Dean's house

65-67 Peel Street, WEST MELBOURNE

<u>New grading system:</u>	Significant
<u>Place type:</u>	Row house
<u>Date(s):</u>	1871
<u>View of place:</u>	2018

Statement of Significance

What is significant?

Dean's house at 65-67 Peel Street was built in 1871 by its owner-occupier, stonemason James Dean. After financial difficulties, Dean was force to sell the house to James Waters who leased it out over a long period. The house is closely linked with the adjacent 64 Capel Street which shared the same Crown allotment and ownership for a time.

Owner-builders like Downie, Alex Cooper (see 18-26 Capel Street), Joseph Dean and Noble, were all active in and around Capel Street and the same era and were typical of the Victorian-era West Melbourne entrepreneur contractors.

Contributory elements include:

- two-storey paired parapeted row house form;
- ruled stucco wall finish between pilaster borders capped with a bracketed block;
- slated transverse gabled roof with moulded timber fascia, bracketed cemented blocks, cemented corbelled chimney and two terracotta pots;
- patterned cast-iron wall vents;
- rectangular openings with sills;
- panelled cast-iron friezes and brackets and fringing; and
- six panel doors that lend distinction to the detailing and suggest the early Victorian-era.

Changes include:

- new ground level;
- new metal framed windows in a related double-hung sash windows form

No inspection of roofed rear wing.

How is it significant?

Dean's house at 65-67 Peel Street is significant historically to West Melbourne and the City of Melbourne.

Why is it significant?

Dean's house at 65-67 Peel Street is significant.

Historically, for its close association with Thomas Dean, a West Melbourne stone mason and contractor who typified the many speculative builders in the North and West Melbourne area, as expressed by its distinctively early roof form and cladding, and the physical and historical link with the significant stone house at 64 Capel Street.

Phoenix Clothing Company, rear

4-6 Phoenix Lane, WEST MELBOURNE

New grading system:	Significant
Place type:	Warehouse
Date(s):	1860s?
View of place:	2015

Statement of Significance

Victorian Heritage Register Statement of Significance
Victorian Heritage Register number: H0801

What is significant?

The Former Phoenix Clothing Company building is a three storey stone and brick shop, residence and store complex. It contains fabric from several different periods of building and alteration. The earliest section dates from the early gold rush era, while three storey additions were made in 1859 and the ground floor of the rear store/factory section probably dates from the 1860s. An 1869 photograph of the building showed a loggia, but this has been filled with windows.

How is it significant?

The Former Phoenix Clothing Company building is of historical and architectural significance to the State of Victoria.

Why is it significant?

The Former Phoenix Clothing Company building is of historical significance as one of the oldest examples of a commercial building and factory in the State. Its King Street facade contains rare gold rush-era elements, from a time when King Street was an unmade although busy road with bullock drays and other carriers' wagons, loaded with goods, continually passing on their way to Bendigo and the other diggings. The factory proper dates from the 1860s and provides important evidence of the character of early industrial organisation in Melbourne. The Phoenix Clothing Company was established in the wake of post gold rush metropolitan growth and benefited from the introduction of tariff legislation in the 1870s. The Phoenix factory was one of the few mechanised 19th century clothing manufacturers, and has been credited with introducing advanced overseas technology to Victoria. Although there have been many structural changes to the building over the years, the essential design and structure of the complex provide a substantially intact representation of contemporary factory design and working conditions, and of aspects of 19th century building technology.

The Former Phoenix Clothing Company building is of historical significance as evidence of the character of Melbourne's early development. The combination of residence, shop and factory is a reminder of a time when the city was much more compact, and residence and workplace were often located in the same building or very nearby. The building also demonstrates the long-term continuity of industrial usage in this part of Melbourne.

The Former Phoenix Clothing Company building is of historical significance for its associations with the notable Fenwick Brothers, and Albion T. Walkley. The Fenwick Brothers were London clothing manufacturers and importers, who owned the site from the 1850s and established the Phoenix Clothing Company there in the 1870s. Orlando Fenwick (1822-1897) who once lived on the premises, was a prominent Victorian clothing manufacturer and importer. He also took a leading role in Melbourne harbour development schemes and was a Melbourne City councillor over a long period and Mayor

of the city. Walkley, the factory manager from 1875 and owner of the manufacturing section of the business from 1878, was responsible for introducing into the Victorian clothing trade the innovative mechanical knife system of cutting which revolutionised the industry in the pre-WW1 period.

The Former Phoenix Clothing Company building is of architectural significance because of its first floor loggia, perhaps the earliest example in Melbourne (although it has subsequently been built in, it is restorable) and as part of a coherent mid-19th century commercial streetscape which gives some idea of the architectural character of this part of Melbourne in the post-gold rush period.

Why is it significant?

The Former Phoenix Clothing Company building is of historical significance as one of the oldest examples of a commercial building and factory in the State. Its King Street facade contains rare gold rush-era elements, from a time when King Street was an unmade although busy road with bullock drays and other carriers' wagons, loaded with goods, continually passing on their way to Bendigo and the other diggings. The factory proper dates from the 1860s and provides important evidence of the character of early industrial organisation in Melbourne. The Phoenix Clothing Company was established in the wake of post gold rush metropolitan growth and benefited from the introduction of tariff legislation in the 1870s. The Phoenix factory was one of the few mechanised 19th century clothing manufacturers, and has been credited with introducing advanced overseas technology to Victoria. Although there have been many structural changes to the building over the years, the essential design and structure of the complex provide a substantially intact representation of contemporary factory design and working conditions, and of aspects of 19th century building technology.

The Former Phoenix Clothing Company building is of historical significance as evidence of the character of Melbourne's early development. The combination of residence, shop and factory is a reminder of a time when the city was much more compact, and residence and workplace were often located in the same building or very nearby. The building also demonstrates the long-term continuity of industrial usage in this part of Melbourne.

The Former Phoenix Clothing Company building is of historical significance for its associations with the notable Fenwick Brothers, and Albion T. Walkley. The Fenwick Brothers were London clothing manufacturers and importers, who owned the site from the 1850s and established the Phoenix Clothing Company there in the 1870s. Orlando Fenwick (1822-1897) who once lived on the premises, was a prominent Victorian clothing manufacturer and importer. He also took a leading role in Melbourne harbour development schemes and was a Melbourne City councillor over a long period and Mayor of the city. Walkley, the factory manager from 1875 and owner of the manufacturing section of the business from 1878, was responsible for introducing into the Victorian clothing trade the innovative mechanical knife system of cutting which revolutionised the industry in the pre-WW1 period.

The Former Phoenix Clothing Company building is of architectural significance because of its first floor loggia, perhaps the earliest example in Melbourne (although it has subsequently been built in, it is restorable) and as part of a coherent mid-19th century commercial streetscape which gives some idea of the architectural character of this part of Melbourne in the post-gold rush period.

West Melbourne State School No. 1689 later West Melbourne Central School

1-37 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	School
Date(s):	1875
View of place:	2015

Statement of Significance

What is significant?

Prize-winning Gothic Revival style school building erected in 1875 to the design of architects, Terry and Oakden.

Contributory elements include:

- a two-storey face brick State school of two-levels with three colour brickwork (red, brown, cream) and stone dressings, and buttresses, arranged on an E-plan, with a central entrance wing and bellcote and finial over;
- dressed freestone Gothic revival entry portal with carved heads as bosses, colonettes and a tympanum incised with words `State School No 1689`;
- vertically boarded doors, basalt threshold, guilloche pattern iron wall vents;
- slated multiple gabled roofs;
- architectural design excellence;
- both Gothic and Tudor-arched openings in an ecclesiastical character, aided by stone quatrefoil piercings and window hood moulds as further Medieval (English) elements, as is the oculus under the bellcote;
- double-hung sash windows with multi-pane glazing and top lights; and
- townscape contribution as the focus of the important Eades Place Victorian-era residential precinct.

Integrity is good despite numerous buildings having been added within the grounds (modernist but similar brickwork); the north and south end wings changed or extended in a matching character; some upper level windows replaced with metal frames; some repointing; and the timber picket boundary fence having been replaced with a modern metal picket.

How is it significant?

West Melbourne State School No. 1689 later West Melbourne Central School is significant historically, socially and aesthetically to West Melbourne, the City of Melbourne and Victoria.

Why is it significant?

West Melbourne State School No. 1689 later West Melbourne Central School is significant.

- Aesthetically, the school is a major architectural work by an important design firm, distinguished by its success in a Colony-wide competition in 1873 which was in turn influential on most of the subsequent government school designs for the Education Department until the 1920s, in this case underscoring the Medieval architectural precedent for school design. The school is also a significant and contemporary part of the important Eades Place precinct (Criterion E); and
- Historically, this was West Melbourne's only State School and the second State School built in the North and West Melbourne area; it has served the West Melbourne community in various forms over a long period, acquiring social significance as a public place linked to many; as the winner of the 1873 design competition the school marks the beginning of innovatory educational reform in the colony and a major break from education provided by Christian faiths (Criterion A).

Peter Madden's house

68 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1870, 1890 additions
View of place:	2015

Statement of Significance

What is significant?

Row house built by Robert Dalton, first as a three room cottage in 1870 for local teacher Peter Madden, and expanded by Madden in 1890 to seven rooms.

Contributory elements include:

- two storey parapeted brick and cemented row house;
- two colour brickwork with deep brown or black body and cream trim at openings;
- cemented cornice moulds, masks and brackets, guilloche pattern balustrading;
- a distinctive Baroque style raised entablature, with swag, broken pediment and orbs;
- face red brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with Corinthian derived column order, cast-iron frieze and integral brackets;
- double-hung sash windows, with an uncommon two light configuration at ground floor with stop-chamfering (see also 70);
- four-panel entry door and toplight; and
- contribution to valuable Victorian-era streetscape.

Integrity is good despite an added reproduction cast-iron palisade front fence on dressed stone footings; some missing details; and French doors on upper level may be modifications.

How is it significant?

Peter Madden's house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Peter Madden's house is significant.

- Historically, for the close link with Peter Madden, one of the area's best known figures, and representative of a major growth period (Victorian-era) in West Melbourne (Criterion A); and
- Aesthetically, a well-preserved row house with distinctive Baroque style detailing also contributory to a valuable Victorian-era streetscape (Criterion E).

Sharp's house, later Noone's house

70 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1877, 1900s
View of place:	2015

Statement of Significance

What is significant?

Row house built by Andrew Sharp in 1877.

Contributory elements include:

- two storey parapeted face brick row house;
- two colour tuck-pointed brickwork with deep brown or black body and cream trim at openings;
- originally face red brick side and rear walls;
- pitched gabled roof clad with corrugated iron or similar, with brick and cemented chimneys and cornices;
- two storey cast-iron verandah (potentially Edwardian-era) with Corinthian derived column order, an uncommon fan-pattern cast-iron frieze and integral brackets typical of Edwardian-era;
- double-hung sash windows, with an uncommon two light configuration at ground floor with stop-chamfering (see also 68), modified French doors upper level;
- four-panel entry door and toplight (leadlight from early 20th century) with quoining; and
- contribution to valuable Victorian-era streetscape.

Integrity is good despite rendering of the south side wall and indications that the verandah wing wall has been rebuilt.

How is it significant?

Sharp's house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Sharp's house is significant.

- Historically, linked with noted photographer and government lithographer, John Noone, and representative of a major growth period (Victorian-era) in West Melbourne (Criterion A); and
- Aesthetically, for its uncommon brickwork, verandah iron and cement detailing (Criterion E).

Athlunkard or Malone's house

78 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1878, c1894
View of place:	2015

Statement of Significance

What is significant?

Row house built by hotelier and speculator, William Malone, first as a three room cottage in 1878, and by 1894 expanded to seven rooms.

Contributory elements include:

- two storey parapeted brick and cemented row house;
- three colour brickwork with deep brown or black body and cream pattern work and trim at openings, with face red brick side and rear walls - using an uncommon squint mould as the junction between red and brown on the verandah side walls, repeated on parapet piers;
- cemented cornice moulds, blocks and brackets, guilloche pattern balustrading;
- a distinctive Baroque style raised entablature crowned by an anthemion;
- guilloche pattern balustrading, scalloped pediment and a banner with the house name surmounted by a star;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with panelled cast-iron frieze and brackets;
- double-hung sash windows, with 3 light configuration;
- four-panel entry door and toplight, upper level doorway;
- extensive encaustic mosaic verandah tiling, with stone borders;
- cast-iron double palisade front fence on dressed rolled-edge stone footings and ornamental brick piers with cement caps; and
- contribution to valuable Victorian-era streetscape.

Integrity is good despite some bricks being painted over.

How is it significant?

Athlunkard or Malone's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Athlunkard or Malone's house is significant.

- Historically, as representative of a major growth period (Victorian-era) in West Melbourne also closely linked with the highly successful hotelier, William Malone, as one of his first property investments (Criterion A); and
- Aesthetically, a well-preserved and highly unusual approach to this common row house form with many uncommon details and adept expression of materials also contributory to a valuable Victorian-era streetscape (Criterion E).

Bowden's house

80 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1879
View of place:	2015

Statement of Significance

What is significant?

Row house built by Hughes and Jones for Victorian Railways employee, Thomas Bowden, in 1879.

Contributory elements include:

- two storey parapeted stuccoed row house;
- exposed corrugated iron clad pitched roof, typical of 1870s row houses;
- originally face brick side and rear walls;
- cemented and corniced chimneys;
- two storey cast-iron verandah with Corinthian derived column order, guilloche pattern balustrading, cast-iron frieze and integral brackets;
- double-hung sash windows, with three lights at ground floor;
- four-panel entry door and toplight;
- cast-iron palisade front fence and gate on dressed stone footings, with cemented piers and scrolled garden walls; and
- contribution to valuable Victorian-era streetscape.

How is it significant?

Bowden's house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Bowden's house is significant.

- Historically, for the long association with railway employee, Thomas Bowen, representing one of West Melbourne's key industries, as well as a key growth period, the Victorian-era (Criterion A); and
- Aesthetically, as a well-preserved row house of the mid Victorian-era form, with ornate cast-iron detailing and for its contribution to a significant Victorian-era residential streetscape (Criterion E).

Alfred Coope's house

82 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1877
View of place:	2015

Statement of Significance

What is significant?

Row house built in 1877 for Alfred Coope by West Melbourne builder, John Jones. Coope was a long term Victorian Railways employee as Inspector of Rolling Stock in the Locomotive Branch.

Contributory elements include:

- two storey stuccoed row house;
- cemented masks and brackets;
- face brick side and rear walls;
- slate clad gabled roof, with side parapets, brick and corbelled chimneys;
- two storey cast-iron verandah with Corinthian derived column order, cast-iron frieze and integral brackets also Guilloche pattern balustrade;
- double-hung sash windows;
- four-panel entry door and toplight; and
- contribution to valuable Victorian-era streetscape.

How is it significant?

Alfred Coope's house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Alfred Coope's house is significant.

- Historically, for the close link with a Victorian Railways family, the Coopes, as particularly evocative of the special role played by West Melbourne in railway transport, also representative of a major growth period (Victorian-era) in West Melbourne (Criterion A); and
- Aesthetically, expressive of the simple early row house form that predated the parapeted Italian Renaissance Revival examples of the late Victorian-era, also as another example from prolific local builder John Jones marking the stylistic change over his career, and contributory to a valuable Victorian-era streetscape (Criterion E).

John White's house

86 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1885, c1897
View of place:	2015

Statement of Significance

What is significant?

Row house built initially as four room house for Victorian Railways Engine Driver, John White, in 1885 to the design of architect, Henry Shalless. By 1897 it was described as ten rooms.

Contributory elements include:

- highly ornamented two storey parapeted stuccoed row house;
- cemented cornice moulds, scrolls, blocks and paired brackets with a raised arched entablature with shell;
- face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with Corinthian derived column order, panelled cast-iron frieze and finished brackets;
- double-hung sash windows and an ornate three-light group at ground floor- with label moulds, colonettes, incised cement detailing, panelled and piered sills;
- four-panel entry door and toplight;
- tiled verandah floor with stone borders;
- cast-iron double palisade front fence and gate on dressed stone footings;
- scrolled cemented garden walls, with capped piers at the frontage; and
- contribution to valuable Victorian-era streetscape.

How is it significant?

John White's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

John White's house is significant.

- Historically, for the close link with the Victorian Railways and indicative, by its size and ornament, of the important role engine drivers had in the Colony as working men, also particularly evocative of the special role played by West Melbourne in railway transport, and representative of a major growth period (Victorian-era) in West Melbourne (Criterion A); and
- Aesthetically, a well-preserved custom designed late Victorian-era row house with most of the stylistic attributes and finishes of the type and the work of Henry Shalless, recognised for his row house designs (Criterion E).

**Tait's house, formerly part Emerald Cottages, 132-142 Roden Street
132 Roden Street, WEST MELBOURNE**

New grading system:	Significant
Place type:	Row house
Date(s):	1877
View of place:	2015

Statement of Significance

What is significant?

Row house built for speculator and shipwright, Robert Tait in 1877.

Contributory elements include:

- a two-storey, parapeted, stuccoed brick row house;
- cemented Italian Renaissance Revival ornament of a cornice and scrolls to a raised, arched parapet entablature, including paired brackets and foliated blocks at the verandah side walls;
- a two-level cast-iron verandah with panelled friezes and brackets, iron of an early pattern;
- double-hung sash windows, four-panel door and toplight; and
- a distinctive asymmetrically placed masonry arch under the long-span bressumer (see King Street design by Frederick Stones).

Generally original except for missing parapet urns or orbs; the iron front fence as a related addition; chimney removal and side wall rendering where exposed by demolition.

How is it significant?

Tait's house, formerly part Emerald Cottages, 132-142 Roden Street is significant historically and aesthetically to West Melbourne.

Why is it significant?

Tait's house, formerly part Emerald Cottages, 132-142 Roden Street is significant.

- Aesthetically, an early and large example of a common West Melbourne row house type, with some unusual details (Criterion E); and
- Historically, representative of a major growth period (Victorian-era) in West Melbourne also, along with adjoining houses, owned and occupied for a long period by its developer, Tait, but now the last one of his house row to survive being his own residence. Also closely linked with Tait, a shipwright, and hence representative of the special transport occupational associations in West Melbourne (Criterion A).

Roden Terrace, part, 148 and 152 Roden Street

148 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1878
View of place:	2015

Statement of Significance

What is significant?

Row house built by John Jones for Mrs Stokes in 1878.

Contributory elements include:

- two separate, two-storey stuccoed brick houses, either side of what is now a lane but once as the side garden of 152 along with the rear yard;
- face brick side and rear walls;
- transverse-gable corrugated iron clad (once slated) roofs, with one cemented corniced chimney (152) and one altered chimney (148);
- two-level cast-iron verandahs, with guilloche pattern balustrade, friezes and integral brackets;
- double-hung sash windows;
- iron pickets to 148; and
- contribution as commencement of an isolated, but homogenous Victorian-era residential group 148-56 Roden Street.

Integrity is good despite the fence having been replaced at 152 (apparently once timber picket); side wall rendered at 148; and the side walls to lane part of the bricks painted over.

How is it significant?

Roden Terrace, part 148 and 152 Roden Street, is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Roden Terrace, part 148 and 152 Roden Street, is significant.

- Aesthetically, two near original unusually sited houses (on either side of a side garden) and of a distinguishably early gabled form which are contributory parts of a valuable Victorian-era streetscape (Criterion E); and
- Historically, built and designed by the prolific local builder, John Jones (Refer 74-8 Hawke Street) for owner-occupiers, an unusual circumstance among the proliferation of speculative building in West Melbourne. Also 152 Roden Street is linked with blacksmith, William Hulme, an occupation typical of West Melbourne where transport was the focus of local industry (Criterion A).

Roden Terrace, part, 148 and 152 Roden Street

152 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1878
View of place:	2015

Statement of Significance

What is significant?

Row house built by John Jones for Mrs Stokes in 1878.

Integrity is good despite the fence having been replaced at 152 (apparently once timber picket); side wall rendered at 148; and the side walls to lane part of the bricks painted over.

How is it significant?

Roden Terrace, part 148 and 152 Roden Street, is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Roden Terrace, part 148 and 152 Roden Street, is significant.

- Aesthetically, two near original unusually sited houses (on either side of a side garden) and of a distinguishably early gabled form which are contributory parts of a valuable Victorian-era streetscape (Criterion E); and
- Historically, built and designed by the prolific local builder, John Jones (Refer 74-8 Hawke Street) for owner-occupiers, an unusual circumstance among the proliferation of speculative building in West Melbourne. Also 152 Roden Street is linked with blacksmith, William Hulme, an occupation typical of West Melbourne where transport was the focus of local industry (Criterion A).

Haddon's houses, part 154-156 Roden Street

154 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1879-1880
View of place:	2015

Statement of Significance

What is significant?

Haddon's houses, 154-156 Roden Street, were built over a period of two years (1879-80) for speculator and engineer, Robert Haddon. Architect, Henry Shalless and builder, Walter Webster of Carlton, carried out the work.

Contributory elements include:

- a pair of richly decorated, stuccoed brick and parapeted row houses;
- arched raised entablatures supported with duplex colonettes, between piers adorned with orbs;
- incised blocks and stop-chamfering to verandah side walls;
- double-hung sash windows with cemented architraves;
- pronounced architraves, label moulds and bosses, and paired colonettes used on the ground level window pairs, with incised detail and segmentally arched form;
- segmentally arched doorways with label moulds and bosses to the toplights;
- richly detailed two-level cast-iron verandahs;
- iron picket palisade fences on dressed stone plinths, built between garden walls with large stuccoed corniced piers, each appointed with a pineapple; and
- contribution to an isolated but valuable and homogenous 19th century residential group (148-156 Roden Street).

How is it significant?

Haddon's houses, 154-156 Roden Street, are significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Haddon's houses, 154-156 Roden Street are significant.

- Aesthetically, a richly decorated early, and near original, example of a common West Melbourne row house type and typical of the architect Shalless's work, as reinforced by an adjoining significant Victorian-era residential streetscape (Criterion E); and
- Historically, a partly speculative development by a resident owner and engineer, Robert Haddon, who used the prolific local architect, Shalless, and a common builder for other projects in the area; representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Haddon's houses, part 154-156 Roden Street

156 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1879-1880
View of place:	2015

Statement of Significance

What is significant?

Haddon's houses were built over a period of two years (1879-80) for speculator and engineer, Robert Haddon. Architect, Henry Shalless and builder, Walter Webster of Carlton, carried out the work.

Contributory elements include:

- a pair of richly decorated, stuccoed brick and parapeted row houses;

- incised blocks and stop-chamfering to verandah side walls;
- double-hung sash windows with cemented architraves;
- pronounced architraves, label moulds and bosses, and paired colonettes used on the ground level window pairs, with incised detail and segmentally arched form;
- segmentally arched doorways with label moulds and bosses to the toplights;
- richly detailed two-level cast-iron verandahs;
- iron picket palisade fences on dressed stone plinths, built between garden walls with large stuccoed corniced piers, each appointed with a pineapple; and
- contribution to an isolated but valuable and homogenous 19th century residential group (148-156 Roden Street).

How is it significant?

Haddon's houses, 154-156 Roden Street, are significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Haddon's houses, 154-156 Roden Street are significant.

- Aesthetically, a richly decorated early, and near original, example of a common West Melbourne row house type and typical of the architect Shalless's work, as reinforced by an adjoining significant Victorian-era residential streetscape (Criterion E); and
- Historically, a partly speculative development by a resident owner and engineer, Robert Haddon, who used the prolific local architect, Shalless, and a common builder for other projects in the area; representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Thomas Hulse's houses, 159-165 Roden Street, West Melbourne

New grading system:	Significant
Place type:	Row houses
Date(s):	1867 (159), 1864-5 (163-165)
View of place:	2015

Statement of Significance

What is significant?

Houses built for noted railways engine driver Thomas Hulse: 159 Roden Street in c1867 and 163-165 Roden Street in 1864-5.

Contributory elements for 159 Roden Street include:

- double-fronted brick house on corner of lane;
- Colonial bond face brick side wall to lane;
- dressed stone footings;
- gabled roof form with side parapet walls engaged with cemented chimneys with distinctively early slim cornice detailing
- simple cement capping terminating on blocks;
- concave profile verandah wing walls;
- double-hung sash windows with bracketed sills;
- entry with top-light; and
- relationship with the adjoining early house, 163-165 Roden Street and contribution to early Victorian-era streetscape with 171-177 Roden Street.

Contributory elements for 163-165 Roden Street include:

- indicative of the first stages of building in the area;
- early Victorian-era fabric;
- double fronted early Victorian-era house;
- symmetrical simple façade;

- high hipped roof typically clad with shingles, now clad with corrugated iron or similar;
- possibly stone chimney with distinctively early slim cornice detailing;
- double-hung sash windows;
- central doorway and toplight; and
- relationship with the adjoining early house, 159 Roden Street and contribution to early Victorian-era streetscape with 171-177 Roden Street.

Integrity for 159 is fair despite the main and verandah roof having been reclad with unrelated material (formerly corrugated iron or similar); the bricks painted over; awnings added; and verandah rebuilt. Integrity for 163-165 is fair despite the main and verandah roof having been reclad with unrelated material (formerly corrugated iron or similar); the bricks painted over; awnings added; and verandah rebuilt.

How is it significant?

Thomas Hulse's houses, at 159 and 163-165 Roden Street, are significant historically to West Melbourne.

Why is it significant?

Thomas Hulse's houses at 159 and 163-165 Roden Street are significant.

- Historically, as perceptibly early houses in West Melbourne, as shown by their simple pitched roof form and small scale, also indicative of the first stages of building in the area; and for a time associated with pioneering railways engine driver, Thomas Hulse, who received a deal of publicity in the press as well as high rank within the Victorian Railways workforce, and later 159 was associated with a successful West Melbourne plumber, John Dickie (Criterion A).

Briscoe and Co ironmongers warehouse complex, 164-170 and 172-184 Roden Street, WEST MELBOURNE

164-170 Roden Street

172-184 Roden Street

New grading system:	Contributory (164-170), Significant (172-184)
Place type:	Warehouse
Date(s):	1889 (172-184), 1925 (164-170), 1937-8 (172-184)
View of place:	2015

Statement of Significance

Briscoe and Co ironmongers warehouse complex, 164-184 Roden Street, West Melbourne.

What is significant?

Warehouse initially designed by architects Oakden, Addison and Kemp as the first stage or ground floor of this warehouse complex in 1889 for successful ironmongers, Briscoe and Co., with two Moderne style levels added to the Victorian-era base in 1937-8, to the design of Purchas and Teague, as the third stage (172-184 Roden Street). This building is significant to the North and West Melbourne area.

Briscoe and Co warehouse addition also designed by Purchas and Teague as the second stage of this large warehouse complex at the corner of Adderley and Roden Streets, built in 1925 (164-170 Roden Street). This building is contributory to the North and West Melbourne area.

Contributory elements for 164-170 Roden Street include:

- double-storey rendered masonry Interwar industrial building;
- a corrugated galvanised steel transverse gabled and sawtooth roof concealed behind a parapet;
- two street frontages, to Hawke Street and Roden Street, each dominated by a distinctive large semi-circular arched entrance linked by an internal roadway; and
- three wide but shallow piers which stop short of a moulded string course as the sole decoration.

There are six non-original windows over two levels on the Hawke Street elevation.

Contributory elements for 172-184 Roden Street include:

- Victorian-era brick base with basalt footings and punched segmentally arched fenestration with voussoirs with 1930s modifications;
- Moderne style, two brick Interwar upper levels with parapeted roofline, stepped at one end;
- Dutch hipped roofs behind the parapet;
- fenestration set in Modernistic horizontal streamlining strips, delineated by projecting head and sill moulds, grooved and rounded at each end;
- multi-pane glazing in steel frames as typical on both sections, with hopper sashes;
- vertical facade elements terminating elevations, with vertical brick panels and ribbing; and
- contribution to a major industrial complex, that extends over the 19th and 20th centuries.

Integrity is good despite the bricks and stone footings having been painted over and new openings at ground level.

How is it significant?

The former Briscoe and Co. buildings at 164-170 and 172-184 Roden Street, West Melbourne, are contributory (164-170 Roden Street) and significant (172-184 Roden Street) historically and aesthetically to the North and West Melbourne Precinct.

Why is it significant?

The former Briscoe and Co. buildings at 164-170 and 172-184 Roden Street Roden Street, West Melbourne, are significant.

- Historically, in part representative of the Interwar surge in West Melbourne industrial development, in this case as expansion of an existing large and important complex, Briscoe and Company, also as a major industrial complex that extends over two centuries, 19th and 20th, its evolution expressive of the development phases of West Melbourne as a preferred location for industries moving from the central City, close to transport nodes, also as associated with one of Australia's largest Victorian-era hardware firms (Criterion A); and
- Aesthetically, in part (164-170 Roden Street) as a reasonably intact industrial building which is characterised by its austere facades to Hawke and Roden Streets, both of which incorporate impressive arched openings also as a successful combination of two major era of the growth of this complex (172-184 Roden Street), each one expressive of its creation date, also a major Moderne style design in West Melbourne that parallels with the nearby significant Symington Interwar complex (Criterion E).

Wigton cottages, 171-179 Roden Street

171-179 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row houses
Date(s):	1864-8, c1871
View of place:	2015

Statement of Significance

What is significant?

Three row house built here in 1864-8 for tailor George Carnaby, including two single-fronted houses (171, 177 Roden Street) that flank the larger central house (173-175 Roden Street) with its gabled profile. The house at 179 is a separate, later and more typical brick Victorian-era cottage from c1871, built for George Hessey.

Two semi-mature Canary Island palms are exotic specimens uncommon in the area but are not individually significant.

Contributory elements include:

- pitched gabled and hipped roof forms, clad with corrugated iron and slate;
- cemented dividing walls with vermiculated and scrolled blocks as ornament;
- dentilated eaves for 173-177;
- single and double-fronted forms, sited symmetrically on 171-177;
- face brick walls;
- front verandah with cast-iron frieze and posts (173-179);
- originally double-hung sash windows; and
- contribution to early Victorian-era streetscape with 159, 163 Roden Street.

Integrity is generally good despite bricks having been painted over and a new iron fence to 173-175 where a timber picket fence was probable (see adjoining).

How is it significant?

The Early Victorian-era houses, 171-179 Roden Street, are significant historically to West Melbourne.

Why is it significant?

The Early Victorian-era houses, 171-179 Roden Street, are significant.

- Historically, as representative of the start of a major growth period in West Melbourne while being in a distinctive row form that evokes the early date of construction and relates to other nearby early houses in Roden Street.

Locke's house, part 197-199 Roden Street

197 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1887
View of place:	2015

Statement of Significance

What is significant?

Two row houses built by A. Oliver in 1886 for speculator, George Locke.

Contributory elements include:

- two-storey stuccoed brick and parapeted row house pair,
- face brick side wall to pitched lane;
- gabled and scrolled cemented entablature with flanking orbs and nail-head mouldings;
- lions heads and brackets on verandah walls;
- common cemented chimneys with cornices (possibly modified by upper level addition);
- double-hung sash windows;
- four-panel door, with toplight;
- two-level cast-iron verandahs, with frieze and integral brackets, guilloche pattern balustrade;
- iron palisade fences on stone plinths; and
- contribution to an isolated group of 19th century residences, 195-203 Roden Street.

Integrity is good despite the publicly visible upper-level addition to 197 Roden Street; and missing parapet orbs (refer to image of 197 Roden Street from the North and West Melbourne Conservation Study 1983 for restoration).

How is it significant?

Locke's house, part 197-199 Roden Street, is significant historically and aesthetically to West Melbourne.

Why is it significant?

Locke's house, part 197-199 Roden Street, is significant.

- Aesthetically, near original examples of a common West Melbourne row house type which contributes to a Victorian-era streetscape (Criterion E); and
- Historically, representative of a major growth period (Victorian-era) in West Melbourne and developed speculatively, as one of many in West Melbourne (Criterion A).

Locke's house, part 197-199 Roden Street

199 Roden Street, WEST MELBOURNE

Locke's house, part 197-199 Roden Street, is significant.

- Aesthetically, near original examples of a common West Melbourne row house type which contributes to a Victorian-era streetscape (Criterion E); and
- Historically, representative of a major growth period (Victorian-era) in West Melbourne and developed speculatively, as one of many in West Melbourne (Criterion A).

Hessey's house

201 Roden Street, WEST MELBOURNE

New grading system:	Significant
Place type:	row house
Date(s):	1878
View of place:	2015

Statement of Significance

What is significant?

House built in 1878 for railways engine driver, George Hessey, who lived there with his wife Maria until their deaths.

Contributory elements include:

- parapeted stuccoed brick house, of a relatively uncommon early form;
- opening architraves, cemented quoining, a string-mould, and dentilated cornice are part of the ornamentation;
- a transverse gabled roof, clad with iron;
- one-level cast-iron decorated verandah with panelled friezes, brackets;
- double-hung sash windows;
- iron picket fence and gate on stone plinth; and
- contribution to a Victorian-era residential streetscape, 197-203 Roden Street.

Integrity is good despite an altered chimney.

How is it significant?

George Hessey's house is significant historically and aesthetically to West Melbourne.

Why is it significant?

George Hessey's house is significant.

- Aesthetically, an example of a relatively uncommon early West Melbourne row house form, possessing some unusual details and makes a contribution to a Victorian-era streetscape (Criterion E); and
- Historically, another of the owner-builders so common in the area, in this case an engine driver, an occupation particularly relevant to West Melbourne's transport and industrial history, also representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

R. and W.H. Symington and Co. (Aust) Pty. Ltd. offices and factory
22-40 Rosslyn Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1936-
View of place:	2015

Statement of Significance

What is significant?

Streamlined Moderne style offices and factory built for corset maker, R. and W.H. Symington and Company (Aust) Pty. Ltd., factory in 1936 to the design of WJ Grassick, as an addition to an existing industrial complex. The building joined the other two major structures in this complex, beginning with the former Connibere, Grieve and Connibere hat factory and showroom (3-11 Howard Street).

Contributory elements include:

- two level, plus half-basement, stuccoed parapeted Moderne style factory at a corner site;
- curved corner to Howard Street, joining the former Connibere building;
- two raised vertical elements or features, terminating the façade in Rosslyn Street and marking the entrance;
- slit-like windows in the vertical elements, with use of glass bricks, and a recessed tripartite window group over the entry;
- a streamlined drum (or tank) motif over the entry parapet with flagpole (added), similar to the Relova Laundry design, Richmond;
- reeded giant order pilasters dividing the horizontal strip fenestration between vertical elements;
- multi-pane glazing in steel frames with circular-section cemented columns or mullions; and
- contribution to a large industrial complex that illustrates the change in styles over an extended period, each design by well known architects.

Integrity is good despite the removal of the upper level Gill-sans style lettering identifying the firm. A large visually related apartment development has been added at the west end.

How is it significant?

R. and W.H. Symington and Co. (Aust) Pty. Ltd. offices and factory building, 22-40 Rosslyn Street, is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

R. and W.H. Symington and Co. (Aust) Pty. Ltd. offices and factory is significant.

- Historically, as well-preserved elements in a nationally prominent Interwar industrial complex, also indicative of the Interwar expansion of industry into West Melbourne (Criterion A); and
- Aesthetically, as a well-preserved and successful Moderne style factory building within the City context and a contributory part of a complex that evokes a number of 20th century styles carried out by skilled architectural practitioners (Criterion E).

Roslin or Thomas May's house, later Walker house

49-51 Rosslyn Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1885
View of place:	2015

Statement of Significance

What is significant?

Roslin house, built in 1885 by G.B. Leith to the design of North Melbourne architect, Henry Shalless, for printer, Thomas May and his wife Ann.

Contributory elements include:

- two storey parapeted stuccoed row house;
- cemented cornice moulds, blocks and brackets with a raised arched entablature with shell, urns and orbs;
- face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with Corinthian derived column order, cast-iron frieze and integral brackets;
- tiled verandah floor with stone borders;
- double-hung sash windows, and distinctive 3 light group at ground floor with colonettes and panelled sills;
- four-panel entry door with side and top lights;
- cast-iron double palisade front fence and gate on dressed stone footings with cast-iron posts and connecting scrolled garden walls; and
- corner site to lane allowing visibility to side and rear walls.

How is it significant?

Roslin or May's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Roslin or May's house is significant.

- Historically, as closely associated with the well known and successful Colonial printing firm Walker, May and Company, and now the only surviving structure connected with their active years, also well-preserved and thus representative of a major growth period (Victorian-era) in West Melbourne (Criterion A); and
- Aesthetically, a well-preserved custom-designed late Victorian-era Italian Renaissance Revival style row house with most of the stylistic attributes and finishes of the type, and the work of Henry Shalless who was skilled in row house design (Criterion E).

Dr. Moore's row houses and shop, 12-20 Chetwynd Street, 62-74 Rosslyn Street, part

62 Rosslyn Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1868
View of place:	2015

Statement of Significance

What is significant?

Row houses and corner shop built in 1868 by West Melbourne contractor Thomas Noble, for Dr. George Moore, a Queensberry Street surgeon and district public vaccinator, including houses at 12-20 Chetwynd Street and 62-68 Rosslyn Street; and the former Sowter's shop and residence at the corner (70-74 Rosslyn Street).

Contributory elements include:

- a single-storey, brick row of five cottages in Chetwynd Street and four in Rosslyn Street, all finished in ruled stucco and set on bluestone footings (typically painted over) with end and rear walls face-brick (see 68 Rosslyn Street rendered over in Chetwynd Street);
- corner former shop, set on a semi-hexagonal in plan at the corner of Chetwynd Street and Rosslyn Street,
- transverse gabled, typically corrugated iron clad, roofs (new tiles on 70-4 Rosslyn);
- cemented chimneys (some cornice details missing) engaged alternately in expressed party walls that are corbelled back to the wall line on the street facade;
- doors typically four panel with two-light toplights and placed in pairs, except for 12 Chetwynd Street where the door is central and 70-74 Rosslyn Street where it is set in the splayed corner;
- single double-hung sash windows to houses, except for 12 Chetwynd Street which has two;
- three long narrow windows to the former shop at 70-74 Rosslyn Street which may be added; and
- all built on the street alignment with stone paved lane access to the rear, the small scale and siting being indicative of the age.

The door at 16 Chetwynd Street is of Edwardian-era character and doors at 70-74 Rosslyn Street have also been changed.

The rows form strong streetscape elements, being set hard on the street on both sides of a distinctive triangular site. Trees in Eades Place and Chetwynd Street assist the small and intimate scale of these houses by confinement of the field of vision to them, whilst the former shop obtains maximum prominence.

How is it significant?

Dr. Moore's row houses and shop are significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Dr. Moore's row houses and shop are significant.

- Aesthetically, the rows are of a simple early form with little architectural embellishment individually, but as continuous rows of stepped cottages they form strong streetscape elements, each closely matched to the streets irregular junction angle and the small confined village scale evokes the early Victorian-era well (Criterion E); and
- Historically, an extensive development by a local active medical practitioner and successful investor, Dr. George Moore, who was cited in a number of well publicised medical events in the Victorian-era as well as providing expert evidence to the Royal Commission into the coal industry 1891 (Criterion A).

Felton Grimwade and Duerdins Pty. Ltd. factory, later Lyell-Owen Pty. Ltd., Creffields

101-107 Rosslyn Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1944
View of place:	2015

Statement of Significance

What is significant?

Factory wing designed in 1944 by industrial design specialists, Arthur Peck and Hugh Peck as an addition to the Felton Grimwade and Duerdins Pty. Ltd. chemical manufacturing complex,

Contributory elements include:

- two storey face red brick parapeted factory, with matching but higher skillion additions built on an existing wing at the rear;
- pitched roofs behind parapet;
- three-bay symmetrical façade with raised central bay providing for a stepped parapet;
- soldier coursing above openings and across side bays as structural ornament;
- rainwater heads and downpipes arranged symmetrically as part of the facade; and
- multi-pane glazing in steel framing.

Integrity is good despite new entry lobby created central to the facade.

How is it significant?

The Felton Grimwade and Duerdins Pty. Ltd. factory, 101-107 Rosslyn street, is significant historically and aesthetically to West Melbourne.

Why is it significant?

The Felton Grimwade and Duerdins Pty. Ltd. factory, 101-107 Rosslyn street, is significant.

- Historically, for its association with this important company and its increased capacity during World War Two as part of their war effort, also a well-preserved Interwar industrial building symbolic of this phase of growth in West Melbourne (Criterion A); and
- Aesthetically, a strong Moderne style design using brickwork as its ornament and massing (Criterion E).

**Dixon and Co. cordial factory, later Felton Grimwade and Duerdins Pty.
Ltd. chemical laboratory, factory and store complex**

109-133 Rosslyn Street, WEST MELBOURNE

Demolished

Australian Biscuit Company Ltd. stores

300 Rosslyn Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1889
View of place:	2015

Statement of Significance

What is significant?

Australian Biscuit Company Ltd. stores erected in 1889 to the design of architect John Birtwistle; the builders were Peirson and Wright of Carlton.

Contributory elements include:

- three level parapeted face brick and cemented stores;
- three hipped roof bays behind parapet;
- cemented entablature, cornice moulds, string moulds and a central raised gabled entablature;
- small punched segmentally arched openings with voussoirs as indicative of its use as storage, with some timber double-hung sash windows on north face ground level; and
- major corner element, echoed on the next corner by the Interwar former Fitchett building at 240 Stanley Street and complementary to the Victorian-era streetscape backing onto the site in Stanley Street.

Integrity is good despite window joinery having been replaced, with multi-pane steel framed glazing on north windows; ground level openings refitted, bricks painted over.

How is it significant?

Australian Biscuit Company Ltd stores is significant historically and aesthetically to West Melbourne.

Why is it significant?

Australian Biscuit Company Ltd stores is significant.

- Historically, as the only built trace of this large and well publicised company (Criterion A); and
- Aesthetically, as relatively well-preserved and large, late Victorian-era stores, a now rare building type in North and West Melbourne, also custom designed by James Birtwistle who was responsible for some significant buildings in the same era and a major Victorian-era streetscape corner element, as a continuation from Stanley Street (Criterion E).

Melbourne Assessment Prison (former Melbourne Remand Centre)

317-353 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Prison
Date(s):	1989
View of place:	2015

Statement of Significance

What is significant?

Melbourne Assessment Prison, (former Melbourne Remand Centre) opened in 1989, is a good example of Post-Modern design by architects in association Godfrey Spowers and Daryl Jackson AO..

Contributory elements include:

- pressed red brick parapeted form loosely inspired by Italian Renaissance palazzo forms;
- four levels with two attic storeys above, set in deeply recessed bayed elevations with giant-order piers;
- loggia at ground level and splayed corner;
- banding and diaper patterns applied in cream brick to facade;
- punched openings in façade as slits or squares in attic levels;
- fenestration wall to north side rear with tympanum motif; and
- red and cream brick piered and panelled yard wall at rear.

How is it significant?

The Melbourne Assessment Prison former Melbourne Remand Centre is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

The Melbourne Assessment Prison former Melbourne Remand Centre is significant.

- Historically, as a well-preserved, large scale and the only modern custom-designed prison complex active within the City of Melbourne, which is associated with a number of notorious prisoners.(Criterion A) ; and
- Aesthetically, among the largest and most articulate Post Modern design in the City of Melbourne from an era when design context was as important as the design itself, in this case referencing the significant Sands and McDougall building nearby. The building provides a contemporary contribution to the industrial character of West Melbourne; and associated with architect, Daryl Jackson, who was recognised nationally at this time for the excellence of his design work in Australia (Criterion E).

Sands and McDougall precinct

355-371 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory, warehouse
Date(s):	1889, 1900, 1914
View of place:	2015

Statement of Significance

Sands and McDougall precinct: buildings at 83-113, 115, 135 Batman Street, 23 Franklin Place, 102 Jeffcott Street, 355 and 371 Spencer Street;

What is significant?

Contributory features or elements of this place include:

Sands and McDougall Pty. Ltd. Main wing, 355 Spencer Street, 1888-9, designed by Thomas Watts and Sons.

- close association with Sands and McDougall Pty. Ltd. and Thomas Watts and Sons architects;
- Victorian-era fabric;
- a grand six-storey, red brick and stucco parapeted factory building set on the Jeffcott Street corner;
- symmetrically arranged three main façade bays, each with a hipped roof form over, as expressed by massive parapet pediments;
- cemented parapet cornice and string moulds dividing the storeys;
- basalt sills and voussoirs to formerly double-hung sash window openings;
- bracketed cement hood over the entry;
- painted wall signs with the firm's name on north and south sides; and
- contribution as a period landmark being a major corner site, in original condition and with gigantic proportions set amongst low-rise neighbours and the centre-piece of an associated complex of red brick industrial buildings in the locality and the former Melbourne Remand Centre that was clearly inspired by this building.

Sands and McDougall Pty. Ltd. Warehouse, 371 Spencer Street, 1900, designed by Thomas Watts and Sons.

- close association with Sands and McDougall Pty. Ltd. and Thomas Watts and Sons architects;
- Edwardian-era fabric;
- a three-storey, red brick and stucco parapeted warehouse adjoining the factory;
- symmetrically arranged three main façade bays, each with a hipped roof form over, as expressed by cemented parapet pediments, with flanking scrolls;
- cemented parapet cornice and string moulds dividing the storeys;
- basalt sills and voussoirs to formerly double-hung sash window openings;
- painted wall signs with the firm's name on north and south sides; and
- contribution as a period landmark being a major corner site, in original condition and with gigantic proportions set amongst low-rise neighbours and the centre-piece of an associated complex of red brick industrial buildings in the locality.

Openings altered with single pane glazing in place of double-hung sash windows, entry altered.

Sands and McDougall Pty. Ltd. 102 Jeffcott Street factory 1914, designed by Arthur & Hugh Peck.

- face brick (bricks painted over) one level plus basement building set on a stone paved lane between it and the main building; and
- double gabled parapeted roofline, corrugated iron clad roof behind.

Openings altered, entry altered.

Sands and McDougall Pty. Ltd. box factory, 83-113 Batman Street, 1927-8, 1937-1940, designed by Arthur & Hugh Peck.

- close association with Sands and McDougall Pty. Ltd. and Arthur & Hugh Peck architects;
- interwar fabric;
- four and five-level face red brick factory building in a bold and austere proto-Modern style;
- eight bays of brick piers dividing the street elevation, with brick spandrels separating windows;
- visual reinforcement of each end with lesser pier spacing;
- multi-gabled side elevations to lanes;
- pitched roofs behind parapets;
- some remaining steel framed multi-pane glazing to end bays;
- concrete lintels expressed across openings; and
- some vertical boarded external doors.

Strong visual and historical link to the adjoining Sands and McDougall complex and the former Goetz building on the west (redeveloped).

WG Goetz and Son Pty. Ltd, 115 Batman Street, 1925, 1935, designed by Joy & McIntyre Consulting and Designing Engineers and Architects; Joy & Dixon, Architects & Engineers

- association with WG Goetz and Son Pty. Ltd.;
- interwar fabric;
- two level red brick parapeted and gabled facades (with major upper level tower addition);
- deeply moulded cement string mould and cemented lintels;
- punched openings (altered); and
- panelled brickwork bays.

Sands and McDougall wood working building, 135 Batman Street, Interwar.

- close association with with Sands and McDougall Pty. Ltd.
- interwar fabric;
- one-level red brick parapeted factory, with pitched corrugated iron clad roof;
- piated and panelled parapet;
- bracketed cornice moulding;
- punched openings; and
- double-hung sash windows, timber-framed.

W O'Donnell engineers workshop, at 23 Franklin Place, c1900-1918

- association with W O'Donnell engineers;
- Edwardian-era fabric;
- red brick, two-level parapeted and gabled workshop building.
-

How is it significant?

Sands and McDougall precinct is significant historically and aesthetically to West Melbourne, the City of Melbourne and Victoria.

Why is it significant?

Sands and McDougall complex precinct is significant.

- Aesthetically, like many other warehouse or factory buildings of the period and earlier, this complex dominates its residential contemporaries in scale and adopts the Italian Renaissance Revival ornament of commercial designs current since the 1870s but in this case executed in red brick with stucco trim. The main building of 1888-9 is a large and original, prominently sited and competently ornamented 19th century factory building which possesses early use of all iron fire-proofed framing and was designed by the distinguished architectural firm, Thomas Watts and Sons. It is of

State importance as an indicative and surprisingly original example of the fast disappearing large industrial buildings of the late 19th century. The adjacent contributory buildings from the Interwar period use the same architectural language and materials but with a modern interpretation (Criterion E); and

- Historically, the complex includes the most of the known surviving and most substantial buildings linked with this most well known of stationery firms that had a national presence and is one of the most significant industrial complexes in Victoria, with the Goetz factory also representing a specialised area of manufacture that differs from the more typical heavy industry (Criterion A).

McLeod's row house and shop, later Edwards' general store (part)

362-364 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house later shop & residence row
Date(s):	1868
View of place:	2015

Statement of Significance

What is significant?

Row house and corner shop and residence built by James Lever in 1868 for Norman McLeod.

Contributory elements include:

- two storey parapeted stuccoed row house and corner shop in a simple Italian Renaissance Revival style;
- cemented cornice and string moulds, quoining and brackets with a raised pedimented entablature at the corner splay;
- originally face brick side and rear walls;
- punched window openings, with moulded cemented architraves and bracketed sills;
- corner entry doorway and toplight; and
- traditional corner siting for Victorian-era shop or commercial building.

Changes include additions, removal of the roof and chimneys, revision of the ground floors facing Jeffcott and Spencer Street, with new openings, refit of all openings. The integrity is only fair but the simple form of the building remains symbolic of the first Crown Grant era.

How is it significant?

McLeod's row house and shop are significant historically to West Melbourne.

Why is it significant?

McLeod's row house and shop are significant.

- Historically and socially, as symbolic of the first Crown Grant era and the simple form of commercial architecture that dated from that period also as a corner grocery for a long period serving the former residential area around it (Criterion A).

Sands and McDougall Ltd factory and warehouse complex, warehouse part,

371 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Warehouse
Date(s):	1900
View of place:	2015

Statement of Significance

Part Sands and McDougall Pty Ltd. complex.

What is significant?

Contributory features or elements of this place include:

Sands and McDougall Pty. Ltd. Main wing, 355 Spencer Street, 1888-9, designed by Thomas Watts and Sons.

- close association with Sands and McDougall Pty. Ltd. and Thomas Watts and Sons architects;
- Victorian-era fabric;
- a grand six-storey, red brick and stucco parapeted factory building set on the Jeffcott Street corner;
- symmetrically arranged three main façade bays, each with a hipped roof form over, as expressed by massive parapet pediments;
- cemented parapet cornice and string moulds dividing the storeys;
- basalt sills and voussoirs to formerly double-hung sash window openings;
- bracketed cement hood over the entry;
- painted wall signs with the firm's name on north and south sides; and
- contribution as a period landmark being a major corner site, in original condition and with gigantic proportions set amongst low-rise neighbours and the centre-piece of an associated complex of red brick industrial buildings in the locality and the former Melbourne Remand Centre that was clearly inspired by this building.

Sands and McDougall Pty. Ltd. Warehouse, 371 Spencer Street, 1900, designed by Thomas Watts and Sons.

- close association with Sands and McDougall Pty. Ltd. and Thomas Watts and Sons architects;
- Edwardian-era fabric;
- a three-storey, red brick and stucco parapeted warehouse adjoining the factory;
- symmetrically arranged three main façade bays, each with a hipped roof form over, as expressed by cemented parapet pediments, with flanking scrolls;
- cemented parapet cornice and string moulds dividing the storeys;
- basalt sills and voussoirs to formerly double-hung sash window openings;
- painted wall signs with the firm's name on north and south sides; and
- contribution as a period landmark being a major corner site, in original condition and with gigantic proportions set amongst low-rise neighbours and the centre-piece of an associated complex of red brick industrial buildings in the locality.

Openings altered with single pane glazing in place of double-hung sash windows, entry altered.

Sands and McDougall Pty. Ltd. 102 Jeffcott Street factory 1914, designed by Arthur & Hugh Peck.

- face brick (bricks painted over) one level plus basement building set on a stone paved lane between it and the main building; and

- double gabled parapeted roofline, corrugated iron clad roof behind.

Openings altered, entry altered.

Sands and McDougall Pty. Ltd. box factory, 83-113 Batman Street, 1927-8, 1937-1940, designed by Arthur & Hugh Peck.

- close association with Sands and McDougall Pty. Ltd. and Arthur & Hugh Peck architects;
- interwar fabric;
- four and five-level face red brick factory building in a bold and austere proto-Modern style;
- eight bays of brick piers dividing the street elevation, with brick spandrels separating windows;
- visual reinforcement of each end with lesser pier spacing;
- multi-gabled side elevations to lanes;
- pitched roofs behind parapets;
- some remaining steel framed multi-pane glazing to end bays;
- concrete lintels expressed across openings; and
- some vertical boarded external doors.

Strong visual and historical link to the adjoining Sands and McDougall complex and the former Goetz building on the west (redeveloped).

Sands and McDougall wood working building, 135 Batman Street, Interwar.

- close association with Sands and McDougall Pty. Ltd.
- interwar fabric;
- one-level red brick parapeted factory, with pitched corrugated iron clad roof;
- piated and panelled parapet;
- bracketed cornice moulding;
- punched openings; and
- double-hung sash windows, timber-framed..

How is it significant?

The Sands and McDougall factory and warehouse complex is significant historically and aesthetically to West Melbourne, the City of Melbourne and Victoria.

Why is it significant?

The Sands and McDougall factory and warehouse complex is significant.

- Aesthetically, like many other warehouse or factory buildings of the period and earlier, this complex dominates its residential contemporaries in scale and adopts the Italian Renaissance Revival ornament of commercial designs current since the 1870s but in this case executed in red brick with stucco trim. The main building of 1888-9 is a large and original, prominently sited and competently ornamented 19th century factory building which possesses early use of all iron fire-proofed framing and was designed by the distinguished architectural firm, Thomas Watts and Sons. It is of State importance as an indicative and surprisingly original example of the fast disappearing large industrial buildings of the late 19th century (Criterion E); and
- Historically, the complex includes the earliest known surviving and most substantial buildings linked with this most well known of stationery firms that had a national presence and is one of the most significant industrial complexes in Victoria, representing a specialised area of manufacture that differs from the more typical heavy industry (Criterion A).

Alexander Dick's house also Tinto House, later Curtin House

384 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1879
View of place:	2015

Statement of Significance

What is significant?

House built by contractor and speculator, Alexander Dick, for his own use in 1879.

Contributory elements include:

- two storey parapeted brick and stuccoed row house;
- cemented cornice moulds, rosettes, with a raised segmentally arched entablature;
- originally face brick side and rear walls;
- pitched roof behind the parapet, with corrugated iron cladding and chimney;
- originally two storey verandah since rebuilt;
- double-hung sash windows in both segmentally and fully arched openings with pronounced voussoirs; and
- contribution to a valuable Edwardian and Victorian-era streetscape and located opposite the highly significant Sands and McDougall complex.

Integrity is only fair, with painting of the bricks, changes to entry and toplight, altered verandah and upper level window, and an altered fence. The building has some historical value.

How is it significant?

Alexander Dick's house also Tinto house, is of historical significance to West Melbourne.

Why is it significant?

Alexander Dick's house also Tinto house, is significant.

- Historically, as an altered representative of the late Victorian-era building boom in West Melbourne while also the creation of one of the successful practitioners of that boom, Alexander Dick. Also contributory to a valuable Edwardian and Victorian-era streetscape and located opposite the highly significant Sands and McDougall complex (Criterion A).

Aaron Danks' factory-warehouses

386-394 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory, warehouse
Date(s):	1908-9
View of place:	2015

Statement of Significance

What is significant?

Warehouse erected by W.F. Holden for hardware merchant and benefactor Aaron Danks (later Sir Aaron Danks), to the design of the renowned architect, Charles A. D'Ebro, in 1908-9.

Contributory elements include:

- two storey face brick parapeted Edwardian Freestyle factory warehouses;
- three-bay façade divided by deep, brick bullnose-profile piers with cemented parapet entablatures, and moulded terracotta cornices;
- central bay with raised gabled entablature bearing the date on a panel;
- ribbing applied to piers, emanating from cement orbs on the cappings and terminated on cemented cartouches;
- ox-bow shaped string moulds over segmentally arched upper level openings, with bullnose brick reveals and moulded strings as sills;
- face red brick side and rear walls, with concrete lintols over timber famed window groups;
- terracotta wall vents;
- pitched roofs behind the parapet in three hipped sawtooth bays clad with corrugated iron and clerestory lighting to the upper level;
- double-hung timber sash upper level windows;
- ground level openings set within piers with an uncommon bullnose profile ribbed soffit over; and
- part altered early shopfront and entry door at 394 Spencer Street.

Bricks painted over and ground level joinery changed.

How is it significant?

Aaron Danks' factory-warehouses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Aaron Danks' factory-warehouses are significant.

- Historically, for its association with the important figure, Aaron Danks, in his managerial role for the company John Danks after his father's death, and as one of the oldest buildings surviving commissioned by this vast Danks company (Criterion A); and
- Aesthetically, a good example of Charles D'Ebro's work, a specialist in the application of Edwardian-era or Arts and Crafts Freestyle to commercial buildings (Criterion E).

Bennett's Dalston Bakery

405-407 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence, bakery
Date(s):	1906
View of place:	2015

Statement of Significance

What is significant?

Shop and dwelling erected by John Timmins in 1906 for Mrs Bennett, at the corner of Spencer and Franklin Streets to the design of architect R. M. King for use by Henry William Bennett, baker.

Contributory elements include:

- two storey parapeted face red brick and cement Queen Anne style complex on stone footings;
- pitched roofs behind parapets, clad with corrugated iron;
- impressive row of red brick corbelled chimney to bakery rear wall, signalling function;
- cemented chimney to shop and residence;
- black brick string mould at sill level;
- baker's shop at corner with splayed corner entry;
- cemented cornice and parapet entablature with the name 'H Bennett est 1850' and 'Dalston Bakery', scrolled around end chimney;
- traces of old signage on bakery side wall;
- cemented voussoirs over original openings;
- scrolled broken pediment to raised entablature at corner;
- double-hung sash windows upper level, staggered on side elevation;
- skillion form bakery at rear with pitched crossing to courtyard between shop and bakery; and
- contribution to Edwardian-era and Interwar commercial streetscape along Spencer Street.

Integrity is good despite Edwardian-era windows added to the upper level, painting over of some bricks and stonework, and the corner entry and shopfront having been bricked in on ground level. The entry has been part reopened since 1983 (see North and West Melbourne Conservation Study 1983).

How is it significant?

Bennett's Dalston Bakery is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Bennett's Dalston Bakery is significant.

- Historically, closely linked with the Bennett family of bakers and a bakery and shop over an extended period, also representative of the end of a major growth period in West Melbourne also as a now rare Edwardian-era bakery and baker's shop and residence complex within the City (Criterion A); and
- Aesthetically, a custom-designed strong corner Edwardian-era complex with distinctive detailing and bold massing in the Queen Anne style also contributory to a minor commercial Edwardian-era streetscape along Spencer Street (Criterion E).

Australian Glass Manufacturers Co. Ltd. (façade only)

420 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Showroom
Date(s):	1937
View of place:	2015

Statement of Significance

What is significant?

Streamlined Moderne style commercial façade commissioned by Australian Glass Manufacturers Co. Ltd. and designed by H.W. And F.B. Tompkins for completion in 1937.

Contributory elements include:

- parapeted two storey stuccoed and terra-cotta parapeted show room and offices (façade) in the Streamlined Modern style;
- corner site with two principal elevations;
- five-bay main façade facing Spencer Street with three grooved fins to the centre glazed panel, flagpole above on tripartite support and the address in metal lettering, '420 Spencer St' under,
- three-bay façade to Dudley Street with stepped parapet over the centre bay;
- use of terracotta faience as streamlining, tiled dados;
- use of vertical fins and horizontal fluted spandrels, flat and curved surfaces as an interplay of form and finish rather than applied ornament;
- large panels of glass brickwork, a company product; and
- metal windows and door frames.

How is it significant?

Australian Glass Manufacturers Co. Ltd. (façade) is significant historically and aesthetically to West Melbourne

Why is it significant?

Australian Glass Manufacturers Co. Ltd. (façade) is significant.

- Historically, as the local headquarters and showroom of the important Australian firm, Australian Glass Manufacturers, whose products aided in the development of Modernist glass-oriented architecture in the following decades also as a showpiece for this type of architecture to be emulated (Criterion A); and
- Aesthetically, as a good example of the Streamline Moderne style designed by H.W. and F.B. Tompkins who were responsible for a number of significant commercial buildings in the Melbourne business centre in the interwar period, notably Myers store in Bourke Street (Criterion E).

Victorian-era commercial streetscape 437-441 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residences
Date(s):	1868-c1890
View of place:	2015

Statement of Significance

Victorian-era commercial streetscape, 437-441 Spencer Street, West Melbourne

What is significant?

Commercial Victorian-era streetscape at 437-441 Spencer Street, West Melbourne includes the early shop and dwelling at 441 constructed in 1868 for John Crabtree, and the shop and residence at 437 as an altered Victorian-era structure which exemplifies the change in commercial styling.

Contributory elements in the streetscape include:

- double storey rendered Victorian-era shops and residences, set on bluestone footings;
- cemented parapeted façade on 437 with moulded architraves, cornice and blocks on brackets;
- Italian Renaissance Revival styling on 437;

- traditional splayed corner entry for 441;
- double-hung sash windows on 437;
- shopfront on the narrow Spencer Street façade of 441, now altered; and
- corrugated galvanised steel simply hipped roofs.

All of the other windows have also been replaced on 441, probably originally double hung sashes.

How is it significant?

Victorian-era commercial streetscape at 437-441 Spencer Street, West Melbourne, is significant historically to West Melbourne.

Why is it significant?

This Victorian-era commercial streetscape at 437-441 Spencer Street, West Melbourne, is significant.

- Historically, the streetscape demonstrates both an early and later Victorian-era phase of commercial development of West Melbourne in the mid-nineteenth century (Criterion A).

Brown's factory, later Preston Motors Pty. Ltd.

445 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1935
View of place:	2015

Statement of Significance

What is significant?

Moderne style factory built in 1935 by WG Rothwell for E.W. and E.S. Brown Esq. later used by Preston Motors Pty. Ltd. for a service station and their West Melbourne showroom.

Contributory elements include:

- parapeted one and two storey Moderne style face brick factory on corner site;
- three-colour brickwork, brown or manganese and red as vertical and horizontal panels, and cream as string moulds and basket weave panels set into piers;
- soldier coursing over openings and as a parapet capping also squints as sills;
- concrete lintols;
- twin gabled roofs behind the parapet; and
- steel framed multi-pane glazing

How is it significant?

Brown's factory, later Preston Motors Pty. Ltd., is significant historically and aesthetically to West Melbourne.

Why is it significant?

Brown's factory, later Preston Motors Pty. Ltd., is significant.

- Historically, for the building's link with the ongoing and successful motor retailing firm of Preston Motors also as a representative of the Interwar industrial development that overtook this part of West Melbourne (Criterion A); and
- Aesthetically, as a good and well-preserved example of Moderne design using coloured and pattern brickwork (Criterion E).

Hotel Spencer

475 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Hotel
Date(s):	1926-7
View of place:	2015

Statement of Significance

What is significant?

Greek Revival style hotel created by hotel design specialists Sydney Smith Ogg and Serpell for Mrs M Riordan for completion by 1927.

Contributory elements include:

- Greek Revival style parapeted and stuccoed three-level corner hotel;
- stepped parapet over a deep bracketed cornice;
- three bay Spencer Street façade and seven bay Rosslyn Street elevation, set on a high, ruled cement podium base;
- giant order pilasters framing a central recessed façade bay with balconies and wrought iron balustrade incorporating the saltire cross motif;
- Egyptian motifs such as the scarab beetle and reeded capitals;
- bas-relief letters spelling out 'Hotel Spencer' on the podium and upper level of both elevations; and
- double-hung sash windows with lattice pattern sashes set within vertical strips and separated by moulded spandrels.

Integrity is good despite the removal of dado tiles, addition of intrusive service elements and a large sign attached to the parapet. Ground level openings have been changed.

How is it significant?

Spencer Hotel, later Hotel Spencer, is significant historically, socially and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Spencer Hotel later Hotel Spencer is significant.

- Historically and socially, as a local corner hotel and gathering place for the West Melbourne community over time (Criteria A, G); and
- Aesthetically, as a superior Greek revival style hotel example, carried out by the important architectural firm, Sydney Smith Ogg and Serpell, also a major, although isolated, traditional corner streetscape element (Criterion E).

Commercial streetscape, 491-501 Spencer Street WEST MELBOURNE

New grading system:	Significant
Place type:	Shops & residences
Date(s):	1866-c1905
View of place:	2015

Statement of Significance

Commercial streetscape 491-501 Spencer Street

What is significant?

Commercial streetscape that includes at its core the shop and dwelling at 499 Spencer Street built by Farnsworth and Potts for butcher Robert Barnes by 1880 and to a design by North Melbourne architect Henry Shalless, in a significant Edwardian and Victorian-era commercial streetscape, 491-501 Spencer Street, most of which was once owned by Barnes.

- Other contributory buildings in this streetscape include:
- Ethelboro or Clarke's house at 491 built from 1866 onwards;
- Clark and Heron's building at 493 built c1905,
- Shops and residences at 495-497, built c1886.

This streetscape is adjoining another similar streetscape at 505-511 Spencer Street that shares similar stylistic traits and finishes while having sufficient integrity to represent this important growth era in West Melbourne.

Contributory elements within the streetscape include:

- one and two storey scaled shops and residences;
- parapeted brick and stuccoed Victorian-era designs in the Italian Renaissance Revival style;
- Edwardian-era face brick parapeted two level shop and residence;
- originally face brick side and rear walls;
- pitched roofs behind the parapet; and
- double-hung sash windows.
- Upper level facade integrity is good but ground levels have changed.

How is it significant?

- The commercial streetscape, 491-501 Spencer Street, is significant historically to West Melbourne.

Why is it significant?

The commercial streetscape, 491-501 Spencer Street, is significant.

- Historically, the shops in this group represent major growth periods in West Melbourne also as a shop group owned by the Barnes family over a long period and used as their butcher's shop (Criterion A).

Barnes' shop and residence, part commercial streetscape 491-501 Spencer Street

499 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1879-80
View of place:	2015

Statement of Significance

See also Statement of Significance for commercial streetscape at 491-501 Spencer Street.

What is significant?

Shop and dwelling built by Farnsworth and Potts for butcher Robert Barnes to a design by North Melbourne architect Henry Shalless in 1879-80.

Contributory elements include:

- two storey parapeted stuccoed Victorian-era shop and residence in the Italian Renaissance Revival style;
- cemented cornice moulds, blocks, stylised elongated brackets and inverted consoles at first floor level;
- face brick side and rear walls;
- pitched roof behind the parapet;
- double-hung sash windows, with distinctive ornamental pair at the upper level, detailed in manner similar to other Shalless window groups;
- pilasters at ground level as vertical divisions in the former shopfront; and
- contribution to valuable Victorian-era streetscape.

Integrity of the upper level is good but the ground level has changed with the exception of the pilasters.

How is it significant?

Barnes' shop and residence is significant historically and aesthetically to West Melbourne.

Why is it significant?

Barnes' shop and residence is significant.

- Historically, with other shops in this group (491-503 Spencer Street), representative of a major growth period (Victorian-era) in West Melbourne, also the centre-piece of a shop group owned by the Barnes family over a long period and used as their butcher's shop (Criterion A); and
- Aesthetically, as a fine and distinctive shop façade designed by local architect Henry Shalless and contributory to a Victorian-era commercial streetscape (Criterion E).

James Campbell's shop and residence

502 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1881
View of place:	2015

Statement of Significance

What is significant?

Shop and residence built for West Melbourne blacksmith, James Campbell, by Henry in 1881.

Contributory elements include:

- a double-storey parapeted and rendered residence built to the property line;
- cemented detailing including bracketed cornice, quoining, parapet pediment with scrolls;
- tripartite timber-framed double-hung sash windows with a rendered hood mould and bracketed sill on the upper level façade; and
- cemented chimneys with cornices.

The ground floor has been altered.

How is it significant?

James Campbell's shop and residence is significant historically to West Melbourne.

Why is it significant?

James Campbell's shop and residence is significant.

- Historically, the building demonstrates early shop and residence development of the nineteenth century Boom period, an important phase in the history of West and North Melbourne. Campbell, a blacksmith, was typical of the artisans who resided and speculated in West Melbourne (Criterion A).

Edwardian and Victorian-era commercial streetscape

503-511 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shops & residences
Date(s):	1878-1915
View of place:	2015

Statement of Significance

Edwardian and Victorian-era commercial streetscape

What is significant?

Contributory places in this Victorian-era commercial streetscape include:

- Yule's shops and residences at 505-507 Spencer Street built 1878;
- Doyle's shops and residences, 509-511 Spencer Street built 1915; and
- shop and residence, later Chinese laundry, 503 Spencer Street, built 1875-1900.

They share:

- parapeted one and two-storey shop and residence forms;
- Italian Renaissance Revival styling with cemented detailing;
- face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys; and
- double-hung sash windows on the upper level.

Chinese laundry, 503 Spencer Street has been altered.

How is it significant?

This Edwardian and Victorian-era commercial streetscape is significant historically and aesthetically to West Melbourne.

Why is it significant?

Edwardian and Victorian-era commercial streetscape is significant.

- Historically, as representative of two major boom eras in the development of West Melbourne (Criterion A); and
- Aesthetically, for the architectural values of 509-511 Spencer Street (see Statement of Significance, 509, 511 Spencer Street) (Criterion E).

Doyle's shop and residence, part 509-511 Spencer Street

509 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1915
View of place:	2015

Statement of Significance

What is significant?

Pair of two-storey brick shops and dwellings built by W. J. Wheeler in 1915 for baker, Samuel Doyle.

Contributory elements include:

- two storey parapeted red brick and stuccoed Edwardian-era shop and residence in an adapted Italian Renaissance Revival style;
- cemented cornice and string moulds, blocks, brackets, recessed vermiculated panels and a raised gabled entablature at first floor level with orbs (part unpainted as original);
- originally face brick side and rear walls;
- pitched roof behind the parapet with corbelled brick chimneys;
- double-hung sash windows, with distinctive architraves and keystones facing Spencer Street and arranged in a pattern facing Stanley Street with the arched opening and leadlight glazing signalling the internal stair case;
- metal framed shopfront at ground level (511); and
- contribution to valuable Edwardian and Victorian-era streetscape.

The cantilever street canopy is an early one but has been reclad.

Integrity is good despite the replacement of the shopfront on 509; painting of bricks and new green tiled plinth and piers on 511 Spencer Street (identified in 1991 as painted over); altered windows on 511.

How is it significant?

Doyle's shop and residence pair is significant historically and aesthetically to West Melbourne.

Shops and residences at 505-511 Spencer Street are contributory to a locally significant streetscape.

Why is it significant?

Doyle's shop and residence is significant.

- Historically, with other shops in this group (505-507 Spencer Street), as representative of a major growth period in West Melbourne also the centre piece of a shop group owned by the Doyle family over a long period (Criterion A); and
- Aesthetically, as distinctive Edwardian-era shop façades and contributory to a Victorian-era commercial streetscape (Criterion E).

Doyle's shop and residence, part 509-511 Spencer Street

511 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1915
View of place:	2015

Statement of Significance

What is significant?

Pair of two-storey brick shops and dwellings built by W. J. Wheeler in 1915 for baker, Samuel Doyle.

Contributory elements include:

- two storey parapeted red brick and stuccoed Edwardian-era shop and residence in an adapted Italian Renaissance Revival style;
- cemented cornice and string moulds, blocks, brackets, recessed vermiculated panels and a raised gabled entablature at first floor level with orbs (part unpainted as original);
- originally face brick side and rear walls;
- pitched roof behind the parapet with corbelled brick chimneys;
- double-hung sash windows, with distinctive architraves and keystones facing Spencer Street and arranged in a pattern facing Stanley Street with the arched opening and leadlight glazing signalling the internal stair case;

- Aesthetically, as distinctive Edwardian-era shop façades and contributory to a Victorian-era commercial streetscape (Criterion E).

Royal Mail Hotel (formerly Cook's Hotel)

519 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Hotel
Date(s):	1938 renovation
View of place:	2015

Statement of Significance

What is significant?

Royal Mail Hotel renovated in the Moderne style to the design of P. J. O'Connor in 1938, as applied to a Victorian-era hotel.

Contributory elements include:

- two storey parapeted Moderne style stuccoed corner hotel, as a renovation of a Victorian-era hotel;
- stepped parapet to corner with fluting or ribbing attached to a raised corner pediment;
- moulded cornice and Moderne style streamlining applied in the render below the upper level sills and a fluted string mould;
- gabled raised entablature at Spencer Street west end, with quoining scrolls, and blocks as part of an adjoining Victorian-era shop and residence absorbed into hotel since 1938;
- double-hung sash windows for upper level as part of Victorian-era hotel; and
- traditional corner hotel form, splayed corner, and siting from Victorian-era.

Integrity is good to the 1938 form, despite ground level changes, with the tile dado removal also added and altered openings. The hotel name, carried out in raised cement lettering, has been removed.

How is it significant?

Royal Mail Hotel is significant historically, socially and aesthetically to West Melbourne.

Why is it significant?

Royal Mail Hotel is significant.

- Historically and socially, for the long tenure as a public house and meeting place extending back to the 19th century (Criteria A, G); and
- Aesthetically, with the Moderne style renovation as a reflection of increased development at West Melbourne in the Interwar period, while still maintaining the symbolism of the old Victorian-era hotel, also as a custom design by a hotel specialist architect, P.J. O'Connor (Criterion E).

Associated Taxi Services offices and service station, later Embassy café and service station

541-547 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Service Station
Date(s):	1956
View of place:	2015

Statement of Significance

What is significant?

Associated Taxi Services offices and service station (later Embassy café and service station) were created in time for the 1956 Olympics to the design of Charles Weight, ARAIA Architect.

Contributory elements include:

- two level steel framed and sheet clad service station and taxi offices, with café;
- modular, expressed curtain wall framing to elevations;
- deep sheet-clad eaves; and
- fibre cement sheet infill or spandrel panels and timber framed hopper sashes for windowwalls.

Integrity is fair despite many ground level additions; the added escape stair on the east end; new spandrel colours; some finishes painted over; and addition of air units and services. The upper level was extended in the 1960s in a similar manner to the existing.

How is it significant?

The Embassy café and service station is significant historically and aesthetically to West Melbourne.

Why is it significant?

The Embassy café and service station is significant.

- Historically, as a symbol of the preparations made for the 1956 Melbourne Olympic Games, with appropriate Modernist styling (Criterion A); and
- Aesthetically, an altered but contemporary 1950s Modern approach to what was by then an established building type (see adjoining as a typical Interwar garage and service station design), designed by Charles Weight who was recognised for his design skill at that time and more recently by architectural historians (Criterion E).

Lever Brothers Pty. Ltd., soap manufacturers offices, factory.

567 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1935-40, 2000
View of place:	2015

Statement of Significance

What is significant?

Moderne style externally well-preserved factory building occupied by international soap and margarine production firm, Lever Brothers, in the Second World War era.

Contributory elements include:

- two-level red brick and stucco parapeted factory;
- well-preserved Moderne style symmetrical elevation;
- strong horizontal elements as spandrels set against the vertical element of the brick piers;
- fluting along the stepped parapet edge, cemented tripartite fins centrally placed;
- metal-framed multi-pane glazing in window strips accentuating the horizontality; and
- contribution of a small industrial complex that abuts in Hawke Street.

How is it significant?

The Lever Bros Pty. Ltd. factory is significant historically and aesthetically to West Melbourne.

Why is it significant?

The Lever Bros Pty. Ltd. factory is significant.

- Historically, as the Interwar expression of the growth of the chemical industry in West Melbourne also seen in buildings for Duerdins and others, also linked with the international firm of Lever Brothers as the Melbourne head office (Criterion A); and
- Aesthetically, an externally well-preserved Moderne style factory building that concurs with the Hawke Street Lever Brothers factory, at the rear, in styling and scale (Criterion E).

Annagh Terrace, part 582-588 Spencer Street

582 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1871-6
View of place:	2015

Statement of Significance

What is significant?

Row houses built for successful grocer and developer Alexander McIntosh, 1871-1876.

Contributory elements include:

- two storey parapeted brick and cemented house row;
- cemented cornice moulds, blocks, orbs and brackets with a raised arched entablature central to the row bearing its name;
- brown and cream face brickwork, cream as quoining;
- face red brick side and rear walls;
- pitched roofs behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandahs with Corinthian derived column order (part), panelled cast-iron frieze (part) and brackets also bellied balustrade panels;
- double-hung sash windows, with 3 lights at ground floor and uncommon French doors at the upperlevel;
- four-panel entry doors and toplights; and
- contribution to valuable Victorian-era streetscape.

Some cement detailing missing; bricks painted over; some cast-iron verandah detailing and posts changed, part in a related manner (see 588 as near original verandah). Assumed timber picket front fence has been reinstated in most of the terrace.

How is it significant?

Annagh Terrace is significant historically and aesthetically to West Melbourne.

Why is it significant?

Annagh Terrace is significant.

- Historically, as well-preserved and representative of a major growth period in West Melbourne also linked with the successful local developer Alexander McIntosh (Criterion A) ; and
- Aesthetically, as a well-preserved and highly ornamented terrace given its early date, utilising some uncommon detailing and finishes, also contributory to a valuable Victorian-era streetscape (Criterion E).

Eagle Hotel, later shop and residence

583 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Hotel
Date(s):	1869
View of place:	2015

Statement of Significance

What is significant?

Eagle Hotel built for Thomas Hearty in 1869.

Contributory elements include:

- two storey stuccoed and parapeted corner hotel in the Italian Renaissance Revival style;
- cemented cornice and string moulds, plain entablature;
- face brick rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- double-hung sash windows with uncommon cast-iron balconettes at the upper level;
- simple ground level openings as indicative of original although altered;
- cellar entry door on east side, with scrolled skirt; and
- contributory to a Victorian-era streetscape, as a traditional Victorian-era corner element

Ground level openings indicative of original but altered.

How is it significant?

Eagle Hotel is significant historically, socially and aesthetically to West Melbourne.

Why is it significant?

Eagle Hotel is significant.

- Historically and socially, as an early hotel in West Melbourne and a long term public meeting place also representative of the start of a major growth period (Victorian-era) in West Melbourne (Criterion A); and
- Aesthetically, a simple but elegant Italian Renaissance Revival design that is enhanced by the balconettes, also contributory to a local Victorian-era streetscape (Criterion E).

Annagh Terrace, part 582-588 Spencer Street

584 Spencer Street, WEST MELBOURNE

New grading system:	Significant

Linton terrace or Taylor's row houses, part 590-596 Spencer Street 590 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1876
View of place:	2015

Statement of Significance

What is significant?

Row houses designed, built and owned by Robert Taylor in 1876.

Contributory elements include:

- a two storeyed, parapeted and stuccoed brick row of four;
- transverse gabled, corrugated iron clad roofs behind the parapet;
- cast iron two level verandahs, with friezes, integral brackets, and roundel pattern iron;
- cemented chimneys;
- simple cemented decoration typical of the early Victorian-era including cornices, cricket bat mouldings with scrolls on the verandah walls, together with the parapet urns;
- double-hung sash windows and 4-panel doors with toplights;
- raised siting, with stone steps up to the verandah;
- iron fences on dressed stone plinths, with iron side fences rather than masonry but with a cemented and capped post at the end houses; and
- contribution as part of a long Victorian-era residential streetscape.

Integrity is good despite missing parapet urns on 592-596 (see urns on 590 Spencer Street) also some details altered.

How is it significant?

Linton terrace or Taylor's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Linton terrace or Taylor's row houses are significant.

- Aesthetically, an early and near original row of a common West Melbourne row house form and a contributory part of a valuable Victorian-era streetscape (Criterion E); and
- Historically, a speculative row by the architect-owner-builder and representative of the start of a major growth period in West Melbourne (Criterion A).

Yarra Cottages, part 599- 615 Spencer Street

599 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1867
View of place:	2015

Statement of Significance

What is significant?

Row houses built in two separate stages, by and for Alexander Dick, who was a carpenter. The houses at 599 to 607 Spencer Street were built in 1867, and the other four houses added in 1879.

Contributory elements include:

- a parapeted, single storey row of nine coloured tuck-pointed brick and stucco houses;
- siting close to the street;
- cast iron decorated verandahs with concave profile corrugated iron clad roofs;
- stuccoed, corniced chimneys, cemented cornices and ornamented blocks;
- a segment arched entablature, flanked by urns on pinnacles at the parapet centre;
- double-hung sash windows;
- uncommon two-panel doors, with toplights; and
- contribution to the area as an isolated, but long Victorian-era residential row creating in itself, a streetscape.

Integrity is good despite the replacement of (presumed timber picket) front fences, some with cast-iron pickets on concrete plinths; also some new quarry tiles to the verandah to match what had existed (see 599, 607 Spencer Street); and some bricks painted over.

How is it significant?

Yarra Cottages are significant historically and aesthetically to West Melbourne.

Why is it significant?

Yarra Cottages are significant.

- Aesthetically, of a common row house type but extensive in size and prominent in the street (Criterion E); and
- Historically, Alexander Dick exemplifies the West Melbourne developer-builder who converts his builders yard to house lots; representative of the start of a major growth period in West Melbourne (Criterion A).

Yarra Cottages are significant.

- Aesthetically, of a common row house type but extensive in size and prominent in the street (Criterion E); and
- Historically, Alexander Dick exemplifies the West Melbourne developer-builder who converts his builders yard to house lots; representative of the start of a major growth period in West Melbourne (Criterion A).

Yarra Cottages, part 599- 615 Spencer Street

609 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1879
View of place:	2015

Statement of Significance

What is significant?

Row houses built in two separate stages, by and for Alexander Dick, who was a carpenter. The houses at 599 to 607 Spencer Street were built in 1867, and the other four houses added in 1879.

Contributory elements include:

- a parapeted, single storey row of nine coloured tuck-pointed brick and stucco houses;
- siting close to the street;
- cast iron decorated verandahs with concave profile corrugated iron clad roofs;
- stuccoed, corniced chimneys, cemented cornices and ornamented blocks;
- a segment arched entablature, flanked by urns on pinnacles at the parapet centre;
- double-hung sash windows;
- uncommon two-panel doors, with toplights; and
- contribution to the area as an isolated, but long Victorian-era residential row creating in itself, a streetscape.

Integrity is good despite the replacement of (presumed timber picket) front fences, some with cast-iron pickets on concrete plinths; also some new quarry tiles to the verandah to match what had existed (see 599, 607 Spencer Street); and some bricks painted over.

How is it significant?

Yarra Cottages are significant historically and aesthetically to West Melbourne.

Why is it significant?

Yarra Cottages are significant.

Union Trustee Company row houses, part 616-618 Spencer Street 616 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1901
View of place:	2015

Statement of Significance

What is significant?

Row house pair built by Thomas McLean for the Union Trustee Company in 1901 to the design of renowned architects Hyndman and Bates.

Contributory elements include:

- one storey red brick parapeted house row in the Queen Anne revival style;
- gabled parapets with moulded cemented cappings and raised entablature topped by a broken scrolled pediment overhanging the gable wall, as supported by brackets;
- gabled roof forms behind the parapet, clad with corrugated iron, with cemented chimneys;
- ornate cement cartouche centred on each gable end;
- verandah dividing walls with cappings and cement balls corbelled at the verandah eaves line;
- double-hung sash windows in three lights with stylised joinery; and
- contribution as the main part of an to Edwardian-era streetscape.

The wire front fence is related to the construction period.

How is it significant?

Union Trustee Company row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Union Trustee Company row houses are significant.

- Historically, as representative of the second major growth period (Edwardian-era) in West Melbourne also for their association with John Fitzgerald who was locally prominent in North and West Melbourne at that time (Criterion A); and
- Aesthetically, as a custom design by the renowned architects Hyndman and Bates, as an indication of their skill as applied to a very small scale building with resulting distinctive detailing, also contributory to an Edwardian character streetscape (Criterion E).

Lizzie Boan's house

638-642 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	House
Date(s):	1909
View of place:	2015

Statement of Significance

What is significant?

Brick house built by R. J. Cottrell and Son for Lizzie Boan to the design of G. B. Leith in 1909.

Contributory elements include:

- red brick Federation Bungalow style house;
- gabled and Dutch-hipped roof forms, clad with corrugated iron or similar, parapet walls to side elevations, boarded eaves soffits;
- asymmetrical plan;
- distinctive label moulds over the arched main windows echoed by an inverse mould under the circular louvered gable vent;
- cemented string mould at sill level;
- red brick chimneys, tall shafts with cemented and bracketed caps and terracotta pots;
- timber framed front verandah with grooved posts, segmentally arched slatted frieze with fretted panels depicting garlic motif;
- double-hung sash windows; and
- contribution to valuable, largely Victorian-era streetscape.

How is it significant?

Lizzie Boan's house is significant historically and aesthetically to West Melbourne and aesthetically to the City of Melbourne.

Why is it significant?

Lizzie Boan's house is significant.

- Historically, as representative of the second major growth period (Edwardian-era) in West Melbourne (Criterion A); and
- Aesthetically, as a custom and unusual design with distinctive detailing, in the City of Melbourne context, carried out under the name of well-known architect G. B. Leith, also contributory to a valuable Victorian-era streetscape (Criterion E).

Primitive Methodist Church parsonage
660-676 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	House
Date(s):	1883-4
View of place:	2015

Statement of Significance

What is significant?

Primitive Methodist Church residence built by James Thurgood in 1883-4, to the design of Evander McIver.

Contributory elements include:

- two storey stuccoed Italianate villa set on quarry-face bluestone footings at the Abbotsford Street corner;
- stepped and splayed plan at corner;
- pitched main roof clad with corrugated iron with cemented and corniced chimneys;
- bracketed eaves with cemented string moulds at sill lines and at the first floor line, ornamental metal wall vents;
- quarry face bluestone plinth with margins;
- rectangular window openings arranged symmetrically in the wall faces; and
- four-panel door, with side and top lights and stone steps.

Integrity is only fair with refitted windows, verandahs removal, new unrelated openings on the lower level and an unrelated colour scheme. There is a major new and unrelated development close on north side replacing the church.

How is it significant?

Primitive Methodist Church parsonage is significant historically to West Melbourne.

Why is it significant?

Primitive Methodist Church parsonage is significant.

- Historically, as the only evidence of this uncommon Christian faith in the City of Melbourne and West Melbourne, also once an important gathering place for the local, largely Christian community; and as the work of acclaimed church architect Evander McIver (Criterion A).

695 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1886
View of place:	2015

Statement of Significance***What is significant?***

Row house designed by architect Jonathon Rankine and built by Thomas O'Brien for a Mrs McCarthy in 1886.

Contributory elements include:

- a single storey coloured brick parapeted row house;
- face brick side and rear walls;
- panelled cast iron decoration to the verandah, with brackets;
- concave verandah roof, clad with corrugated iron;
- foliated and vermiculated blocks to the verandah wall;
- balustrading, an arched entablature, a shell tympanum, and rosettes beneath a pronounced cornice, comprise the rich cement decoration;
- an iron fence with brick and cemented piers; and
- contribution as part of a long, mainly single storeyed Victorian-era streetscape of row houses (693-705) which echoes the similar group further to the east (599-615).

Integrity is good despite missing parapet urns.

How is it significant?

Mrs McCarthy's row house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Mrs McCarthy's row house is significant.

- Aesthetically, the house is a near original example of a common row house type, distinguished by the rich cement ornamentation and association with the architect Rankine who carried out a number of works in the inner Melbourne area, also a contributory part of a Victorian-era streetscape (Criterion E); and
- Historically, representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

John Young's row house

697 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1887
View of place:	2015

Statement of Significance

What is significant?

Row house designed by architect Jonathon Rankine and built by Thomas O'Brien for John T. Young in 1887.

Contributory elements include:

- a single storey coloured brick parapeted row house;
- face brick side and rear walls;
- panelled cast iron decoration to the verandah, with brackets;
- concave verandah roof, clad with corrugated iron;
- foliated and vermiculated blocks to the verandah wall;
- balustrading, an arched entablature, a shell tympanum, and rosettes beneath a pronounced cornice, comprise the rich cement decoration;
- an iron fence with brick and cemented piers; and
- contribution as part of a long, mainly single storeyed Victorian-era streetscape of row houses (693-705) which echoes the similar group further to the east (599-615).

Parapet urns have gone.

How is it significant?

John Young's row house is significant historically and aesthetically to West Melbourne.

Why is it significant?

John Young's row house is significant.

- Aesthetically, the house is a near original example of a common row house type, distinguished by the rich cement ornamentation and association with the architect Rankine who carried out a number of works in the inner Melbourne area, also a contributory part of a Victorian-era streetscape (Criterion E); and
- Historically, representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Glenarra House

703 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1883
View of place:	2015

Statement of Significance

What is significant?

Row house owned by Anthony Callanan who rebuilt this former one storey house by 1883 as two storeys.

Contributory elements include:

- A two storey, stuccoed brick house;
- face brick side and rear walls;
- a raised segment arched parapet entablature, with cornice, vermiculated blocks;
- urns at the parapet extremities;
- corrugated iron clad hipped roof;
- cemented chimneys;
- double-hung sash windows with cemented architraves;
- four panel door, with toplight;
- a cast iron verandah, with panelled frieze and brackets, and balustrade iron of an unusually fine guilloche pattern;
- iron picket fence on dressed stone plinth; and
- contribution as part of a 19th century residential streetscape.

Integrity is good despite rendering of the west side wall.

How is it significant?

Glenarra House is significant historically and aesthetically to West Melbourne.

Why is it significant?

Glenarra House is significant.

- Aesthetically, the house is a near original example of a common West Melbourne row house type and a contributory part of a streetscape (Criterion E); and
- Historically, a typical speculative housing development for the area and representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Loch-End or Gillespie's house

707 Spencer Street, WEST MELBOURNE

New grading system:	Significant
Place type:	House
Date(s):	1884
View of place:	2015

Statement of Significance

What is significant?

House built for William Gillespie in 1884, later owned and occupied by William Dean.

Contributory elements include:

- double fronted, single storey face brick house, closely confined by its compact site;
- twin window bays, reflected by a bayed, cast-iron and timber verandah with corrugated iron clad roof;
- a transverse double gable slate clad roof, with eaves brackets and hipped roof bays;
- cemented chimneys with cornices;
- double-hung sash windows;
- four-panel door with side and top lights;
- an iron double-palisade fence on a stone plinth at the frontage; and
- contribution as the last and major part of a 19th century residential streetscape.

Integrity is good despite placement of a bus shelter in front of the house that obscures public views to it.

How is it significant?

Loch-End or Gillespie's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Loch-End or Gillespie's house is significant.

- Aesthetically, an early, near original example of a villa type uncommon in West Melbourne and inner Melbourne, as designed by the prominent architect, William Pitt, also contributory part of a valuable streetscape (Criterion E); and
- Historically, associated with two locally prominent persons, Dean and Gillespie, the latter epitomising the wealthier group of residents in the West Melbourne area, also representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Jesmond, or Dixon house

8 Stanley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	House
Date(s):	1867
View of place:	2015

Statement of Significance

What is significant?

Row house built for James Dixon, an accountant, in 1867, later owned and occupied by nationally known journalist, David Blair.

Contributory elements include:

- a two-level, parapeted and stuccoed brick house, with face brick side (bricks painted over) and rear walls, set on basalt footings;
- siting adjoining a stone pitched lane;
- a rare single-level verandah on paired circular section posts with cast-iron acanthus leaf capitals, which is decorated with panelled cast-iron friezes and rosettes and elegant curved brackets;
- a segment arched raised entablature, in a simple Italian Renaissance Revival style;
- cornice mould and string-mould at the upper sill-line, creating horizontals that are broken by corner and central pilaster pairs;
- double-hung sash windows and four-panel door with top light;
- cemented architraves surround the windows and doorway, flared at base;
- elegant cemented cornice with brackets to chimneys placed at the apex of each gabled roof form, also chimney pots;
- an unusual, deeply scrolled basalt masonry garden wall, supporting iron pickets between the masonry fence piers; and
- contribution as a corner-sited house next to the similarly aged 2 Stanley Street and 1-3 Chetwynd Street also facing the Eades Place reserve and the bay.

Parapet urns missing, bricks painted over.

How is it significant?

Jesmond, or Dixon house is significant historically and aesthetically to West Melbourne and the City of Melbourne also Victoria.

Why is it significant?

Jesmond, or Dixon house is significant.

- Aesthetically, a well-preserved and prominently sited example of an early and original Victorian-era residence of an uncommon custom designed form, with rare and elegant details and proportions and set in a similarly aged neighbourhood (Criterion E); and
- Historically, associated with a number of prominent figures in the area, each (Dixon and Blair) achieving national publicity in their time of residence, while Proud represented the noxious trades associated with the West Melbourne area (Criterion A).

**Melbourne Brewery, later Tasmanian Brewery also Burton Brewery, part
31-47, rear Stanley Street, WEST MELBOURNE**

New grading system:	Significant
Place type:	Brewery
Date(s):	1878-
View of place:	2015

Statement of Significance

What is significant?

An addition to the Melbourne Brewery for Joseph McBride and William Martin built by Jesse W Pilkington from 1878.

Contributory elements include:

- Three level parapeted and gabled brick brewery with hipped roof tower at the west end;
- corrugated iron clad roof;
- two colour brickwork, red and cream;
- arched upper level openings with wide cream brick voussoirs, cream brick sills, and some double-hung sash windows;
- cream brick strings at the storey lines; and
- setting on a stone pitched laneway, adjoining Interwar red brick industrial buildings.

Integrity is good despite new rectangular wall openings with concrete lintels.

How is it significant?

This part of the former Melbourne Brewery, later Tasmanian Brewery also Burton Brewery, is significant historically and aesthetically to West Melbourne.

Why is it significant?

This part of the former Melbourne Brewery, later Tasmanian Brewery also Burton Brewery is significant.

- Historically, as one of two remaining breweries in West Melbourne, and as the only Victorian-era brewing tower in the City of Melbourne, other than the former Castlemaine Brewery, in Queensbridge Street, Southbank (Criterion A); and
- Aesthetically, as a distinctively early Victorian-era industrial form, specifically a brewery, with early use of coloured brickwork in an industrial building (Criterion E).

Bevan and Edwards bulk store, part 61-67 Stanley Street

61-63 Stanley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Warehouse
Date(s):	1914
View of place:	2015

Statement of Significance

What is significant?

Warehouse erected by Thomas E. Radcliffe to the design of architect J. D. Munro, in 1914, for Bevan and Edwards Pty. Ltd..

Contributory elements include:

- Edwardian red brick warehouse;
- gabled parapeted façade, with a central entrance, arranged in an uncommon classical revival manner for an industrial building;
- stretcher course capping with shaped stretchers under, shape the tympanum; along with string moulds in brick;
- bartizans corbelled over pilasters at each end of the facade;
- segmented arched windows set within recessed segmented arched panels flanking the entrance; and
- siting next to a Victorian-era row house (David Walker house 65 Stanley Street, built 1873) as an isolated pair in a mixed streetscape.

Integrity is good despite altered entry, with new panel-fold door, and the modified monitor roof.

How is it significant?

Bevan and Edwards bulk store is significant historically and aesthetically to West Melbourne.

Why is it significant?

Bevan and Edwards bulk store is significant.

- Historically, as a well-preserved demonstration of the industrial development of the West Melbourne area on well located sites close to the City edge in the early twentieth century (Criterion A); and
- Aesthetically, a substantially intact, Edwardian industrial structure, distinguished by the robust red brick detailing and the broad gabled, classically inspired façade (Criterion E).

Edwardian and Victorian-era streetscape

61-67 Stanley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house, factory
Date(s):	1873-
View of place:	2015

Statement of Significance

Edwardian and Victorian-era streetscape, 61-67 Stanley Street, West Melbourne
(Refer to Statements of Significance for 61-63 Stanley Street and 65 Stanley Street)

What is significant?

Contributory places in this streetscape include:

- Bevan and Edwards bulk store at 61-63 Stanley Street built 1914; and
- David Walker house 65 Stanley Street built 1873.

These two buildings represent well two major growth periods in West Melbourne (Victorian-era, Edwardian-era) and two dominant building types (industrial and residential).

How is it significant?

This Edwardian and Victorian-era streetscape is significant historically to West Melbourne.

Why is it significant?

This Edwardian and Victorian-era streetscape is significant.

- Historically, the buildings represent well two key aspects of the development of West Melbourne as well as a combination of two key building types, row houses and factories (Criterion A).

Alfred Hasker, later Barrett Brothers and Burston and Company Pty. Ltd. maltsters, part former

62-80 Stanley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Brewery
Date(s):	1911-
View of place:	2015

Statement of Significance

What is significant?

Edwardian-era brewery wing built in 1911 by H. Henningsen for Alfred Hasker, of West Melbourne, as a brick malt house to be located at the rear of what was then 58-72 Stanley Street. The architect was Frank Stapley.

Contributory elements include:

- Edwardian-era, red brick wing set parallel to the street in the middle of the block;
- gabled corrugated iron clad roof form, with parapeted ends;
- punched rectangular upper level openings with cemented lintols and some double-hung sash windows; and
- segmentally arched lower level openings.

Some lower level openings have been bricked in reducing the building's integrity.

How is it significant?

Part of the Alfred Hasker, later Barrett Brothers and Burston and Company Pty. Ltd. maltsters complex is significant historically to West Melbourne.

Why is it significant?

Part of the Alfred Hasker, later Barrett Brothers and Burston and Company Pty. Ltd. maltsters complex is significant.

- Historically, representative of a now uncommon building type (malt house) in inner Melbourne and one of three known to survive in West Melbourne while retaining associations with well known brewing companies. The building reflects the period of industrial expansion in West Melbourne that commenced in the Edwardian-era, culminating in the Interwar period. Also the design of Frank Stapley who was an architect, a City of Melbourne Lord Mayor and Councillor and an influential advocate for the town planning movement in Victoria (Criterion A).

David Walker house, part 61-67 Stanley Street

65 Stanley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1873
View of place:	2015

Statement of Significance

What is significant?

House built in 1873 by Masson and Wainman for engineer David Walker.

Contributory elements include:

- two storey parapeted stuccoed row house;
 - cemented cornice moulds, masks and brackets with a raised entablature;
 - originally face brick side and rear walls;
 - pitched roof behind the parapet, with cemented and corniced chimneys;
 - remnant of two storey timber and cast-iron verandah;
 - double-hung sash windows, with three lights at ground floor;
 - four-panel entry door and toplight with notable fanlight door case;
 - cast-iron palisade front fence and gate on dressed stone footings with cemented capped piers; and
- contribution to valuable Edwardian and Victorian-era streetscape.

Integrity is fair, with the altered and rebuilt verandah.

With the Bevan and Edwards bulk store adjoining, built 1914, these two buildings represent two key aspects of the development of West Melbourne, as well as two key building types, row houses and factories.

How is it significant?

David Walker house is of historical significance to West Melbourne and of contributory significance, historically, to the streetscape at 61-67 Stanley Street, West Melbourne.

Why is it significant?

David Walker house is significant.

- Historically, for the long association with the engineer, David Walker, with shipping as a key part of the area's history and, within the streetscape, representative of one of two key aspects of the development of West Melbourne seen in this combination of two key building types, row houses and factories (Criterion A).

Row house streetscape, 95-101 Stanley Street

95-101 Stanley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1877
View of place:	2015

Statement of Significance

Row house streetscape, 95-101 Stanley Street

What is significant?

Two house rows that make up this streetscape are:

- Moses Park's row houses 95-97 Stanley Street, 1878;
- James Burns' brick cottage pair 99-101 Stanley Street, 1877.

Contributory elements in these houses include:

- simple pair of face red brick single-storey Victorian brick cottages;
- transverse gabled roofs, clad with corrugated steel (99) and new slate (101);
- cemented chimney (101) and parapet walls with scrolls;
- skillion-roofed verandahs with no ornament set between cemented end walls (altered);
- timber-framed double-hung sash windows;
- entry doors with toplights; and
- contribution to a larger Victorian-era residential streetscape, extending into Spencer Street as a commercial Victorian-era row.

How is it significant?

The row house streetscape, 95-101 Stanley Street, is significant historically to West Melbourne.

Why is it significant?

The row house streetscape, 95-101 Stanley Street, is significant.

- Historically, as representative of the modest dwellings which were erected in the late nineteenth century in large numbers in West and North Melbourne; associated with the Parks and Burns families who like others in Victorian-era West Melbourne speculated in property in their own street; also representative of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Doyle's factory, later Plywood and Trading Company Pty. Ltd.

138-140 Stanley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1927
View of place:	2015

Statement of Significance

What is significant?

Factory built in 1927 for successful master baker, Joseph Doyle, and designed by W. J. Davy.

Contributory elements include:

- one storey brick factory with cement detailing;
- sawtooth roof behind parapet clad with corrugated iron;
- patterned brickwork using soldier and stretcher coursing;
- distinctive corbelled caps to piers;
- multi-pane glazing in steel frames to windows symmetrically arranged;
- boarded timber entry doors; and
- cemented string moulds and bracketed hood over entry.

Integrity is good despite painting over of bricks and addition of signs. The factory at 142-144 has been refaced but is still existing: it could be restored using this building (138-140) as evidence.

How is it significant?

Doyle's factory is significant historically and aesthetically to West Melbourne.

Why is it significant?

Doyle's factory is significant

- Historically, as part of Interwar surge in industrial development within West Melbourne (Criterion A); and
- Aesthetically, a well-preserved factory design is a mannered classically derived style, using uncommon brick detailing (Criterion E).

Lourdes, Hannah Smith's house and dairy

187 Stanley Street, WEST MELBOURNE

Demolished

William Cullen's house or Ballydavid House, part 191-193 Stanley Street

191 Stanley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1887
View of place:	2015

Statement of Significance

What is significant?

Row houses built and owned by Harbor Trust engineer, William Cullen in 1885 and 1887.

Contributory elements include:

- two storey parapeted coloured brick and stucco row house pair;
- cemented cornice moulds, vermiculated blocks and brackets with a raised arched entablatures bearing the house names;
- brown body brick and cream trim as quoining;
- face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandah with Corinthian derived column order, cast-iron frieze and integral brackets;
- double-hung sash windows;
- four-panel entry doors and toplight;
- cast-iron palisade front fences and gates on stone footings; and
- contribution to a valuable Victorian-era streetscape.

Bricks painted over and upper level windows converted to French doors on 193 Stanley Street.

How is it significant?

William Cullen's houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

William Cullen's houses are significant.

- Historically, as representative of a major growth period (Victorian-era) in West Melbourne and the builder-owner development that took place there in the Victorian-era also associated with William Cullen who was employed as a Harbor Trust engineer, an occupation of specific historic interest to West Melbourne, being close to the Victoria Dock and Yarra River docking places (Criterion A); and
- Aesthetically, a well-preserved Victorian-era house pair that is contributory to a valuable streetscape (Criterion E).

Fitchett Brothers Pty. Ltd. Factory

240-250 Stanley Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1920, 1928, 1932
View of place:	2015

Statement of Significance

What is significant?

Fitchett Brothers printing works designed by Carleton and Carleton in 1920 as the first stage, with a factory extension up Stanley Street, to a design by P. G. Fick and Son Architects in 1928. Further works after a fire were carried out 1932 to designs of fashionable architects, R.M. And M.H. King.

Contributory elements include:

- large two level brick and cemented classical revival factory on a corner site;
- cemented cornice moulding and entablature with panelled brick parapet wall above; and
- giant-order piers extending through to the parapet, rounded pier at corner.

Integrity is good despite conversion of the building to a residential use with a recessed upper level addition and changes to windows and doors.

How is it significant?

Fitchett Bros. Pty Ltd. Factory is significant historically and aesthetically to West Melbourne.

Why is it significant?

Fitchett Bros. Pty. Ltd. Factory is significant.

- Historically, for the close link with nationally known publishing house, Fitchett Brothers and as representative of the Interwar surge in industrial development within West Melbourne (Criterion A); and
- Aesthetically, altered but impressive classical revival corner building with its giant-order façade and strong brickwork expression (Criterion E).

Victoria Buildings or Walton's shop and residence row 173-181 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shops & residences
Date(s):	1864-5, 1890
View of place:	2015

Statement of Significance

What is significant?

Shops and residences built for Robert Walton during 1864-5. Reconstruction or the addition of a storey and a new façade was done c1890.

Contributory elements include:

- a two-storey stuccoed brick shop and residence row of three;
- parapeted roof line with cemented chimneys and pitched corrugated iron clad roof behind;
- tripartite Victoria Street façade with central wall bay given a raised gabled entablature with the building name, vermiculation in the tympanum, flanking piers and pilasters, pineapples and an acroterion as cemented decoration;
- secondary pedimented entablature with scrolls over the corner splay;
- pilaster divisions on the upper level for three smaller shops at the west end of the Victoria Street façade, none on the Peel Street elevation;
- ornamental metal wall vents;
- cemented architraves to the three-light upper level double-hung sash windows;
- blind upper level window on the corner splay at Capel Street;
- stepped string and cornice moulds as further ornament;
- part of an early timber shop front on 175;
- an iron City of Melbourne Corporation pattern verandah with convex verandah; and
- contribution as a major corner element in the Victoria Street commercial precinct, paralleling with 187-9 on the contiguous corner of the block at Capel Street.

Early shop fronts with recessed entries, have been recreated, and the street verandah, that was missing from 179-181, has been reinstated, enhancing the integrity of this row.

How is it significant?

Victoria Buildings or Walton's shop and residence row is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Victoria Buildings or Walton's shop and residence row is significant.

- Aesthetically, as a well-preserved shop and residence row that exemplifies both the mid and late nineteenth century development booms in West Melbourne, with its upper façade detailing, splayed corner, return street verandah and shop front remnants also constituting a major streetscape element in a highly significant townscape (Criterion E); and

- Historically, a shop row with an early beginning, built by one of the many developer-builders in the area, in this case one who became very wealthy, and occupying a prominent location in the retail area; representative of both the beginning and end of a major growth period in West Melbourne (Criterion A).

Hughes shop and residences

187-189 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1870-72
View of place:	2015

Statement of Significance

What is significant?

Shop and residence built for William Hughes in two stages 1870-1872 by James Taylor.

Contributory elements include:

- a double-storey rendered, simple Colonial Georgian styled, shop and dwelling with attached dwelling in Capel Street;
- a parapeted and corniced façade with pitched main roofs behind;
- principal façade to Victoria Street, with three timber-framed double-hung sash windows with moulded architraves at first floor level;
- Capel Street facade with four upper level architraved double-hung sash windows and attached symmetrical house facade with four-panel door with top light also in a Georgian style;
- a moulded cornice terminating the façade and returning along the side elevation to Capel Street;
- stepped cornice in Capel Street graduating in height to an attached residential wing;
- a rare timber framed shopfront with recessed centre entry; and
- contribution to a significant Victorian-era commercial and residential streetscape.

How is it significant?

Hughes shop and residences are significant historically and aesthetically to West Melbourne.

Why is it significant?

Hughes shop and residences are significant.

- Historically, as well-preserved and therefore representative of commercial development of the late nineteenth century boom in West and North Melbourne; also representative of the start of a major growth period (Victorian-era) in West Melbourne (Criterion A); and
- Aesthetically, as shop and residences with rare details and as a key contributory heritage element in a significant Victorian-era commercial streetscape (Criterion E).

Prince Albert Hotel, later shop and residence, part 195-197 Victoria Street.

195 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Hotel
Date(s):	1873
View of place:	2015

Statement of Significance

What is significant?

Shops and residences in 1873 and by 1876 the Prince Albert Hotel, owned by baker Robert Pringle.

Contributory elements include:

- a two-storey Italian Renaissance Revival style, stuccoed brick parapeted former hotel (195) and bakers shop and residence (197), set on a corner site and built to the street alignment;
- pitched corrugated iron clad roof behind the stepped parapeted façade, with cemented and corniced chimneys;
- trabeated ground level, with and pilasters located around doorways and the former balloon arched bar windows;
- upper level arched fenestration, with moulded architraves, bracketed blocks, cornice, impost and string-moulds;
- double-hung sash windows;
- four-panel door with top light in the corner splay with upper level blinded window recess; and
- contribution as a corner and major element in the significant Victoria Street commercial precinct, relating strongly to 197, 199, 201-3 and 205 Victoria Street.

Integrity is good despite missing parapet orbs on 195; replaced shop front (recessed entry type) on 197 and a cantilever verandah added to 197.

How is it significant?

The Prince Albert Hotel, baker's shop and residence are significant historically, socially and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Prince Albert Hotel, baker's shop and residence are significant.

- Aesthetically, 195 Victoria Street is a typical corner hotel of the period but near original, conservatively but competently elevated in the Italian Renaissance Revival style and forms a major part in the Victorian-era streetscape; 197 Victoria Street is an altered shop and residence but is linked with the important 195 Victoria above the verandah (Criterion E); and
- Historically and socially, (195 Victoria Street) as a former hotel or gathering place and being on a corner site, has achieved social and visual prominence and, (197 Victoria Street) the baker's shop and the residence of the hotel's locally prominent owner-builder, Robert Pringle, also representative of a major growth period (Victorian-era) in West Melbourne (Criterion A, G).

William Hughes warehouse

201-203 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1875
View of place:	2015

Statement of Significance

What is significant?

Warehouse or shop and residence built in 1875 for bedding manufacturer William Hughes, by James Moore.

Contributory elements include:

- a large two-storey stuccoed brick warehouse, and shop and residence;
- a parapeted façade in a simple Italian Renaissance Revival character, with pitched roof behind;
- cornice and string-moulds, with lions heads and paired brackets as only other ornament;
- arched architraved (and formerly shuttered) upper level double-hung sash windows, with panelled sills; and
- contribution to the significant Victoria Street commercial precinct.

Integrity is good despite removal of the timber shop front and the upper level window shutters, addition of a street awning and removal of parapet orbs or urns.

How is it significant?

William Hughes warehouse is significant historically and aesthetically to West Melbourne.

Why is it significant?

William Hughes warehouse is significant.

- Aesthetically, a large, conservatively designed warehouse in the Italian Renaissance Revival manner which possesses interesting details such as the architraves and panelled sills (shutters gone) and a major role in a significant Victorian-era streetscape (Criterion E); and
- Historically, interesting as a visual variation in the use pattern of the street (typically shop and residences) and identified by long tenure to individual firms and use types, also representative of the start of a major growth period in West Melbourne and linked with the locally prominent Hughes family (Criterion A).

Allison's shop and residence, part 213-215 Victoria Street, later Don Camillo coffee lounge

215 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1873-4, c1955
View of place:	2015

Statement of Significance

What is significant?

Two shops and built for well-known West Melbourne undertaker, Henry Allison in 1873 adjoining his funeral parlour at 217-219 Victoria Street. Don Camillo coffee lounge opened here 28th August, 1955, making its name as one of Melbourne's iconic sports café restaurants.

Contributory elements include:

- two-level stuccoed shop and residence;
- simple Italian Renaissance revival styling with cemented cornice moulds;
- face brick side and rear walls;
- pitched roof behind the parapet;
- formerly double-hung sash windows on the upper level, since modified;
- sheet metal encased, neon 1950s business sign attached to upper level; and
- contribution to a significant Victorian-era commercial streetscape.

Contributory internal elements include the terrazzo mosaic floor and 'Caffe Espresso' sign at the rear of the ground floor, with photographic memorabilia covering the walls showing moments from the last fifty years in the sporting world.

Integrity is fair, given the changes to upper-level windows and the significant 1950 character of the ground level.

How is it significant?

Allison's shop and residence, part 213-215 Victoria Street, later Don Camillo coffee lounge (215 Victoria Street) is significant historically and socially to West Melbourne.

Why is it significant?

Allison's shop and residence (part 213-215 Victoria Street), later Don Camillo coffee lounge (215 Victoria Street) is significant.

- Historically, linked with the well-known West Melbourne undertaker, Henry Allison, as part of a key development era in West Melbourne (Criterion A); and
- Historically and socially, in another era the café at 215 was one of the first group of European-style espresso coffee shops established in 1950s Melbourne and one of the few that still remains in operation. The cafe retains much of its original character internally with a colourful terrazzo floor and externally, the neon signage. Owned by the champion boxer, Aldo Pravisani, the café reflects the surge in Italian immigration to Australia, and particular the inner Melbourne suburbs, after World War Two (Criteria A, G).

Henry Allison later Alfred Allison, undertaking premises (part)

217-219 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Mortuary
Date(s):	1865
View of place:	2015

Statement of Significance

What is significant?

One of two shops and dwellings built for undertaker, Henry Allison, in 1865.

Contributory elements include:

- parapeted stuccoed brick commercial pair;
- part pitched roof behind the parapet (217-219 removed);
- one a shop or parlour and residence (221) and the other possessing a carriage entrance with a residence over;
- simple cemented detail includes a raised pediment over 217-219 and cornice mouldings;
- double-hung sash windows as upper level fenestration;
- stone pitched crossover to the carriage way 217-219; and
- contribution to an old part of the significant Victoria Street commercial precinct.

Changes to the complex include:

- timber street verandah has been replaced on 221, with an unrelated cantilever verandah;
- the former shop front with central recessed entry and panelled timber plinths of 221, has been replaced;
- segmentally arched recesses either side of the carriage way, and the former bi-parting carriage way doors replaced at 217-219;
- roof and upper level shutters removed from 217-219;
- rare upper level window blind hoods removed from 221 since 1983;
- chimneys removed;
- Interwar dado tiles removed from 217-219;
- unsympathetic paint scheme has divided the complex; and
- a publicly visible two-storey rear addition has been made to 217-219 since 1983 with one upper level window removed as surveyed 2015.

How is it significant?

Henry Allison later Alfred Allison, undertaking premises is significant historically, socially and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Henry Allison later Alfred Allison, undertaking premises is significant.

- Aesthetically, old and of a conservative design, typical of the date and type, and the survival of the rare carriage way to 217-19 Victoria Street provides a significant element in the commercial streetscape which communicates the 19th

- century nature and original and distinctive use of the building (Criterion E);
- Historically, among the oldest group of shops in the area and closely linked with the Allison undertaking business that evolved from this single location into the nearby suburbs and achieved wealth and prosperity that is still evident today in survivors of the family firm across Melbourne. The firm and its origins are well documented in a key record of Edwardian Victoria, the 'Cyclopedia of Victoria', providing a great enhancement of the physical heritage values of this place (Criterion A); and
- Socially, significant as the focus of a century of inner Melbourne funeral arrangements (Criterion G).

Henry Allison later Alfred Allison, undertaking premises (part)

St Mary's Star of the Sea Church complex, and stained glass window

273 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Church, organ
Date(s):	1891-1900
View of place:	2015

Statement of Significance

Victorian Heritage Register Statement of Significance

(Known as 33 Howard Street and 235-273 Victoria Street, West Melbourne)

Victorian Heritage Register number: H2182

What is significant?

St Mary Star of the Sea was built in 1891-1900 to replace an earlier church built in 1854. North and West Melbourne became a parish in 1872 and in 1872-3 a presbytery designed by William Wardell was built for the first resident priest. In 1881 it was condemned due to faulty foundations and the architects Reed and Barnes carried out extensive renovations, with the addition of prominent curved buttresses and a verandah and balcony. The foundations of a new church were laid in 1883-6, but by 1889 there were concerns that the new church would be too small and it was resolved to begin again. The new building was designed by the architect Edgar Henderson and the contract was awarded in September 1891 to C W Crompton. The 1890s depression and lack of funds slowed work considerably and in 1896, with the walls still incomplete, Henderson left Victoria for Western Australia. He was replaced by the architect Phillip Kennedy who made a number of alterations to Henderson's design, and is credited with the final design of the roof and the interior. In 1897 the spire was eliminated from the design due to financial problems. In 1898 the specifications were accepted for a new pipe organ, a huge electric-powered three manual instrument by Fincham and Hobday. Windows were commissioned from the leading manufacturers in England, Germany and Australia. The church was officially opened on 18 February 1900 by Cardinal-Archbishop Moran of Sydney. The fixtures and fittings were supplied by some of the most highly-regarded artists and furnishers in Melbourne and beyond. With the completion of the new church the old one was used as a school. A new boys' school designed by the architects Kempson and Conolly was built on Howard Street in 1910, and three years later the old church was demolished and a girls' school designed by the same architects was completed in 1914 on the Chetwynd Street corner. The old denominational school south of the old church was converted into clubrooms (now demolished and replaced by a new school building). Further decoration of the interior took place in the Interwar period and in the 1920s the original timber altars were replaced by altars of Italian marble. The building and interiors underwent major restoration works in the early twenty-first century.

The St Mary Star of the Sea complex includes the church, the presbytery, and the boys' and girls' schools. The church is a Latin Cross plan French Gothic style building of brick faced with random coursed sandstone on a bluestone plinth, with limestone dressings, a slate roof and an incomplete tower on the north-east corner. The slate roof is embellished with a series of dormer vents, fabricated from sheet zinc. At the centre of the roof is a polygonal fleche of pressed zinc on timber framing, with louvred vents on the sides and surmounted by a tapering conical spire. The colonettes flanking the window and door openings are of polished red Aberdeen granite. The total length of the building is 175 ft. (54 m) and the height of the roof ridge is 75 ft. (23m). The interiors are opulently decorated, with a strong Italian Baroque influence. The nave is

painted pink and there is extensive use of high-quality building stone such as Swedish red granite in the nave columns, Carrara white marble for the transept piers and Pyrenean rose marble for the chapel columns. This is further enhanced by the reflective finishes of the mosaic-tiled sanctuary floor, the brass altar rails, the scagliola (imitation marble) of the colonettes and the polished timber, especially in the distinctive two-toned groined ceiling. The ceiling is lined with timber panelling, and painted statues of angels blowing trumpets stand on the hammerbeams. The church retains much original furniture and fittings, including its pews (1900), elaborate marble altars (1925-7) and font (1900), a fine set of Stations of the Cross by Peter Hansen (1901), a Mission Cross by James Curtin (1891), a Bishop's throne made for Daniel Mannix in 1913, and several notable stained glass windows made by prominent local and overseas craftsmen.

The Fincham organ in the gallery is a large three manual organ with richly gilded and decorated pipes arranged on either side of a large stained glass window, possibly by Brooks Robinson and Co, and with a fine blackwood console. The presbytery is a symmetrical two storey rendered building with a slate roof, and a two storey cast iron verandah with unusual round-arched flying buttresses supporting the walls. The boys' school is a two storey symmetrical rendered Free Classical style building with a slate roof and with twin gabled parapets on the front elevation. The front facade of the girls' school has a very similar composition, but is of face brick with rendered dressings and has Gothic arched openings.

How is it significant?

St Mary Star of the Sea is of architectural, historical, aesthetic, technological and social significance to the state of Victoria.

Why is it significant?

St Mary Star of the Sea is historically significant as Melbourne's largest parish church and as one of the most costly parish churches built in Australia, a reflection of the spirit of the substantial Catholic population, predominantly of Irish extraction, of the area in the late nineteenth and early twentieth century that helped fund its construction.

St Mary Star of the Sea is architecturally significant as unusual example of a church in the French Gothic style, and as a major example of the work of the distinguished architects Edgar Henderson, a Catholic architect who later achieved considerable success and renown as a designer of Catholic churches, schools and convents in Western Australia, and Phillip Kennedy. The complex includes an interesting presbytery designed by William Wardell and altered by Reed and Barnes and two early twentieth century school buildings by Kempson and Connolly.

St Mary Star of the sea is of aesthetic significance for its opulent interior, with imposing marble and granite pillars, an unusual timber ceiling, thought to be unique in Victoria, intricate marble fittings, especially the marble altars and font, Stations of the Cross by Peter Hansen and an oak mission cross by James Curtin. The magnificent stained glass windows are by prominent local and European makers, such as William Montgomery, Hardman and Company of London and Franz Mayer and Company of Germany.

The Fincham pipe organ is historically and technologically significant as the largest example of nineteenth century indigenous organ building in Australia to remain essentially unaltered. It is the most intact surviving example of the work of the prominent organ builder George Fincham and was the last organ completed by Fincham himself. It one of a very small number of surviving three-manual Fincham organs, and is believed to be the second largest organ, after that in the Sydney Town Hall, to retain a tubular-pneumatic key and action stop.

St Mary Star of the Sea is socially significant for its important role in the lives of the Roman Catholic community of Melbourne.

Stedeford's shop and residence row part 279-285 Victoria Street

279 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1881
View of place:	2015

Statement of Significance

What is significant?

Shops & residences built by Thomas Cockram and Company for investor John Stedeford in 1881.

Contributory elements include:

- a two-storey, parapeted stuccoed brick row of Victorian-era shops and residences;
- pitched main roofs behind the parapet;
- Italian Renaissance Revival styling;
- part City of Melbourne Corporation pattern cast-iron street verandah on 279;
- upper tripartite fenestration configured in a distinctive serlian manner, repeated in other Stedeford developments;
- guilloche patterns used to ornament the stepped parapet entablature,
- orbs to the parapet piers and the associated pilasters dividing the upper wall surfaces;
- decorative friezes applied to the architraves of each main window light;
- double-hung sash windows;
- façade arrangement as repeated on other shop and residences at 297-307 and 349-53 Victoria Street.
- early or original timber shop front with recessed entry at 285 only; and
- contribution as a prominent and valuable part of a significant streetscape which repeats intermittently the same window configuration as far as 349-53 Victoria Street.

Integrity is good despite shop fronts having been replaced on 279-283, removal of verandahs from 281-285 and a cantilever awning addition on 283.

How is it significant?

Stedeford's shop and residence row, 279-285 Victoria Street, is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Stedeford's shop and residence row, 279-285 Victoria Street, is significant.

- Aesthetically, a well composed and near original Victorian-era commercial row, enhanced by the corner shop and a hillside site, that possesses some of the now rare elements of commercial architecture (shop fronts and original iron street verandahs), distinctive upper level fenestration and plays a major role in a valuable Victorian-era streetscape (Criterion E); and
- Historically, linked with John Stedeford whose other remarkable rows, elsewhere in Victoria and in Queensberry Streets and considerable property holdings across Melbourne, mark him as a prolific developer of conservative, but competently designed architecture in the North and West Melbourne area, also this row occupies a prominent commercial site with historically long tenure for tenants, lending each shop with a personality and distinct use pattern (Criterion A).

Statement of Significance

What is significant?

Shops & residences built by Thomas Cockram and Company for investor John Stedeford in 1881.

Contributory elements include:

- a two-storey, parapeted stuccoed brick row of Victorian-era shops and residences;
- pitched main roofs behind the parapet;
- Italian Renaissance Revival styling;
- part City of Melbourne Corporation pattern cast-iron street verandah on 279;
- upper tripartite fenestration configured in a distinctive serlian manner, repeated in other Stedeford developments;
- guilloche patterns used to ornament the stepped parapet entablature,
- orbs to the parapet piers and the associated pilasters dividing the upper wall surfaces;
- decorative friezes applied to the architraves of each main window light;
- double-hung sash windows;
- façade arrangement as repeated on other shop and residences at 297-307 and 349-53 Victoria Street;
- early or original timber shop front with recessed entry at 285 only; and
- contribution as a prominent and valuable part of a significant streetscape which repeats intermittently the same window configuration as far as 349-53 Victoria Street.

Integrity is good despite shop fronts having been replaced on 279-283, removal of verandahs from 281-285 and a cantilever awning addition on 283.

How is it significant?

Stedeford's shop and residence row, 279-285 Victoria Street, is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Donald's shop and residence row, part 293-295 Victoria Street 293 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1885
View of place:	2015

Statement of Significance

What is significant?

Shop and residence row built for Inspector of Markets and a Weights Inspector, George Donald in 1885.

Contributory elements include:

- a pair of parapeted and unpainted stuccoed brick shops and residences;
- rare unpainted stucco and early signs;
- double-hung sash windows;
- Italian Renaissance Revival application in a distinctive manner;
- unusual arched parapet entablatures, astride balustraded parapets and flanked by orbs on piers;
- the serlian motif applied in the bayed upper level window grouping, each opening possessing dog-toothing at the head and rebates, and brackets, at the reveals;
- paired brackets at the side walls support the heavy parapet cornice;
- iron City of Melbourne Corporation pattern street verandahs; and
- contribution as a major element in this valuable Victorian-era commercial streetscape, most shops possessing serlian upper level fenestration.

Shop fronts have been replaced; with parts of an Edwardian-era tiled shopfront at 295; unrelated signs and service added.

How is it significant?

Donald's shop and residence row, 293-295 Victoria Street, is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Donald's shop and residence row, 293-295 Victoria Street, is significant.

- Aesthetically, similar to 279-85 Victoria Street for the use of the distinctive serlian fenestration and parapet detailing, and mannered use of ornament, particularly at the parapet entablature and around openings; similarly it is near original, possessing verandah and unpainted upper stucco work and is a major part of a significant Victorian-era streetscape (Criterion E); and
- Historically, a near original part of the commercial building stock minority in this dominantly residential locality; representative of a major growth period (Victorian-era) in West Melbourne; and closely linked with local market inspector, George Donald, who was a notable West Melbourne figure (Criterion A).

John Stedeford's shop and residence row

297-307 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1882
View of place:	2015

Statement of Significance

What is significant?

Shop and residence row built for investor John Stedeford in 1882.

Contributory elements include:

- an extensive two-storey Victorian-era stuccoed brick row (6);
- pitched main roofs behind the parapet;
- Italian Renaissance Revival styling;
- upper tripartite fenestration configured in a distinctive serlian manner, repeated in other Stedeford developments;
- simple parapet cornice stepped at every two shops;
- double-hung sash windows to the upper level;
- iron City of Melbourne Corporation pattern street verandahs stepped (every two shops) as the row descends the hill;
- timber shopfront with recessed entry at 307; and
- contribution as major part of a valuable Victorian-era commercial streetscape.

Integrity is good despite replacement of all shop fronts except 307 and missing parapet urns or orbs.

How is it significant?

John Stedeford's shop and residence row is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

John Stedeford's shop and residence row is significant.

- Aesthetically, as an extensive and near original shop row with a distinctive upper level fenestration pattern in common with other Stedeford shops in the block, thus greatly enhancing the streetscape; also picturesque stepping of the unusually complete street verandahs make this one of the more true to period shop rows in the metropolitan area (Criterion E); and
- Historically, as associated with John Stedeford whose other remarkable rows in Queensberry Street, North Melbourne and considerable property holdings across inner Melbourne mark him as a prolific developer of conservative, but competently designed architecture in the North and West Melbourne area; representative of a major growth period in West Melbourne (Criterion A).

Statement of Significance

What is significant?

Shop and residence row built for investor John Stedeford in 1880.

Contributory elements include:

- two level stuccoed shop and residence pair designed to appear as one;
- Italian Renaissance Revival styling with cemented cornice moulds, foliated blocks and brackets, and a raised arched entablature flanked by guilloche pattern balustrading;
- face brick side and rear walls;
- pitched roof behind the parapet, with cemented and corniced chimneys;
- cast-iron framed City of Melbourne Corporation pattern street verandah with Corinthian derived column order, panelled cast-iron frieze and brackets and convex corrugated iron clad roof;
- double-hung sash windows on the upper level each set in three lights with a serpentine frieze on the mullions, expressing the serlian motif repeated among other Stedeford developments; and
- contribution to a significant Victorian-era commercial streetscape.

Integrity is good despite replacement of shopfronts and missing parapeturns.

How is it significant?

Stedeford's shop and residence pair, 313-315 Victoria Street, is significant historically and aesthetically to West Melbourne.

Why is it significant?

Stedeford's shop and residence pair, 313-315 Victoria Street is significant.

- Historically, for the link with Stedeford, a prominent figure inner Melbourne also representative of a major growth period in West Melbourne (Criterion A); and
- Aesthetically, a well-preserved Italian Renaissance Revival commercial example that is contributory to a significant Streetscape (Criterion E).

Phillip Bevan's, later Conway's shops and residences

317-319 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shops & residences
Date(s):	1869
View of place:	2015

Statement of Significance

What is significant?

Shop and residence row built for engineer and ironmonger Philip Bevan in 1869 and later owned by Patrick Conway, a grocer and provisions dealer.

Contributory elements include:

- two-storey stuccoed brick shops and residences of a simple early Colonial Georgian design;
- cemented string mould with fluting;
- smooth rustication of the ground level stucco;
- dentilated cornice and architrave moulds, quoining at corners,
- a scrolled and gabled entablature, marking the important splayed corner entry of the building;
- Edwardian-era or later tiled shopfront plinths;
- a timber framed street verandah, with stepped corrugated iron clad skillion roof and stop-chamfered posts (once returning into Eades Place);
- early enamelled street signs on two elevations; and
- contribution as a major corner part of a valuable Victorian-era commercial streetscape.

All Victorian-era shop fronts have gone; the western and southern part of the street verandah have gone, the most westerly section having been altered and penetrated by traffic lights and a tramways pole. Unrelated signs, services and brackets have been added to the upper level façade.

How is it significant?

Phillip Bevan's shops and residences are significant historically and aesthetically to West Melbourne.

Why is it significant?

Phillip Bevan's shops and residences are significant.

- Aesthetically, as generally original, simply and successfully elevated corner shops and residences with part of an early and uncommon pre-Corporation timber verandah, also a major part of a significant Victorian-era streetscape (Criterion E); and
- Historically, 319 Victoria Street as a continuing and prominent corner grocery establishment owned by one family (Conway) for a considerable period and one of the earlier shops in Victoria Street; both shops being representative of the start of a major growth period (Victorian-era) in West Melbourne (Criterion A).

McGlone's shop and residence part Victoria Buildings, 343-345 Victoria Street

343 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1887
View of place:	2015

Statement of Significance

What is significant?

Shop and residence built for Police Constable, John McGlone in 1887 by Patrick Hughes.

Contributory elements include:

- two-level, stuccoed shop and residence;
- simple Italian Renaissance Revival styling with cemented cornice moulds, paired brackets, blocks, quoining and a raised arched entablature bearing the date '1887' on 343 and 'Victoria Buildings' on 345 flanked by piers and urns;
- originally face brick rear walls;
- pitched roof behind the parapet;
- arched double-hung sash windows on the upper level with moulded cemented architraves and bracketed sills; and
- contribution to a significant Victorian-era commercial streetscape.

Cast-iron framed City of Melbourne Corporation pattern street verandah with Corinthian derived column order, panelled cast-iron frieze and brackets and convex corrugated iron clad roof has been removed from 343. The ground level has changed, side wall bricks rendered and there are rear additions. Rubble stone walling at the rear east side of 343 may be all that remains from the adjoining building, demolished.

How is it significant?

McGlone's shop and residence part Victoria Buildings is significant historically and aesthetically to West Melbourne.

Why is it significant?

McGlone's shop and residence part Victoria Buildings is significant.

- Historically, as representative of a major growth period in West Melbourne and linked with the police constable McGlone who prospered from property development (Criterion A); and
- Aesthetically, as a well-preserved Italian Renaissance Revival Victorian-era shop and residence that has been carefully integrated into a shop row with components of differing origins and dates also contributory to a significant streetscape (Criterion E).

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1883
View of place:	2015

Statement of Significance

What is significant?

Shop and residence built for investor John Stedeford in 1883.

Contributory elements include:

- two-level stuccoed shop and residence;
- simple Italian Renaissance Revival styling with cemented cornice moulds, paired brackets, blocks, quoining and a raised arched entablature bearing the name 'Victoria Buildings' flanked by piers and urns;
- originally face brick rear walls;
- pitched roof behind the parapet;
- arched double-hung sash windows on the upper level with moulded cemented architraves and bracketed sills;
- Cast-iron framed City of Melbourne Corporation pattern street verandah with Corinthian derived column order, panelled cast-iron frieze and brackets and convex corrugated iron clad roof (reinstated);
- basement lights, trimmed by stone in wall and pavement; and
- contribution to a significant Victorian-era commercial streetscape.

Integrity is good despite changes to ground level and missing parapet urns.

How is it significant?

John Stedeford's shop and residence, part Victoria Buildings is significant historically and aesthetically to West Melbourne.

Why is it significant?

John Stedeford's shop and residence, part Victoria Buildings is significant.

- Historically, as representative of a major growth period in West Melbourne and linked with the important inner Melbourne figure John Stedeford who prospered in West Melbourne (Criterion A); and
- Aesthetically, as a well-preserved Italian Renaissance Revival Victorian-era shop and residence that has been carefully integrated into a shop row with components of differing origins and dates also contributory to a significant streetscape (Criterion E).

Colonial Bank of Australasia (branch)

347 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1878, 1885
View of place:	2015

Statement of Significance

What is significant?

Erected as a shop and residence for Police Constable, John McGlone, in 1878, and renovated for the West Melbourne branch of the Colonial Bank of Australasia in 1885 to the design of George Jobbins..

Contributory elements include:

- two level stuccoed shop and residence;
- simple Italian Renaissance Revival styling with cemented cornice moulds, paired brackets, blocks, quoining and a raised arched entablature flanked by piers (urns gone);
- originally face brick side and rearwalls;
- pitched roof behind the parapet with cemented chimneys;
- segmentally arched double-hung sash windows on the upper level with moulded cemented architraves and bracketed sills;
- Cast-iron framed City of Melbourne Corporation pattern street verandah with Corinthian derived column order, panelled cast-iron frieze and brackets and convex corrugated iron clad roof (reinstated);
- basement lights in laneway;
- early but altered former Martin and McCarthy gabled brick saddlery workshop at rear; and
- contribution to a significant Victorian-era commercial streetscape.

Integrity is good despite changes to ground level, missing parapet urns, and painted bricks.

How is it significant?

Colonial Bank of Australasia, part Victoria Buildings is significant historically and aesthetically to West Melbourne.

Why is it significant?

Colonial Bank of Australasia, part Victoria Buildings is significant.

- Historically, as representative of a major growth period in West Melbourne and linked with early banking in West Melbourne (Criterion A); and
- Aesthetically, as a well-preserved Italian Renaissance Revival Victorian-era shop and residence that has been carefully integrated into a shop row with components of differing origins, and dates; the design of bank specialist architect, George Jobbins; also contributory to a significant streetscape (Criterion E).

Alexander Stewart's shops and residences, part 349-359 Victoria Street 349-351 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1884
View of place:	2015

Statement of Significance

What is significant?

Shop and residence row built in 1884 for plasterer, Alexander Stewart.

Early occupiers in the 1880s included:

- 349 Walter, N A fruiterer
- 351 Moss, Mrs Eva milliner
- 353 Burman, Frederick photographer
- 355 Ross, John tobacconist
- 357 Evans, E bootmaker
- 359 Malcolm, James hairdresser

Contributory elements at 349-353, 357-359 Victoria Street include:

- two level stuccoed and parapeted shop and residence row;
- simple Italian Renaissance Revival styling with cemented cornice moulds, vermiculated blocks, simple pilasters and raised arched entablatures flanked by piers and scrolls (urns gone);
- originally face brick side and rear walls;
- pitched roof behind the parapet with cemented chimneys with cornices;
- segmentally arched double-hung sash windows on the upper level in a serlian configuration with moulded cemented architraves and floral friezes;
- Cast-iron framed Corporation pattern street verandah with Corinthian derived column order, panelled cast-iron frieze and brackets and convex corrugated iron clad roof; and
- contribution to a significant Victorian-era commercial streetscape.

Integrity is good despite changes to ground level, missing parapet urns, painted bricks, and added signs to the upper level.

How is it significant?

Alexander Stewart's shops and residences are significant historically and aesthetically to West Melbourne.

Why is it significant?

Alexander Stewart's shops and residences are significant.

- Historically, as representative of a major growth period in West Melbourne and linked with a successful builder entrepreneur in West Melbourne, Alexander Stewart (Criterion A); and
- Aesthetically, as a well-preserved and extensive Italian Renaissance Revival Victorian-era shop and residence row with detailing that is very expressive of North and West Melbourne commercial row design, also contributory to a significant streetscape (Criterion E).

W. B. Simpson's real estate office and residence

355 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1884, 1933 (rebuilt)
View of place:	2015

Statement of Significance

What is significant?

Part of a shop and residence row built in 1884 for plasterer, Alexander Stewart, with this shop converted for use by the Nigretta Investment Company Pty. Ltd. (W. B. Simpson's real estate) in 1933 as designed in the Jazz Moderne manner by Peck and Kemter.

Contributory elements include:

- two level face brick parapeted Jazz-Moderne style façade;
- stepped parapet with distinctive brick patterning across the façade, including herringbone, stacked and soldier coursing;
- the number 355 set on a cement plaque on the upper level;
- multi-pane glazing in steel frames set between brick piers with sheet steel spandrels in a proto-Modern manner; and
- originally part of the adjoining row, still possessing the scale and related fenestration as contributory to this significant commercial streetscape.

Integrity is good despite changed ground level but the changes are visually related.

How is it significant?

W B Simpson's real estate office and residence is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

W B Simpson's real estate office and residence is significant.

- Historically, as originally part of Alexander Stewart's long commercial row of 1882, but revised in a new Interwar style to serve the development surge in West Melbourne, as W. B. Simpson's real estate office (Criterion A); and
- Aesthetically, an early and innovative use of this new architectural style, being among the first in Victoria and well-preserved, also the work of well known architects, Peck and Kemter and contributory to a significant commercial streetscape (Criterion E).

Cullen's shops and residences, part 349-359 Victoria Street

357 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence

- Cast-iron framed Corporation pattern street verandah with Corinthian derived column order, panelled cast-iron frieze and brackets and convex corrugated iron clad roof; and
- contribution to a significant Victorian-era commercial streetscape.

Integrity is good despite changes to ground level, missing parapet urns, painted bricks, and added signs to the upper level.

How is it significant?

Alexander Stewart's shops and residences are significant historically and aesthetically to West Melbourne.

Why is it significant?

Alexander Stewart's shops and residences are significant.

- Historically, as representative of a major growth period in West Melbourne and linked with a successful builder entrepreneur in West Melbourne, Alexander Stewart (Criterion A); and
- Aesthetically, as a well-preserved and extensive Italian Renaissance Revival Victorian-era shop and residence row with detailing that is very expressive of North and West Melbourne commercial row design, also contributory to a significant streetscape (Criterion E).

Cullen's shops and residences, part 349-359 Victoria Street

359 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Shop & residence
Date(s):	1884
View of place:	2015

Statement of Significance

What is significant?

Shop and residence row built in 1884 for plasterer, Alexander Stewart.

Contributory elements at 349-353, 357-359 Victoria Street include:

- two level stuccoed and parapeted shop and residence row;
- simple Italian Renaissance Revival styling with cemented cornice moulds, vermiculated blocks, simple pilasters and raised arched entablatures flanked by piers and scrolls (urns gone);
- originally face brick side and rear walls;
- pitched roof behind the parapet with cemented chimneys with cornices;
- segmentally arched double-hung sash windows on the upper level in a serlian configuration with moulded cemented architraves and floral friezes;
- Cast-iron framed Corporation pattern street verandah with Corinthian derived column order, panelled cast-iron frieze and brackets and convex corrugated iron clad roof; and
- contribution to a significant Victorian-era commercial streetscape.

Integrity is good despite changes to ground level, missing parapet urns, painted bricks, and added signs to the upper level.

How is it significant?

Alexander Stewart's shops and residences are significant historically and aesthetically to West Melbourne.

Why is it significant?

Alexander Stewart's shops and residences are significant.

- Historically, as representative of a major growth period in West Melbourne and linked with a successful builder entrepreneur in West Melbourne, Alexander Stewart (Criterion A); and
- Aesthetically, as a well-preserved and extensive Italian Renaissance Revival Victorian-era shop and residence row with detailing that is very expressive of North and West Melbourne commercial row design, also contributory to a significant streetscape (Criterion E).

Three Crowns Hotel

361-365 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Hotel
Date(s):	1868, 1878, 1886
View of place:	2015

Statement of Significance

What is significant?

Three Crowns Hotel built for Frederick Stone (presumably the wing facing King Street) in 1868 and enlarged and improved in 1886 for Charles Straker to a design by celebrated architect, William Pitt.

Contributory elements include:

- Two, two-storeyed parapeted stuccoed brick wings, one facing Victoria Street, the other earlier wing facing King Street.
- Both wings ornamented by William Pitt in 1886-7, the King street wing being from c1868;
- Italian Renaissance Revival but simply elevated with a central, gabled parapet entablature and upper level decorated fenestration, shared in character by the more ornate Victoria Street wing;
- bracketed flat pediments and swagged friezes beneath;
- cornice and string moulds delineating the horizontals and quoins terminate them as verticals.

Victoria Street wing:

- Italian Renaissance Revival and highly decorated, typical of Pitt's work;
- traditional entry at splayed-corner, with pediment over;
- foliated impost moulds,
- guilloche pattern string-moulds;
- gabled pediments with acroteria over doorways,
- barrel-top cemented chimneys;
- cemented cartouche of crossed swords and three crowns, illustrating the hotel's name in a facade panel and on window glass;
- salt-and-pepper dado tiles with a distinctive three crowns motif (Interwar but significant in their own right); and
- contribution as a major and the earliest part of a notable Victorian-era commercial streetscape.

Ground level openings on the King Street wing have been altered or blocked; parapet urns or orbs have been removed from the parapet piers on the Victoria Street wing, and various signs attached. Integrity is good despite these changes.

How is it significant?

Three Crowns Hotel is significant historically, socially and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Three Crowns Hotel is significant.

- Aesthetically, (Victoria Street) as a near original, richly and successfully decorated Italian Renaissance Revival design by a renowned practitioner of the style, William Pitt, potentially as applied to an old form; the King Street wing as a recognisably early hotel design as enriched in the 1880s; also a major streetscape element, terminating the significant Victorian-era commercial area in Victoria Street west (Criterion E); and
- Historically and socially, the earliest commercial building in the two Victoria Street commercial blocks, between Howard and King Streets, and evocative of the typical 19th century corner hotel form; closely associated with the hotelier and caterer, Charles D Straker who was active in the local area as the caterer of choice for local and regional associations (Criterion A).

Drummond house

431 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1926
View of place:	2015

Statement of Significance

What is significant?

House built for labourer, Donald and his wife Ruth Drummond in 1926, by D. Kinnane, on the site of the Melbourne Benevolent Asylum of 1851.

Contributory elements include:

- single storey red brick Californian Bungalow style house, showing transition from the Federation Bungalow form;
- broad gabled main roof, with Old English trussing in the gable end;
- unglazed terra-cotta Marseilles pattern roof tiles to main roof, with terra-cotta finials and cappings;
- red brick chimneys with soldier course tops;
- timber framed porch-style verandah with capped brick piers and swagged balustrading;
- bowed casement lead-light window group, with top lights;
- two-panel boarded door with glazed top panel;
- refurbished wire front fence based on original; and
- contribution as a key element in an important, largely Edwardian-era precinct that, because of its distinctive style and period, symbolises the former Benevolent Asylum site.

How is it significant?

The Drummond house is significant historically and aesthetically to West Melbourne.

Why is it significant?

The Drummond house is significant.

- Historically, being symbolic of the former Benevolent Asylum location in West Melbourne and, at the time of its construction, part of a model government subdivision sold here from 1913 mainly to the working classes (Criterion A); and
- Aesthetically, a well-preserved Californian Bungalow style house as adapted to a narrow inner Melbourne block, and contributory to a largely Edwardian-era and Interwar streetscape (Criterion E).

Ogden's house

441 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1918
View of place:	2015

Statement of Significance

What is significant?

House built for tanner, Thomas William Ogden and wife Charlotte in 1918, on the site of the Melbourne Benevolent Asylum of 1851.

Contributory elements include:

- single storey red brick Federation Bungalow style house;
- asymmetrical floor plan but with central passage;
- hipped main roof and gabled bay roof, with textured stucco in the gable end;
- originally unglazed terra-cotta Marseilles pattern roof tiles to main roof, with terra-cotta finials and cappings;
- stucco banding in brickwork at dado height;
- stuccoed brick chimneys with cemented caps;
- timber framed verandah with distinctive fretted and slatted friezes;
- boxed and bowed casement lead-light window groups with top lights and the window bay with domed sheet metal roof;
- door with top and side lights; and
- contribution as a key element in an important, largely Edwardian-era precinct that, because of its distinctive style and period, symbolises the former Benevolent Asylum site.

Integrity is good despite the addition of an unrelated Victorian-era reproduction picket fence.

How is it significant?

The Ogden's house is significant historically and aesthetically to West Melbourne.

Why is it significant?

The Ogden's house is significant.

- Historically, being symbolic of the former Benevolent Asylum location in West Melbourne and, at the time of its construction, part of a model government subdivision sold here from 1913 mainly to the working classes (Criterion A); and
- Aesthetically, a well-preserved Federation Bungalow style house and contributory to a largely Edwardian-era and Interwar streetscape (Criterion E).

Thomas Swanson's house, later Alder's house
465 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1859
View of place:	2015

Statement of Significance

What is significant?

Thomas Swanson's house built in 1859 with three rooms and two attics.

Contributory elements include:

- single-fronted Colonial Georgian style, coursed basalt rubble cottage;
- tuck-pointed stonework with quarry-faced quoining at openings;
- slate clad gabled roof with stone chimney, with carved cornice and pointing;
- double-hung sash windows;
- doorway with toplight with the date 1859 on the glass; and
- contribution to an early group of stone houses, 457-467 Victoria Street, all from the 1860-1870s, which share siting characteristics, scale and details.

How is it significant?

Thomas Swanson's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

Thomas Swanson's house is significant.

- Aesthetically, a well-preserved and early Colonial Georgian style house in West Melbourne that has been constructed of basalt which is a relatively uncommon wall material in the metropolis but closely linked with the availability of the stone in nearby Moonee Ponds Creek and Footscray; also a key part of an early Victorian-era residential streetscape (Criterion E); and
- Historically, the house was owner-occupied for long periods, first by Thomas Swanson, a customs officer and allied with the renowned local builder family of Swanson and then by Henry Alder, who was linked closely with the railways, a major nearby industry, also the birth home of Henry Hall Alder who was recognised at his death as one of Melbourne's best known recitalists, linked with St James Old Cathedral, and for a time a West Melbourne music teacher (Criterion A).

George Swanson's house

467 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1868
View of place:	2015

Statement of Significance

What is significant?

George Swanson's house built in 1868.

Contributory elements include:

- a hipped roof, two-storey quarry face, basalt masonry house;
- corrugated iron clad roof;
- quoining at openings;
- double-hung sash windows;
- central doorway with top light on upper level, set to side on ground level; and
- contribution to an early group of houses, 457-467 Victoria Street from the 1860-70s, which share siting characteristics, scale and details and one of three adjoining stone houses.

Integrity is fair with a new brick parapet to the east side and new fence; the verandah has been added and rebuilt. However, the antiquity of the house and its stone construction is the dominant aspect of its significance.

How is it significant?

George Swanson house is significant historically and aesthetically to West Melbourne.

Why is it significant?

George Swanson's house is significant.

- Aesthetically, an altered Colonial Georgian style house in West Melbourne but constructed of basalt which is a relatively uncommon wall material in the metropolis and closely linked with the availability of the stone in nearby Moonee Ponds Creek and Footscray; also contributory part of early residential streetscape (Criterion E); and
- Historically, the house was owner-occupied for long periods by George Swanson, of the renowned local builder family of Swanson; representative of the beginning of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Romolo or Bagley house

469 Victoria Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1860
View of place:	2015

Statement of Significance

What is significant?

John Christopher Bagley's house built by J. McElreavy in 1860.

Contributory elements include:

- a hipped roof, two-storey quarry face, basalt masonry house;
- stone chimneys with terra-cotta pots;
- corner siting at Lothian Street;
- corrugated iron clad roof set behind a parapet with the word 'Romolo' set in a central panel;
- quoining at openings;
- altered verandah set between stone wing walls;
- double-hung sash windows, with six-pane sashes;
- doorway with top light on ground level; and
- contribution to an early group of houses, 457-467 Victoria Street from the 1860-70s, which share siting characteristics, scale and details and one of three adjoining stone houses.

The 1895 MMBW detail plan shows a verandah which has since been altered and rebuilt. There is a new fence and the stone painted over. However, the antiquity of the house and its stone construction is the dominant aspect of its significance.

How is it significant?

Romolo or Bagley house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Romolo or Bagley house is significant.

- Aesthetically, an altered Colonial Georgian style house, but constructed of basalt which is a relatively uncommon wall material in the metropolis and closely linked with the availability of the stone in nearby Moonee Ponds Creek and Footscray, also key part of early Victorian-era residential streetscape (Criterion E); and
- Historically, the house was owner-occupied for long periods by J. C. Bagley, a man closely linked with the early history of St. Mary's Church of England, Hotham (North Melbourne); and representative of the beginning of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Browne's houses, part 23-25 Walsh Street

23 Walsh Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1892
View of place:	2015

Statement of Significance

What is significant?

Row houses designed by architect W. H. Cleverdon for ironmonger, Robert S Browne, and built in 1892 by W. Brown.

Contributory elements include:

- plain two storey parapeted Italian Renaissance Revival stuccoed row house pair on corner site;
- cemented cornice, string and label moulds;
- originally face brick side and rear walls;
- pitched roof behind the parapet clad with corrugated iron, with cemented and corniced chimneys;
- uncommon arcaded verandah with Corinthian derived cast-iron column order and roundels in the spandrels;
- double-hung sash windows with voussoir shape cemented moulding over side elevation openings;
- four-panel entry door and toplight, four-panel entry side door with side and toplight (see Milton Street);
- cast-iron palisade front fence integral with arcade, on dressed stone footings; and
- contribution to a minor Victorian-era streetscape in Milton Street.

Integrity is good despite the window wall added to the ground level of 23 (potential to restore using 25 as basis). There have been possible changes to the Milton Street side elevation and bricks painted over. The significance of the house pair relies on the arcading and this has not been affected by these reversible changes.

How is it significant?

Browne's houses, 23-25 Walsh Street, are significant historically and aesthetically to West Melbourne.

Why is it significant?

Browne's houses, 23-25 Walsh Street, are significant.

- Historically, as representative of a major growth period (Victorian-era) in West Melbourne also for the link with successful ironmonger, Robert Browne, and local identity John Stedeford (Criterion A); and
- Aesthetically, for the distinctive arcaded verandah also as a custom design by Melbourne architect William Cleverdon (Criterion E).

Browne's houses, part 23-25 Walsh Street

25 Walsh Street, WEST MELBOURNE

New grading system:	Significant

Row houses designed by architect W. H. Cleverdon for ironmonger, Robert S Browne and built in 1892 by W. Brown.

Contributory elements include:

- plain two storey parapeted Italian Renaissance Revival stuccoed row house pair on corner site;
- cemented cornice, string and label moulds;
- originally face brick side and rear walls;
- pitched roof behind the parapet clad with corrugated iron, with cemented and corniced chimneys;
- uncommon arcaded verandah with Corinthian derived cast-iron column order and roundels in the spandrels;
- double-hung sash windows with voussoir shape cemented moulding over side elevation openings;
- four-panel entry door and toplight, four-panel entry side door with side and toplight (see Milton Street);
- cast-iron palisade front fence integral with arcade, on dressed stone footings; and
- contribution to a minor Victorian-era streetscape in Milton Street.

Integrity is good despite the window wall added to the ground level of 23 (potential to restore using 25 as basis). There have been possible changes to the Milton Street side elevation and bricks painted over. The significance of the house pair relies on the arcading and this has not been affected by these reversible changes.

How is it significant?

Browne's houses, 23-25 Walsh Street, are significant historically and aesthetically to West Melbourne.

Why is it significant?

Browne's houses, 23-25 Walsh Street, are significant.

- Historically, as representative of a major growth period (Victorian-era) in West Melbourne also for the link with successful ironmonger, Robert Browne, and local identity John Stedeford (Criterion A); and
- Aesthetically, for the distinctive arcaded verandah also as a custom design by Melbourne architect William Cleverdon (Criterion E).

James Noonan's house, also Cameron House

54-56 Walsh Street, WEST MELBOURNE

New grading system:	Significant
Place type:	House
Date(s):	1870
View of place:	2015

Statement of Significance

What is significant?

Contractor, James Noonan's house built by James H. Sutherland in 1870.

Contributory elements include:

- asymmetrically planned and double-fronted Italian Villa style house of stuccoed brick with distinctive details and form;
- an arched entry porch with cemented impost and architrave detailing and keystone;
- gabled and hipped iron-clad roof;
- parapeted side walls with foliated brackets and blocks;
- architraved openings, double-hung sash windows;
- unusual details that include the Romanesque inspired fretted pendant eaves valence, an unusual corbelled eaves supported from the projecting window bay and a pentangular panel above the bay;
- panelled and corniced chimney shafts; and
- contribution as one of a varied group of Victorian-era houses in Walsh Street, intermixed with new development (62, 46-8, 42 Walsh Street).

Integrity is good despite the replacement of the gable finial and front fence, the painting of the basalt footings, the altered front door, and tiling of the front yard.

How is it significant?

James Noonan's house is significant historically and aesthetically to West Melbourne and the City of Melbourne.

Why is it significant?

James Noonan's house is significant.

- Aesthetically, as a well-preserved Italian villa with a highly unusual and distinctive combination of elements and details and from an early date (Criterion E); and
- Historically, associated primarily with Noonan, the West Melbourne builder-developer, who died a successful businessman while also being prominent in the North and West Melbourne community; and representative of a major growth period in West Melbourne (Criterion A).

Wickham's house, later Oakey's house

62 Walsh Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1865, 1871, 1888
View of place:	2015

Statement of Significance

What is significant?

Carter, John Wickham's house, initially of two rooms in 1865, then four rooms and later a six room brick house (enlarged 1871 and 1888).

Contributory elements include:

- a two-storey stuccoed brick and parapeted row house;
- cemented ornament including a gabled entablature, with scrolls, a cornice mould and former cornice, now the string-mould, of the first single storey stage of building;
- notable cast-iron balustrading to bracketed balconettes on the upper openings;
- double-hung sash windows;
- one level timber, corrugated iron clad verandah; and
- contribution as one of a varied group of Victorian-era houses in Walsh Street, intermixed with new development (62, 46-8, 42 Walsh Street).

Integrity is fair despite the verandah having been rebuilt, a missing valence, replacement of the door and an iron picket fence added.

How is it significant?

Wickham's, later Oakey's house is significant historically and aesthetically to West Melbourne.

Why is it significant?

Wickham's, later Oakey's house is significant.

- Aesthetically, generally original to 1888 with fine and rare details such as the iron railings and balconettes (Criterion E); and
- Historically, the house evokes two major construction stages and has links with typical occupations associated with West Melbourne, but is also linked with Wilmot Oakey who was locally prominent; also representative of the beginning and end of a major growth period (Victorian-era) in West Melbourne (Criterion A).

Flagstaff Gardens

309-311 William Street, WEST MELBOURNE

New grading system: Significant

Place type: House
Date(s): Unknown
View of place: 2015

Statement of Significance

Victorian Heritage Register Statement of Significance
 Victorian Heritage Register number: H2041

What is significant?

Flagstaff Hill including the Flagstaff Gardens occupies an elevated position to the north west of Melbourne's CBD. Consisting of 7.7 hectares, it was originally called Burial Hill by the European settlers and was used as Melbourne's first burial ground in the 1830s. Later used as a signal station between 1840 and 1857, and then as a magnetic and meteorological observatory under Professor Georg von Neumayer between 1857 and 1862, the hill is a significant archaeological site. In 1862 the site was established as a public garden. Designed in an informal gardenesque style by the Deputy Surveyor General Clement Hodgkinson in 1865, and later redesigned by John Guilfoyle in the 1890s, the garden contained numerous trees of scientific and aesthetic importance, many of which remain today. The current appearance of the gardens reflects changes made between the 1890s and the 1920s although the original pathways are still evident as are several of the original tree plantings. Although the character of the gardens has changed since the 1860s, the current appearance reflects a diverse cultural landscape that is rich in horticultural, historic and social meaning.

How is it significant?

Flagstaff Gardens and Flagstaff Hill are of aesthetic, archaeological, historical, scientific (horticultural) and social significance to the State of Victoria

Why is it significant?

Flagstaff Hill is of historic and scientific importance. Between 1836 and 1837, it was the site of Melbourne's first burial ground. Seven burials took place there and as there is no evidence that the bodies were exhumed the site probably has archaeological potential. Between 1840 and 1857 the site was used as a signal station with flagstaff. It was used to communicate with a similar station at Point Gellibrand at Williamstown. Flags flown from the flagstaff indicated shipping arrivals in the Bay and shipping lists were posted on a bulletin board near the station building. Accordingly the hill was a regular gathering place for Melburnians of all classes. The flagstaff and signal station became redundant following the introduction of the telegraph, however the site was then used as a meteorological and magnetic observatory between 1857 and 1862. Established under the supervision of Bavarian scientist Georg von Neumayer, the observatory played a significant part in the development of scientific knowledge in the colony. The footings of the signal station and the observatory buildings probably still exist and would be a significant archaeological deposit.

The Flagstaff Gardens is of scientific (horticultural) and aesthetic significance. Established as a public garden in 1862, the Flagstaff Gardens was designed in the gardenesque style in 1865 by Assistant Commissioner for Crown Lands and Survey,

Clement Hodgkinson. Unlike the Fitzroy Gardens, also designed by Hodgkinson, the Flagstaff Gardens was a more informal style. Its path layout was determined in part by the site's topography but also by the location of the Victoria Market in the north-east corner. Some of the original 1860s path layout remains but the current layout reflects changes made between the 1890s and the 1920s. The central path from the main entrance in William Street to the crown of the Flagstaff Hill has disappeared but most of the path that originally crossed the gardens from the corner of King and Latrobe Streets towards the Victoria Market still exists. None of the original statues exist but there is a sundial from the nineteenth century, albeit whose base was reconstructed in 1947, and a sculpture, The Court Favourite, from the 1930s.

There are many fine individual specimens of trees in the gardens including a Holm Oak (*Quercus ilex*), located on the south side of the William Street entrance, from the first stage of planting in the nineteenth century and which is amongst the largest of the species known in Victoria. There are also significant specimens from the twentieth century including a Maidenhair tree (*Ginkgo biloba*) and a Chinese Parasol tree (*Firmiana simplex*). The *Ginkgo biloba* is one of the State's finest and largest, and is growing in a prominent position in the garden of the caretakers cottage. The only larger and older *Ginkgo biloba* in Victoria is in the Geelong Botanic Gardens, which was planted in 1859. The *Firmiana simplex* is rare in Victoria and this tree is also the largest known in the State. As well there are a variety of significant specimen trees including elms, oaks, Moreton bay figs, Canary Island pines and River Red Gums. The *Corynocarpus laevigatus* is uncommon in Victoria and this tree is the largest known specimen in the State. The two Italian cypresses (*Cupressus sempervirens*) have important landscape and historical significance due to their association with Melbourne's first cemetery. These trees were commonly planted in cemeteries due to their symbolism.

The Flagstaff Gardens is of landscape and horticultural significance due to the avenues of elms (*Ulmus procera* and *U. x hollandica*) lining the pathways through the Gardens and elm rows along the north, north east and southern perimeter of the gardens. The elms are common landscape element in all of Melbourne's nineteenth century gardens and boulevards. The trees are numerous and have grown to a large size and are an important feature of the urban character and provide outstanding autumn colour. Melbourne now has some of the finest European elms in the world and these are of increasing international significance as Dutch Elm Disease has killed most of these species in the northern hemisphere. The deciduous elms, poplars and English oaks contrast dramatically with the evergreen conifers, eucalypts, Moreton Bay Figs and palms to provide an outstanding landscape. The two *Eucalyptus cladocalyx* (Sugar Gum) in the north eastern corner have grown to a great size and are an important landmark in the landscape.

Flagstaff Hill also has social significance as place of recreation and celebration. The existence of the various monuments on the crest of the hill reflects the importance of the site in the popular imagination. In addition, the hill was a natural gathering place in the early years of European settlement because of the views it offered over the Bay. Furthermore, with separation from New South Wales in 1850, the hill was a focus of celebrations with bonfires being lit and other festivities taking place there. In 1950 a monument was built to commemorate these original celebrations.

The Flagstaff Gardens has been the less respectable component in the city's collection of public parks. Accordingly its social significance is different from the Carlton, Fitzroy or Treasury Gardens. In the 1930s it was observed that if the Fitzroy Gardens was the city's drawing room then Flagstaff Gardens was its kitchen. Earlier in the century it was also perceived to be the most notorious of the public parks as a site for illicit activities. This informality and diversity of public behaviour has distinguished it from other city gardens and also is an important part of its character today. The bowling club, playground and tennis courts contribute to its continuing recreational and informal character. To an extent its character has also been defined by its position on the west side of the city close to the Victoria Market, working class residential areas, industry and Yarra wharves.

Royal Standard Hotel

333-337 William Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Hotel
Date(s):	1865-
View of place:	2015

Statement of Significance

What is significant?

Royal Standard Hotel and associated shop built for the Crown Grantee of the allotment, William Hill, from 1865.

Contributory elements include:

- a two-storeyed stuccoed brick hotel and former shop;
- simple but elegant Italian Renaissance Revival façade;
- a corniced parapet;
- flat window pediments and smooth rustication to the lower level and as quoins;
- quarry faced stone plinth;
- stone-bordered cellar entry door in footpath;
- double-hung sash windows with cemented architraves; and
- contribution as a traditional Victorian-era corner element, and for relationship with 343-9 William Street, a similarly simply elevated row, and the companion house row at the rear in Milton Street.

Integrity is good despite changes to ground level openings, with replacement or closing in of doors; painting of some of the stonework, added signs, and unrelated brick additions at the rear.

How is it significant?

The Royal Standard Hotel is significant historically, socially and aesthetically to West Melbourne.

Why is it significant?

Royal Standard Hotel is significant.

- Aesthetically, an early, symmetrical and successful Italian Renaissance Revival façade in the palazzo manner, similar to the commercial style used by architects Terry and Oakden, and a key streetscape element in the North and West Melbourne precinct (Criterion E); and
- Historically and socially, as a hotel and meeting place, the social centre of the locality, being typically corner-sited and part of a comprehensive development by William Hill of his Crown Grant that, with his houses at 24-28 Milton Street, remains relatively unchanged (Criteria A, G).

Row house, part 343, 345-349 William Street

343 William Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1864-5
View of place:	2015

Statement of Significance

What is significant?

Row houses built for Crown Grantee and iron-worker, Matthew Sparey, in 1864-5.

Contributory elements include:

- two-storeyed face brick and stuccoed house row of three in a Colonial Georgian style, and one attached house (343);
- pointed brown body brickwork and red rubbed voussoirs;
- parapeted roof line with moulded cornice and cemented string moulds;
- lower level iron decorated verandah with concave roof (345-9), simple iron brackets and fringing as early form of verandah decoration;
- iron picket fences (345-9);
- symmetrical fenestration, double-hung sash windows;
- arched ground level openings;
- four-panel doors with toplights;
- cemented chimney shafts with panelling; and
- the row's relationship with the Royal Standard at 333-337 William Street, and the house rows at the rear of the hotel in Milton Street.

The brickwork of 343 has been painted, the verandah rebuilt, and its iron fence replaced but otherwise the integrity is good.

How is it significant?

Row houses, 343, 345-349 William Street, are significant historically and aesthetically to West Melbourne.

Why is it significant?

Row houses, 343, 345-349 William Street are significant.

- Aesthetically, as in a well-proportioned, recognisable early Colonial Georgian row house form, with simple detailing and fine brickwork. Also as early face brick buildings in West Melbourne, and contributory to a Victorian-era streetscape (Criterion E); and
- Historically, for the long ownership by the original Crown Grantee, Sparey, which is unusual in West Melbourne (Criterion A).

Row house, part 343, 345-349 William Street

345 William Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1864-5
View of place:	2015

Statement of Significance

What is significant?

Row houses built for Crown Grantee and iron-worker, Matthew Sparey, in 1864-5.

Contributory elements include:

- two-storeyed face brick and stuccoed house row of three in a Colonial Georgian style, and one attached house (343);
- pointed brown body brickwork and red rubbed voussoirs;
- parapeted roof line with moulded cornice and cemented string moulds;
- lower level iron decorated verandah with concave roof (345-9), simple iron brackets and fringing as early form of verandah decoration;
- iron picket fences (345-9);
- symmetrical fenestration, double-hung sash windows;
- arched ground level openings;
- four-panel doors with toplights;
- cemented chimney shafts with panelling; and
- the row's relationship with the Royal Standard at 333-337 William Street, and the house rows at the rear of the hotel in Milton Street.

The brickwork of 343 has been painted, the verandah rebuilt, and its iron fence replaced but otherwise the integrity is good.

How is it significant?

Row houses, 343, 345-349 William Street, are significant historically and aesthetically to West Melbourne.

Why is it significant?

Row houses, 343, 345-349 William Street are significant.

- Aesthetically, as in a well-proportioned, recognisable early Colonial Georgian row house form, with simple detailing and fine brickwork. Also as early face brick buildings in West Melbourne, and contributory to a Victorian-era streetscape (Criterion E); and
- Historically, for the long ownership by the original Crown Grantee, Sparey, which is unusual in West Melbourne (Criterion A).

Cellular Clothing Company Ltd. works

351-353 William Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Factory
Date(s):	1939
View of place:	2015

Statement of Significance

What is significant?

Moderne style factory designed for Cellular Clothing Company Ltd. by noted Modernist architect, Rhys E. Hopkins, and erected under his supervision by Rispin Bros in 1939.

Contributory elements include:

- Moderne style format of strong horizontal elements butting on a vertical feature (stair);
- parapeted geometric form;
- sawtooth roof;
- cream façade brickwork (bricks painted over); and
- contribution to a modernist Interwar industrial group in this locality.

Glazing replaced with reflective glass, bricks painted over.

How is it significant?

Cellular Clothing Company Ltd. works are significant historically and aesthetically to West Melbourne.

Why is it significant?

Cellular Clothing Company Ltd. works are significant.

- Historically, as a highly publicised project when completed and seen as the epitome of rising inner Melbourne industries, as aided by import restrictions during the lead-up to the Second World War, and the tariff protection afforded by the Australian Government to foster manufacturing independence in uncertain times, also the products made here were seen as one of the new types of industry to be encouraged in Victoria (Criterion A); and
- Aesthetically, as a well-preserved factory design from noted Modernist architect and academic, Rhys E. Hopkins, and erected under his supervision by Rispin Bros. with Cyril Hudspeth as the structural engineer who were all well known names in the building industry, also as a contributory part of an Interwar industrial group at this corner and opposite in Howard Street, West Melbourne (Criterion E).

Canary Island pines (x2 `Pinus canariensis'), Howard Street and William Street Reserve

383-389 William Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Trees
Date(s):	1900-1918
View of place:	2015

Statement of Significance

What is significant?

Mature surviving trees are an indication of planting styles of the Victorian and Edwardian-eras before a more varied palette of tree selection was pursued post World War One.

Contributory elements include:

- Mature Canary Island pines (x2 `Pinus canariensis'), Howard Street and William Street Reserve (-37.806391, 144.953764;-37.806575, 144.953729); and
- land within five metres of the root balls.

How is it significant?

The Canary Island pines are significant historically and for their rarity in West Melbourne.

Why is it significant?

The Canary Island pines are significant.

- Historically, as an indication of tree planting and selection in the post Victorian-era, with the goal of beautification of reserves and creation of shade (Criterion A); and
- Rarity, as some of the few remaining examples from a large number of mature reserve and street trees that once existed at West Melbourne (Criterion B).

State Rivers and Water Supply Research and Testing Laboratories

420-424 William Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Offices
Date(s):	1935-1941
View of place:	2015

Statement of Significance

What is significant?

State Rivers and Water Supply Research and Testing Laboratories built in the late 1930s using a Modernistic design attributed to Percy Everett, Chief Architect of the Public Works Department.

Contributory elements include:

- three level red brick building on a corner site;
- Modernistic design as a combination of horizontal and vertical elements delineated with cement mouldings, enhanced by the corner site;
- distinctive entry element with H-form cement work over the doorway, bifurcated by a brick pier with cement plaque above;
- cement window hoods as horizontal elements that return around the corner; and
- punched windows as square or rectangular openings with cement architraves.

Integrity is good despite replacement of window joinery.

How is it significant?

State Rivers and Water Supply Research and Testing Laboratories is significant historically and aesthetically to West Melbourne.

Why is it significant?

State Rivers and Water Supply Research and Testing Laboratories is significant.

- Historically, as purpose built for this once influential government body that has since been disbanded (Criterion A); and
- Aesthetically, as a successful and well-preserved Modernistic design attributed to the noted Government Chief Architect, Percy Everett (Criterion E).

Zeplin's house

436 William Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1861
View of place:	2015

Statement of Significance

What is significant?

Musician George Zeplin's house, built by T. Mahoney in 1861.

Contributory elements include:

- a two-storey, stuccoed brick house
- early transverse gable roof form with eaves gutter and side parapets;
- face brick side and rear walls;
- a single level concave roof verandah, with rare panelled cast-iron and timber, slatted balustrade;
- double-hung sash windows; and
- contribution as one of a generally homogenous and old Victorian-era streetscape, including 446-448, 456, 458 and 470-476 William Street.

How is it significant?

Zeplin's house is significant historically and aesthetically to West Melbourne and historically to the City of Melbourne.

Why is it significant?

Zeplin's house is significant.

- Aesthetically, a recognisably early and relatively uncommon form of house with significant details such as the timber balustrade, also part of an early Victorian-era residential streetscape (Criterion E); and
- Historically, associated with the locally renowned Zeplin musician family, who obtained prominence in the Colonial Melbourne music world as pioneers in variety and ensemble performances (Criterion A).

Howat's row houses, part 446-450 William Street

446 William Street, WEST MELBOURNE

New grading system:	Significant
Place type:	Row house
Date(s):	1873
View of place:	2015

Statement of Significance

What is significant?

Builder, David Howat's row houses built, as an investment, in 1873.

Contributory elements include:

- two-level stuccoed brick and parapeted row of three houses;
- classically inspired facades;
- architraved upper windows;
- parapet cornices;
- siting hard on street; and
- contribution to an early Victorian-era residential precinct.

Blinds have been attached to the facades and the stucco refurbished but otherwise the integrity is good.

How is it significant?

Howat's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Howat's row houses are significant.

- Aesthetically, typical of the simple, stuccoed elevations of the early Victorian-era and a contributory part of a similarly aged Victorian-era streetscape (Criterion E); and
- Historically, long associated with the Howat family, David, as a builder-owner who eventually owned most of this streetscape, and a developer of other properties in the North and West Melbourne area, and William Howat who was closely linked with the wealthy Clarke pastoralist family (Criterion A).

Place type:	Row house
Date(s):	1878-1883
View of place:	2015

Statement of Significance

What is significant?

Row houses built for Isaac Glance by Morris and Parker in 1878.

Contributory elements include:

- two storey parapeted stuccoed house row set close to the street and corner site to a lane;
- Italian Renaissance Revival styling, ornate for the construction date;
- cemented cornice moulds, vermiculated and foliated blocks and brackets with a raised arched entablatures flanked by piers and scrolls;
- originally face brick side and rear walls;
- pitched roofs behind the parapet, with cemented and corniced chimneys;
- two storey cast-iron verandahs with panelled cast-iron friezes and finished brackets also guilloche pattern balustrading;
- tiled verandah floors;
- double-hung sash windows;
- four-panel entry door and toplights;
- cast-iron palisade front fences and gate on dressed stone footings; and
- contribution to valuable Victorian-era streetscape.

How is it significant?

Glance's row houses are significant historically and aesthetically to West Melbourne.

Why is it significant?

Glance's row houses are significant.

- Historically, as a good representatives of a major growth period in West Melbourne and linked with the Glance family who were active in the North and West Melbourne community (Criterion A); and
- Aesthetically, well-preserved and good examples of Italian Renaissance Revival row houses, also contributory to a Victorian-era streetscape (Criterion E).

1.0 INTRODUCTION

This report documents the methodology undertaken in a recent conversion of the heritage gradings of over 380 heritage places for the City of Melbourne, including a review of D graded places with individual Heritage Overlays.

The places are identified, and the results of the study are documented, in the attached Excel spreadsheet (explained in more detail below).

The project is identified as 'Amendment C396 Heritage category conversion for properties not converted through Amendment C258' in the City of Melbourne's 'Request for Quotation' of May 2020 (the project brief) and is generally referred to below as the 'heritage category conversion' study. The study has been undertaken by Lovell Chen, with Anita Brady of Anita Brady Heritage.

1.1 Terminology

The term 'heritage place' or 'place' is mainly used in this report, with the places in this study predominantly being buildings; they may also include other structures or sites, or are part of groups of buildings at several adjoining addresses or in larger areas such as heritage precincts. The word 'building' or 'property' is also sometimes used for heritage place in this report.

D graded places with individual Heritage Overlay numbers and an individual or single address listed in the Schedule to the Heritage Overlay, are as noted above also included in this heritage category conversion study.

1.2 Amendment C258

The City of Melbourne's Amendment C258 incorporated several discrete heritage projects, including updating the local heritage policies in the Melbourne Planning Scheme, Clause 22.04 Heritage Places within the Capital City Zone and Clause 22.05 Heritage Places outside the Capital City Zone; and converting the heritage gradings of places in the Heritage Overlay from the (then) A to D grading system to a more contemporary significant, contributory and non-contributory category system. The latter included reviewing the grading (or categorisation) and in some cases upgrading or downgrading the category of the heritage place.

The Amendment C258 work, including the gradings conversion, was predominantly undertaken in 2015 by Lovell Chen.

The Amendment C258 conversion of gradings was mainly desktop based, with some limited field work, and adopted an approach which largely saw the direct conversion of A and B graded places in heritage precincts throughout the municipality to significant (there were no A graded places in Kensington); the direct conversion of C and D graded places in Parkville to contributory; and the direct conversion of D graded places in East Melbourne/Jolimont and South Yarra to contributory. C and D graded places in precincts in the remaining suburbs in the municipality were desktop reviewed. Table 1 below provides a summary.

Table 1 Summary table of Amendment C258 conversion approach

Precincts	A grade	B grade	C grade	D grade
East Melbourne and Jolimont	Significant	Significant	Review	Contributory
South Yarra	Significant	Significant	Review	Contributory
Parkville	Significant	Significant	Contributory	Contributory
Kensington	N/A	Significant	Review	Review

Precincts	A grade	B grade	C grade	D grade
North and West Melbourne	Significant	Significant	Review	Review
Carlton	Significant	Significant	Review	Review
CCZ	Significant	Significant	Review	Review

The outcome of the Amendment C258 gradings conversion was that most of the C and D graded places which were reviewed were assessed as contributory, with some being upgraded to significant. Some places were also downgraded to non-contributory on the basis of having been demolished or changed or modified to such an extent as to have largely or fully extinguished their heritage value.

Lovell Chen documented the outcomes of the Amendment C258 review work in an Excel spreadsheet provided by the City of Melbourne to the consultants.

1.3 Individual Heritage Overlays

Heritage places of any grading (A-D) with an individual Heritage Overlay number and a single address were directly converted to the category of significant under Amendment C258. This was on the basis of the places being regarded as significant due to their existing individual inclusion in the Schedule to the Heritage Overlay, and an understanding that they had already met the significance threshold. These places were typically single buildings, although in some cases more than one building was listed under the one address and the individual Heritage Overlay number.

Small Heritage Overlays which contained several properties with several addresses were treated as being akin to a small Heritage Overlay precinct, with the properties either converted directly or reviewed based on their original grading, as per the Amendment C258 methodology described above.

Following Amendment C258, the City of Melbourne determined that individual Heritage Overlays which included D graded places should be reviewed. These places were consequently removed from C258 prior to its adoption and gazettal, and this current heritage category conversion review, as per the project brief, includes a review of the D graded places with an individual Heritage Overlay.

1.4 C graded places in City North Heritage Review

The Amendment C258 assessment and conversion of gradings did not apply to C graded places in heritage precincts identified in the (then) recently completed City North Heritage Review (RBA Architects, 2013). These C graded places were recommended by the consultants involved in the City North Heritage Review to be directly converted to significant (as were the A and B graded places in that study).

Following Amendment C258, the City of Melbourne determined that the C graded places in the City North Heritage Review should be reviewed, to be consistent with the C258 methodology. This current heritage category conversion study, as per the project brief, includes a review of these C graded places.

1.5 Omitted and incorrectly categorised places

During the course of Amendment C258, including during exhibition and the Planning Panel review, it became apparent that a number of heritage places were omitted or incorrectly categorised in the exhibited Amendment C258 Heritage Inventory.

The pre-Amendment C258 Melbourne Heritage Inventory had been developed over many years and was based on heritage studies and reviews which were largely undertaken in the 1980s. Since that time, many properties have been subdivided, consolidated or re-addressed, and for these reasons some listings were incorrectly converted during C258, or were omitted from the exhibited Amendment C258 Inventory.

It is understood that a comprehensive review of the Inventory was undertaken by the City of Melbourne following Amendment C258, and that this identified the properties which had been omitted or incorrectly converted. These places were consequently removed from C258 prior to its adoption and gazettal, and this current heritage category conversion study, as per the project brief, reflects the City of Melbourne requirement to assess and/or directly convert these places in this current heritage category conversion study, as per the project brief, and using the C258 methodology.

1.6 Other contemporary studies

Several D graded places with individual Heritage Overlays included in this current heritage category conversion study, also form part of other City of Melbourne heritage reviews which are underway or being finalised and which are anticipated to be implemented through future planning scheme amendments, namely heritage reviews of Carlton and South Yarra.

Three of these places, being 18-22 Cardigan Street, Carlton (HO35), 144-146 Queensberry Street, Carlton (HO807) and 783 Punt Road, South Yarra (HO412), have been assessed in this current study as contributory. The assessments and recommendations are identified in the attached Excel spreadsheet and in Table 2 below. The status of these places, as individual Heritage Overlays or places to be included in (extended) existing heritage precincts, will be resolved through the South Yarra Heritage Review which is currently underway and the Carlton Heritage Review which is being finalised. These studies involve full heritage assessments.

Another D graded place with an individual Heritage Overlay included in this current heritage category conversion study, which is also subject to the Carlton Heritage Review, is 29-31 Rathdowne Street, Carlton (HO809). This place has been assessed in this study as significant, and the place citation which was separately prepared for the Carlton study, in the documentation format for that study, is attached to this report.

1.7 Conflict of interest

A number of places included in this heritage category conversion study are properties with which Lovell Chen is either currently involved, or has recently been involved, including providing heritage advice.

Given this situation, which represents a potential conflict of interest, it was decided that Anita Brady, of Anita Brady Heritage, as an independent consultant in the study team, would separately assess these properties.

It is also noted that both Lovell Chen and Anita Brady have a conflict of interest for a further property. The City of Melbourne engaged a separate consultant to undertake the review of this property.

1.8 Attachments to this report

Attached to this report are the spreadsheet (Attachment A) and the citations (Attachment B), comprising:

- City of Melbourne-supplied Excel spreadsheet of places subject to this heritage category conversion review, which has been updated with the outcomes and recommendations of this study (see Sections 2.2 and 3.6). (Attachment A)
- Citations for D graded places with an individual Heritage Overlay which have been assessed as significant. Included in the citation is a site history, site description, comparative analysis, an assessment against heritage criteria, recommendations and a statement of significance (see Section 3.5.1). (Attachment B)
- Citation for the property at 90-92 Bayswater Road, Kensington, which was left out of the mapping for HO211 (the property address was one of several included in the Schedule to the Heritage Overlay for HO211), but has been assessed here as a significant heritage place in its own right and deserving of an individual Heritage Overlay (see Section 2.6). (Attachment B)
- A citation for HO868 Westbourne Road Precinct, being 47-55, 59 and 69 Westbourne Road, Kensington. This small precinct is recommended to be extended to include two D graded

places with individual Heritage Overlays which have been assessed as contributory places (59 and 69 Westbourne Road, see Section 2.7). (Attachment B)

- Place citation for the property at 29-31 Rathdowne Street, Carlton (HO809). (Attachment B)

2.0 HERITAGE CATEGORY CONVERSION STUDY

2.1 Scope of study

The gradings of most places in Melbourne's Heritage Overlay were converted through Amendment C258. However, some places were not included in the version of C258 which was adopted by Council, as outlined above.

These include the following which are addressed and assessed in this current heritage category conversion study, adopting the same methodology and approach as Amendment C258 (as described at Section 1.2, and summarised in Table 1). The attached Excel spreadsheet identifies the places:

- C graded places in heritage precincts identified in the City North Heritage Review (2013).
- Places which were omitted or incorrectly categorised in the exhibited Amendment C258 Heritage Inventory. These include places which:
 - were converted directly to the new heritage category under the methodology used for C258; or
 - required review under this current heritage category conversion study.

In addition:

- D graded places with individual Heritage Overlays which were removed from Amendment C258 to be subject to future review (i.e. this current study).

2.2 City of Melbourne spreadsheet

As occurred with Amendment C258, at the outset of the project the City of Melbourne provided the consultants with an Excel spreadsheet of the subject properties. The spreadsheet contains property addresses, existing gradings and relevant Heritage Overlay numbers. The completed spreadsheet is attached to this report and includes a summary of all the assessments and recommendations of this heritage category conversion study.

The updating of the spreadsheet is explained at Section 3.6 below.

2.3 Heritage category definitions

Clause 22.04 Heritage Places within the Capital City Zone and Clause 22.05 Heritage Places outside the Capital City Zone include the following definitions:

'Significant heritage place'

A significant heritage place is individually important at state or local level, and a heritage place in its own right. It is of historic, aesthetic, scientific, social or spiritual significance to the municipality. A significant heritage place may be highly valued by the community; is typically externally intact; and/or has notable features associated with the place type, use, period, method of construction, siting or setting. When located in a heritage precinct a significant heritage place can make an important contribution to the precinct.

'Contributory heritage place'

A contributory heritage place is important for its contribution to a heritage precinct. It is of historic, aesthetic, scientific, social or spiritual significance to the heritage precinct. A contributory heritage place may be valued by the community; a representative example of a place type, period or style; and/or combines with other visually or stylistically related places to demonstrate the historic

development of a heritage precinct. Contributory places are typically externally intact, but may have visible changes which do not detract from the contribution to the heritage precinct.

'Non-contributory place'

A non-contributory place does not make a contribution to the cultural significance or historic character of the heritage precinct.

These definitions have been referred to in, and have informed, the assessment of places included in this study.

2.4 Summary of assessments and recommendations for places which were desktop reviewed in this study

The attached Excel spreadsheet includes a summary of the assessments and recommendations for the C graded places in heritage precincts identified in the City North Heritage Review, and the places which were omitted or incorrectly categorised in the exhibited Amendment C258 Heritage Inventory.

The methodology used in the assessments is described below at Section 3.0, while the outcomes and recommendations inputted into the spreadsheet are explained at Section 3.6.

2.5 Summary of assessments and recommendations for D graded individual Heritage Overlays

The following table summarises the outcomes of the assessment of the D graded individual Heritage Overlay places. Additional detail is included in the attached Excel spreadsheet.

The table also indicates where a citation, as prepared for this heritage category conversion study, is attached to this report.

Table 2 Summary table of D graded individual Heritage Overlays

HO no & address	Assessment & recommendation
HO35 18-22 Cardigan Street, Carlton	Contributory To be reviewed/confirmed pending finalisation of the Carlton Heritage Review (separate study). Also noted that also noted that the boundary of the HO map does not cover all three buildings at 18-22 Cardigan Street, and currently only applies to 18 and 20 Cardigan Street.
HO96, HO1 106-112 Queensberry Street, Carlton	Not significant or contributory Heritage building has been demolished. Recommend remove HO96 but retain in HO1 Carlton Precinct as non-contributory.
HO807 144-146 Queensberry Street, Carlton	Contributory To be reviewed/confirmed pending finalisation of the Carlton Heritage Review (separate study).
HO809 29-31 Rathdowne Street, Carlton	Significant Documentation prepared for Carlton Heritage Review (separate study), with the place citation from that study attached to this report. HO809 mapping incorrectly applies to the adjoining property to the north at 35 Rathdowne Street. Recommended remove the individual

HO no & address	Assessment & recommendation
	<p>HO from the latter property and apply the HO map to the subject property at 29-31 Rathdowne Street.</p> <p>35 Rathdowne Street should then be included in the surrounding precinct, which extends along Rathdowne Street, being the HO992 World Heritage Environs Area Precinct.</p>
<p>HO205</p> <p>2 Bayswater Road, Kensington</p>	<p>Significant</p> <p>Citation prepared (and attached to this report), and retain individual HO.</p>
<p>HO198</p> <p>17-19 Bayswater Road, Kensington</p>	<p>Significant</p> <p>Citation prepared (and attached to this report), and retain individual HO.</p> <p>HO198 mapping incorrectly applies to the rear of the adjoining properties at 21 and 23 Bayswater Road. Recommend remove this HO from these parts of the adjoining properties, with HO199 applied to the rear of 21 and 23 Bayswater Road.</p>
<p>HO201</p> <p>59 Bayswater Road, Kensington</p>	<p>Significant</p> <p>Citation prepared (and attached to this report).</p> <p>HO201 mapping incorrectly applies to the adjoining properties at 61, 63 and 65 Bayswater Road. Recommend remove the latter properties from HO201 and include 59 Bayswater Road in HO201 as an individual property.</p>
<p>HO204</p> <p>83 Bayswater Road, Kensington</p>	<p>Significant</p> <p>Citation prepared (and attached to this report), and retain individual HO.</p>
<p>HO223</p> <p>5 Epsom Road, Kensington</p>	<p>Not significant or contributory</p> <p>This building is part of a larger property (church complex) at 1-7 Epsom Road, where HO223 covers only the church.</p> <p>Recommend all of 1-7 Epsom Road be included in an extended HO9 Kensington Precinct, with 5 Epsom Road identified as non-contributory.</p> <p>Recommend remove HO223.</p>
<p>HO223</p> <p>7 Epsom Road, Kensington</p>	<p>Contributory</p> <p>This building is part of a larger property (church complex) at 1-7 Epsom Road, where HO223 covers only the church.</p> <p>Recommend all of 1-7 Epsom Road be included in an extended HO9 Kensington Precinct, with 7 Epsom Road identified as contributory.</p> <p>Recommend remove HO223.</p>
<p>HO227</p> <p>25 Epsom Road, Kensington</p>	<p>Not significant or contributory</p> <p>Recommend remove HO227.</p>

HO no & address	Assessment & recommendation
HO233 19 Gower Street, Kensington	Significant Citation prepared (and attached to this report), and retain individual HO.
HO241 2-4 Kensington Road, Kensington	Contributory Recommend property be included in an extended HO9 Kensington Precinct, and identified as contributory. Recommend remove HO241.
HO246 56 Kensington Road, Kensington	Contributory Recommend property be included in an extended HO9 Kensington Precinct, and identified as contributory. Recommend remove HO246.
HO819 33 and 33A Kensington Road, Kensington	Contributory Pair of adjoining buildings. 33A was incorrectly left out of the mapping for HO819, but it is recommended that the pair be included in an extended HO9 Kensington Precinct and identified as contributory. Recommend remove HO819.
HO265 9 Westbourne Road, Kensington	Not significant or contributory Recommend remove HO265.
HO266 17 Westbourne Road, Kensington	Significant Citation prepared (and attached to this report), and retain individual HO.
HO269 59 Westbourne Road, Kensington	Contributory Recommend be included in an extended HO868, being a heritage precinct in Westbourne Road with a precinct citation prepared, and identified as contributory. Recommend remove HO269.
HO271 69 Westbourne Road, Kensington	Contributory Recommend be included in an extended HO868, being a heritage precinct in Westbourne Road with a precinct citation prepared, and identified as contributory. Recommend remove HO271.
HO535 72-74 Bourke Street, Melbourne	Significant Citation prepared (and attached to this report), and retain individual HO.

AMENDMENT C396 HERITAGE CATEGORY CONVERSION REVIEW

HO no & address	Assessment & recommendation
HO538 86 Bourke Street, Melbourne	Significant Citation prepared (and attached to this report), and retain individual HO.
HO525 19-21 Bourke Street, Melbourne	Contributory Recommend be included in HO500 Bourke Hill Precinct and identified as contributory. Recommend remove HO525.
HO530 39-43 Bourke Street, Melbourne	Contributory Recommend be included in HO500 Bourke Hill Precinct and identified as contributory. Recommend remove HO530.
HO536 73-77 Bourke Street, Melbourne	Significant Citation prepared (and attached to this report), and retain individual HO.
HO872 Veterinary and Agriculture Sciences Building, University of Melbourne	Significant Citation prepared (and attached to this report), and retain individual HO.
HO820 Richard Berry Building (now Peter Hall Building), University of Melbourne	Significant Citation prepared (and attached to this report), and retain individual HO.
HO409 54 Clowes Street, South Yarra	Not significant or contributory Heritage building has been demolished. Recommend remove HO409.
HO406 31 Clowes Street, South Yarra	Not significant or contributory Heritage building has been subject to successive phases of change. Recommend remove HO406 but retain in HO6 South Yarra Precinct as non-contributory.
HO412 783 Punt Road, South Yarra	Contributory To be reviewed/confirmed in the forthcoming South Yarra Heritage Review (separate study).
HO454 310 Walsh Street, South Yarra	Significant Citation prepared (and attached to this report), and retain individual HO.

HO no & address	Assessment & recommendation
HO457 322 Walsh Street, South Yarra	Contributory Recommend be included in an extended HO6 South Yarra Precinct and identified as contributory. Recommend remove HO457.
HO435 281 Walsh Street, South Yarra (more correctly 283), Melbourne Girls Grammar campus	Contributory Recommend be included in an extended HO6 South Yarra Precinct and identified as contributory. Recommend remove HO435.
HO851 Adjacent to 281 Walsh Street, South Yarra (more correctly 281), Melbourne Girls Grammar campus	Not significant or contributory Heritage building has been demolished. Recommend remove HO851.
HO852 285 Walsh Street, South Yarra, Melbourne Girls Grammar campus	Significant Citation prepared (and attached to this report). Recommend be included in an extended HO6 South Yarra Precinct and identified as significant. Recommend remove HO852.
HO437 291 Walsh Street, South Yarra, Melbourne Girls Grammar campus	Contributory Recommend be included in an extended HO6 South Yarra Precinct and identified as contributory. Recommend remove HO437.
HO367 157-165 City Road, Southbank	Not significant or contributory Heritage building has been demolished. Recommend remove HO367.

2.6 90-92 Bayswater Road, Kensington

The D graded property at 90-92 Bayswater Road, Kensington, was left out of the mapping of the adjoining small precinct of HO211. However, the building faces a different direction to the other properties in HO211 and was assessed here to be significant and deserving of an individual Heritage Overlay. A citation has been prepared and is attached to this report.

2.7 Westbourne Road Precinct

As identified in Table 2, two D graded properties (59 and 69 Westbourne Road, Kensington) with existing individual Heritage Overlays have been assessed here to be contributory, and are recommended to be included as contributory places in an extended HO868 Westbourne Road Precinct. A citation has been prepared for the precinct and is attached to this report.

3.0 METHODOLOGY

This heritage category conversion study had three principal tasks or components:

- Direct conversion of places which were omitted or incorrectly categorised in the exhibited Amendment C258 Heritage Inventory, using the C258 conversion methodology described above.
- A desktop review of the gradings, using the C258 conversion methodology for:
 - C graded places from the City North Heritage Review; and
 - places which were omitted or incorrectly categorised in the exhibited Amendment C258 Heritage Inventory
- An assessment of D graded places which have individual Heritage Overlays.

To be consistent with methodology used for Amendment C258, the gradings review (dot point 2 above) was largely desktop based, with some additional research including historical research undertaken, and limited field work where required.

The assessment of the D graded individual Heritage Overlay places (dot point 3) involved additional research including historical research and comparative analysis, and field work in all cases – i.e. inspections of properties from the street or public realm - save for several properties where it was known that the graded building had been demolished and replaced. This was to ensure that these places were fully reviewed and assessed so as to confirm – or not – their status as individually significant heritage places.

3.1 Desktop review

The desktop review utilised existing information on the subject buildings and places, including the following databases/sources and existing heritage studies:

- Melbourne's i-heritage database (largely reproduces information contained in individual Building Identification Forms, which in turn are taken from the earlier heritage studies, plus recent property images; this source was verified against the heritage study extracts cited below)
- Individual Building Identification Forms and extracts/citations from previous heritage studies, which include older images of the buildings (copies supplied by City of Melbourne to the consultants)
- City North Heritage Review (2013)

Nearmap was utilised for current and archived aerial images. Streetview, as available in Nearmap or Google Maps, was additionally used for current and archived images of buildings and properties from streets. This also enabled comparison with the older images of buildings included in the earlier heritage studies (and Building Identification Forms) allowing comparisons to be made, which in turn informed the current assessment and review. In some instances, it was apparent that a building had been restored, and its heritage value enhanced; alternatively, changes may have been made to buildings which diminished the heritage value.

3.2 Historical research

Regarding the historical research, primary and secondary sources which were utilised and referred to included the following:

- Sands & McDougall directories (various dates)
- MMBW detail and 160:1 plans, State Library of Victoria
- State Library of Victoria's picture collection
- National Library of Australia's Trove website, including digitised newspapers
- City of Melbourne rate books, held at Public Record Office Victoria (digitised in series VPRS 5708/P9)
- City of Melbourne, Building Application index, via www.ancestry.com

- City of Melbourne, Building Application plans, VPRS 11200, held at Public Record Office Victoria
- Miles Lewis' Australian Architectural index, via <http://www.mileslewis.net/australian-architectural.html>
- Historical Aerial Photography Collection, Landata, Victorian Land Registry Service
- *Architecture on Campus: A Guide to the University of Melbourne and its Campuses*, Phillip Goad and George Tibbits, 2013.
- *Encyclopedia of Australian Architecture*, Phillip Goad and Julie Willis, 2012
- *Melbourne's Marvellous Modernism: A Comparative Analysis of Post-War Modern Architecture in Melbourne's CBD 1955-1975*, National Trust, September 2014

3.3 Field work

As noted, the assessment of the D graded individual Heritage Overlay places involved field work. This was to the extent of inspecting or viewing the properties from the principal street or public realm, and side streets or rear lanes where relevant. Photographs were also taken, with a select image included in the citation for those places which were assessed as significant, and for which a statement was prepared (and is attached to this report).

Some limited field work was also undertaken for the places subject to the desktop review, as per the Amendment C258 methodology. This was undertaken where the desktop review sources, including Nearmap and Streetview images, were inconclusive as to the current condition or situation of the subject buildings. The location of some buildings, including those sited in laneways and partly concealed in the electronic views referred to above, also required field work in order to complete the assessment and confirm the heritage grading.

3.4 Assessing significance

Save for the places which were omitted or incorrectly categorised in the exhibited Amendment C258 Heritage Inventory, and were directly converted to the significant or contributory heritage category using the C258 conversion methodology, this heritage category conversion study included a review of the significance of the remaining places.

The assessment of significance had regard for the City of Melbourne Clause 22.04 and Clause 22.05 heritage category definitions reproduced above at Section 2.3.

The assessment also had regard for, and referred to, relevant heritage assessment criteria, as per the criteria recommended in the VPP Planning Practice Note 1, Applying the Heritage Overlay, August 2018. The criteria are:

- Criterion A: Importance to the course or pattern of our cultural or natural history (historical significance).
- Criterion B: Possession of uncommon, rare or endangered aspects of our cultural or natural history (rarity).
- Criterion C: Potential to yield information that will contribute to understanding our cultural or natural history (research potential).
- Criterion D: Importance in demonstrating the principal characteristics of a class of cultural or natural places or environments (representativeness).
- Criterion E: Importance in exhibiting particular aesthetic characteristics (aesthetic significance).
- Criterion F: Importance in demonstrating a high degree of creative or technical achievement at a particular period (technical significance).
- Criterion G: Strong or special association with a particular community or cultural group for social, cultural or spiritual reasons. This includes the significance of a place to Indigenous peoples as part of their continuing and developing cultural traditions (social significance).
- Criterion H: Special association with the life or works of a person, or group of persons, of importance in our history (associative significance).

3.4.1 *Significant places*

The Clause 22.04 and Clause 22.05 definition for heritage places identified as ‘significant’ uses ‘higher order’ language and descriptors to emphasise the importance of these places, including their individual importance and/or their importance to a precinct where relevant. It provides for a range of place types to be considered significant, and allows for a range of attributes to be taken into consideration when assessing this higher level heritage grading.

As noted, the places identified as – or assessed to be - significant in the attached Excel spreadsheet include a brief explanation/rationale for the significant grading. For those D graded individual Heritage Overlays which have been changed to significant, a more detailed citation has been prepared.

The explanations/rationales in the spreadsheet, and the citations for the D graded individual Heritage Overlays, variously identify that the significance of the places is due to their historic values, including their important histories, historical uses or associations; their representative value, as good and/or intact examples of a type of place; their architectural and aesthetic values, including intactness, distinctive design features, early through to post-war dates of construction, and building function or uses; and in more limited instances (in this study) social value.

3.4.2 *Contributory places*

The definition for contributory places is more inclusive and wide-ranging and deliberately set below significant. This definition places emphasis on a contributory place being part of a larger place or collection of related place types, as typically occurs with a heritage precinct. The place effectively ‘contributes’ to the heritage significance and character of the precinct; can be a representative example of a place type, period or style; and/or has a visual or stylistic connection to, or relationship with, similar or like places in the precinct. Contributory places can also combine to demonstrate the historic development of a precinct.

Most of the heritage places reviewed in this current study were assessed as being contributory. Also as noted, some of the D graded individual Heritage Overlay places were found to be contributory. This is explained further below.

3.4.3 *Non-contributory places*

In some limited instances, as identified in the desktop research and/or field work, a graded place was found to be neither significant nor contributory, mainly due to the building having been demolished, or modified and changed to such an extent that its heritage value was largely or fully extinguished. This applied to both the desktop reviewed places as well as the D graded individual Heritage Overlay places. The latter is explained below.

The Excel spreadsheet entry was updated to reflect a downgrading of the place with a comment included in the spreadsheet to that effect.

3.5 **D graded places with individual Heritage Overlays**

For the D graded places with individual Heritage Overlays in this study, and due to the nature of the existing heritage control, a more detailed assessment was undertaken to confirm or clarify the nature of the significance, and to determine if the individual Heritage Overlay control was justified.

The results of this assessment are summarised in Table 2 above.

An initial assessment of each place was undertaken, including a site visit, together with reference to the existing Building Information Forms, plus additional historical research. This was followed by comparative analysis with similar places. Documentation (in the form of a citation) was then prepared for those individual places which were assessed as significant and recommended to be retained as an individual Heritage Overlay place. This also included comparative analysis.

3.5.1 *Identified as significant*

The documentation for each place identified as significant, in the form of a citation, is attached to this report, and includes a photograph, place map, an extract from the Heritage Overlay map, brief history, brief description, comparative analysis, identification of relevant heritage criteria, and a statement of significance in the 'what', 'how' and 'why' format. References are also identified, as are the relevant Schedule to the Heritage Overlay controls including paint controls where these are already in place; and where required recommendations are included about updating or correcting the Heritage Overlay maps, and the Heritage Overlay Schedule information relating to place names and addresses.

One D graded individual Heritage Overlay place in South Yarra (285 Walsh Street, part of the Melbourne Girls Grammar campus) was assessed as being significant, but is recommended to be included in the adjoining precinct as a significant place.

3.5.2 *Identified as contributory*

Some D graded individual Heritage Overlay places were not assessed as significant, and did not in the opinion of the consultants reach the threshold established under the Clause 22.04 and Clause 22.05 definition of significant. Some of these places were more appropriately assessed to be contributory to a Heritage Overlay precinct, either a precinct in which the place is already located; or an adjoining/nearby precinct which is recommended to be extended to include the place. This finding/recommendation is recorded in the Excel spreadsheet and summarised at Table 2 above.

3.5.3 *Not significant or contributory*

While some D graded places might retain some heritage value, under the current system and definitions, the value was not sufficient to justify retention of the individual Heritage Overlay status. Also, in many instances, the character, intactness or location of the property did not provide for inclusion in an existing heritage precinct (as per the places identified as contributory, above). In these instances, the individual Heritage Overlay was recommended to be removed from the property.

In two instances, while the individual Heritage Overlays were recommended for removal, and the properties were not assessed as being contributory to an existing heritage precinct, their location within an existing precinct resulted in a recommendation that they be retained in the precinct as non-contributory places.

The properties are 106-108 Queensberry Street, Carlton, where the individual HO96 is recommended for removal while the place is recommended to be retained in the HO1 precinct; and 31-33 Clowes Street, South Yarra, where the individual HO406 is recommended for removal while the place is recommended to be retained in the HO6 precinct.

3.5.4 *Mapping corrections*

There also examples (mainly in Kensington) of where a D graded place was incorrectly left off the mapping of an adjoining Heritage Overlay place, or the Heritage Overlay map was applied to the incorrect place. These were identified by Council in the Excel spreadsheet, and addressed through the assessment undertaken for this study. Instances of these historical mapping errors and issues are identified and commented on, with the relevant recommendations, in Table 2.

3.5.5 *Comparative analysis*

The draft citations were initially completed without documenting comparative analysis. This was largely on the basis of the significant heritage place already being included in the Heritage Overlay. However, it was subsequently agreed to revise these documents to include a comparative analysis section, which sheds more light on the relative – or comparative - heritage significance of the place. This will ensure consistency with Council's other citations.

3.6 Updating the Excel spreadsheet

As noted, the results of this heritage category conversion study are documented and summarised in the attached Excel spreadsheet.

For the places subject to the desktop review (not including the C graded places in heritage precincts in the City North Review or the D graded places with individual Heritage Overlays) and re-categorised by Lovell Chen as significant, the spreadsheet was updated to identify and reflect this. Lovell Chen entered 'changed' under 'LC Check', 'significant' under 'LC Recommendation', with a brief explanation/rationale for the change included under 'LC Comment'. Note that the latter does not constitute a full statement of significance. For places subject to the desktop review which remained contributory, this was identified in the spreadsheet as 'confirmed' under 'LC Check', and the category of 'contributory' was entered under 'LC Recommendation'. Generally, no explanation or rationale was provided.

An exception to the above approach occurred with the C graded places in the City North Heritage Review (2013). Due to the relatively recent date of this study, unlike the majority of places subject to Amendment C258 or this current heritage category conversion study, a decision was made to annotate these City North Heritage Review places as 'reviewed' under 'LC Check', with the recommended new grading or category identified under 'LC Recommendation'.

The assessment of D graded places with individual Heritage Overlays is also reflected in the Excel spreadsheet. Where these places are considered to be significant, and to justify retention of their individual Heritage Overlay, the spreadsheet was updated with 'changed' under 'LC Check' (reflecting that the grading, having been assessed, is higher than 'D'), with the 'significant' category identified under 'LC Recommendation'. A brief explanation or summary of the relevant recommendation is included under 'LC Comment' (with a more detailed assessment included in the relevant citation).

Where the D graded places with individual Heritage Overlays were assessed as contributory rather than significant, then 'confirmed' was entered under 'LC Check' (reflecting that the grading, having been assessed, remained at the lower level), 'contributory' was entered under 'LC Recommendation', and a recommendation that these places be included in an existing Heritage Overlay precinct and their individual Heritage Overlay be removed, was included under 'LC Comment'.

Where the D graded places with individual Heritage Overlays (generally limited in number) were downgraded, this was entered as 'downgraded' under 'LC Check', with the category identified as 'not significant or contributory'. Brief explanations were provided under 'LC Comment'.

The Excel spreadsheet was not updated by the consultants for the places in the spreadsheet which were omitted or incorrectly categorised in the exhibited Amendment C258 Heritage Inventory, and for which the new category was applied using the direct conversion methodology of C258.

PIANO STORE OF 1926, DESIGNED BY CEDRIC BALLANTYNE. CITY NORTH REVIEW IDENTIFIES THAT IT IS OF AESTHETIC SIGNIFICANCE AND A LANDMARK BUILDING IN THE STRIPPED CLASSICAL STYLE OF FIVE STOREYS, WITH A RED BRICK AND RENDERED CORNICE, SAWTOOTH ROOF, METAL-FRAMED WINDOWS, ORIGINALLY WITH A ROW OF HOPPERS. THE FACADE IS DIVIDED INTO FOUR BAYS BY WIDE LESENES, WHICH ARE FURTHER SUBDIVIDED INTO THREE SECTIONS OF VARYING WIDTH BY NARROWER LESENES. THE DETAILING TO THE UPPERMOST STOREY IS SLIGHTLY DIFFERENT IN THAT THE NARROWER LESENES DO NOT EXTEND 'OVER' THE HORIZONTAL PANELS BETWEEN THE FLOOR LEVELS. ALSO KNOWN AS SANRO HOUSE.

Melbourne	Omitted or incorrect	Celestial Avenue	20	TBD	-	104782		Substation 23-31 Heffernan Lane, MELBOURNE VIC 3000	HO507	Little Bourke Street Precinct	C		Confirmed	Significant	THE SIGNIFICANT GRADING APPLIES TO 1920S BRICK SUBSTATION WITH A FRONTAGE TO CELESTIAL AVENUE AND AN ADDRESS OF 20 CELESTIAL AVENUE. THIS IS A SUBSTANTIAL 1920S CITY OF MELBOURNE ELECTRICAL SUPPLY SUBSTATION. IT IS EXTERNALLY INTACT, AND RETAINS ITS RED BRICK CHARACTER WITH RENDERED DETAILS, AND IS DISTINGUISHED BY AN ELABORATE (FOR A SUBSTATION) PEDIMENTED PARAPET, RED BRICK PLASTERS WHICH RISE THROUGH THE UPPER FACADE LEVELS TO THE PARAPET, AND ORIGINAL MULTI-PANED INDUSTRIAL WINDOWS. AS PER THE HERITAGE DATABASE, THIS BUILDING WAS CONSTRUCTED TO SUPPLY THE EXPANDING LIGHT INDUSTRY IN THIS AREA OF THE CAD IN THE EARLY TWENTIETH CENTURY, AND WAS ONE OF A COMPLEX OF SUBSTATIONS IN THIS PART OF THE CITY.
Melbourne	Omitted or incorrect	Celestial Avenue	15-17	Significant	-	101783		15-17 Celestial Avenue, MELBOURNE VIC 3000	HO556; HO507		B				
Melbourne	Omitted or incorrect	Collins Street	86-88	Significant	-	102158		86-88 Collins Street, MELBOURNE VIC 3000	HO572; HO504		B				

Melbourne	Omitted or incorrect	Collins Street	111-113	TBD	-	102069	Francis House	107-113 Collins Street, MELBOURNE VIC 3000	HO504	Collins East Precinct	C		Changed	Significant	THE SIGNIFICANT GRADING APPLIES TO THE BUILDING AT 111-113 COLLINS STREET, WHICH ABUTS THE WEST SIDE OF FRANCIS HOUSE WHICH IS AT 107 COLLINS STREET, AND HAS THE NAME 'FRANCIS HOUSE' TO ITS FAÇADE. THE SUBJECT BUILDING ALSO ADDONS GEORGE PARADE. THE SUBJECT BUILDING DATES FROM 1938 AND IS THE FORMER UNION BANK CHAMBERS, DESIGNED BY NOTED ARCHITECTS WALTER & RICHARD BUTLER. IT IS A SUBSTANTIAL COMMERCIAL BUILDING OF SOME SEVEN/EIGHT STOREYS. ACCORDING TO THE I HERITAGE DATABASE: NOTABLE FEATURES INCLUDE UNPAINTED DECORATIVE BRICKWORK, IN A TWO-COLOUR BRICK FACADE DIVIDING OFF PODIUM AND UPPER LEVELS WITHIN THE NEO-CLASSIC STYLISTIC VOCABULARY USED IN THE DESIGN. THE WINDOW FRAMES AND SPANDRELS ARE ALL BRONZED, OCCUPYING VERTICAL STRIPS IN THE BUILDING, IN THE FORM OF A PILASTRADE WHICH SUPPORTS AN IMPLIED MASSIVE BRICK ENTABLATURE AT THE PARAPET. SIMILARLY IMPLIED GANT ORDER PIASTERS SUPPORT THE PODIUM LEVEL. POLISHED GRANITE TILE FACING IS USED AT GROUND LEVEL. TWO COPPER BRACKETED LAMPS ON THE PODIUM ENTABLATURE ARE FEATURES. SIGNIFICANCE: A NEAR INTACT AND SUCCESSFUL DESIGN IN THE MODERN CLASSICAL CUM MODERN MANNER WHICH POSSESSES NOTABLE METAL AND BRICK DETAILING, RELATES WELL TO THE ADDONING NEO-GEORGIAN FRANCIS HOUSE AND IS OF HISTORICAL INTEREST AS OFFICES FOR A NOW DEFUNCT BANKING COMPANY.

THIS BUILDING HAS EITHER BEEN DEMOLISHED OR HAS HAD A NEW FRONTAGE ADDED. IT PRESENTS AS A MODERN BUILDING.

Melbourne	Omitted or incorrect	Crossley Street	11-25	TBD	-	102268	Sapphire House	11-25 Crossley Street, MELBOURNE VIC 3000	HO500	Bourke Hill Precinct	Contributory		Changed	Significant	THIS BUILDING WAS CONSTRUCTED IN 1957, THE ARCHITECT HAS NOT BEEN IDENTIFIED. IT IS INCLUDED IN THE NATIONAL TRUST PUBLICATION 'MELBOURNE'S MARVELLOUS MODERNISM' (2014), DESCRIBED AS A TWO-STORY BRICK MASONRY BUILDING WITH RECESSED GLAZING WITHIN PROTRUDING WHITE WINDOW FRAMES, TERRACOTTA FACING TO GROUND LEVEL SHOPFRONTS WHICH ARE LARGELY INTACT, AS IS MOST OF THE EXTERIOR. A SEPARATE OFFICE ENTRANCE AND STAIR IS AT THE SOUTH END. AS PER THE NATIONAL TRUST PUBLICATION, THIS IS AN EXAMPLE OF A MODEST CITY BUILDING WHICH EMBRACED THE MODERNIST THEME OF APPARENT WEIGHTLESSNESS, WHERE THE UPPER FLOOR(S) PROJECTED ABOVE A RECESSED GROUND FLOOR. THIS APPROACH WAS ACHIEVED TO STRIKING EFFECT WITH SAPPHIRE HOUSE. IT ALSO PROVIDED AN APPROPRIATE HUMAN SCALE TO THE TIGHT LANEWAY CONTEXT AND IS ONE OF FEW MODERNIST BUILDINGS IN CCZ LANEWAYS. THE BLUE TILING TO THE SHOPFRONTS MAY REFERENCE THE COLOUR OF SAPPHIRES. HURWITZ GEMS REMAIN IN PART OCCUPATION OF THE BUILDING.

DOES NOT RANK WITH OTHER SIGNIFICANT GRADED SHOPS IN THIS PRECINCT.	
Melbourne	Omitted or incorrect	Little Bourke Street	198	TBD	-	105887		198 Little Bourke Street, MELBOURNE VIC 3000	HO507	Little Bourke Street Precinct	B		Confirmed	Significant		THIS IS A TWO-STORY SHOP AND RESIDENCE CONSTRUCTED IN 1895. PART OF A ROW OF THREE VERY DIFFERENT AND DISTINCTIVE HIGHLY GRADED COMMERCIAL BUILDINGS, CONCENTRATED IN THIS SECTION OF LITTLE BOURKE STREET. ACCORDING TO THE NOTABLE BUILDING CITATION: IT IS AN ESSENTIAL PART OF THE CHINATOWN CHARACTER. IT IS OF RENDERED BRICKWORK WITH THREE ARCHED WINDOWS, FLANKED BY PLASTER PILASTERS SUPPORTING DECORATIVE ARCHES MARKED WITH AN EXAGGERATED KEYSTONE. SUCH BUILDINGS ARE CONSIDERED VITAL TO THE RETENTION OF THE SCALE AND CHARACTER OF CHINATOWN.	
Melbourne	Omitted or incorrect	Little Bourke Street	232	TBD	-	520598		232 Little Bourke Street, MELBOURNE VIC 3000	HO696; HO507		B		Confirmed	Significant		ONE OF A ROW OF FOUR BI-CHROMATIC BRICK TWO-STORY SHOPS AT 232-238 LITTLE BOURKE STREET, WHICH MAY RETAIN ORIGINAL SHOPFRONT FORMS, IF NOT DETAILS. BIF INCLUDES A HISTORY WHICH SUGGESTS THE BUILDING PRE-DATES 1895 AND WAS ORIGINALLY THREE SHOPS, WHICH WAS CONVERTED TO FOUR AND RE-FACED IN 1895. THE RED BRICK FIRST FLOOR FACADE AND PARAPET STRETCHES ACROSS THE FOUR SHOPS AND IS UNDIVIDED. A PEDIMENT WITH 'A.D. 1895' IS LOCATED CENTRALLY. OLD IMAGE INDICATES THE BRICKWORK WAS PAINTED, BUT THIS HAS BEEN REMOVED, REVEALING INTACT PALE BRICK STRINGCOURSES AND DETAILING TO ARCHED FIRST FLOOR WINDOWS. THERE IS ONE WINDOW PER SHOP, ASYMMETRICALLY ARRANGED ACROSS THE FACADE, WHICH IS AN UNUSUAL DETAIL. NOTABLE BUILDING BIF DESCRIBES IT AS TYPICAL OF THE SMALL SHOPS FOUND IN CHINATOWN AT THE TURN OF THE NINETEENTH CENTURY, WHICH HELP TO RETAIN THE LOW-SCALE CHARACTER OF CHINATOWN.	
Melbourne	Omitted or incorrect	Little Bourke Street	234	TBD	-	520597		234 Little Bourke Street, MELBOURNE VIC 3000	HO696; HO507		B		Confirmed	Significant		ONE OF A ROW OF FOUR BI-CHROMATIC BRICK TWO-STORY SHOPS AT 232-238 LITTLE BOURKE STREET, WHICH MAY RETAIN ORIGINAL SHOPFRONT FORMS, IF NOT DETAILS. Melbourne	Omitted or incorrect	Little Bourke Street	119-121	TBD	-	520416		119-121 Little Bourke Street, MELBOURNE VIC 3000	HO690; HO507		A		Confirmed	Significant	TWO THREE-STORY SHOPS AT 119-121 LITTLE BOURKE STREET ADJOIN BUT ARE PART OF THE LARGER C.1915 CHINESE MISSION CHURCH (MISSION HALL) BUILDING AT 123-127 LITTLE BOURKE STREET. DESIGNED BY NATHAN BARNET. ACCORDING TO I HERITAGE: THE HALL AND TWO SHOPS WERE BUILT IN THE CENTRE OF THE COMMERCIAL AND WAREHOUSE DISTRICT IT SERVED AND, APART FROM THE ECCLESIASTICAL POINTED ARCHWAYS AND CEMENT DETAIL, APPEARED TO BLEND WITH THE UTILITARIAN COMMERCIAL BUILDINGS AROUND IT. NOTABLE FEATURES INCLUDE CEMENT DETAILS AND BRICK FINISHES. AN AUSTERE VENETIAN GOTHIC REVIVAL WAREHOUSE-LIKE FORM WHICH HONESTLY WEARS ITS DUAL FUNCTION BY CONFINEMENT OF HEAVY GROUND LEVEL CEMENT ORNAMENTATION AROUND THE CHURCH ENTRANCE AND THE MORE AUSTERE SHOPFRONT OPENINGS ADJOINING (REPLACED). THE UPPER LEVEL ARCHITECTURE IS UNIFORMLY EXTENDED ACROSS THE BUILDING FACADE, COMPRISING AN ENRICHED CORNICE, EXPRESSED PIERS, STRING AND IMPOST MOULDS AND THE ALL-PERVADING POINTED ARCHES WHICH ARE VISIBLE ON ALL FACES. FOLIATED CAPITALS AND BROAD CEMENT ARCHITRAVES MAKE UP THE DETAILS. SIGNIFICANCE: HIGHLY EXPRESSIVE OF THE MANY MISSION CHURCHES ESTABLISHED IN THE CHINESE QUARTER, THE INHERENT EXTERNAL DIFFERENCES BETWEEN THESE AND CHURCH HALLS FOR THE EUROPEAN COMMUNITY AND THEIR CONSEQUENT VISUAL COMPLIANCE WITH THEIR CONTEMPORARY NEIGHBOURHOODS ALSO REPRESENTS THE EFFORTS OF C H CHEONG (INSTRUMENTAL IN ESTABLISHING THE MISSION) IN HIS PURSUIT OF CHRISTIAN MISSIONS AMONG HIS PEOPLE.

North & West Melbourne	C in City North precinct	Capel Street	122	TBD	Significant	101557		122 Capel Street, NORTH MELBOURNE VIC 3051	HO3	North & West Melbourne Precinct	C		Reviewed	Significant		THIS IS ONE OF A ROW OF EARLY SIMPLY DETAILED HISTORIC DWELLINGS IN THIS AREA OF CAPEL STREET, WHICH MOSTLY DATE FROM THE EARLY 1870S. CAPEL STREET WAS ONE OF THE FIRST STREETS FOR LAND SALES, IN 1852, AND ACCORDING TO THE CITY NORTH REVIEW IT REMAINS 'EARLY RESIDENTIAL BUILDING STOCK' IN THE FORM OF TERRACE HOUSES. ACCORDING TO HERITAGE DATABASES: THIS IS AN EARLY VICTORIAN BUILDING, BUILT TO THE PROPERTY BOUNDARY AND INCORPORATING A PARAPET WITH A MOULDED STRINGCOURSE AS THE PRIMARY ELABORATION TO THE OTHERWISE SIMPLE STRUCTURE. THE RESIDENTIAL FENESTRATION OF DOUBLE HUNG WINDOWS AND DOOR WITH HIGHLIGHT IS INTACT. THE POSITION ON THE PROPERTY BOUNDARY, THE SLIGHTLY OFF CENTRE DOOR AND THE STRINGCOURSE ARE CONSISTENT WITH AN EARLY DATE. I HERITAGE ALSO DESCRIBES CAPEL STREET AS A PARTICULARLY FINE STREETScape IN NORTH MELBOURNE, IMPORTANT FOR ITS CONSISTENCY AND THE EARLIER DATE OF CONTRIBUTING BUILDINGS. WHILE MODEST AND UNASSUMING, THIS BUILDING MAKES A SIGNIFICANT CONTRIBUTION TO THIS EARLY STREETScape. IT IS ALSO PART OF A GROUP OF EARLY AND COMPLEMENTARY BUILDINGS WHICH COLLECTIVELY HAVE HIGH HERITAGE VALUE.

North & West Melbourne	C in City North precinct	Capel Street	124	TBD	Significant	101556		124 Capel Street, NORTH MELBOURNE VIC 3051	HO3	North & West Melbourne Precinct	C		Reviewed	Significant	ONE OF A PAIR WITH 126 CAPEL STREET, CONSTRUCTED IN 1873. ACCORDING TO I HERITAGE DATABASE: THIS IS A TWO-STORY PARAPETTED ROW HOUSE PAIR OF STUCCOED BRICK WHICH HAS BEEN BUILT ON THE BUILDING LINE. AN AUSTERE, BRACKETED CORNICE AND A STRING MOULD ARE THE ONLY DECORATION OF THE SYMMETRICALLY FENESTRATED FACADE. I HERITAGE DATABASE STATEMENT OF SIGNIFICANCE: ARCHITECTURALLY, TYPICALLY AUSTERE, EARLY ROW HOUSES OF NO ARCHITECTURAL PRETENSIONS, BUT IS AN IMPORTANT PART OF A COHESIVE AND EARLY STREETScape. HISTORICALLY, LIKE THE REST OF CAPEL STREET, A REPRESENTATIVE SLICE OF THE AREA'S SKILLED LABOURERS AND HOME-OCCUPATIONS RESIDING IN LEASED PREMISES. I HERITAGE ALSO DESCRIBES CAPEL STREET AS A PARTICULARLY FINE STRETScape IN NORTH MELBOURNE, IMPORTANT FOR ITS CONSISTENCY AND THE EARLIER DATE OF CONTRIBUTING BUILDINGS. THIS BUILDING MAKES A SIGNIFICANT CONTRIBUTION TO THIS EARLY STRETScape. IT IS ALSO PART OF A GROUP OF EARLY AND COMPLEMENTARY BUILDINGS WHICH COLLECTIVELY HAVE HIGH HERITAGE VALUE.

EXISTING HERITAGE OVERLAY Yes (HO205)

PLACE TYPE Individual Heritage Place

PROPOSED CATEGORY Significant

FORMER GRADE D

DESIGNER / ARCHITECT / ARTIST: Not known

BUILDER: R Cason

DEVELOPMENT PERIOD: Federation/Edwardian Period (1902-c. 1918)

DATE OF CREATION / MAJOR CONSTRUCTION: c. 1909-10

SITE HISTORY

The subject residence was constructed in c. 1909-10, replacing an earlier three-room timber cottage that dated from the c. mid-1880s (CoM, notice of intent, no. 1639, 26 October 1909; Allom Lovell & Associates, 1999).

Bayswater Road, Kensington, near Epsom Road, had developed with a number of residences by the mid-1880s (*Sands & McDougall*, 1880). In the early twentieth century the subject property was owned by Thomas Robb, with the earlier cottage valued at £12 (Allom Lovell & Associates, 1999). In 1909, a notice of intent to build was lodged with the City of Melbourne for a four-room weatherboard house at a property in Bayswater Road owned by Agnes Robb, presumably a relation of Thomas Robb. The builder was listed as R Cason of Moonee Ponds (CoM, notice of intent, no. 1639, 26 October 1909). The house was completed by 1910 and described in the rate books as a wood house of four rooms, valued at £20 (CoM, rate books, Hopetoun Ward, 1910, rate no. 2546, PROV). By 1913, the property at 2 Bayswater Road was owned and occupied by Frederick Porter (CoM, rate books, Hopetoun Ward, 1913, rate no. 3415, PROV). Porter remained at the house until the 1940s (Allom Lovell & Associates, 1999).

SITE DESCRIPTION

The building at 2 Bayswater Road, Kensington is an asymmetrical single-storey weatherboard villa. It is L-shaped in plan, with a gable-ended bay projecting to the street; the gable finished in roughcast render with diagonal timber strapping. The roof is hipped and clad in corrugated galvanised steel with small gablets to its eastern and western ends. The dwelling is notable for its verandah which retains turned timber posts and a timber fretwork frieze. The verandah is located under the main roof. Windows are generally timber-framed double-hung sash arrangements. The tripartite window arrangement to the gable-ended bay dates from the interwar period and retains early, albeit not original, Art Deco leadlighting. The timber picket fence is not original.

COMPARATIVE ANALYSIS

Land in Kensington was sold from the 1850s, however, significant subdivision, development and population growth did not occur until the 1880s. In this period, and in the early decades of the twentieth century, the area underwent enormous change, with residences, commercial and industrial buildings, railway station (1888, 1905) and the town hall (1901) constructed. The suburb is mainly residential, with commercial/retail premises concentrated on Macaulay Road and Bellair Street. Houses from the late nineteenth and early twentieth centuries, such as the subject property, are typical of the built form of Kensington in this period, including rows of terrace houses, semi-detached pairs, detached weatherboard villas, and some more substantial residences.

Asymmetrical weatherboard villas, such as the subject residence, are a common building type, and demonstrative of the extent of residential development in the suburb in the 1900s and 1910s. By the end of the first decade of the twentieth century, buildings of this type had become favoured by builders and purchasers; and had become reasonably ubiquitous in the inner suburbs of Melbourne, including Kensington.

Other examples of Federation-era asymmetrical weatherboard dwellings in Kensington include:

- Charles Hill House, 58 Barnett Street, Kensington (HO1163, Significant, Figure 1): Edwardian-era weatherboard villa on prominent corner site. Significant as an example of the more substantial residential development in Kensington, and as a key building in a locally significant streetscape.
- Residence, 56 McCracken Street, Kensington (HO9, Significant in precinct, Figure 2): A substantial weatherboard corner Edwardian residence, with the typical diagonal planning of Edwardian design. Details throughout are rich and varied, and include fretwork to the verandah, porthole window, bracketed eaves, shingles to the gable tops, bargeboards, and coloured glass sections to window. The gable end to McCracken Street is distinguished by a box bay window with 'waisted' hood above.

- Residence, 90-92 Bayswater Road, Kensington (HO211, Significant, Figure 3): Single-storey, asymmetrical Edwardian villa with a gable-ended bay, clad in block-fronted weatherboards with decorative barge boards to the gable. Significant as a representative example of a Federation-era villa.

The subject dwelling is a largely externally intact example of this type of Federation-era villa in Kensington. While more simply detailed than the above examples, it nevertheless incorporates typical features such as the asymmetrical form and massing, with the projecting gable-ended bay; the verandah under the main roof, with its turned timber posts and timber fretwork frieze; and other original details including the roughcast render, timber fretwork and timber strapping to the gable. The later interwar window differs to the comparative examples but does not diminish the heritage value of the subject dwelling.

ASSESSMENT AGAINST CRITERIA

CRITERION A

Importance to the course or pattern of our cultural or natural history (historical significance).

CRITERION B

Possession of uncommon rare or endangered aspects of our cultural or natural history (rarity).

CRITERION C

Potential to yield information that will contribute to an understanding of our cultural or natural history (research potential).

✓

CRITERION D

Importance in demonstrating the principal characteristics of a class of cultural or natural places or environments (representativeness).

CRITERION E

Importance of exhibiting particular aesthetic characteristics (aesthetic significance).

CRITERION F

Importance in demonstrating a high degree of creative or technical achievement at a particular period (technical significance)

CRITERION G

Strong or special association with a particular community or cultural group for social, cultural or spiritual reasons. This includes the significance of a place to Indigenous peoples as part of their continuing and developing cultural traditions (social significance).

CRITERION H

Special association with the life or works of a person, or group of persons, of importance in our history (associative significance).

RECOMMENDATIONS

Recommended for retention in the Schedule to the Heritage Overlay of the Melbourne Planning Scheme as an Individual Heritage Place.

Extent of Overlay

Figure 4 Detail of 4HO map with the subject site indicated
 (Source: Melbourne Planning Scheme)

Recommendations for the Schedule to the Heritage Overlay (Clause 43.01) in the Melbourne Planning Scheme:

MELBOURNE PLANNING SCHEME

EXTERNAL PAINT CONTROLS	Yes
INTERNAL ALTERATION CONTROLS	No
TREE CONTROLS	No
OUTBUILDINGS OR FENCES (Which are not exempt under Clause 43.01-3)	No
TO BE INCLUDED ON THE VICTORIAN HERITAGE REGISTER	No
PROHIBITED USES MAY BE PERMITTED	No
ABORIGINAL HERITAGE PLACE	No

STATEMENT OF SIGNIFICANCE

SITE NAME	2 Bayswater Road, Kensington
STREET ADDRESS	2 Bayswater Road, Kensington

What is significant?

The dwelling at 2 Bayswater Road, Kensington, which was constructed in c. 1911-12, and is a single-storey weatherboard Federation-era villa.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the asymmetrical form and massing, hipped and gabled roof form, projecting gable-ended bay and adjoining verandah.
- Original Federation-era materials and details including weatherboard cladding, roughcast render and timber strapping.
- Leadlight window.

Later elements including the timber picket fence are not significant.

How it is significant?

The dwelling at 2 Bayswater Road, Kensington, is of local representative significance to the City of Melbourne.

Why it is significant?

The c. 1911-12 dwelling at 2 Bayswater Road, Kensington is a representative example of a Federation-era villa, as was erected in the suburb in this period, and is largely externally intact. It has an asymmetrical form and massing, given emphasis by a gable-ended bay which projects to the street. The gable is finished in typical materials such as roughcast render and diagonal timber strapping, with a later but finely detailed tripartite leadlight window in the projecting bay. The verandah, again typically located under the main roof, is distinguished by its turned timber posts and timber fretwork frieze.

DATE OF CREATION / MAJOR CONSTRUCTION: Pre-1882

SITE HISTORY

The exact construction date of the dwelling at 17 Westbourne Road, Kensington, is not known, although it is understood to predate 1882 (Allom Lovell & Associates, 1999).

In 1872, 54 building allotments on Kensington hill, which incorporated Westbourne, Belmont and Bayswater roads were auctioned (*The Argus*, 1 August 1872: 2). Newspaper advertisements indicate that some early development of timber cottages had taken place by the late 1870s and into the early 1880s, in some cases related to the area's proximity to Flemington Racecourse (*The Argus*, 27 July 1878: 3, 23 April 1880: 2; *Age*, 12 March 1879: 4). As noted, the exact construction date of the subject building is not known, and due to a lack of street addressing in this period, the *Sands & McDougall* directory is also inconclusive on the building's early history. The municipal rate books of 1882-3 record T L Robb as the owner of a four-room wooden house with a Net Annual Value of £18 and a population of four. The house was occupied by William Travers (later spelt Travis), a butcher. The house was owned by Robb, who also owned the shop at 43 Epsom Road (HO230), at the corner of Bayswater Road and a short walk from the subject dwelling, which was built in c.1879 (Allom Lovell & Associates, 1999: 43 Epsom Road, Kensington); and a number of other cottages and houses in this part of Kensington, until at least 1887. Travis remained as tenant of the subject dwelling until 1893 (Allom Lovell & Associates, 1999).

SITE DESCRIPTION

The dwelling at 17 Westbourne Road, Kensington, is a single-storey double fronted weatherboard Victorian villa with a corrugated galvanized steel transverse gabled-ended roof to the front part of the dwelling, and a large, hipped roof behind. The chimney is of brick and is likely to be an original element. Symmetrically composed, timber-framed double-hung sash windows flank the central entrance door, which is accessed via centrally located timber steps to a timber-floored verandah. The latter extends across the façade, has a skillion roof form, and incorporates timber posts with brackets to a timber frieze recalling simple verandah designs of the Edwardian period. Accordingly, it presents as a relatively recent replacement of an earlier structure. The timber picket front fence is also likely of twentieth century origin.

COMPARATIVE ANALYSIS

Land in Kensington was sold from the 1850s, however, significant subdivision, development and population growth did not occur until the 1880s. In this period, and in the early decades of the twentieth century, the area underwent enormous change, with residences, commercial and industrial buildings, railway station (1888, 1905) and the town hall (1901) constructed. The suburb is mainly residential, with commercial/retail premises concentrated on Macaulay Road and Bellair Street. Houses from the late nineteenth and early twentieth centuries are typical of the built form of Kensington in this period, and include rows of terrace houses, semi-detached pairs, and streetscapes of modest weatherboard cottages.

Pre-1882 buildings in Kensington are relatively uncommon, and the remaining examples (graded significant and contributory) demonstrate the earliest development in the suburb prior to the peak of development in the 1880s-1910s. A small number are extant in streets including Gower Street, Bayswater Street and the early thoroughfares of Macaulay and Epsom roads. Examples of generally comparable early buildings in the suburb include:

- 43 Epsom Road, Kensington (HO9, Significant in precinct, Figure 1): Single storey weatherboard corner shop of c. 1879, owned by T L Robb. It is significant as an important remnant of the earliest phase of development in this part of Kensington, and as a relatively rare Victorian building to the west of Epsom Road.
- 489-493 Macaulay Road, Kensington (HO9, Significant in precinct, Figure 2): Early Victorian two-storey commercial building, possibly a former bank, prominently located at the corner of Macaulay Road and

Gower Street. A substantial building, with an angled plan including a splayed corner entrance bay, reflecting the sharp street corner junction.

- 33 Bayswater Road, Kensington (HO9, Contributory, Figure 3): Constructed in c. 1883, this single-storey double fronted weatherboard cottage is representative of the modest type of housing in Kensington in the 1880s, despite having undergone some alterations, including to windows and replaced verandah and weatherboards.

The examples above demonstrate that there is no typical 'type' or style of building dating from this early phase of development in Kensington. The example early buildings, however, demonstrate the historical development of the suburb, with commercial premises and residences being important components of the emerging locality. The two-storey building at 489-493 Macaulay Road is unusual in this context, but its more substantial form and brick materiality reflects its likely original use as a bank. Both the shop at 43 Epsom Road, constructed for T L Robb who also owned the subject residence, and the cottage at 33 Bayswater Road are simple weatherboard gable roofed structures, of modest size and limited detailing. The subject residence is similar in style and form to these two buildings, albeit most closely to 33 Bayswater Road which is almost identical. However, the latter building has undergone more extensive change and as such, the subject residence is a more intact example.

City of Melbourne Heritage Review

Allom Lovell and Associates, 1999

STATEMENT OF SIGNIFICANCE

SITE NAME 17 Westbourne Road, Kensington

STREET ADDRESS 17 Westbourne Road, Kensington

What is significant?

The Victorian dwelling at 17 Westbourne Road, Kensington, which was constructed in the pre-1882 period, and is a single-storey weatherboard house.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the simple symmetrical form and massing; limited detailing; and transverse gabled-ended roof to the front part of the dwelling.
- Surviving original Victorian-era fabric.

Later elements including the verandah posts and frieze, and timber picket front fence, are not significant.

How it is significant?

The Victorian dwelling at 17 Westbourne Road, Kensington is of local historical and representative significance to the City of Melbourne.

Why it is significant?

The dwelling at 17 Westbourne Road, Kensington, is of historical significance. While the exact construction date is not known, the documentary evidence (such as municipal rate books) refers to the dwelling in 1882-3, when T L Robb was the owner. This places the house as a comparatively early dwelling in Kensington, and in this area of Westbourne Road where allotments were sold from the 1870s. The modest Victorian form and simple detailing of the dwelling reinforces the early date. Moreover, Robb was an owner of several other properties in this part of Kensington, including the historic corner shop at 43 Epsom Road which is also timber and of modest form and detailing. The significance of the subject dwelling is enhanced by its connection with other early and related buildings in this area of Kensington, which together help demonstrate aspects of local nineteenth century development.

The dwelling at 17 Westbourne Road, Kensington, is also of representative heritage value, as a modest Victorian house which demonstrates its relatively early date through its simple symmetrical form and massing; limited detailing; and transverse gabled-ended roof to the front part of the dwelling. While the verandah is later, the overall

Victorian character is largely retained. The elevated entrance also enhances the presentation of the dwelling to the street.

PROPOSED CATEGORY Significant

FORMER GRADE D

DESIGNER / ARCHITECT / ARTIST: Not known

BUILDER: Not known

DEVELOPMENT PERIOD: Interwar Period (c.1919- c.1940)

DATE OF CREATION / MAJOR CONSTRUCTION: c. 1924-25

SITE HISTORY

The house at 17 Bayswater Road, Kensington, was constructed in c. 1924-25. A building application was made to the City of Melbourne to construct the house on 4 February 1924. The value of the proposed house was £829 (CoM, Building Application Index, 17-19 Bayswater Road). The 1924 municipal rate books list the property as vacant land owned by Albert McLaughlin (CoM, rate books, 1924, Hopetoun ward, rate no. 3620). The following year, McLaughlin's residence was completed, and described in the rate books as a four roomed house, with an average annual value of £50 (CoM, rate books, 1925, Hopetoun ward, rate no. 3620). According to the *Sands & McDougall* directories, McLaughlin resided in the house for over 45 years (Allom Lovell & Associates, 1999).

SITE DESCRIPTION

The house at 17 Bayswater Road, Kensington is a single-storey brick bungalow. While it dates to the early 1920s, it displays some late Federation period elements in its design and form, including its red brick expression, hipped roof clad in unglazed Marseilles-pattern terracotta tiles, and roughcast rendered gables with timber strapping. The house presents a broad gable end to the street clad in roughcast render with simple timber strapping. Ridges are embellished with terracotta finials while side pitches terminate at red brick parapets with concealed gutters and corbelled brick end details. The house is elevated above a deep front garden. Concrete steps from the garden rise to a brick portico located centrally on the front façade. This element reiterates motifs present on the broader building with a terracotta-clad roof terminating at a roughcast gable and raised on turned timber posts rising from a red brick balustrade. The undersides of the portico's broad eaves are clad in timber lining boards while the ceiling is of timber-strapped lightweight sheet. The portico is flanked by canted bay windows, each in a tripartite configuration with broad overhanging awnings in unglazed terracotta tiles.

COMPARATIVE ANALYSIS

Land in Kensington was sold from the 1850s, however, significant subdivision, development and population growth did not occur until the 1880s. In this period, and in the early decades of the twentieth century, the area underwent enormous change, with residences, commercial and industrial buildings, railway station (1888, 1905) and the town hall (1901) constructed. The main period of development in the suburb was between the 1880s and 1910s, with limited construction taking place in the 1870s and the interwar period. This is reflected in the built fabric of the locality, which is predominantly Victorian and Edwardian-era residential buildings. Interwar buildings in Kensington, such as the subject property, tended to be infill of the few remaining vacant blocks that had not previously been developed. As such, interwar residences are sporadically positioned within Victorian and Edwardian streetscapes, again as per the subject property, and often also at the perimeter of the suburb. Contributory interwar houses are located in precincts in streets including Eastwood Street, Parsons Street and Rankins Road.

Interwar residences in Kensington, such as the subject dwelling, are generally of brick construction, however given the relatively small number of buildings from this period, there is no dominant style or form, although the bungalow form tended to be relatively common. While some of these houses represent more contemporary trends, such as the attic bungalow residence at 165 Rankins Road (cited below) other interwar residences in the suburb drew on earlier stylistic cues, including Federation forms with projecting wings.

While there a number of contributory graded interwar residences in Kensington, only a small number of interwar houses in Kensington have been identified as being significant. These include:

- Residence, 83 Bayswater Road, Kensington (HO204, Significant, Figure 1): A single storey, simply detailed red brick interwar bungalow of 1921-22. It adopts an L shaped plan with a projecting gabled bay and adjoining wide verandah to the front. It is significant as a representative example of a local interwar

brick bungalow, the original part of which is largely externally intact, with a handsome presentation to the street.

- Alfred White's house, 165 Rankins Road, Kensington (HO1164, Significant, Figure 2): A two storey, symmetrical Arts & Crafts bungalow of c. 1925, and an unusual style for the area. This is a prominent building in the streetscape, featuring a central two storeyed projecting porch with surmounting balcony, and rough cast stucco with clinker brick detailing.
- 35-45 Derby Street, Kensington (HO9, Significant in precinct, part shown at Figure 3): This is a row of six modest interwar single-storey semi-detached dwellings, in free-standing pairs. They are unusual in the Kensington context, and gain significance from being a largely intact group. Features of note include the pairs at either end which have rendered gabled facades with return side walls leading through arches to side entrance bays, set in contrasting face brick gables. The central pair has arched entries to the front gables.
- Waddington's Houses, 4 and 6 Parsons Street, Kensington (HO1167, Significant in precinct, Figure 4): A later (1935-6) interwar pair of Spanish Mission style bungalows. Detailing includes twisted columns to the portico, a canted bay window and expressed brickwork detailing to rendered facades.

The subject dwelling is a largely externally intact interwar brick bungalow, with modest detailing, a broad gable and some Federation-era elements. It broadly compares with other single-storey free-standing examples of the early 1920s such as the bungalow at 83 Bayswater Road. While it is less substantial than the residence at 165 Rankins Road, which is unusual in the Kensington context, and less detailed than the later Parsons Road pair, the subject dwelling helps to demonstrate the diversity of interwar dwellings in the area, the fact of there not being a dominant or typical style for these residences in Kensington, and the use (in the earlier interwar examples) of previous stylistic cues, including Federation-era forms.

STATEMENT OF SIGNIFICANCE

SITE NAME 17-19 Bayswater Road, Kensington

STREET ADDRESS 17-19 Bayswater Road, Kensington

What is significant?

The c. 1924-5 single-storey brick bungalow at 17-19 Bayswater Road, Kensington.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the single-storey bungalow form, hipped roof with broad gable end, and elevated and gabled central portico.
- Original materials and details including red brick, Marseilles-pattern terracotta tiles and terracotta finials, roughcast render, timber strapping and turned timber posts.

How it is significant?

The dwelling at 17-19 Bayswater Road, Kensington, is of local representative significance to the City of Melbourne.

Why it is significant?

The dwelling at 17-19 Bayswater Road, Kensington, is a representative example of an early 1920s bungalow, albeit one which displays some late Federation elements in its design and form. These include the red brick expression, hipped roof clad in unglazed Marseilles-pattern terracotta tiles with roof ridges embellished with terracotta finials, and roughcast rendered gables with timber strapping. The house is also distinguished by its high level of external intactness and its elevated presentation, with steps rising to a centrally located brick portico. The latter reiterates motifs present on the broader building, including the terracotta-clad roof with roughcast timber-strapped gable. Turned timber posts which rise from a red brick balustrade, and the flanking canted bay windows with broad overhanging awnings, give further emphasis to the prominent portico.

FORMER GRADE D

DESIGNER / ARCHITECT / ARTIST: Thomas Watts

BUILDER: Not known

DEVELOPMENT PERIOD: Victorian Period (1851 – 1901)

DATE OF CREATION / MAJOR CONSTRUCTION: c. 1882

SITE HISTORY

The subject dwelling was constructed in c. 1882. It appears to have been one of three brick villas (nos 15, 17 and 19) constructed at the north-west end of Gower Street to a design by architect Thomas Watts. Watts called for tenders for their construction in March 1882 (*The Argus*, 10 March 1882: 3). The municipal rate books of 1883-84 describe the villa residence as a six-room brick house, with a Net Annual Value of £40. It was owned by Edward Cooper and occupied by Robert J McCulloch (Allom Lovell & Associates, 1999). The Melbourne and Metropolitan Board of Works (MMBW) detail plan of 1897 shows the group of three villa residences. The central villa (no. 17) has been demolished and replaced, however no. 15 also survives (HO232)

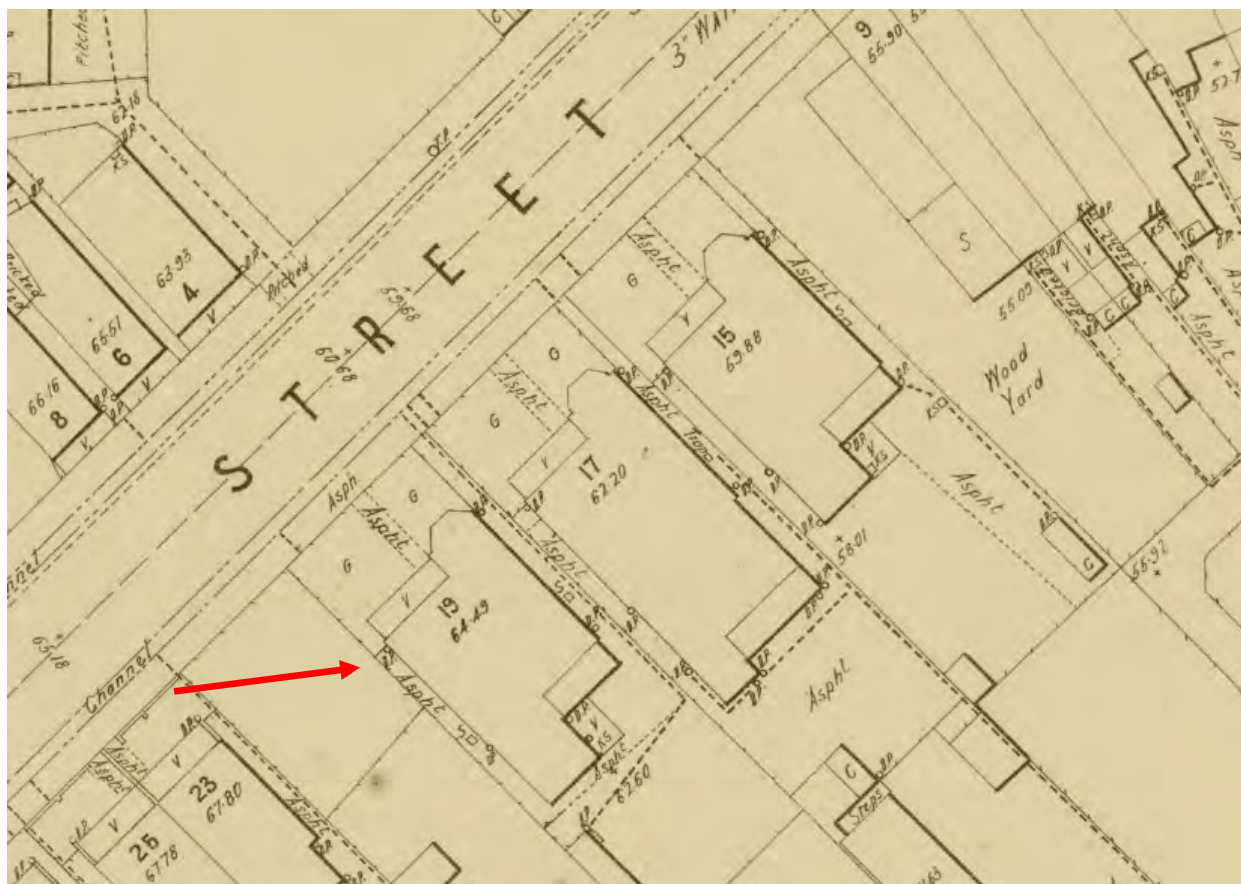

Figure 1 MMBW detail plan, no. 871, 1897, with subject villa residence indicated (Source: State Library of Victoria).

SITE DESCRIPTION

The house at 19 Gower Street, Kensington, is an asymmetrical single-storey Victorian villa. It is of bichrome brick construction with a projecting bay to the street. The roof is hipped and clad in slate with bracketed eaves. Chimneys are likewise of bichromatic construction, with moulded cappings. The projecting wing incorporates a canted bay with windows to each of its three faces. Windows are simple timber-framed double-hung sash arrangements. A verandah to the street is timber-framed with an ogee profile roof clad in painted corrugated steel. The building has been substantially restored in recent years with external paint removed, tuckpointing repaired and cast-iron detailing to the verandah frieze reinstated. The timber picket fence is also of recent origin.

COMPARATIVE ANALYSIS

Land in Kensington was sold from the 1850s, however, significant subdivision, development and population growth did not occur until the 1880s. In this period, as per the subject property, and in the early decades of the twentieth century, the area underwent enormous change, with residences, commercial and industrial buildings, railway station

(1888, 1905) and the town hall (1901) constructed. The suburb is mainly residential, with commercial/retail premises concentrated on Macaulay Road and Bellair Street. Houses from the late nineteenth and early twentieth centuries are typical of the built form of Kensington in this period, and include rows of terrace houses, semi-detached pairs, and streetscapes of modest weatherboard cottages. More substantial detached brick residences, such as the subject villa, are perhaps a less common building type in the suburb. Some streetscapes to the south of Macaulay Road, particularly Wolseley Parade, include groups of single-storey detached Victorian residences, although most of these are contributory graded. This includes the asymmetrical brick villa at 27 Wolseley (HO9, Contributory, Figure 2), which is less intact, with changed roof material, and of a simpler design than the subject residence. The residence also compares well with the bichrome brick asymmetrical villa at 11 Chelmsford Street (HO9, Significant in precinct, Figure 3) and exhibits many of the same characteristics and level of intactness. The most obvious comparison for the subject villa is its contemporary at 15 Gower Street (HO232, Significant, Figure 4), part of the original trio of houses with no. 17. Both these residences retain bichromatic brickwork, slate roof, brick chimneys and their original asymmetrical form.

The villa was also designed by Thomas Watts, who was a prolific architect in nineteenth century Melbourne and Victoria, designing numerous residences, banks, hotels and churches. He was known for his Italianate mansions, including Bontharambo (1858, VHR H0359), near Wangaratta; Glen Eira (1881, demolished), Caulfield; and Larnook (1881, Stonnington HO85). Within the City of Melbourne, the 1888 boom-era pair Dalmeny House (VHR H0525, HO88) and Cramond House (VHR H0482, HO89), at 21 and 23 Queensberry Street Carlton, were designed by Watts. The Miles Lewis index lists numerous houses by Watts across the municipality and broader metropolitan area during the 1880s, including in South Yarra, East Melbourne and Kensington, (Miles Lewis Australian Architectural Index, <http://www.mileslewis.net/australian-architectural/index.html>). The subject residence, although not one of Watts' grand Italianate mansions, demonstrates his high profile and productivity during this period, and his work in the suburb of Kensington.

**Flemington and Kensington
Conservation Study**

Graeme Butler and Associates, 1985

City of Melbourne Heritage Review

Allom Lovell and Associates, 2000

STATEMENT OF SIGNIFICANCE

SITE NAME 19 Gower Street, Kensington

STREET ADDRESS 19 Gower Street, Kensington

What is significant?

The c.1882 bichromatic brick Victorian villa, at 19 Gower Street, Kensington.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the asymmetrical form and massing, hipped roof and prominent chimneys, projecting canted bay and adjoining verandah.
- Original Victorian-era materials and details including bichrome brickwork with tuckpointing, slate roof cladding and bracketed eaves.

Reinstated elements, such as the verandah frieze, are sympathetic.

Later elements including the timber picket fence are not significant.

How it is significant?

The Victorian villa at 19 Gower Street, Kensington is of historical and representative significance to the City of Melbourne.

Why it is significant?

The Victorian villa at 19 Gower Street, Kensington, is of historical significance. It was constructed in c. 1882, during the Boom period in Melbourne, as one of three adjoining complementary villas (nos 15, 17 and 19 Gower Street) to a design by architect Thomas Watts. This represents an unusually substantial development and investment in Kensington for this period, with the subject dwelling clearly continuing to read as a substantial Victorian house. This aspect of significance is enhanced by the survival of 15 Gower Street (HO232).

The dwelling is also of representative heritage value, as an example of a large and highly externally intact single-storey Victorian villa of the early 1880s. It is distinguished by its asymmetrical form and massing, including the projecting canted bay and adjoining verandah, and well-executed Victorian features and details. The latter include the bichrome brickwork with tuckpointing to the façade, slate-clad hipped roof with bracketed eaves and the prominent bichrome brick chimneys.

FORMER GRADE D

DESIGNER / ARCHITECT / ARTIST: Not known

BUILDER: John Charles Pain

DEVELOPMENT PERIOD: Federation/Edwardian Period (1902-c.1918)

DATE OF CREATION / MAJOR CONSTRUCTION: c. 1906-7

SITE HISTORY

The subject residence was constructed in the early twentieth century and was one of three properties in this section of Bayswater Road owned by John Charles Pain. The 1906 municipal rate books list Pain's properties as comprising a wooden house with stables, and two sites of vacant land adjacent (CoM, rate books, 1906, Hopetoun ward, rate nos 2471-2472). For a brief period, Bayswater Road was known as Raisbeck Road, likely after the local Councillor of the same name, and this is reflected in Pain's properties being in Raisbeck Road in 1906 (CoM, rate books, 1906, Hopetoun ward, index). The following year the properties were listed on Bayswater Road, with two houses having been constructed on Pain's vacant land: a four-room wooden house and a four-room brick house, the latter being the subject residence (CoM, rate books, 1907, Hopetoun ward, rate nos 2423-2425). It is possible that Pain built both the houses; he is listed as the owner and contractor in the notice of intent to build the wooden house, and a 'C Pain' is listed at the same address on the notice, and advertised as a builder in 1905 (CoM, notice of intent, 8 June 1906, no. 57; *Sands & McDougall*, 1905). No notice of intent has been identified for the subject property.

By 1908, the residence was occupied by Edward Harvey, with a John Watson residing at the property by 1910 (Allom Lovell & Associates, 1999). Pain had sold the subject property by 1914 (CoM, rate books, 1914, Hopetoun ward, rate no. 3459).

SITE DESCRIPTION

In terms of its form, the dwelling at 59 Bayswater Road, Kensington, presents as a single-storey understated Italianate villa of the 1880s. However, it dates from 1906-7, at a time when red brick English styles had caught the popular imagination and were being constructed in large numbers in Melbourne's middle ring of suburbs. Consequently, the dwelling presents as a transitional building with its brick exterior, albeit overpainted and with render to the façade, embellished by some classical details. The roof is hipped and clad in corrugated galvanised steel, with bracketed eaves; a bullnose-profile verandah with simple cast iron lacework extends between brick wingwalls; the façade retains a pair of timber-framed double-hung sash windows; and the original rendered chimneys with molded cornices also remain. The metal picket fence is of recent construction.

COMPARATIVE ANALYSIS

Land in Kensington was sold from the 1850s, however, significant subdivision, development and population growth did not occur until the 1880s. In this period, and in the early decades of the twentieth century as per the subject property, the area underwent enormous change, with residences, commercial and industrial buildings, railway station (1888, 1905) and the town hall (1901) constructed. The main period of development in the suburb was between the 1880s and 1910s, again as per the subject property, with limited construction taking place in the 1870s and the interwar period. This is reflected in the built fabric of the locality, which is predominantly Victorian and Edwardian-era residential buildings. Typically, houses from the late nineteenth and early twentieth centuries in Kensington include rows of terrace houses, semi-detached pairs, detached villas, and some more substantial residences.

It is not unusual in the Kensington context for buildings to exhibit characteristics of an earlier design period, a trend which was less likely in other suburbs in the municipality. This demonstrates a preference for a more traditional and conservative approach to building design than was found, for example, in the municipality's more affluent suburbs such as South Yarra and East Melbourne. Also, houses of the modest scale and form of the subject property are often co-located in Kensington with other similar dwellings, in Victorian and Edwardian streetscapes. However, in this instance, the subject property is relatively isolated from similar developments, a matter of note also given its later construction date in terms of its design.

Significant examples of other modest buildings dating from the late nineteenth century and early twentieth century include:

- 1-11 Durham Street, Kensington (HO9, Significant in precinct, Figure 1): six modest Victorian single-storey rendered dwellings (c.1890-95) in a largely intact terrace row, which gain significance from their consistent form and presentation. Each pair shares a rounded central pediment to the parapet (three pediments across the row). The row provides evidence of localised late nineteenth century development in Kensington, and the speculative endeavours of TP Hughes, the builder and owner of the terrace row who was also involved in other contemporary developments in the suburb (such as a grander terrace row at 45-59 Gower Street, Kensington).
- 76-80 Tennyson Street, Kensington (HO9, Significant in precinct, Figure 2): Three distinctive single-storey Victorian terraces in a row, which were constructed in c. 1890 for owners 'Railway Empire' and were occupied by people whose trade was also listed as 'railway empire'. No 80 is the only one which retains its unpainted brick facade, demonstrating some elaborate bi-chrome brickwork, including to the pediment in the parapet. All display unusually elaborate and quite rare 'oriental' detailing, including to the elegantly high central pediments.
- Shops, 184-190 Bellair Street, Kensington (HO9, Significant in precinct, Figure 3): Four single-storey Victorian shops constructed in 1890. While modest in size, the row is an important component of the historic Bellair Street commercial strip. The buildings are distinguished by their finely-detailed rendered parapets, with pediments, and by the continuous deep awning across the building frontage, which is characteristic of this section of Bellair Street.

The subject residence demonstrates some of the design characteristics of the three late nineteenth century examples cited above, particularly the modest form and detailing of the Durham Street terrace houses and the Bellair Street shops. However, as noted, it differs in that it was constructed at a later period and is unusual for incorporating a Victorian presentation in an Edwardian era dwelling. It may also be that this reflects a preference by the owner and builder, John C Pain. Nevertheless, the dwelling presents as an understated Italianate villa, albeit a transitional building in terms of style; and is clearly within the dominant period of development in Kensington, having been constructed between the 1880s and 1910s.

City of Melbourne Heritage Review

Allom Lovell and Associates, 2000

STATEMENT OF SIGNIFICANCE

SITE NAME 59 Bayswater Road, Kensington

STREET ADDRESS 59 Bayswater Road, Kensington

What is significant?

The single-storey brick dwelling of c. 1906-07, at 59 Bayswater Road, Kensington.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the hipped roof, bullnose-profile verandah, with simple cast iron lacework, extending between brick wingwalls, and rendered chimneys.
- Original materials and details including the brickwork (preferably with paint removed), bracketed eaves and timber-framed double-hung sash windows.

Later elements including the metal picket fence are not significant.

How it is significant?

The dwelling at 59 Bayswater Road, Kensington, is of representative significance to the City of Melbourne.

Why it is significant?

The dwelling at 59 Bayswater Road, Kensington, was constructed in c. 1906-07 and is a representative example of a modestly scaled brick dwelling of the early twentieth century. It was also likely constructed by its owner, John Charles Pain, who had several properties in Bayswater Road in this period. While the dwelling presents as an understated Italianate villa, more typical of the late nineteenth century, its 1906-7 date places it at a time when red brick English styles had caught the popular imagination in Melbourne and were being constructed in large numbers in the middle ring of suburbs. This distinguishes the dwelling as a transitional building with its brick exterior, albeit overpainted, embellished by some classical details. The latter include the hipped roof with bracketed eaves; bullnose-profile verandah with simple cast iron lacework extending between brick wingwalls; timber-framed double-hung sash windows to the facade; and rendered chimneys with molded cornices. The dwelling is also uncommon in Kensington for its brick materiality, where timber was the predominant construction material for most houses of this size.

FORMER GRADE D

DESIGNER / ARCHITECT / ARTIST: Not known

BUILDER: James Greenlaw and John Weaver

DEVELOPMENT PERIOD: Victorian Period (1851-1901)

DATE OF CREATION / MAJOR CONSTRUCTION: c. 1860-61

SITE HISTORY

The building at 72-74 Bourke Street, Melbourne, is part of a row which was constructed in c. 1860-61 for Moses Benjamin by builders James Greenlaw and John Weaver (CoM, Notice of Intent). No architect was recorded for the building. The two-storey row originally comprised five shops, with rooms above, which were each recorded in the municipal rate books of 1861 with an assessed annual value of £120 (CoM, rate books, 1861, Gipps ward, rate nos 183-187, PROV). Early occupants of the subject premises were Samuel Sweibner, tobacconist at no. 74 (then no. 191) and bootmakers Sandstrom and Syron at no. 72 (then no. 193) (*Sands & McDougall*, 1860). Other early occupants included grocer Solomon Beech (1875), clothiers McNicol Brothers, and Wheeler & Wilson, sewing machine agents (1895) at no. 72; and Charles Buschmann's wine hall (1875), printers and writers, F H Marryat & Co (1885), and watchmaker Norman McLeod (1895) at no. 74 (*Sands & McDougall*: 1875, 1885, 1895). By 1955, the two shops had been combined into one premises, with the bookshop of publishers Burns, Oates & Washbourne listed in the *Sands & McDougall* directory (*Sands & McDougall*: 1955). By the 1970s, the premises were occupied by a restaurant, the Margutta Bistro (*Sands & McDougall*: 1970). To accommodate the various uses, the building has undergone alterations, most notably at ground floor level (CoM, Building Application Index). The adjoining shops at nos 78-80, which were part of the original row of five, remain as part of the Café Florentino premises (VHR 493, HO537), while the middle shop at no. 76 has been heavily modified.

SITE DESCRIPTION

The building at 72-74 Bourke Street, Melbourne, comprises a pair of two-storey Victorian shops which were constructed as part of a group of five retail/commercial premises at 72-80 Bourke Street, in c.1860. While all five shops survive, the subject building is isolated from the other elements in the group to the west by the remodeled façade of no 76; with the surviving pair at nos 78-80 also altered at the upper level including window replacement. In contrast to the subject pair, the early appearance of the other buildings in the original row of five is no longer highly legible.

Although the building at nos 72-74 was constructed in c.1860, it has Italianate detailing which is more likely to date from c.1880s. It also has a Renaissance Revival demeanor, with a rendered façade enhanced by the applique of Italianate detailing. The shopfronts have been altered, but the levels above are substantially intact to their c. 1880s appearance. The ground floor façades are flanked by wingwalls, expressed as pilasters, and articulating the building into individual shops. The wingwalls terminate at a string course at first floor level with floriated bosses to either end. A further string course beneath the parapet incorporates lions head motifs. Parapets above each shop adopt a triangular temple-front form. The windows to the upper level of the pair are sliding sash arrangements, with ornamental treatments in render comprising modelled architraves rising from a projecting sill element to bracketed lintels. The building has been overpainted.

COMPARATIVE ANALYSIS

The construction of hotels, retail and commercial premises in Melbourne, in the buoyant years immediately following the initial Gold Rush, occurred on a large scale. Georgian antecedents formed the basis for most architecture in Australia at this time, from the first European settlements into the second half of the nineteenth century. Retail premises of the 1860s typically adopted a simple Georgian form with associated understated classical, or no, architectural embellishments. But following this period of Georgian reticence, more full-blooded adaptations of High Renaissance and Mannerist architecture began to appear, with buildings inspired by the Italian Renaissance becoming the dominant architectural expression in Melbourne. Early buildings, such as the subject pair, were also often remodelled in the final decades of the nineteenth century, in the fashionable and decoratively rich Italianate manner, as an expression of the wealth and sophistication of the growing city. The subject building, despite the later alterations at ground floor level, remains legible to its Italianate state as remodelled in c.1880s; with ground floor

façades flanked by wingwalls, expressed as classical pilasters, string courses at first floor level with floriated bosses recalling a classical cornice, rendered architraves to first floor windows and a parapet incorporating lions head motifs.

For the purposes of comparison, few buildings from the Gold Rush period, and the years immediately following, are extant in central Melbourne. Of those which survive, many are ecclesiastical or institutional buildings which do not readily compare to the subject commercial building. A small number of early hotels also survive but few have retained their original appearance.

Retail premises from this general period are typically single shops, with rows or terraces being less common. Surviving examples of the former include 328-330 King Street, constructed c.1850 (VHR H0465) and 556-558 Lonsdale Street, constructed in c.1851 (VHR H0441). Rows of shops include the early group at 54-62 Bourke Street (VHR H0435), occupying the entire frontage between Crossley and Liverpool Street, constructed in two stages in 1847-48 and 1849. Brooks Buildings, at 309-325 Swanston Street, is also early, being constructed in c.1850-51 by pioneer George Evans and comprises seven two-storey shops with residences above. Originally designed in a Regency style the shops were later refurbished and modified to an Italianate expression in the later nineteenth century (Figure 4, Butler, 2011: 602). Elsewhere in the central city there are rows of shops either remodelled to, or constructed in, an Italianate manner during the boom of c.1880s, again as per the subject building. Large numbers of these are included in the Schedule to the Heritage Overlay.

Some useful comparisons include:

- Café Florentino, 78-84 Bourke Street, Melbourne (VHR H0493, HO537, Significant, HO500, Figure 1). Two two-storey shops at 78-80, form part of the original group of five shops, constructed in 1860 and including the subject pair. Note, the building at no. 84 was a separate development. 78-84 Bourke Street is included in the VHR, for the site's historical and social significance to Victoria, related to its association with Moses Benjamin, and with the evolution of culinary institutions in Melbourne since 1900. This building has undergone alterations, both at ground floor and first floor including changes to no.82 in the 1920s by Frank Stapley, renovations in 1928 by John W Wright, and alterations in 1958 by Robin Boyd. These changes include the introduction of large window openings at first floor level.
- 66-70 Bourke Street (HO534, Significant, HO500, Figure 2): Immediately east of the subject building and also constructed in 1860, this trio of two-storey rendered shops was similarly altered in the late nineteenth century (c. 1880s). The upper level appears entirely intact to its 1880s state. The building retains ground and upper level detailing, including moulding to window surrounds, wing walls expressed pilasters rising to a robust arrangement of stringcourses and sills, with further slender columns rising to an ornamented cornice. Ground floor shops have been altered, although the rhythm and much detailing of the original arrangement remains evident.
- 35-37 Bourke Street, Melbourne (HO527, Significant, HO500, Figure 3): Constructed in 1872, this two-storey shop and residence includes a substantially intact nineteenth century shopfront and has been identified as a significant architectural element in the eastern end of Bourke Street.
- Brooks Building, 309-325 Swanston Street, Melbourne (HO1081, Significant, HO1290, interim control, (Figure 4) was constructed c.1850-51 and comprises seven two-storey shops with residences above. Originally designed in a Regency style, the shops were later refurbished and modified to an Italianate expression in the later nineteenth century (Butler, 2011: 602).

As noted, despite its alterations at ground floor level, the subject building remains legible to its Italianate state of the c.1880s. In this way it compares with other earlier buildings in central Melbourne which were similarly remodelled in a time of economic boom; and are graded significant, such as 309-325 Swanston Street and 66-70 Bourke Street. The pair additionally present as a relatively substantial commercial development for Bourke Hill in this period, with documented historical uses and associations with early tenants.

Turnbull, 1993

Bourke Hill Precinct Heritage Review

Trethowan, 2015

STATEMENT OF SIGNIFICANCE

SITE NAME 72-74 Bourke Street, Melbourne

STREET ADDRESS 72-74 Bourke Street, Melbourne

What is significant?

The pair of shops/commercial buildings at 72-74 Bourke Street, Melbourne, as constructed in c.1860.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the building as it presents to the street, including the upper-level façade and the separation/articulation of the ground floor shopfronts which helps demonstrate the early date.
- External materials and details including the wingwalls to the ground floor façades expressed as pilasters; string courses and other façade details; and ornamental treatments to the upper-level windows.

Later elements including the fabric and form of the ground floor shopfronts, as set between the wingwalls, are not significant.

How it is significant?

The pair of shops/commercial buildings at 72-74 Bourke Street, Melbourne, is of local historical and representative significance to the City of Melbourne.

Why it is significant?

The pair of shops/commercial buildings at 72-74 Bourke Street, Melbourne, is of historical significance. The pair is part of a row of five which was constructed in c. 1860, placing the building as an early and relatively substantial commercial development for this period in this area of Bourke Hill. Nineteenth century tenants of the subject building also demonstrate a typically wide range of historic retail and related uses, including a tobacconist, bootmakers, grocer, clothiers, sewing machine agents, a wine hall, printers and writers, and a watchmaker. Noted and long-standing restaurant, Café Florentino, occupies nos 78-80 to the west, which was part of the original row of five premises.

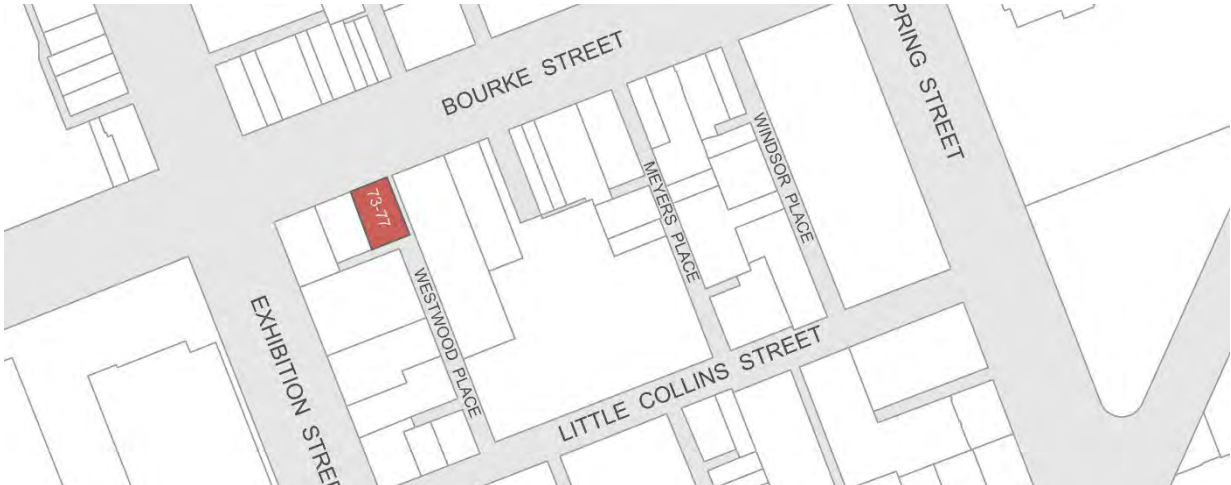

The subject pair of rendered masonry shops/commercial buildings is also a representative example of early shops in this eastern area of Melbourne's CBD, and part of the significant historic commercial character of Bourke Hill. While the original 1860s expression has been somewhat modified through the application of later c.1880s Italianate detailing, the pair still demonstrably read as modest early shops, with narrow frontages. The Renaissance Revival

demeanor of the 1880s work also distinguishes the pair, including the wingwalls to the ground floor façades expressed as pilasters; the string courses and other façade details; and the ornamental treatments to the upper-level windows. While the shopfronts are much altered/replaced, this is not unusual for historic retail buildings, where the façades above tend to be more intact.

FORMER GRADE D

DESIGNER / ARCHITECT / ARTIST: Not known

BUILDER: F B Brady

DEVELOPMENT PERIOD: Federation/Edwardian Period (1902-c. 1918)

DATE OF CREATION / MAJOR CONSTRUCTION: 1905-06

SITE HISTORY

The subject building, comprising three commercial/retail premises of three storeys, replaced two Victorian buildings which were previously on this site. The numbering of the site in Bourke Street was sometimes given in historical sources as nos 75-77, although its present address is 73-77 Bourke Street.

In December 1904, a notice of intent to build was lodged for the construction of three three-storey shops at the Bourke Street site, owned at the time by M Mornane. No architect was given for the design, but the builder was listed as F B Brady of Fitzroy (CoM, notice of intent, 2 December 1904). The 1905 municipal rate books list the site as 'land', but the building had been completed by 1906 (CoM, rate books, La Trobe ward, 1905, rate no. 23; 1906, rate nos 25-27, PROV). The finished building was described as comprising three brick shops, with an average annual value each of £104, and all occupied (CoM, rate books, La Trobe ward, 1906, rate nos 25-27, PROV). The 1910 *Sands & McDougall* directory lists Witt & Co chemists and Frederick Witt, dentist at no. 75; Arthur J Preston's Navy Palace of Sweets at no. 75a; and bookseller Andrew Hanley at no. 77 (*Sands & McDougall*: 1910). The three shops remained as separate premises throughout most of the twentieth century, but appear to have been merged into one operation in the early 1970s (*Sands & McDougall*: 1970, 1974; CoM, Building Application Index, 75/77 Bourke Street, BA 43248, 22 September 1972).

SITE DESCRIPTION

The building at 73-77 Bourke Street, comprises three-storey retail premises constructed in 1906 which have an understated Renaissance Revival expression. As constructed, the building was expressed in red brick with classical ornament in render, illustrating the transition from the Italianate architectural modes of the late nineteenth century to the red brick styles of the early twentieth century. The building has been overpainted. The ground floor shopfronts to the street have been altered but the facades of the two levels above are substantially intact. Each shopfront is flanked by pilasters which articulate the frontage into three separate shops. The pilasters rise to fluted capitals beneath a string course at first floor level. At each end of the façade, the flanking pilasters continue to a more elaborate, bracketed cornice at second floor level; and rise to a third string course below an understated parapet. Throughout, windows to the upper levels comprise simple segmental arched arrangements with ornate sills, curved hood moldings and fielded undersills. At first floor level, original fine cast iron railings above sills remain in place. Despite the overpainting, details of the original materiality remain evident, including horizontal decorative rendered bands between floors.

COMPARATIVE ANALYSIS

The red brick and render-clad architecture of Melbourne's Federation and Edwardian periods developed from around 1890. The fully-fledged architectural style, particularly as it relates to commercial buildings, derived from a synthesis of disparate movements occurring around the world with antecedents in the Queen Anne style of the United Kingdom, the American Romanesque of Henry Hobson Richardson and other sources.

Following the recession of the early 1890s, building construction in Melbourne stalled until c.1900 when early indications of a new red brick expression, based in these sources, emerged. In 1898, HW & FB Tompkins designed the club and offices of the Commercial Travellers' Association at 192 Flinders Street, based in a bold interpretation Richardson's red brick Romanesque Revival architecture. However, the passage to a fully-fledged Edwardian expression as found in the suburban Federation House (from c.1905) or Flinders Street Station (Fawcett and Ashworth, completed 1910) occurred incrementally. Throughout the city, transitional buildings with limited and simplified classical ornament over a base of newly-fashionable red brick were constructed in the 1900s.

The subject building is one of these, and dates to this period of changing sensibilities. Finished in face brick, it nonetheless utilises fine cast iron elements, simple rendered string courses, decorative window features and an

expressed parapet for an understated Renaissance Revival effect, common in the retail designs of a generation earlier. The Bourke Hill Precinct Review noted that this section of Bourke Street forms '... part of a notable group of two- and three-storey Edwardian era buildings that make a notable contribution to the Bourke Street streetscape' (Trethowan, 2015: Appendix 1). However, the value of the subject building lies in its role as a link to the more fully realised Edwardian expression of its neighbours.

Other buildings of this general period similarly found ways to integrate elements popular during the Boom period into the new red brick designs. These include:

- Wood Bros warehouse, 55-67 Batman Street, West Melbourne (HO770, Significant in precinct, Figure 1): A four-storey brick Edwardian warehouse, constructed in c. 1910 for Keep Bros. & Wood, merchants and manufacturers. The former warehouse, now converted to residential use, is a substantial red brick building with contrasting render banding and a parapet which recalls the classical ornament of a generation earlier, in a stripped and simplified manner. It is distinguished by heavy brick pilasters dividing window bays, with the two end bays defined by narrow top-level round arched windows and pediments. The central entablature identifies 'KEEP BROS AND WOOD PTY LTD' in raised lettering. Some steel-framed balconies have been added to the facade as part of the residential conversion, but these do not detract from the building's impressive presence or detract from its simplified, red brick, transitional character.
- 23-29 Bourke Street, Melbourne (HO526, Significant, HO500, Figure 2): These three, three-storey shops of 1900-1, to designs by architect William Salway, appear to have been used as a coffee palace or restaurant following its construction. They have been substantially remodeled at ground floor level although the two upper levels are intact. The building embodies an early Edwardian approach, plainly influenced by the American designs of Richardson and others as popularised locally by the Tompkins Brothers. Designed by a notable architect, this building is the centrepiece of a row of Edwardian buildings in this section of Bourke Street.
- Former North Melbourne fire station, 100-110 Curzon Street, North Melbourne (HO3, Significant in precinct, Figure 3): This substantial fire station complex, constructed from 1893, incorporates several building components including firemen's residences. These form an evolved complex of Victorian and Edwardian forms. The Curzon Street frontage is finished in red brick with contrasting render bands which recall the classical ornament of the Boom period in a simplified and abstracted manner. The design of the complex is unusual in the metropolitan context.
- 476-482 Macaulay Road, Kensington (HO9, Significant in precinct, Figure 4): This is a row of two-storey Edwardian (c.1910s) brick commercial buildings that form part of a substantial development to the corner of Macaulay Road and Bellair Street. The shops illustrate a more fully-realised Edwardian mode albeit with some later modifications, including to the first floor facades and some over painting of the brickwork. The group retains its serpentine parapets and decorative urns.

The subject building, as noted, is a transitional design which was constructed at a time when the new red brick expression of the Edwardian era was becoming popular in commercial buildings, but still in combination with albeit simplified classical ornament more common in retail designs of a generation earlier. It links the lavishly ornamented shops of the 1880s Boom period to the more relaxed red brick buildings of the 1910s, as typically illustrated in the grand edifices of the Tompkins Brothers and their contemporaries. It also demonstrates the abstractions and hybrids occurring in the city and suburban streetscapes during the 1900s, and as such comfortably compares with the other significant non-residential examples cited above, which similarly help to demonstrate this transitional period.

STATEMENT OF SIGNIFICANCE

SITE NAME 73-77 Bourke Street, Melbourne

STREET ADDRESS 73-77 Bourke Street, Melbourne

What is significant?

The building at 73-77 Bourke Street, Melbourne, comprising three-storey retail premises constructed in 1906.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the building as it presents to the street, including the upper-level façade.
- Original materials and façade details including the pilasters, windows to the upper levels with segmental arched arrangements, ornate sills, curved hood moldings and fielded undersills; and the cast iron railings at first floor level.

Later elements including the fabric and form of the ground floor shopfronts, are not significant.

How it is significant?

The building at 73-77 Bourke Street, Melbourne, comprising three-storey retail premises, is of local historical and representative significance to the City of Melbourne.

Why it is significant?

The building at 73-77 Bourke Street, Melbourne, as constructed in 1906 as a row of three, three-storey commercial/retail premises, is of historical significance. While not necessarily an early development in this area of Bourke Hill, the building through its size and prominence, and its original architectural expression, represents a reasonably substantial and prestigious development of the early twentieth century, which reinforced the commercial status of this eastern area of Melbourne's CBD.

The subject building is also a representative example of a substantial early twentieth century commercial development on Bourke Hill, which continues to be a significant building component of the east end of Bourke Street. Although overpainted, the historic expression and details of the building remain evident, through its handsome if understated Renaissance Revival façade. Distinguishing details include the pilasters which rise to fluted capitals beneath a string course at first floor level, and at the end of the façade, continue to a more elaborate, bracketed cornice at second floor level before rising to a third string course below the parapet; windows to the upper levels with segmental arched arrangements and ornate sills, curved hood moldings and fielded undersills; and original fine cast

iron railings at first floor level. The building is also an example of a transitional design, constructed at a time when the new red brick expression of the Edwardian era was becoming popular in commercial buildings, but where classical ornament more common in retail designs of a generation earlier was still in use.

PROPOSED CATEGORY Significant

FORMER GRADE D

DESIGNER / ARCHITECT / ARTIST: Not known

BUILDER: Not known

DEVELOPMENT PERIOD: Interwar Period (c. 1919- c.1940)

DATE OF CREATION / MAJOR CONSTRUCTION: c. 1921-22

SITE HISTORY

The residence at 83 Bayswater Road, Kensington, was constructed in c.1921-22. The City of Melbourne Building Application Index indicates that a permit was issued for the building's construction on 7 September 1921, with the value of the proposed house noted as £900 (CoM, Building Application Index, 83 Bayswater Road, Kensington). The 1922 municipal rate books for Kensington list the completed residence as a brick house of five rooms, with an average annual value of £42. It was owned by G McElhinny, who also owned and occupied a six-room brick house on the adjacent site (CoM, rate books, 1922 Hopetoun Ward, rate nos. 3623, 3624). The following year, James McElhinny was in ownership and occupation of the house (CoM, rate books, 1923, Hopetoun Ward, rate nos. 3623). The McElhinny family had a relatively long association with Bayswater Road, with Georgina McElhinny's brick house and stables listed in the rate books as early as 1907, and a house and stables shown in the MMBW plan of 1902 (CoM, rate books, 1907, Hopetoun Ward, rate nos. 2432). The earlier McElhinny house and stables is no longer extant. The house at 83 Bayswater Road had a number of occupants after its construction, with Edward Pierce listed in 1925 and May Matheson listed in 1930 (*Sands & McDougall*, 1925, 1930).

SITE DESCRIPTION

The c.1921-22 residence at 83 Bayswater Road, Kensington, is a single-storey simply detailed red brick interwar bungalow. It adopts an L shaped plan with a projecting gabled bay and adjoining wide verandah to the front. The house has a transverse roof clad in modern corrugated steel – the original Marseilles-patterned roof tiles have been replaced - with the gables to the east and west ends of the roof in face brick. The gable end to the projecting bay is finished in roughcast render, above a tripartite window of timber-framed double-hung sashes with upper sashes retaining multi-paned arrangements. A corrugated galvanised steel awning on timber brackets above the window appears to date from the original construction. A pair of similar windows present to the verandah, with the latter being substantial and set behind a masonry balustrade, in roughcast render, with elegant bowed capping and paired timber columns to the piers at each end of the balustrade. These rise to a low-pitched skillion roof, also clad in galvanised steel. The low stone fence/border to the front of the property is not original. A visible weatherboard addition has been constructed to the west side of the original building.

COMPARATIVE ANALYSIS

Land in Kensington was sold from the 1850s, however, significant subdivision, development and population growth did not occur until the 1880s. In this period, and in the early decades of the twentieth century, the area underwent enormous change, with residences, commercial and industrial buildings, railway station (1888, 1905) and the town hall (1901) constructed. The main period of development in the suburb between the 1880s and 1910s, with limited construction taking place in the 1870s and the interwar period. This is reflected in the built fabric of the locality, which is predominantly Victorian and Edwardian-era residential buildings. Interwar buildings in Kensington, such as the subject property, tended to be infill of the few remaining vacant blocks that had not previously been developed. As such, interwar residences are sporadically positioned within Victorian and Edwardian streetscapes, again as per the subject property, and often also at the perimeter of the suburb. Contributory interwar houses are located in precincts in streets including Eastwood Street, Parsons Street and Rankins Road.

Interwar residences in Kensington, such as the subject dwelling, are generally of brick construction, however given the relatively small number of buildings from this period, there is no dominant style or form, although the bungalow form tended to be relatively common. While some houses represent more contemporary trends, such as the attic bungalow residence at 165 Rankins Road (cited below), other interwar residences drew on earlier stylistic cues, including Federation forms.

While there a number of contributory graded interwar residences in Kensington, only a small number of interwar houses in Kensington have been identified as being significant. These include:

- Residence, 17-19 Bayswater Road, Kensington (HO204, Significant, Figure 1): A representative example of an early 1920s bungalow, albeit one which displays some late Federation elements in its design and form. These include the red brick expression, hipped roof clad in unglazed Marseilles-pattern terracotta tiles with roof ridges embellished with terracotta finials, and roughcast rendered gables with timber strapping. It is distinguished by its level of external intactness and the prominent central portico.
- Alfred White's house, 165 Rankins Road, Kensington (HO1164, Significant, Figure 2): A two storey, symmetrical Arts & Crafts bungalow of c. 1925, and an unusual style for the area. This is a prominent building in the streetscape, featuring a central two storeyed projecting porch with surmounting balcony, and rough cast stucco with clinker brick detailing.
- 35-45 Derby Street, Kensington (HO9, Significant in precinct, Figure 3): This is a row of six modest interwar single-storey semi-detached dwellings, in free-standing pairs. They are unusual in the Kensington context, and gain significance from being a largely intact group. Features of note include the pairs at either end which have rendered gabled facades with return side walls leading through arches to side entrance bays, set in contrasting face brick gables. The central pair has arched entries to the front gables.
- Waddington's Houses, 4 and 6 Parsons Street, Kensington (HO1167, Significant in precinct, Figure 4): A later (1935-6) interwar pair of Spanish Mission style bungalows. Detailing includes twisted columns to portico, canted bay window and expressed brickwork detailing to rendered facades.

The subject dwelling is representative example of an interwar brick bungalow, the original part of which has a typical bungalow form and plan, is largely externally intact, and has a projecting gabled bay with adjoining wide verandah. It broadly compares with other single-storey free-standing examples of the early 1920s such as the bungalow at 17-19 Bayswater Road. While it is less substantial than the residence at 165 Rankins Road, which is unusual in the Kensington context, and less detailed than the later Parsons Road pair, the subject dwelling helps to demonstrate the diversity of interwar dwellings in the area and the fact of there not being a dominant or typical style for these residences in Kensington.

City of Melbourne Heritage Review

Allom Lovell and Associates, 2000

STATEMENT OF SIGNIFICANCE

SITE NAME 83 Bayswater Road, Kensington

STREET ADDRESS 83 Bayswater Road, Kensington

What is significant?

The dwelling at 83 Bayswater Road, Kensington, which was constructed in c.1921-22, and is a single-storey brick bungalow.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the bungalow form and massing, with a transverse roof, projecting gabled bay and adjoining wide verandah.
- Original interwar-era materials and details including the face brickwork, roughcast render, verandah balustrade, and timber-framed multi-paned windows.

Later elements including the low stone fence/border to the front of the property and weatherboard addition to the west side are not significant.

How it is significant?

The dwelling at 83 Bayswater Road, Kensington, is of representative significance to the City of Melbourne.

Why it is significant?

The dwelling at 83 Bayswater Road, Kensington, as constructed in c.1921-22, is a representative example of a local interwar brick bungalow which is largely externally intact. The dwelling has a typical bungalow form and plan, including a projecting gabled bay and adjoining wide verandah to the front, set beneath a transverse roof form with gables to the east and west ends. While typical, the dwelling is also distinguished by its simple detailing and handsome presentation to the street. Elements of note include the roughcast render as expressed to the gable in the projecting bay and replicated/complemented in the verandah balustrade, with its elegant bowed capping and paired timber columns to the piers at each end. The tripartite timber-framed window of the projecting gable is set beneath a bracketed awning, with the window detail and treatment also carried through to the verandah. The visible addition on the west side impacts on the original bungalow form and presentation but is ultimately a removable/reversible later element.

FORMER GRADE D

DESIGNER / ARCHITECT / ARTIST: Peck and Kempter

BUILDER: Not known

DEVELOPMENT PERIOD: Interwar Period (c. 1919-c. 1940)

DATE OF CREATION / MAJOR CONSTRUCTION: 1928

SITE HISTORY

The subject building is a purpose-built bookstore constructed in 1928 for Albert Henry (A H) Spencer.

Spencer had established Hill of Content in an existing building on this site on the Bourke Street hill in September 1922. He had relocated from Sydney, where he had been employed by Angus and Robertson for more than twenty years (Arnold, 2007: 27). With his business partner, Spencer and Hodges were 'new and secondhand booksellers, publisher [and] fine art dealers' (*The Argus*: 9 September 1922: 8). In c.1928, the previous shop was replaced by a three-storey building designed by architects Peck and Kempter in a 'chaste design', with a 'Renaissance treatment' to the façade and 'embodying the necessary requirements for the function of a business in an up-to-date manner' (*The Herald*, 8 February 1928: 13). The design for the 'modern book store' was described as incorporating 'ample display space' in the windows, with fire escapes to the rear and 'ornate' plaster ceilings to each floor (*The Herald*, 8 February 1928: 13). During construction, Spencer continued to operate his business by relocating to the nearby Eastern Market. As *The Herald* observed, the 'novel' location for his book emporium demonstrated that the 'friend of booklovers' was a bookseller 'who identifie[d] himself with his customers' point of view' (*The Herald*, 2 March 1928: 4).

In July 1928, an advertisement for Hill of Content stated that the business was 'home again!', and was operating from 'the large and handsome new building' (*The Argus*, 28 July 1928: 8). The new premises became known as 'a major outlet for antiquarian, second hand and fine new books' (Arnold, 2007: 28). Spencer sold the business to his previous employers, Angus & Roberson in 1951 and the shop has continued to be a well-known bookstore under various owners (Arnold, 2007: 28). The building does not appear to have undergone substantial change since the interwar period, although the shopfront was altered in 1959 and 1980 (CoM BA index, BA 33686, 21 October 1959 and BA 52599, 5 November 1980).

SITE DESCRIPTION

The purpose-built bookstore at 86 Bourke Street is constructed of rendered masonry and comprises a three-storey retail premises with an understated classicized expression. The shopfront and cantilevering verandah to the street have been altered but the two levels above are substantially intact. These levels of the façade are flanked by bold pilasters standing proud of the facade and rising to an abstract capital to the underside of the parapet. The stepped parapet presents as a trabeated arrangement modelled to overhand the façade below. Windows and spandrel panels are set back to give prominence to the resulting temple-front form. Detailing to the parapet is understated and incorporates simple dentillated devices and horizontal banding typical of the abstract approach to classicism preferred in the interwar period. Unusually, the façade incorporates ornamentation in the form of bundled rods, known as fasces, to architraves and window heads. Windows retain original fine mullions, and sills incorporate a simple fluted detail. While little remains of the original shopfront, pressed metal linings to the verandah soffit remain in place suggesting that it broadly retains its original form.

The name of the original owner, 'A.H. SPENCER', and the original bookstore name, 'HILL OF CONTENT', are on the façade.

COMPARATIVE ANALYSIS

Small city sites, such as the subject property, were part of a worldwide trend which saw them increase in value from the late nineteenth century, and with this came pressure to provide greater floor area so as to increase the financial returns. In Chicago, where a fire had wiped out a large part of the business district in 1871, experiments into the structure and architectural expression of taller commercial buildings commenced in the 1880s, undertaken by such notable American architects as Louis Sullivan (Apperly, 1989: 180). The advent of the steel structural frame, for example, made it possible to construct multi-storey buildings on smaller sites, with elevators providing access to

upper floors. The arrangement of columns and beams also eliminated the need for thick, load-bearing walls, permitting larger window openings than those of the earlier Victorian buildings. Developments in Chicago, New York and elsewhere therefore gave rise to a new paradigm for commercial buildings in highly built-up cities.

While these developments were slow to arrive in Melbourne, the local skyline nevertheless particularly began to change after WWI with tall buildings on small sites constructed in larger numbers; developments in the USA would also continue to propel local architectural practice into the post war period. Locally, structural frames of reinforced concrete formed the basis for most of these taller buildings. However, the American façade expressions were widely embraced; even for smaller buildings of three or four storeys (see for example Figure 2).

The design approach was flexible, and suited to a range of scales from warehouses, office blocks and department stores to modest retail premises; and the buildings were unified by their rendered exteriors and an understated mantle of classical ornament. The ground floor, sometimes incorporating a mezzanine, was expressed as a base to a simplified classicized composition. Above, repetitive intermediate floors were given a fairly neutral expression with proportions dictated by the structural grid. The arrangement was capped by a simple, usually stylised, classical parapet often incorporating the owner's name in raised lettering. Less commonly, these buildings were terminated by a simple overhanging cornice. As Apperley notes, 'more often than not, horizontal spandrels beneath each set of windows are recessed behind unbroken vertical pier-like elements which suggest giant classical pilasters running through several storeys'.

This approach involved straightforward building methods, suited to premises varying in height from three storeys, as per the subject building, through to six or more storeys. It required little ornamentation and provided an inexpensive alternative to the more refined Commercial Palazzi developments of the time (Apperley, 1989: 168).

- Toronto House, 183-185 Flinders Lane, Melbourne (HO506, Significant in precinct, Figure 1). Designed in the interwar period by the notable firm of HW & FB Tomkins, Toronto House is a concrete-framed commercial building, of 6-7 levels. It has an austere but carefully resolved expression, adopting a classically-ordered form and with detailing limited to the banded rustication to its base and pilastered central levels rising to an overhanging cornice. Adaptation to residential use has involved the removal of glazing to the corner window bays.
- Farrant's Building, 387 Little Bourke Street, Melbourne (HO1205, Significant in precinct, Figure 2). Farrant's Building at the intersection of Hardware Lane and Little Bourke Street was constructed in 1926 for saddle manufacturer Farrant Pty Ltd. It comprises three-storey retail and manufacturing premises. Constructed on a reinforced concrete frame, the building is rendered to produce an understated interwar classical expression with corners realised as stylised columns rising to abstracted capitals below a shallow parapet and triangular pediment. The name, Farrant's Building, is realised in rendered lettering on a spandrel panel at second floor level.
- Denyers, 264-266 Swanston Street (HO507, Significant in precinct, Figure 3): At five storeys in height, Denyers (c. 1914) is a taller example and more conventionally Chicagoan in its appearance. It is constructed in reinforced concrete with ornament including banded rustication to lower levels, decorative motifs to its spandrel panels and an overhanging cornice. The name, Denyers, is realised in rendered lettering on the parapet. It has been extensively altered at ground floor level.

The subject building illustrates the mode, as adopted locally for buildings on smaller sites, of the broader transition from British to American sources as the primary source of architectural inspiration in Melbourne, especially in the post-WWI period. The building compares comfortably with the other significant buildings cited above, of this general period and approach to construction. It retains its plain rendered expression and original and unusual window joinery at upper levels incorporating fascias into the design of its architraves. Original signage, while not uncommon in buildings of this type, also survives and illustrates its longstanding association with book retailing. The latter, as evidenced in the historical significance, also distinguishes this building among similar others, as does its prominence

on Bourke Hill, where its continuous operation for nearly 100 years had resulted in it being a well-known and even iconic retail bookstore in the city.

Bourke Hill Precinct Heritage Review

Trethowan, 2015

STATEMENT OF SIGNIFICANCE

SITE NAME	Hill of Content bookstore
STREET ADDRESS	86 Bourke Street, Melbourne

What is significant?

The 1928 three-storey retail building, known as the Hill of Content bookstore at 86 Bourke Street, Melbourne.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the building as it presents to the street, including the narrow and elegantly proportioned form of the building, the intact upper levels façade, and the understated Classical expression.
- Original materials and details including the flanking pilasters with abstract capitals, stepped parapet with dentillated detailing and horizontal banding, remnant pressed metal in the verandah soffit, windows with fine mullions and fluted sills, and other ornamentation to architraves and window heads.

The name of the original owner, 'A.H. SPENCER', and the original bookstore name, 'HILL OF CONTENT', to the façade are sympathetic elements.

Altered elements including the shopfront and verandah while not specifically significant, are also generally sympathetic.

How it is significant?

The Hill of Content bookstore, at 86 Bourke Street, Melbourne, is of local historical and aesthetic significance to the City of Melbourne.

Why it is significant?

The Hill of Content bookstore at 86 Bourke Street, Melbourne, is of historical significance. The commercial building is a purpose-built bookshop which has operated from this site since 1928, when it was originally established by Albert Henry (A H) Spencer. The choice of noted architects Peck and Kempter to design the building, emphasizes the owner's ambitions for the business, and desire at the time for a 'modern book store'. Its prominent location in the Bourke Hill area of Melbourne's CBD, where it has been continuously operating for nearly 100 years and is a well-known and even iconic retail bookstore in Melbourne, enhances its historical significance.

The Hill of Content bookstore is also of aesthetic significance, as a handsome and largely externally intact retail building of the late 1920s. It is a narrow, elegantly proportioned building, which exhibits an abstract or understated

interwar Classical expression, enhanced by finely executed details. While the shopfront and verandah have been altered, this is not unusual for an historic retail building, where the façade to the upper levels remains largely intact. This is distinguished by flanking bold pilasters which stand proud of the façade's wall and rise to an abstract capital under the parapet; the stepped parapet with its trabeated arrangement, simple dentillated detailing and horizontal banding; windows with fine mullions and fluted sills, which are set back with the spandrel panels to give prominence to the temple-front form; and other ornamentation such as the fascies to architraves and window heads. The name of the original owner, 'A.H. SPENCER', and the original bookstore name, 'HILL OF CONTENT', are on the façade.

PROPOSED CATEGORY Significant

FORMER GRADE D

DESIGNER / ARCHITECT / ARTIST: Not known

BUILDER: William Elliott

DEVELOPMENT PERIOD: Federation/Edwardian Period (1902-c. 1918)

DATE OF CREATION / MAJOR CONSTRUCTION: c. 1908-9

SITE HISTORY

The subject residence was constructed in c. 1908-9 by owner William Elliott. Elliott lodged a notice of intent to build with the City of Melbourne in September 1908 for a weatherboard house. Elliott himself was listed as the builder, but no architect was recorded (CoM, notice of intent, no. 1050, 29 September 1908). The municipal rate books of 1908 list Elliott's property in Bayswater Road as 'land' with a value of £3 (CoM, rate books, 1908 Hopetoun Ward, rate no. 2476). The following year, improvements had been made, with the value increasing to £20 (CoM, rate books, 1909, Hopetoun Ward, rate no. 2476). In 1910, the residence was described as a five-roomed wood house (CoM, rate books, 1910, Hopetoun Ward, rate no. 2532). Elliott, sometimes recorded as Elliot, resided at the site into the 1920s, with a Mrs L Ryan occupying the house from c. 1930 into the 1970s (Allom Lovell, 1999, 90-92 Bayswater Road, Kensington).

SITE DESCRIPTION

The house at 90-92 Bayswater Road is a single-storey, asymmetrical Edwardian villa with a gable-ended bay, projecting to the street. The gable incorporates decorative barge boards and is finished in horizontal scalloped-edge weatherboards. The balance of the building façade is clad in block-fronted weatherboards. The roof is hipped and clad in corrugated galvanised steel with brackets to shallow eaves. Two rendered chimneys with moulded caps survive. The design incorporates a timber-framed verandah with a roof to a convex profile, turned timber posts and a frieze of timber fretwork. Windows to the street are paired timber casement arrangements with carved timber architraves and undersills. The steel and wire front fence is not original.

COMPARATIVE ANALYSIS

Land in Kensington was sold from the 1850s, however, significant subdivision, development and population growth did not occur until the 1880s. In this period, and in the early decades of the twentieth century, the area underwent enormous change, with residences, commercial and industrial buildings, railway station (1888, 1905) and the town hall (1901) constructed. The suburb is mainly residential, with commercial/retail premises concentrated on Macaulay Road and Bellair Street. Houses from the late nineteenth and early twentieth centuries, such as the subject property, are typical of the built form of Kensington in this period, including rows of terrace houses, semi-detached pairs, detached weatherboard villas, and some more substantial residences.

Asymmetrical weatherboard villas, such as the subject residence, are a common building type in Kensington, and demonstrative of the extent of residential development in the suburb in the 1900s and 1910s. By the end of the first decade of the twentieth century, buildings of this type had become favoured by builders and purchasers; and had become reasonably ubiquitous in the inner suburbs of Melbourne, including Kensington.

Other examples in Kensington include:

- Charles Hill House, 58 Barnett Street, Kensington (HO1163, Significant, Figure 1): Edwardian-era weatherboard villa on prominent corner site. Significant as an example of the more substantial residential development in Kensington, and as a key building in a locally significant streetscape.
- Residence, 56 McCracken Street, Kensington (HO9, Significant in precinct, Figure 2): A substantial weatherboard corner Edwardian residence, with the typical diagonal planning of Edwardian design. Details throughout are rich and varied, and include fretwork to the verandah, porthole window, bracketed eaves, shingles to the gable tops, bargeboards, and coloured glass sections to window. The gable end to McCracken Street is distinguished by a box bay window with 'waisted' hood above.
- Residence, 2 Bayswater Road, Kensington (HO205, Significant, Figure 3): Single-storey, asymmetrical Edwardian villa with a gable-ended bay, with timber strapping and roughcast render to the gable and timber

fretwork frieze to the verandah. It is a representative example of a Federation-era villa and is largely externally intact.

The subject dwelling is a good and largely externally intact example of this type of Federation-era villa in Kensington, incorporating typical features such as asymmetrical form, projecting gable-ended bay and block-fronted weatherboards. It incorporates finer detailing than the other Bayswater Road example, including the scalloped barge boards to the gable, turned timber posts and a frieze of timber fretwork; and these details assist in distinguishing the building.

ASSESSMENT AGAINST CRITERIA

CRITERION A

Importance to the course or pattern of our cultural or natural history (historical significance).

CRITERION B

Possession of uncommon rare or endangered aspects of our cultural or natural history (rarity).

CRITERION C

Potential to yield information that will contribute to an understanding of our cultural or natural history (research potential).

✓

CRITERION D

Importance in demonstrating the principal characteristics of a class of cultural or natural places or environments (representativeness).

CRITERION E

Importance of exhibiting particular aesthetic characteristics (aesthetic significance).

CRITERION F

Importance in demonstrating a high degree of creative or technical achievement at a particular period (technical significance)

CRITERION G

Strong or special association with a particular community or cultural group for social, cultural or spiritual reasons. This includes the significance of a place to Indigenous peoples as part of their continuing and developing cultural traditions (social significance).

CRITERION H

Special association with the life or works of a person, or group of persons, of importance in our history (associative significance).

RECOMMENDATIONS

Recommended for inclusion in the Schedule to the Heritage Overlay of the Melbourne Planning Scheme as an Individual Heritage Place, with HO map amended to reflect this.

Recommend that the description of HO211 be updated from 'HO211 90-98 Bayswater Road, Kensington' to 'HO211 94-98 Bayswater Road, Kensington'.

STATEMENT OF SIGNIFICANCE

SITE NAME 90-92 Bayswater Road, Kensington

STREET ADDRESS 90-92 Bayswater Road, Kensington

What is significant?

The dwelling at 90-92 Bayswater Road, Kensington, which was constructed in c. 1908-9, and is a single-storey weatherboard Federation-era villa.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the dwelling as it presents to the street, including the asymmetrical form and massing, projecting gable-ended bay and adjoining verandah.
- Original Federation-era materials and details including the horizontal weatherboards to the gable, block-fronted weatherboards to the remainder of the façade, and verandah details including the turned timber posts and timber fretwork frieze.

Later elements including the steel and wire front fence are not significant.

How it is significant?

The dwelling at 90-92 Bayswater Road, Kensington, is of representative significance to the City of Melbourne.

Why it is significant?

The c. 1908-9 dwelling at 90-92 Bayswater Road, Kensington is a representative example of a Federation-era villa, as was erected in the suburb in this period, and is largely externally intact. It has an asymmetrical form and massing, given emphasis by a gable-ended bay which projects to the street. The latter has horizontal weatherboards to the gable with a scalloped edge detailing, in contrast to the rest of the gable wall and overall façade which is finished in block-fronted weatherboards. Other details of note, which assist in distinguishing this dwelling, include the timber-framed verandah with a convex roof profile, turned timber posts and timber fretwork frieze; and carved timber architraves and undersills to windows.

FORMER GRADE D

DESIGNER / ARCHITECT / ARTIST: Marcus Martin
BUILDER: Not known

DEVELOPMENT PERIOD: Interwar Period (c. 1919-c.1940)
DATE OF CREATION / MAJOR CONSTRUCTION: c. 1935-6

SITE HISTORY

The residence at 285 Walsh Street, South Yarra, was constructed c.1935-6. An application was made to the City of Melbourne in May 1935 for the 'erection of a dwelling' at the site, with the works valued at £2,090 (CoM, Building Application Index, BA 16377, 285 Walsh Street, South Yarra). The two/three-storey house was designed by notable interwar architect Marcus Martin and comprised living and service areas at ground floor level, with bedrooms on the first floor (CoM, Building Application Plans, BA 16377, 285 Walsh Street, South Yarra). The house was constructed for L K S Mackinnon, newspaper proprietor and manager, who died in August 1935 before the house was completed (ADB, Mackinnon, Lauchlan Kenneth Scobie). The property remained as part of MacKinnon's extensive estate, which also included the residence at no. 281 Walsh Street, before passing to his son, Donald MacKinnon. In 1936, the completed building was included in the municipal rate books, although it was described as flats, perhaps in part due to its design (CoM, rate books, 1936, Albert Ward South, rate no. 1159). However, there is no indication that the building was anything other than a single dwelling. Gerald McHarg was in occupation by the following year (CoM, rate books, 1936, Albert Ward South, rate no. 1159).

Marcus Martin is remembered as a specialist designer in quietly historicist modes which achieved a fashionable compromise between the period revival styles of the earlier twentieth century and the trend towards a simpler, and more Modern, architectural expression after c. 1930. Later becoming a restrained advocate of Modernism, Martin was also influential in steering local architects away from the flat roof in domestic design on the basis of its unsuitability for local conditions; influencing the work of later designers such as Mewton & Grounds (Bryce Raworth in Goad and Willis (eds) *Encyclopedia of Australian Architecture*: 432).

SITE DESCRIPTION

The house at 285 Walsh Street, South Yarra, as constructed c.1935-6, is a two/three-storey interwar residence adopting an austere Modernist demeanour. Constructed to a design by noted architect Marcus Martin, the rendered building is cubic in form and presents asymmetrically to the street. Roofs are hipped and clad in Marseille-patterned tiles with broad eaves and a simple rendered parapet. The residence is elevated above a generous front garden and is entered via brick stairs with a stepped balustrade, also in contrasting face brick. The stairs lead to a landing with a cantilevered canopy and refined rendered grille. Windows throughout are sliding sash arrangements with understated rendered sills. Windows to the street are particularly broad sliding sashes. An attached garage to the north side of the dwelling with open deck above are integral to the design.

COMPARATIVE ANALYSIS

South Yarra, in the interwar period, was a popular and prestigious residential suburb characterised by its proximity to parks and gardens and the Yarra River. It attracted residents of wealth and taste and their architects. Key among these residential designers was Marcus Martin, who had become an influential and celebrated designer of Georgian- and Mediterranean-inspired residences in the 1920s (Bryce Raworth in Goad and Willis (eds) *Encyclopedia of Australian Architecture*: 432). In the 1930s, he was particularly active in South Yarra, designing 17 buildings in Domain Road, South Yarra, alone.

Following the depression of the early 1930s, International modern and Moderne architectural styles and their local variants rose to prominence with Melbourne architects, including those who sought to recreate in an Australian setting, the pristine cubic Modernism of Le Corbusier and Walter Gropius. These buildings were characterised by flat roofs (or low-pitched roofs behind parapets), smooth-rendered or brick walls, and horizontally proportioned windows. Often, elevated decks and garages were also integrated into these buildings, which were considered the epitome of modern living.

Marcus Martin had travelled to Europe in 1932 where he experienced the new Modern architecture first-hand. He subsequently developed a residential hybrid, which was increasingly stripped of ornament and historicist references, and provided an austere Modernist expression to buildings that were otherwise, not substantially different to the Modern Georgian and Mediterranean dwellings that continued to serve as the foundation of his practice.

Local examples of Martin's work from this period are plentiful and include 42 Anderson Street and the maisonettes at 216 Domain Road, South Yarra. However, the most direct comparisons with the subject dwelling are located a few hundred metres from the subject building in the City of Stonnington. The Modern dwelling at 269 Domain Road and its stripped Neo-Georgian neighbour at 271 Domain Road, are both identified as significant buildings in Stonnington HO122, the Alexandra Avenue Precinct.

- Duplex residence, 271 Domain Road (Stonnington HO355, Significant in precinct, Figure 1). In 1934, Martin designed a pair of maisonettes for Mrs Reginald Flack at the corner of Domain Road and Avoca Street in South Yarra. These were discussed in a 1935 edition of the RVIA Journal which noted 'we are fortunate in being able to illustrate in this issue, an unusual type of domestic work. Essentially modern in conception, it restores to us the main characteristics of the 'maisonette' in a new form. A 'Duplex Residence' combines economy in construction and services with the convenience and compactness of a flat ...' (RVIA Journal May 1935: 28-32). The dwelling's shallow-pitched roof and plain rendered exteriors combine to produce an outcome that is less Georgian and more Modern and is directly comparable to the subject building.
- 269 Domain Road (Stonnington HO355, Significant in precinct, Figure 2). This building of 1938 was also designed for Mrs Reginald Flack and adopts the characteristics of emerging International Modernism in simple, but carefully composed, interlocking cubic volumes. The two-storey dwelling is finished in plain render with small panels of decorative brickwork. Its design incorporates an integrated garage and deck above, and features none of the ornament of Martin's earlier designs, being possibly the most literal reproduction of examples encountered by Martin during his overseas travels in 1932.
- Maisonettes, 216 Domain Road, South Yarra (HO6, contributory in precinct, Figure 3) This building (1936) was designed for Tristan Buesst. The two-storey maisonettes present as a single dwelling, adopting a presentation that recalls some of Martin's contemporary but grander residences. Designed to a simplified Georgian expression with a hipped roof and plain rendered exteriors these were simpler and more austere than Martin's work prior to his encounters with European Modernism in 1932. Despite the traditional form, these were still reasonably sophisticated Modern dwellings, particularly in terms of their internal planning and amenity.
- 44-46 Anderson Street, South Yarra (HO6, Contributory in precinct, Figure 4): Built in 1941 for Mrs E S van Stratten, this is one of the last buildings designed during Martin's short-lived partnership with Horace Tribe. The dwelling illustrates Martin's return to more straightforward Georgian formality prior to his service in WWII, albeit, stripped of ornament and unmistakably Modern in its intent. It is constructed in (then) fashionable face salmon brick with an expressed tiled roof; an understated portico and shutters being the only decorative reference to Martin's earlier Georgian designs.

Bryce Raworth has noted, 'the closest Martin was to come to a truly International modern expression is found in his treatment of 285 Walsh Street, South Yarra [the subject dwelling] and a house for Mrs Reginald Flack at 269 Domain Road' (Raworth, Marcus Martin: a survey of his life and work, Investigation Project, University of Melbourne, 1986). In the case of the subject dwelling, it is also contemporary with the first experiments in the mode undertaken by local architects including Mewton and Grounds, notably their strictly Modern Stooke House (Brighton, 1934, demolished). The subject house skilfully reconciles the compositional and aesthetic challenges of the emerging Modernist expression with the fashionable sensibilities of interwar South Yarra. Considered both as an element within Martin's catalogue and as a refined example of a dwelling employing the new Modernist aesthetic, the subject McKinnon

House clearly presents as a building of significance on par with those cited above in nearby Stonnington; and could be considered at a higher level than other buildings of his in the general locale such as 216 Domain Road and 42 Anderson Street.

PREVIOUS STUDIES

South Yarra Conservation Study

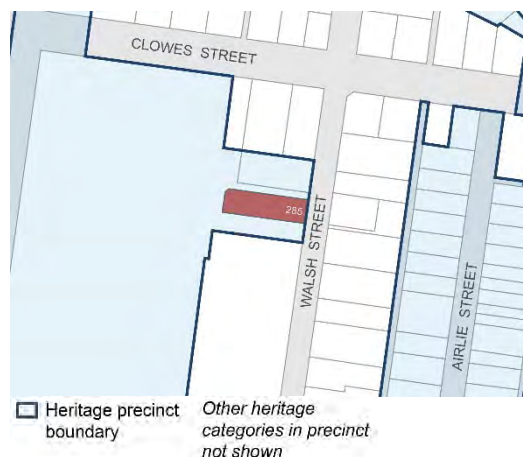

Meredith Gould, 1985

City of Melbourne Heritage Review

Allom Lovell and Associates, 2000

STATEMENT OF SIGNIFICANCE

SITE NAME	285 Walsh Street, South Yarra
STREET ADDRESS	Part of 62-108 Anderson Street, South Yarra

What is significant?

The residence at 285 Walsh Street, South Yarra, was constructed c.1935-6.

Elements which contribute to the significance of the place include (but are not limited to):

- The exterior of the building as it presents to the street, including the austere Modernist expression, as evidenced in the simple but well-executed cubic form, asymmetric presentation and elevated siting and entry.
- Original materials and details including the rendered expression, stepped face brick staircase and entrance landing with cantilevered canopy and rendered grille, sliding sash windows and integrated garage

How it is significant?

The residence at 285 Walsh Street, South Yarra, as constructed c.1935-6, is of local aesthetic significance to the City of Melbourne. It is a significant heritage place which also makes a contribution to the South Yarra Precinct (HO6).

Why it is significant?

The two/three-storey residence at 285 Walsh Street, South Yarra, was constructed c.1935-6 and is of aesthetic significance to the South Yarra Precinct. The dwelling was designed by noted interwar architect Marcus Martin, for L K S Mackinnon, newspaper proprietor and manager. Martin was prolific in the South Yarra area. The aesthetic significance derives from the austere Modernist expression, as evidenced in the simple but well-executed cubic form and asymmetric presentation. The elevated siting is given emphasis by the stepped brick staircase and entrance landing with cantilevered canopy and rendered grille. The sliding sash windows with understated rendered sills, including the particularly broad sliding sashes to the front façade, are of note; while the integrated garage reflects the increasing desire to provide for motor vehicle accommodation in residential design. The dwelling also reflects Martin's skill in achieving more Modernist outcomes for his clients, while designing houses which could be substantial but still sat comfortably within (what was often the case in this period) more traditional settings. His reconciliation of Modernist principles and practicality is sensitively achieved in the subject building.

SITE NAME	Peter Hall Building (formerly known as the Richard Berry Building)
STREET ADDRESS	Part of University of Melbourne, part 156-290 Grattan Street, Parkville
PROPERTY ID	104468

SURVEY DATE: November 2020

SURVEY BY: Lovell Chen

EXISTING HERITAGE OVERLAY	Yes (HO820)		
PLACE TYPE	Individual Heritage Place	PROPOSED CATEGORY	Significant
		FORMER GRADE	D
DESIGNER / ARCHITECT / ARTIST:	Public Works Department (Samuel C Brittingham & Alfred R La Gerche)	BUILDER:	Not known
DEVELOPMENT PERIOD:	Interwar Period (c.1919-c.1940)	DATE OF CREATION / MAJOR CONSTRUCTION:	1919-23

SITE HISTORY

The Peter Hall Building at the University of Melbourne was built in 1919-23 to house the School of Anatomy, with the first Professor of Anatomy being Richard Berry. The building was known for a long time known as the Richard Berry Building. Before becoming a professor at the University of Melbourne, Berry had been a lecturer at the School of Medicine at the Royal Colleges in Edinburgh, and an examiner in anatomy at the Royal College of Surgeons (Allom Lovell, 1999, Richard Berry Building).

Berry arrived in Melbourne in 1905 and was outspoken in his criticism of some of the earlier and older University buildings. In this way he was seen to be 'progressive'. He also claimed to have been responsible for planning the new Anatomy Building, if not exactly the design, which did not link with, or refer to, the medical buildings to the north in this area of the campus. The building was a large undertaking and was for some time known as 'Berry's Folly' (*Architecture on Campus*, 2013).

The design was undertaken by the Victorian Public Works Department (PWD), following a decision by the University in the immediate pre-WWI period to break with the tradition (temporarily at least) of using private architectural practices for the major campus buildings. Samuel C Brittingham was the Chief Architect of the PWD at this time, and it was during his term that the subject building was designed, although it is considered that the architect responsible was Alfred R La Gerche. One of the earliest drawings of the building, from 1919, is initialled by La Gerche (*Architecture on Campus*, 2013). Berry also apparently later disowned the exterior of the building, which has never been well-regarded for its architectural expression. Later additions were undertaken, including in 1995 and 1997 (*Architecture on Campus*, 2013).

The building is currently occupied by the School of Mathematics and Statistics (<https://ms.unimelb.edu.au/>) and is now known as the Peter Hall Building. Hall was a renowned mathematician and statistician, and in the period after anatomy was no longer taught in the building, he undertook much internationally recognised work there. The name change followed the death of Hall in 2016 (<https://www.bbc.com/news/world-australia-39376013>).

The building's change of name also came about after long deliberations by the University, and a campaign by staff and students to remove that of the controversial first Professor of Anatomy. Richard Berry, in the early decades of the twentieth century, had a highly contentious reputation as a 'flag bearer' for the eugenics movement. His views on race, anatomy and mental/intellectual capacity, including in relation to Australia's indigenous people, were repugnant to many. Berry's ghoulish tendency to collect skeletons, as demonstrated in the 2003 discovery by the University of hundreds of human bones and skulls, was also abhorrent. Berry died in 1962, aged 95; the Eugenics Society of Victoria was disbanded just before his death, in 1961. It had included many prominent members of Melbourne society (<https://www.bbc.com/news/world-australia-39376013>).

SITE DESCRIPTION

The Peter Hall Building is a large and prominent red brick building located on the north side of Monash Road, within the University campus, adjoining Swanston Street. The main façade faces south, to Monash Road, where an entrance is in a comparatively small brick portico. The building incorporates various wings, bays and additions of between one and three storeys, and variously with flat, hipped or gable-ended roof forms. A 1945 aerial image illustrates the building and its footprint at that time and indicates that the current building as seen from Monash Road largely remains the same. This includes (from west to east) a two-storey bay with south-facing gable end; a two-storey bay with a transverse gable; the main central flat-roofed component of three storeys; a two/three storey flat-roofed bay which projects south to Monash Road from the main central component and includes the entrance portico; and a two-storey bay with an east-facing gable end. To the rear/north side are other apparently early components, again of varying heights and roof forms, together with later additions, believed to have been undertaken in the 1970s. The various building volumes and forms tend not to read or present in the manner of a

considered or balanced arrangement; the effect of the various wings, bays and additions also tends to 'muddy' an understanding of the original building footprint.

Moving on from the different building volumes described above, the external expression or style of the Peter Hall Building exhibits a Gothic Revival character. This style, which is evident in and more successfully applied to other University buildings, is mainly found here in the windows which include plain and leadlight glazing, with stone surrounds and mullions, and decorative spandrel panels; and in the details of the entrance portico. The Gothic Revival character is not applied or carried convincingly across the whole of the building.

COMPARATIVE ANALYSIS

The foundation stone for the University of Melbourne was laid in July 1854, and the first faculty buildings, now known as the Law School Building and Old Quadrangle, were constructed in 1854-1857. These initiated what was effectively a cluster of buildings set in a large park on the fringe of a rapidly evolving Gold Rush era city (<https://about.unimelb.edu.au/our-history>). The University building program continued apace from this time, through to the present day, although in the last decade of the nineteenth, and first decade of the twentieth century, campus construction activity declined, largely due to the 1890s economic depression. The First World War in the second decade of the twentieth century also impacted on development (*Architecture on Campus*, 2013).

However, the University moved on from these turbulent years, aided also by Government grants for campus improvements. New buildings were constructed in the period leading up to the Second World War and immediately following, including the subject Peter Hall (Richard Berry) Building which was the first School of Anatomy building, and others including the following:

- Old Arts Building (Victorian Heritage Register, VHR H0924, Figure 1). Constructed in 1919-1924, designed by Samuel C Brittingham with the involvement of Alfred R La Gerche. This was the last all stone building constructed on campus; and was located adjacent to the Old Quadrangle in the central core of the campus. Architecturally, it is in the Tudor-Gothic style and is distinguished by a prominent five-level castellated and turreted clock tower which is an important landmark in the oldest precinct on campus. The building design draws inspiration from the original University buildings and forms a coherent visual unit with them. Historically, it symbolises the historical association between the Arts Faculty and the Law Building and Quadrangle, whereby the latter is the oldest building on campus where arts subjects were originally taught. (<https://vhd.heritagecouncil.vic.gov.au/places/916>).
- Veterinary and Agricultural Sciences Building (also known as Agriculture Forestry Building) (HO872, Significant, Figure 2). Constructed in 1920-23, the Veterinary and Agricultural Sciences Building is of historical significance as the first purpose-built academic teaching facility for the study of agriculture at the University, constructed some years after the subject was first taught. The building came about after the appointment to the University of the Superintendent of Agriculture in the Victorian Department of Agriculture, Dr A E V Richardson, and the introduction of the *Agricultural Education Act* of 1919. It was designed in a restrained neo-Georgian red brick style by the Victorian Public Works Department (PWD), with Samuel C Brittingham as Chief Architect, and Alfred R La Gerche believed to be responsible for the design. The building also derives some significance from its Royal Parade location and its historical association with the System Garden, in what was regarded as a 'biological precinct' in the campus. (Citation, Amendment C396 Heritage Category Conversion Review, Lovell Chen, 2021).
- Botany Building (excluding North Wing) (HO329, Significant, Figure 3). Constructed in 1928-29, to a Victorian Public Works Department (PWD) design, where Edwin Evan Smith was (by now) the Chief Architect. A J Ewart, the first Professor of Botany (from 1906 to 1937), was understood to be 'strongly spoken' on aspects of the design, although Smith has been attributed with the Gothic Revival style in brick with stone dressings. The building is also noted for the later stained-glass window to the stairwell, by

Napier Waller, which depicts botanical themes; and has been described as 'a very fine building of its time'. (*Architecture on Campus*, 2013).

- Walter Boas Building (also known as CSIRO Science Building) (HO334, Significant, Figure 4). Constructed in 1948-53 for the CSIRO Division of Tribophysics, or Material Science, the Walter Boas Building is of historical importance and aesthetic interest. Its historical significance derives from it being occupied by the CSIRO for over thirty years, and as a rare example of a University of Melbourne campus building designed for a Commonwealth organisation. Aesthetically, it has been described as 'retardataire in style', meaning it was designed in an earlier or outdated style, albeit still to harmonise with other campus buildings, including historicist interwar buildings. In this way, it is considered to make a contribution to the overall architectural character of the University. (Allom Lovell, 1999, Walter Boas Building)

As noted, the Peter Hall Building is one of several buildings added to the University of Melbourne campus in the period between the First and Second World Wars, and immediately following. It was designed, as with several other buildings cited above, by the Victorian Public Works Department (PWD) with Samuel C Brittingham as the Chief Architect and Alfred R La Gerche more likely responsible for the design.

The Peter Hall Building is not as significant as the VHR-listed Old Arts building in terms of its architectural qualities, including the latter's last use of all stone construction material on campus, and the landmark tower. However, the design of the subject building, as with the Old Arts, did draw on inspiration from earlier University buildings, including through application of the Gothic Revival style.

The Peter Hall Building is comparable to the Veterinary and Agricultural Sciences Building in terms of its date of construction and historical significance. As with the Peter Hall Building, the Veterinary and Agricultural Sciences Building is significant as the first purpose-built academic teaching facility for the study of a discipline which had been taught on campus for some time prior (in this case agriculture). It was similarly built under the auspices of an influential University figure in Dr A E V Richardson. The Veterinary and Agricultural Sciences Building is also located on the periphery of the campus, facing out to Royal Parade on the west of the University, whereby the Peter Hall Building is prominent to Monash Road, near one of the eastern entries to the University.

The Botany Building is more significant than the Peter Hall Building in terms of its architecture. However, it again shares a history of being constructed some years after the teaching of botany commenced at the University, and under the influence of another influential figure, A J Ewart, the Professor of Botany. His involvement in aspects of the design also has echoes of Richard Berry's influence on the design of the subject building.

While the Walter Boas Building is later than the Peter Hall Building, it is another University Building which is not renowned for its architecture - which has been described as 'retardataire in style' - but more so for its history. The latter significance derives from its association with the CSIRO for over thirty years, and as a rare example of a campus building designed for a Commonwealth organisation. As with the Peter Hall Building, it also has some recognition for its attempt at harmonizing architecturally with other campus buildings.

The association between the Peter Hall Building and Richard Berry is also an important distinction for the subject building. A divisive figure, with contentious views on anatomy and race, Berry was nevertheless a prominent academic and an influential University figure in the early decades of the twentieth century. The later association with renowned mathematician and statistician Peter Hall, after who the building was eventually named, is also of note.

ASSESSMENT AGAINST CRITERIA

✓ **CRITERION A**
Importance to the course or pattern of our cultural or natural history (historical significance).

CRITERION B
Possession of uncommon rare or endangered aspects of our cultural or natural history (rarity).

CRITERION C
Potential to yield information that will contribute to an understanding of our cultural or natural history (research potential).

CRITERION D
Importance in demonstrating the principal characteristics of a class of cultural or natural places or environments (representativeness).

CRITERION E
Importance of exhibiting particular aesthetic characteristics (aesthetic significance).

CRITERION F
Importance in demonstrating a high degree of creative or technical achievement at a particular period (technical significance)

CRITERION G
Strong or special association with a particular community or cultural group for social, cultural or spiritual reasons. This includes the significance of a place to Indigenous peoples as part of their continuing and developing cultural traditions (social significance).

✓ **CRITERION H**
Special association with the life or works of a person, or group of persons, of importance in our history (associative significance).

City of Melbourne Heritage Review

Allom Lovell and Associates, 2000

STATEMENT OF SIGNIFICANCE

SITE NAME	Peter Hall Building (formerly known as the Richard Berry Building)
STREET ADDRESS	Part of University of Melbourne, part 156-290 Grattan Street, Parkville

What is significant?

The Peter Hall Building (part of University of Melbourne, part 156-290 Grattan Street, Parkville), constructed in 1919-23, which originally housed the School of Anatomy and which is sited on Monash Road, within the University of Melbourne campus.

Elements which contribute to the significance of the place include (but are not limited to):

- The prominence of the building to Monash Road, near one of the eastern entries to the University, where it has been a large and recognizably dominant campus building for many decades.
- The overall fabric and form of the building, to the extent that it helps demonstrate the subject building as one of the University's Gothic Revival academic buildings.

How it is significant?

The Peter Hall Building (part of University of Melbourne, part 156-290 Grattan Street, Parkville), of 1919-23, which originally housed the School of Anatomy at the University of Melbourne, is of local historical and associative significance to the City of Melbourne.

Why it is significant?

The Peter Hall Building (part of University of Melbourne, part 156-290 Grattan Street, Parkville) is of historical significance. The building was constructed in 1919-23 to house the School of Anatomy, under the auspices of the first Professor of Anatomy, Richard Berry, and was for a long time known as the Richard Berry Building. It is significant as the focus of anatomy teaching at the University for many decades. The design of the building was undertaken by the Victorian Public Works Department (PWD), with Samuel C Brittingham being the Chief Architect at the time, although Alfred R La Gerche (also of the PWD) is attributed with the design, with one of the earliest drawings of the building, from 1919, having his initials. Richard Berry, who helped plan the building, had arrived in Melbourne in 1905 and proved to be a divisive figure due to his views on anatomy and race. His contentious views, and reputation, eventually led to a name change for the building. Peter Hall was a renowned mathematician and statistician, and in the period after anatomy left the building, he undertook much internationally recognised work there. The building is also significant for this work and for the teaching of mathematics and statistics.

The Peter Hall Building is also significant for its association with the highly controversial and contentious figure of Richard Berry. While he came to be reviled, Berry was in his time a prominent academic and an influential figure in

the now discredited eugenics movement, including the Eugenics Society of Victoria. Berry also, unusually, had a significant hand in the planning of the Anatomy Building, which in turn was known as 'Berry's Folly'.

SITE HISTORY

The Veterinary and Agricultural Sciences Building at the University of Melbourne was constructed in 1920-3 (*Architecture on Campus*, 2013), although the teaching of agriculture at the University commenced in the early 1900s, with Thomas Cherry the first professor. However, in this early period, the course was underfunded and after Cherry's term expired in 1916, the course declined, before being revived in the 1920s. Notwithstanding the interruption of World War I, the revival was supported by the appointment of Dr A E V Richardson, the Superintendent of Agriculture in the Victorian Department of Agriculture, to the University in 1917 (*Architecture on Campus*, 2013); and the introduction of the *Agricultural Education Act* of 1919 (Allom Lovell, 1999, Faculty of Agriculture, Forestry & Horticulture).

Funding (some £7,000) was provided by the Government in this period for construction of a new purpose-built faculty building at the University, being the subject building in its original form (Allom Lovell, 1999, Faculty of Agriculture, Forestry & Horticulture).

Samuel M Wadham was the next, full-time professor, and from this period the faculty rapidly developed, with enrolments increasing dramatically after World War II. The growth in the course resulted in additions to the original building in the mid-1950s, 1962 and mid-1970s (*Architecture on Campus*, 2013), although the 1970s addition to the north of the original building has recently been redeveloped. Later developments also included the addition of the School of Forestry to the Faculty of Agriculture, having previously been in the Faculty of Science. In 1995, the school which was housed in the subject building changed its name to the Faculty of Agriculture, Forestry and Horticulture (Allom Lovell, 1999, Faculty of Agriculture, Forestry & Horticulture). In 2013 the building was known as the Institute of Land and Food Resources (*Architecture on Campus*, 2013). The building currently houses the Faculty of Veterinary and Agricultural Sciences (<https://fvas.unimelb.edu.au/>).

In terms of the design of the building, this was undertaken by the Victorian Public Works Department (PWD), following a decision by the University in the immediate pre-WWI period to break with the tradition (temporarily at least) of using private architectural practices for the major campus buildings. Samuel C Brittingham was the Chief Architect of the PWD at this time, and it was during his term that the subject building was designed, although it has been suggested that the specific architect was Alfred R La Gerche (*Architecture on Campus*, 2013).

The Royal Parade location of the subject building is associated with the System Garden, in the north-western part of the University campus. This was regarded as a 'biological precinct' where the School of Botany (now the School of Bio Sciences) was also co-located with the new Agriculture Building. When constructed in the early 1920s, the subject building was located on part of, and effectively intruded into, the western part of the Garden, and was the first academic building to be associated with the Garden (*Architecture on Campus*, 2013); while the Botany Building, of 1929, was similarly constructed on the eastern side of the Garden, opposite the Agriculture Building (<https://sustainablecampus.unimelb.edu.au/the-system-garden/the-garden/history>).

The restrained neo-Georgian style of the red brick building has been described as 'unique' in the University (*Architecture on Campus*, 2013).

While not documented here, the subject building is also likely to have been valued by successive generations of agriculture academics and students.

SITE DESCRIPTION

The Veterinary and Agricultural Sciences Building is located on the east side of Royal Parade, south of Tin Alley. The building comprises the original early 1920s component, together with red brick additions of the 1950s and 1962 (the 1970s addition has been redeveloped).

It is a double-storey face red brick Georgian Revival, or neo-Georgian, building with a hipped terracotta tiled roof, and raised brick bands as details to the corners. The original portion, which is located at the north end of the current building, has (or had) a symmetrical façade with repetitive fenestration of multi-paned double-hung timber-framed sash windows. Additions, which generally reproduce the style and materials of the original building, have been made to the south, extending the building on its original line plus adding (in the 1950s) a projecting bay on the west side which has an adjoining elevated entry porch (a later entry) with a flat concrete roof and a multi-paned glazed screen; and (in the 1960s) a further addition to the south which extends to the east. The additions have impacted on the original symmetrical design and form of the building.

COMPARATIVE ANALYSIS

The foundation stone for the University of Melbourne was laid in July 1854, and the first faculty buildings, now known as the Law School Building and Old Quadrangle, were constructed in 1854-1857. These initiated what was effectively a cluster of buildings set in a large park on the fringe of a rapidly evolving Gold Rush era city (<https://about.unimelb.edu.au/our-history>). The University building program continued apace from this time, through to the present day, although in the last decade of the nineteenth, and first decade of the twentieth century, campus construction activity declined, largely due to the 1890s economic depression. The First World War in the second decade of the twentieth century also impacted on development (*Architecture on Campus*, 2013).

However, the University moved on from these turbulent years, aided also by Government grants for campus improvements. New buildings were constructed in the period leading up to the Second World War and immediately following, as per the subject Veterinary and Agricultural Sciences Building, and others including the following:

- Old Arts Building (Victorian Heritage Register, VHR 924, Figure 1). Constructed in 1919-1924, designed by Samuel C Brittingham with the involvement of Alfred R La Gerche. This was the last all stone building constructed on campus; and was located adjacent to the Old Quadrangle in the central core of the campus. Architecturally, it is in the Tudor-Gothic style and is distinguished by a prominent five-level castellated and turreted clock tower which is an important landmark in the oldest precinct on campus. The building design draws inspiration from the original University buildings and forms a coherent visual unit with them. Historically, it symbolises the historical association between the Arts Faculty and the Law Building and Quadrangle, whereby the latter is the oldest building on campus where arts subjects were originally taught. (<https://vhd.heritagecouncil.vic.gov.au/places/916>).
- Peter Hall Building (HO820, Significant, Figure 2). Constructed in 1919-23 to house the School of Anatomy and designed by the Victorian Public Works Department (PWD) with Samuel C Brittingham as Chief Architect and Alfred R La Gerche largely attributed with the design. The Peter Hall Building is of historical significance. It was the focus of anatomy teaching at the University for many decades, albeit some years after anatomy was first taught on campus. It was originally known as the Richard Berry Building, after the first Professor of Anatomy, and is significant for its association in the first decades of the twentieth century with this influential and divisive University figure. Berry's reputation eventually led to a name change for the building, after Peter Hall who undertook much internationally recognised work there in the fields of mathematics and statistics. The large building is also noted for its prominence to Monash Road near one of the eastern entries to the University. The Gothic Revival design, while not successful here, helped carry on the traditional approach to many of the University's older buildings. (Citation, Amendment C396 Heritage Category Conversion Review, Lovell Chen, 2021).
- Botany Building (excluding North Wing) (HO329, Significant, Figure 3). Constructed in 1928-29, to a Victorian Public Works Department (PWD) design, where Edwin Evan Smith was (by now) the Chief Architect. A J Ewart, the first Professor of Botany (from 1906 to 1937), was understood to be 'strongly spoken' on aspects of the design, although Smith has been attributed with the Gothic Revival style in brick with stone dressings. The building is also noted for the later stained-glass window to the stairwell, by

Napier Waller, which depicts botanical themes; and has been described as 'a very fine building of its time'. (*Architecture on Campus*, 2013).

- Walter Boas Building (also known as CSIRO Science Building) (HO334, Significant, Figure 4). Constructed in 1948-53 for the CSIRO Division of Tribophysics, or Material Science, the Walter Boas Building is of historical importance and aesthetic interest. Its historical significance derives from it being occupied by the CSIRO for over thirty years, and as a rare example of a University of Melbourne campus building designed for a Commonwealth organisation. Aesthetically, it has been described as 'retardataire in style', meaning it was designed in an earlier or outdated style, albeit still to harmonise with other campus buildings, including historicist interwar buildings. In this way, it is considered to make a contribution to the overall architectural character of the University. (Allom Lovell, 1999, Walter Boas Building)

As noted, the Veterinary and Agricultural Sciences Building is one of several buildings added to the University of Melbourne campus in the period between the First and Second World Wars, and immediately following. It was designed, as with several other buildings cited above, by the Victorian Public Works Department (PWD) with Samuel C Brittingham as the Chief Architect and Alfred R La Gerche more likely responsible for the design.

The Veterinary and Agricultural Sciences Building is not as significant as the VHR-listed Old Arts building in terms of its architectural qualities, including the latter's last use of all stone construction material on campus, and the landmark tower. The design of the subject building, in a neo-Georgian red brick style, is restrained, and additions have also impacted on the original symmetrical form and arrangement of the building.

The Veterinary and Agricultural Sciences Building is comparable to the Peter Hall Building in terms of its date of construction and historical significance. The latter includes the Peter Hall Building being significant as the first purpose-built academic teaching facility for the study of a discipline (in this case anatomy) which had been taught on campus for some time prior. The Peter Hall Building was also built under the auspices of an influential University figure in Richard Berry, albeit one who came to polarise opinions. The Peter Hall Building is additionally located on the eastern periphery of the campus and prominent to Monash Road, near one of the eastern entries; while the Veterinary and Agricultural Sciences Building is on the western edge of the campus, facing out to Royal Parade and maintaining an association with the historical System Garden. It was in fact the first academic building to be associated with the Garden, in what was regarded as a 'biological precinct' in the campus.

The Botany Building is more significant than the Veterinary and Agricultural Sciences Building in terms of its architecture. However, it again shares a history of being constructed some years after the teaching of botany commenced at the University, and under of the influence of another influential figure, A J Ewart, the Professor of Botany. This building also shares an association with the Veterinary and Agricultural Sciences Building in terms of being located near the System Garden, on the eastern side of the Garden.

While the Walter Boas Building is later than the the Veterinary and Agricultural Sciences Building, it is another University building which is not renowned for its architecture - which has been described as 'retardataire in style' - but more so for its history. The latter significance derives from its association with the CSIRO for over thirty years, and as a rare example of a campus building designed for a Commonwealth organisation.

ASSESSMENT AGAINST CRITERIA

✓ **CRITERION A**
Importance to the course or pattern of our cultural or natural history (historical significance).

CRITERION B
Possession of uncommon rare or endangered aspects of our cultural or natural history (rarity).

CRITERION C
Potential to yield information that will contribute to an understanding of our cultural or natural history (research potential).

CRITERION D
Importance in demonstrating the principal characteristics of a class of cultural or natural places or environments (representativeness).

CRITERION E
Importance of exhibiting particular aesthetic characteristics (aesthetic significance).

CRITERION F
Importance in demonstrating a high degree of creative or technical achievement at a particular period (technical significance)

CRITERION G
Strong or special association with a particular community or cultural group for social, cultural or spiritual reasons. This includes the significance of a place to Indigenous peoples as part of their continuing and developing cultural traditions (social significance).

CRITERION H
Special association with the life or works of a person, or group of persons, of importance in our history (associative significance).

RECOMMENDATIONS

Recommended for retention in the Schedule to the Heritage Overlay of the Melbourne Planning Scheme as an Individual Heritage Place; that mapping be updated to reflect the building footprint; and that the name of the building be updated in the Schedule to reflect the current name: Veterinary and Agricultural Sciences Building, The University of Melbourne.

Extent of Overlay

Figure 5 Detail of 5HO map with the subject site indicated. HO872 shown as a circle.
 (Source: Melbourne Planning Scheme)

Recommendations for the Schedule to the Heritage Overlay (Clause 43.01) in the Melbourne Planning Scheme:

MELBOURNE PLANNING SCHEME

EXTERNAL PAINT CONTROLS	Yes
INTERNAL ALTERATION CONTROLS	No
TREE CONTROLS	No
OUTBUILDINGS OR FENCES (Which are not exempt under Clause 43.01-3)	No
TO BE INCLUDED ON THE VICTORIAN HERITAGE REGISTER	No
PROHIBITED USES MAY BE PERMITTED	No
ABORIGINAL HERITAGE PLACE	No

STATEMENT OF SIGNIFICANCE

SITE NAME	Veterinary and Agricultural Sciences Building
STREET ADDRESS	Part of University of Melbourne, part 156-290 Grattan Street, Parkville

Aerial image of the subject building; the red arrow indicates the original 1920s building; the section below was added in the 1950s (blue arrow), while below this again the building was extended in the 1960s (green arrow).

Source (Nearmap, November 2020)

What is significant?

The Veterinary and Agricultural Sciences Building (part of University of Melbourne, part 156-290 Grattan Street, Parkville), which is located on the east side of Royal Parade, south of Tin Alley, and was constructed in 1920-3 with later additions.

Elements which contribute to the significance of the place include (but are not limited to):

- The external fabric and form of the original 1920s component of the building.

The later additions of the 1950s and 1960s are of interest, as they represent both expansion and diversification in the Faculty of Agriculture, and its associated courses. However, as additions, they impacted on the original symmetry and form of the building, and as such are not valued for their design or architecture.

How it is significant?

The Veterinary and Agricultural Sciences Building (part of University of Melbourne, part 156-290 Grattan Street, Parkville) is of local historical significance to the City of Melbourne.

Why it is significant?

The Veterinary and Agricultural Sciences Building (part of University of Melbourne, part 156-290 Grattan Street, Parkville) is of historical significance, as the first purpose-built academic teaching facility for the study of agriculture at the University of Melbourne. The building was constructed in 1920-3, some years after agriculture was first taught at the University, albeit the course was initially underfunded and poorly supported. The revival of the course, near the end of World War I, followed the appointment of Dr A E V Richardson to the University in 1917, at that time the Superintendent of Agriculture in the Victorian Department of Agriculture; and the introduction of the *Agricultural Education Act* of 1919. Some £7,000 was provided by Government to construct the subject building, under the auspices of the Victorian Public Works Department (PWD) architects. Samuel C Brittingham was Chief Architect of the PWD at the time, although Alfred R La Gerche is regarded as responsible for the design of the building, in its original restrained neo-Georgian red brick style.

The Royal Parade location of the subject building is also part of its significance, due to the historical association with the System Garden, in what was then regarded as a 'biological precinct' in the campus. When constructed in the early 1920s, the Agriculture Building was the first academic building to be associated with the Garden, and was located on part of, and effectively intruded into, the western part of the Garden. The School of Botany was also co-located with the Agriculture Building, on the eastern side of the Garden.

SURVEY DATE: November, December 2020		SURVEY BY: Lovell Chen	
EXISTING HERITAGE OVERLAY	Yes (HO868, HO271 and HO269)		
PLACE TYPE	Heritage Precinct	PROPOSED CATEGORY	See description below
		FORMER GRADE	
DESIGNER / ARCHITECT / ARTIST:	Not known	BUILDER:	Various
DEVELOPMENT PERIOD:	Federation/Edwardian Period (1902-c. 1918)	DATE OF CREATION / MAJOR CONSTRUCTION:	c. 1906-c. 1915

SITE HISTORY

The group of houses on the south-eastern side of Westbourne Road, Kensington were constructed in the Edwardian period.

In 1872, 54 building allotments on Kensington hill, which incorporated Westbourne, Belmont and Bayswater roads were auctioned (*The Argus*, 1 August 1872: 2). Newspaper advertisements indicate that some early development of timber cottages had taken place by the late 1870s and into the early 1880s, in some cases related to the area's proximity to Flemington Racecourse (*The Argus*, 27 July 1878: 3, 23 April 1880: 2; *Age*, 12 March 1879: 4).

This development in the suburb in the 1880s, and through to the late nineteenth century, represented the first major phase or significant period of growth in Kensington. However, the next major phase of development occurred from the early 1900s, and it is with this phase that the subject properties in Westbourne Road are associated (*Heritage Precincts Statement of Significance*, February 2020).

At the turn of the century, development on Westbourne Road was limited to the block between Epsom and Belmont roads, with the Melbourne and Metropolitan Board of Works plan of the area showing vacant land south-west of Belmont Road (MMBW, no. 737, 1901). It appears that soon after, land south-west of Belmont Road was opened up for development and a number of new houses were constructed in the next decade, with numerous notices of intent to build lodged with the City of Melbourne. There is some lack of clarity in the historical records about the exact date of construction of some of these houses. The earliest of these weatherboard houses appears to be 59 Westbourne Road, built by J W Gilham for owner Thomas McGaw (or McGore) in c. 1906 (CoM, notice of intent to build, 3 January 1906). The cottage at 69 Westbourne Road was also constructed by J W Gilham, for William Roe in c. 1907 (CoM, notice of intent to build, 1 May 1907). At the north-eastern end of the group, the weatherboard house at 47 Westbourne Road was built for Stephen Fanner, but an F Fanner, presumably a relation, was listed as the builder (CoM, notice of intent to build, 25 April 1914). The double-fronted house at 53 Westbourne Road was possibly constructed prior to 1906, and appears in the municipal rate books of that year as a four-roomed house owned by Robert Merritt, valued at £14 (CoM rate books, Hopetoun Ward, 1906, rate no. 2514, PROV). By 1915, all the houses in this group had been constructed, aside from no. 47 for which, as noted above, the notice on intent to build was lodged in 1914. They were variously described as wood houses of between three and five rooms (CoM rate books, Hopetoun Ward, 1915, rate nos. 3520, 3523-3529, PROV).

SITE DESCRIPTION

The precinct includes the following properties:

- 47, 49, 51, 53, 55, 59 and 69 Westbourne Road.

Nos 47-55 are contiguous, while nos 59 and 69 are separated from nos 47-55 by properties which are not included in HO868.

All the properties included in HO868 are contributory to the precinct.

HO868 is located on the south-eastern side of Westbourne Road, with properties elevated above those on the north side of the road. The rear boundaries of the properties adjoin a stone-pitched laneway.

The precinct is residential in character and includes freestanding weatherboard dwellings of Edwardian design constructed in the period c. 1906 to c. 1915. The dwellings are all single-fronted and modestly sized, save for 53 Westbourne Road which is double-fronted.

The dwellings typically have limited setbacks to the street, with small gardens in the front setbacks. They also have narrow side setbacks including that which provide pedestrian access to the sides or rears of the properties.

Additions and modifications have variously been made, with the additions mostly to the rears of the dwellings. Visible modifications to the frontages are generally limited but include the removal and/or replacement of original fabric such as friezes and other details to verandahs, and some window replacements. Several upper level additions are visible from Westbourne Road, including to 51, 55 and 59 Westbourne Road, but the setbacks to the additions ensure that they read as recessive and maintain the generally consistent single-storey streetscape scale.

Characteristics of dwellings in the precinct include:

- Simply-detailed timber posted verandahs to the fronts of dwellings with skillion or bullnosed roof forms; and timber balustrades, floors and steps up to the verandahs. The original verandah friezes have mostly been removed, and in some cases there are sympathetic replacements.
- Hipped, with some gabled, roof forms, with corrugated steel cladding to roofs; bracketed eaves; and brick chimneys. The gable ends are half-timbered, with roughcast render.
- Elevated entrances with front doors accessed via the verandahs; some doors have fanlights and sidelights; some doors are recessed in short verandah returns.
- Original window forms including timber-framed double-hung single sash windows; windows with sidelights; and tripartite window forms.
- Weatherboard cladding which is block-fronted and/or horizontally laid timbers.
- Non-original but generally sympathetic medium height fences including timber picket fences and 'hairpin' wire fences.
- No visible off-street parking, save for the double-fronted dwelling at 53 Westbourne Road which has a side driveway.

Figure 1 View of nos 47, 49 and 51 Westbourne Road, Kensington (left to right)

COMPARATIVE ANALYSIS

Land in Kensington was sold from the 1850s, however, significant subdivision, development and population growth did not occur until the 1880s. In this period, and in the early decades of the twentieth century as per the subject precinct dwellings in this area of Westbourne Road, the area underwent enormous change, with residences, commercial and industrial buildings, railway station (1888, 1905) and the town hall (1901) constructed. The suburb is mainly residential, with commercial/retail premises concentrated on Macaulay Road and Bellair Street. Houses from the late nineteenth and early twentieth centuries, are typical of the built form of Kensington in this period, including rows of terrace houses, semi-detached pairs, detached weatherboard villas, and some more substantial residences. This concentrated period of development has resulted in some streetscapes in Kensington having largely homogenous built form, with residences exhibiting very similar design characteristics.

The subject precinct, in Westbourne Road, is one of several streets in the suburb that includes a group of modest cottages from the early twentieth century.

- Barnett Street South Residential Precinct (HO1163, Figure 4): A residential precinct taking in parts of Barnett, Roberston, Collett and Lambeth streets. It incorporates Victorian and Edwardian timber and brick cottages, including a group of Edwardian timber houses at 58-62 Barnett Street. The precinct is historically and aesthetically significant for its representation of the typical nineteenth century housing type, well-preserved in this area.
- Pridham Street North Residential Precinct (HO1168, Figure 5): A streetscape substantially built up in the Victorian and Edwardian period, with contributory and significant buildings, although is mainly comprised of intact contributory Victorian and Edwardian-era houses. The streetscape is historically and aesthetically significant and contributes to the overall heritage character of Kensington.
- Parson Street West Precinct (HO1167, Figure 6): A residential precinct, with streetscapes and individual examples of painted weatherboard Edwardian-era houses with some interwar development and large commercial stables building. Significant as a representation of two key periods of housing development, with good examples of the architectural form, detailing and styling of these periods.
- Kensington Precinct (HO9, Figure 7): Within the extensive Kensington Precinct are a number of streetscapes which include groups of Edwardian-era cottages which demonstrate that important period of development in the suburb, including parts of Hardiman and Hopetoun streets.

The subject precinct, which comprises seven Edwardian-era residences, demonstrates one of the main periods of development in the suburb. These buildings are typically graded contributory, and it is in groups or streetscapes such as this where their heritage significance is enhanced. As with the above examples, the residences in Westbourne Road are generally consistent in their presentation and appearance, and the precinct demonstrates the typical characteristics of the period, including weatherboard construction, modest size and scale, elevated verandahs and entries, and use of Edwardian details. The precinct presents as a cohesive group of residences constructed in a limited date range in early twentieth century; and compares well with other such streetscapes in the suburb.

ASSESSMENT AGAINST CRITERIA

✓ **CRITERION A**
Importance to the course or pattern of our cultural or natural history (historical significance).

CRITERION B
Possession of uncommon rare or endangered aspects of our cultural or natural history (rarity).

CRITERION C
Potential to yield information that will contribute to an understanding of our cultural or natural history (research potential).

✓ **CRITERION D**
Importance in demonstrating the principal characteristics of a class of cultural or natural places or environments (representativeness).

CRITERION E
Importance of exhibiting particular aesthetic characteristics (aesthetic significance).

CRITERION F
Importance in demonstrating a high degree of creative or technical achievement at a particular period (technical significance)

CRITERION G
Strong or special association with a particular community or cultural group for social, cultural or spiritual reasons. This includes the significance of a place to Indigenous peoples as part of their continuing and developing cultural traditions (social significance).

CRITERION H
Special association with the life or works of a person, or group of persons, of importance in our history (associative significance).

RECOMMENDATIONS

Recommended for retention in the Schedule to the Heritage Overlay of the Melbourne Planning Scheme, with HO271 and HO269 incorporated into the existing HO868, and update to mapping as relevant.

Recommend that the description of HO868 in the Schedule to the Heritage Overlay be updated to reflect the inclusion of additional properties as a precinct.

Extent of Overlay

STATEMENT OF SIGNIFICANCE

SITE NAME 47-55, 59, 69 Westbourne Road, Kensington

STREET ADDRESS 47-55, 59, 69 Westbourne Road, Kensington

What is significant?

The residential precinct in Westbourne Road, Kensington, comprising the properties at 47, 49, 51, 53, 55, 59 and 69 Westbourne Road, which are of Edwardian design and were constructed between c. 1906 and c. 1915. The properties include freestanding weatherboard dwellings which are modestly sized and mostly single-fronted, save for 53 Westbourne Road. Elements that contribute to the significance of the precinct include (but are not limited to):

- Simply-detailed timber posted verandahs to the fronts of dwellings with skillion or bullnosed roof forms; and timber balustrades, floors and steps up to the verandahs. The original verandah friezes have mostly been removed, and in some cases there are sympathetic replacements.
- Hipped, with some gabled, roof forms, with corrugated steel cladding to roofs; bracketed eaves; and brick chimneys. The gable ends are half-timbered, with roughcast render.
- Elevated entrances with front doors accessed via the verandahs; some doors have fanlights and sidelights; some doors are recessed in short verandah returns.
- Original window forms including timber-framed double-hung single sash windows; windows with sidelights; and tripartite window forms.
- Weatherboard cladding which is block-fronted and/or horizontally laid timbers.
- Non-original but generally sympathetic medium height fences including timber picket fences and 'hairpin' wire fences.
- No visible off-street parking, save for the double-fronted dwelling at 53 Westbourne Road which has a side driveway.

How it is significant?

The residential precinct in Westbourne Road, Kensington, comprising the properties at 47, 49, 51, 53, 55, 59 and 69 Westbourne Road, is of local historical and representative significance to the City of Melbourne.

Why it is significant?

The residential precinct in Westbourne Road, Kensington, is of historical significance. The dwellings in the precinct date from c. 1906 to c. 1915, which is a relatively concentrated period and is consistent with other contemporaneous development in the suburb. This development of the early 1900s is also associated with the second major historical phase of development in Kensington, following the initial period of growth of the 1880s through to the late nineteenth century.

The residential precinct in Westbourne Road, Kensington, is also of representative heritage value. The dwellings of the precinct are generally typical of many similar houses in Kensington, which were designed and built in the Edwardian period. Shared development and building characteristics include weatherboard construction, modest size and scale, elevated verandahs and entries, and an often sparing use of Edwardian details. The streetscapes containing these dwellings, as per the subject area of Westbourne Road, are also often consistent in their presentation and appearance. This includes the single-storey scale to the street, highly visible hipped and gabled roofs with chimneys, small front gardens, and a lack of visible off-street vehicle accommodation. Medium height fences, while not often original, also allow for views of the property frontages. These typical, but distinguishing and valued characteristics, are all in evidence in the subject precinct.

SUMMARY

The former manufacturing building at 29-31 Rathdowne Street, Carlton, constructed in 1919 as a factory for George Khyat's Continental Suspender Manufacturing Company, is of historical and aesthetic significance. It is distinguished by its tall two-storey form, red brick and render materiality, and articulated bays to the façade. The lack of setback additionally distinguishes the property in the Rathdowne Street context, drawing attention to what is an atypical factory building in an otherwise mainly residential street.

HISTORICAL CONTEXT

Industry in Carlton has more typically been located in the far west of the suburb. In the interwar period, nineteenth century residential areas to the west of Barry and Berkeley streets were redeveloped with larger commercial and warehouse buildings.¹ These areas had been typically occupied by modest residences and small timber houses fronting rear laneways, some of which had been identified through the work of the Slum Abolition Board. The increasingly large Carlton Brewery complex, in the block bound by Swanston, Victoria, Bouverie and Queensberry streets, is also unusual in the context of the suburb, developing from the mid-nineteenth century. Within the remainder of the suburb, however, large-scale industrial development in the nineteenth century was relatively rare. Carlton's rapid expansion as dormitory suburb in the 1860s and 1870s, the number of reserves for public institutions and gardens, its early fine grain development and adherence to the Melbourne Building Act from the early 1870s appear to have discouraged the development of such complexes to the east of Swanston Street. In many parts of the suburb there was simply insufficient vacant land or available properties on which to establish or develop substantial industrial sites. Typical small-scale industry in the suburb included small workshops, bakeries and cordial factories, generally located to the rear of residential terrace rows, and accessed from rights of way. In the twentieth century, there were some instances of small scale industrial infill as well as larger complexes in the southern part of the suburb, including the development by textile manufacturers Davies Coop between Cardigan and Lygon Streets at the southern end of the suburb.

SITE HISTORY

The subject building was constructed in 1919 as a factory for George Khyat's Continental Suspender Manufacturing Company.

The site, opposite the Carlton Gardens, is in the earliest section of the suburb, shown on a plan surveyed by Charles Laing in 1852.² It sits within Crown allotment 3 of Section 19 of Carlton in Jika Jika, which was purchased in 1853 by A H Knight.³ By the end of the nineteenth century, two small timber residences had been constructed on the site, occupied by James Abadee (no. 29) and Jane Weston (no. 31).⁴ The houses can be seen on the Melbourne and Metropolitan Board of Works (MMBW) detail plan of 1896, occupying the eastern end of the site (Figure 3).

In 1919, a building application was made to the City of Melbourne for the construction of a factory, with the works valued at £1840.⁵ No architect has been identified for the building. The factory was owned by Michael Khyat and occupied by his brother George Khyat.⁶ The municipal rate books for 1920 list the brick factory, which was valued at a net annual value (NAV) of £90.⁷ The Khyat family operated Continental Suspender Manufacturing from the premises, which was shared with the Vesta Knitting Mills by 1925.⁸

The various members of the Khyat family, originally from Lebanon and Syria, operated textile and clothing related businesses and were one of the more prominent names in this industry in Melbourne at the time. Their businesses included William Khyat's leather goods operation in Exhibition Street; James Khyat, a fancy good merchant at Queen Victoria Market; and Habib Khyat's whitework embroidery business in Flinders Lane. Habib Khyat was the brother of George and Michael Khyat. After his death in 1919, his firm continued and established premises at 68 Lonsdale Street, in a three-storey factory building bearing the name 'Khyat & Co'.⁹ George Khyat had lived in Carlton from as early as 1915.¹⁰

The factory gained notoriety in the late 1920s, with the shooting murder of the building's nightwatchman, Patrick Fitzgerald, by an intruder, which followed an earlier break in to the factory.¹¹ Such was the attention, and the fact that no one was arrested for the crime, that over 20 years later the storey of the event was the subject of an extensive retelling in the *Argus*.¹² George Khyat died in 1927, and his brother Michael passed away in 1953.¹³ The factory can be seen in an aerial photograph of 1945 (Figure 4), occupying the eastern half of the site, with access from the lane at the rear (Elliott Place). An oblique aerial of 1948 shows the parapet and spandrel panel in a lighter shade than the red brickwork (Figure 5).

While the factory was occupied by the Continental Suspender Company into the 1930s, by the mid-1940s, it was listed in the *Sands & McDougall* directory as the premises of Gladys Khyat, frock manufacturer. The property remained under the ownership of George Khyat's estate. The rate books of 1940 indicate that Gladys Khyat occupied the first floor of the building with the apron making operations of Michael Haddad occupying the ground floor.¹⁴ The factory was acquired by the Drumbell family by 1948, and by 1951, the Khyat's occupation of the site had ended, with the factory taken over by Gaiety Toys Pty Ltd, and who occupied the site along with Hytex Rubber and the Haddad family.¹⁵ In 1958, brick additions valued at £10,000 were made to the factory, with further works undertaken the following year, including a fence to the right-of-way, and internal alterations.¹⁶ The factory was occupied by Precision Watches in 1970 and G E C Telecommunications in 1974.¹⁷ By 1988, the factory usage had ceased, and the extensions to the building to the west were constructed, valued at \$188,000.¹⁸ It is possible that it was during this phase of works that the windows were altered, including removal of glazing and the provision of an open area at first floor level behind the facade. The building continues to be used as an office.

Figure 5 Oblique aerial photograph of west side of Rathdowne Street, 1948. Subject site indicated
Source: Airspy collection, H91.160/371, State Library of Victoria

SITE DESCRIPTION

The building at 29-31 Rathdowne Street was constructed in 1919 (Figure 6). It is a double-storey brick factory building constructed to the street boundary. The facade is of red face brick articulated as three bays by pilasters rising through the full height to extend above a tall, panelled and rendered parapet. Small panels of faience are present below the parapet. Fenestration is simple and symmetrical providing narrow openings in the side bays and a larger opening in the central bay. At ground floor level the original window joinery has been replaced. At first floor the window joinery has been removed to create a recessed verandah area behind the facade. The original component of the building has a long hipped roof, with limited visibility from Rathdowne Street. A later wing extends to the west, to Elliott Place, and is assumed to be the 'brick additions' made in 1958 which were valued at £10,000.

The building, save for the removal and replacement of original window joinery and overpainting of render, is otherwise intact.

Figure 6 Recent aerial photograph of the subject site
Nearmap, February 2019

Figure 7 29-31 Rathdowne Street, Carlton façade (at left) viewed from the Exhibition Gardens (at right)

INTEGRITY

The building is intact apart from the removal and replacement of original window joinery and overpainting of render.

COMPARATIVE ANALYSIS

The building at 29-31 Rathdowne Street, Carlton, reflects the development of small scale manufacturing and light industry in Carlton in the early twentieth century and interwar period. While Carlton is mainly residential in character, with commercial streets and historic shops and hotels scattered throughout, buildings of this type were constructed in the suburb, principally in the early decades of the twentieth century.

This trend was one of buildings being constructed on generally limited footprints, often to main streets, but also in smaller streets and to rear lanes where they were built at the back of properties or on allotments created out of Carlton's often irregular subdivision patterns. Owners of these operations may have resided in adjoining or nearby dwellings, and workers also often lived nearby in the suburb.

This pattern of living and working in proximity was repeated throughout Melbourne's inner suburbs, and can be found in places such as Collingwood and Richmond, where industry and workers' cottages were often juxtaposed, although in Carlton the manufacturing and industrial developments tended to be of a smaller scale than the latter suburbs. Proximity to the Yarra River supported the larger and earlier industries of Collingwood and Richmond, many of which were established from the mid-nineteenth century and were often noxious in nature.

The construction of small manufacturing or processing buildings in Carlton was reasonably commonplace with examples surviving at the locations noted below:

- 145-157 Bouverie Street, Carlton, (HO1, Figure 8)
- 13-23 David Street, Carlton, (HO1, Figure 9)
- 157-161 Pelham Street, Carlton, (HO1, Figure 10)
- 144-146 Queensberry Street, Carlton (HO807, Figure 11)
- 123A Station Street, Carlton, (HO1, Figure 12)
- 49 Owen Street, Carlton, (HO1, Figure 13)

The examples cited above include buildings located on small streets or lanes in Carlton, while the Owen Street example is in a residential street and context. The examples survive in varying levels of intactness and display the typically stripped back or unadorned face brick expression of these utilitarian buildings. Windows also tended to be larger for those constructed at a later date in the twentieth century. Many of Carlton's manufacturing, light industrial and warehouse buildings of the early twentieth century have since been adapted to office, retail or residential use.

Within this context, the subject property is distinguished by its intactness to its original appearance with original panels of brick work and faience unpainted and legible from the street. Despite some alterations to windows, it survives as a handsome example of interwar factory design.

STATEMENT OF SIGNIFICANCE

WHAT IS SIGNIFICANT

The former manufacturing building at 29-31 Rathdowne Street, Carlton, constructed in 1919 for George Khyat's Continental Suspender Manufacturing Company, is significant.

HOW IT IS SIGNIFICANT

The former manufacturing building at 29-31 Rathdowne Street, Carlton, is of historical and aesthetic significance.

WHY IT IS SIGNIFICANT

The former manufacturing building at 29-31 Rathdowne Street, Carlton, is of historical significance (Criterion A). It was constructed in 1919 for George Khyat's Continental Suspender Manufacturing Company. The Khyat family, originally from Lebanon and Syria, were prominent in textile and clothing related businesses in Melbourne at this time, with family members variously running businesses in the city, in leather and fancy

goods, and embroidery operations. The Khyat family remained at the Rathdowne Street premises until 1951, with the building continuing to be used for manufacturing related purposes until, unusually for Carlton, 1988. Since that time the property has been used as offices. The building is also significant for demonstrating the local pattern of small scale manufacturing and light industry, as established in Carlton in the early twentieth century and interwar period. It reflected the trend of comparatively small scale buildings of this type being constructed on generally limited footprints. The subject building also shares the history of many of Carlton's former manufacturing or light industrial buildings in that it has been adapted to a later use.

The building at 29-31 Rathdowne Street, Carlton, is also of aesthetic significance (Criterion E). Distinguishing characteristics include the tall two-storey form, red brick and render materiality, and the articulated bays of the façade, with the red brick pilasters extending up and through the prominent panelled and rendered parapet. The lack of setback additionally distinguishes the property in the Rathdowne Street context, drawing attention to what is an atypical factory building in an otherwise mainly residential street, noted for some grand residential development of the 1880s and later.

RECOMMENDATIONS

Amend the Heritage Overlay mapping and retain as an individual Heritage Overlay.

Proposed Administrative Changes to Ensure Alignment between Amendment C396 and the PPF Translation

Amendment C396 proposes to complete the heritage grading conversion which began through a previous project Amendment C258 (Heritage Policies Review and West Melbourne Heritage). The Planning Policy Framework (PPF) Translation proposes to restructure local planning policy to integrate and align it with State and regional policy.

This document identifies the clauses and incorporated documents in the Melbourne Planning Scheme that are affected by both Amendment C396 and the PPF Translation. It then identifies proposed administrative changes to Amendment C396 that should be made if the PPF Translation is implemented before Amendment C396 is finalised to ensure consistency with the PPF Translation.

Melbourne Planning Scheme at 28 February 2021

The Melbourne Planning Scheme includes the following the clauses and incorporated documents that are affected by both Amendment C396 and the PPF Translation:

- Local heritage policies Clause 22.04 (Heritage Places in the Capital City Zone) and Clause 22.05 (Heritage Places outside the Capital City Zone). The local heritage policies include Part A sections which apply to buildings that have been converted to the Significant, Contributory category system and Part B sections which apply to buildings graded under the previous letter grading system.
- The incorporated document titled *Heritage Places Inventory February 2020 Part A (Amended May 2021)* which includes buildings that have been converted to the Significant, Contributory category system.
- The incorporated document titled *Heritage Places Inventory February 2020 (Amended September 2021) Part B* which includes buildings that are graded under the previous letter grading system.

Amendment C396

On 1 March 2022, Amendment C396 will be presented to the Future Melbourne Committee (FMC) along with a management recommendation that FMC recommends Council adopts the Amendment. The Amendment includes proposing to:

- Delete the Part B sections of the local heritage policies Clause 22.04 (Heritage Places in the Capital City Zone) and Clause 22.05 (Heritage Places outside the Capital City Zone).
- Rename the *Heritage Places Inventory February 2020 Part A (Amended May 2021)*, the *Heritage Places Inventory March 2022* and add the buildings converted through Amendment C396 to this incorporated document. Amendment C396 also includes deleting the definitions from this incorporated document, the intention of this was to streamline the planning scheme as the definitions are currently already included in the local heritage policies Clause 22.04 and Clause 22.05.
- Delete the *Heritage Places Inventory February 2020 (Amended September 2021) Part B*.

PPF Translation

On 30 November 2021, FMC endorsed the proposed Melbourne Planning Scheme Planning Policy Framework (PPF) Translation. The PPF Translation proposes to:

- Replace the local heritage policies Clause 22.04 (Heritage Places in the Capital City Zone) and Clause 22.05 (Heritage Places outside the Capital City Zone) with new local heritage policies that apply across the municipality: Clause 15.03-1L (Heritage) and Clause 15.03-1L-02 (Heritage (Old Grading System)).
- Update the existing incorporated document *Heritage Places Inventory February 2020 Part A (Amended May 2021)* to include the definitions that previously were part of Clause 22.04 and Clause 22.05.

Proposed administrative changes to Amendment C396 to ensure that it is consistent with the PPF Translation

If the PPF Translation is gazetted before Amendment C396 is finalised, the following changes should be made to Amendment C396:

- Delete Clause 15.03-1L-02 (Heritage (Old Grading System)) rather than the Part B sections of Clause 22.04 and Clause 22.05 to reflect the purpose of the amendment which is to delete the heritage policies that apply to buildings graded under the previous letter grading system.
- Not delete the definitions to the *Heritage Places Inventory February 2020 Part A (Amended May 2021)* that are proposed to be added via the PPF Translation and that are proposed to be removed from the local heritage policies via the PPF Translation.
